PART I — FINANCIAL INFORMATION

Statements in this Form 10-Q Quarterly Report may be "forward-looking statements." Forward-looking statements include, but are not limited to, statements that express our intentions, beliefs, expectations, strategies, predictions or any other statements relating to our future activities or other future events or conditions. These statements are based on our current expectations, estimates and projections about our business based, in part, on assumptions made by our management. These assumptions are not guarantees of future performance and involve risks, uncertainties and assumptions that are difficult to predict. Therefore, actual outcomes and results may differ materially from what is expressed or forecasted in the forward-looking statements due to numerous factors, including those risks discussed in this Form 10-Q Quarterly Report, under "Management's Discussion and Analysis of Financial Condition or Plan of Operation" and in other documents which we file with the Securities and Exchange Commission.

In addition, such statements could be affected by risks and uncertainties related to our financial condition, factors that affect our industry, market and customer acceptance, changes in technology, fluctuations in our quarterly results, our ability to continue and manage our growth, liquidity and other capital resource issues, competition, fulfillment of contractual obligations by other parties and general economic conditions. Any forward-looking statements speak only as of the date on which they are made, and we do not undertake any obligation to update any forward-looking statement to reflect events or circumstances after the date of this Form 10-Q Quarterly Report, except as required by law.

Registered Public Company Accountant's Compilation & Review Report

I have compiled and reviewed the accompanying comparative statements of financial position of Amazonas Florestal, Ltd. for the ninth month quarter then ended as of September 30, 2015 herewith the related statements of net income, statements of cash flows, and the accompanying notes to these financial statements, in accordance with International Financial Reporting Standards as adapted Accounting and Review Services applied to a company having assets located in Brazil as required by the Public Company Accounting Oversight Board.

A compilation and review is limited to presenting, in the form of financial statements and the notes thereto, information that is the representation of management. A review consists of quantitative analysis and substantive tests of the financial statements in order to determine whether they are free of any material misstatements, irregularities, errors and omissions. I have not audited the accompanying financial statements and, accordingly, do not express an opinion or any other form of assurance on them.

Except for the irregularity I detected with respect to the third party transactions that were made during the nine month period then ended for 2015 until it can be substantiated that the Company was reimbursed resources during the subsequent periods. See Note 7.

NOTE 1: CORPORATE HISTORY

Amazonas Florestal, Ltd. (formerly Ecologic Systems, Inc.), ("the Company") was originally incorporated on December 18, 2008 under the name of: Ecologic Rentals, Inc. The Company was formed to serve as a vehicle to effect an asset acquisition, merger, exchange of capital stock, or other business combination with a domestic or foreign business In July, 2009, the Company filed a Certificate of Amendment with the state of Nevada, to formally change its name from Ecologic Rentals, Inc. to Ecologic Systems, Inc. ("Eco Sys").

On June 10, 2009, Eco Sys sold all of its capital stock to Ecologic Transportation, Inc. ("EGCT"), its parent company, pursuant to a Stock Purchase Agreement, and hence for they operated as a wholly owned subsidiary of EGCT.

On March 16, 2012 (the "Closing Date"), the Company and EGCT entered into a Share Exchange Agreement with Amazonas Florestal, Inc. a Florida corporation (the "Share Exchange"). The Company acquired one hundred percent (100%) of the issued and outstanding shares of commons stock of Amazonas Florestal, Inc. ("AMZO") in exchange for seventy million (70,000,000) authorized but unissued shares of the Company's common stock.

As a result of the transactions effected by the Share Exchange, there was a change of control whereby the AMZO Shareholders owned a controlling ownership interest in the Company. Subsequent to the Closing, The Company ceased to operate as a wholly owned subsidiary of EGCT. In addition, the Company changed its name from Ecologic Systems, Inc. to Amazonas Florestal, Ltd.("AZFL"). In addition, prior to the closing, the Company introduced AMZO management to the holder of its sixty thousand dollar($60,000) convertible note in order to have nonaffiliated parties associated with AMZO acquire all or apportion of the note. The Company assisted in the facilitation of the acquisition of the note as part of its negotiations with AMZO regarding the Share Exchange. The terms of the convertible note allow for the conversion into common stock at par value. On March29, 2012, the note was fully converted at par value resulting in an additional sixty million (60,000,000) shares of Eco Sys common stock issued and outstanding.

AZFL became a holding company and is defined by the activity of its wholly owned subsidiary AMZO. AMZO commenced operations in fiscal year2010.

On June 24th, 2014, an amendment of the articles of incorporation were filed authorizing an additional 250,000,000 (Two hundred and fifty million) shares of AZFL were authorized at par value of $0.001 per share. The amendment filed reauthorized the total amount of shares with the State of Nevada to 3,000,000,000 (Three Billion) from 750,000,000 shares.

Please note that the information provided below, unless otherwise noted, and the terms "we", "us", "our", and the "Company" relates to the combined enterprises of AZFL after the Merger.

NOTE 2: NATURE OF BUSINESS

Timber Activities

Headquartered in Miami, Florida (1110 Brickell Avenue, Suite 430, Miami, FL 33131) and with sub-contracted operations in Amazonas, Brazil (Rua Sao Salvador 120 Andar Vierialves, Business Center Manaus, Amazonas, Brazil) Amazonas Florestal Inc., ("AMZO"), is a Florida corporation founded in 2010 as a diversified timber company, with a focus on sustainable practices in the management of its forestry holdings in the Brazilian state of Amazonas. The AMZO management team and its shareholders, some of whom have owned large tracts of land in the Amazon Rain Forest for over fifty years, are committed to sustainable forest management and the biodiversity of the Amazon Rain Forest. AMZO intends to build a business strategy that will enable its development into a profitable enterprise, as well as preserve the balance between environmental integrity and consumer needs.

The AMZO business strategy will include the harvesting and extraction of timber, both from the Fazenda Jatuarana and third-party land, and the production of quality wood products such as lumber, flooring and decking, all while maintaining Sustainable Forest Management (SFM) practices, further described below, which are congruous with the preservation of the bio-diverse Rain Forest land and its people.

The AMZO approach addresses local poverty alleviation, sustainable development and biodiversity conservation, and restoration, and also combats the new challenges of climate change. AMZO is committed to working closely with the local forest communities, and providing employment opportunities to the indigenous peoples. AMZO offers an innovative way of doing business, and a new way of life for individuals, forest communities and the natural environment, while generating company profits and benefits from preservation incentives.

NOTE 3: SUMMARY OF SIGNFICANT ACCOUNTING POLICIES

This summary of significant accounting policies is presented to assist in understanding the Company's financial statements. These accounting policies have been revised to conform to accounting principles that are in accordance with *International Financial Reporting Standards (IFRS) IAS 39*, and have been consistently applied in the preparation of the *Statements of Financial Position IAS 1* for the years then ended December 31, 2012, 2013, and 2014.

Use of Estimates
In the preparation of the Company's financial statements have adapted to *IAS 34* that recognizes preparation of interim financial statements will require greater use of estimates than annual financial statements.

Fiscal Year End
The Company has a fiscal year ending December31.

Cash Equivalents
The Company considers all highly liquid investments with maturities of three months or less at the time of purchase to be cash equivalents.

Fair Value of Financial Instruments
The carrying amounts reported in the balance sheet for cash, accounts payable and accrued expenses approximate fair value based on the short-term maturity of these instruments.

Earnings (Loss) per Share
Basic earnings (loss) per share are computed by dividing net income, or loss ,by the weighted average number of shares of common stock outstanding for the period. Diluted earnings (loss) per share is computed by dividing net income, or loss, by the weighted average number of shares of both common and preferred stock outstanding for the period.

Inventories
Inventories of logs, lumber, and supplies are stated at the lower of cost or market within the Company's Operating areas, primarily using the average cost method. Log costs include harvest and transportation cost as appropriate. Lumber costs include materials, labor, and production overhead. (For additional information, see Note 4 – Inventories.)

Timber and Timberlands
Timber and timberlands, which include timberland, fee timber, purchased stumpage inventory, and logging facilities, are stated at cost, less the cost of fee timber harvested and accumulated depreciation of logging facilities, and includes no estimated future reforestation cost. The cost of timber consists of fee timber acquired from government approved timber extraction projects. The cost of fee timber harvested is based on the volume of timber approved to be harvested. Logging facilities, which consist primarily of pathways constructed and other land improvements, are depreciated using the straight-line method over a ten-year estimated life. The Company estimates its fee timber inventory using statistical information and data obtained from physical measurements and other information gathering techniques from government engineers. Fee timber carrying costs, commercial thinning, engineering fees, and timberland management costs are capitalized.

Property, Plant, and Equipment
Property, plant, and equipment assets are stated at cost less accumulated depreciation. Depreciation of buildings, equipment, and other depreciable assets is primarily determined using the straight-line method.
Expenditures that substantially improve and/or increase the life of facilities or equipment are capitalized.
Maintenance and repair costs are expensed as incurred. Gains and losses on disposals or retirements are recognized in the period they occur.

Property, plant, and equipment assets are evaluated for possible impairment on a specific asset basis or in groups of similar assets, as applicable, whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable. Recoverability of assets to be held and used is measured by a comparison of the carrying amount of an asset to estimated undiscounted future net cash flows to be generated by the asset. If the carrying amount of an asset exceeds its estimated future cash flows, an impairment

loss is recognized for the amount by which the carrying amount of the asset exceeds the fair value of the asset. Assets to be disposed of are reported at the lower of the carrying amount or fair value less costs to sell, and depreciation ceases.

Revenue Recognition

The Company recognizes revenue when the following criteria are met: (1) persuasive evidence of an agreement exists, (2) delivery has occurred or services have been rendered, (3) the price to the buyer is fixed and determinable, and (4) collectability is reasonably assured. Delivery is not considered to have occurred until the customer takes title and assumes the risks and rewards of ownership. Revenue from the sale of lumber and wood by-products is recorded at the time of shipment due to terms of such sale being designated free on board ("f.o.b.") shipping point. Revenue from the sale of timber-cutting rights to third parties is recorded when legal title passes to the purchaser, which is generally upon delivery of a legally executed timber deed and receipt of payment for the timber. These revenue recognition procedures meet the five conditions in order to be in accordance with *IAS 18* with respect to the sale of goods.

Unearned Revenues

The Company employed the use of from customer prepayments for either performance of services or delivery of product, and classified in accordance with *IAS 1* as current liabilities at the end of the reporting period if the services are to be performed or the products are to be delivered within one year of the operating cycle, whichever is longer.

Income Taxes

The Company uses the asset and liability method of accounting for income taxes in accordance with ASC740-10, "Accounting for Income Taxes." Under this method, income tax expense is recognized for the amount of: (i) taxes payable or refundable for the current year; and, (ii) deferred tax consequences of temporary differences resulting from matters that have been recognized in an entity's financial statements or tax returns. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in the results of operations in the period that includes the enactment date. A valuation allowance is provided to reduce the deferred tax assets reported if, based on the weight of available positive and negative evidence, it is more likely than not that some portion or all of the deferred tax assets will not be realized.

ASC740-10 prescribes a recognition threshold and measurement attribute for the financial statement recognition of a tax position taken or expected to be taken on a tax return. UnderASC740-10 , a tax benefit from an uncertain tax position take nor expected to be taken maybe recognized only if it is "more likely than not" that the position is sustainable upon examination, based on its technical merits. The tax benefit of a qualifying position under ASC740-10 would equal the largest amount of tax benefit that is greater than 50% likely of being realized upon ultimate settlement with a taxing authority having full knowledge of all the relevant information. A liability (including interest and penalties, if applicable) is established to the extent a current benefit has been recognized on a tax return for matters that are considered contingent upon the outcome of an uncertain tax position. Related interest and penalties, if any, are included as components of income tax expense and income taxes payable.

Property Taxes

Property taxes applicable to the Company's assets are estimated and accrued in the period of assessment.
The company is liable for the payment of rural land tax in Brazil, known as ITR (Imposto Territorial Rural) that is based on approximately 2% of the historical value of the property. Fazenda Jaturana was registered in the Registro deI moveis (Property/Land Registry) section of the Receita Federal (Brazilian IRS) for a value of BRL $6,500,000 equivalent to almost $4Million. As of September30, 2014 and December 31, 2014, there were no property taxes accrued.

Net Change in Purchased Stumpage Inventory Purchased stumpage inventory consists of timber-cutting rights and ownership of the actual trees purchased from third parties specifically for use in the Company's projected production and milling operations. Depending on the timing of acquisition and usage of this acquired stumpage inventory, the net change in this inventory can either be a source or use of cash in the Company's statements of cash flows.

Shipping and Handling Costs

Shipping and handling costs, such as freight to the customers' destinations, are included in cost of sales in the Company's statements of operations. These costs, when included in the amount invoiced to customers, are also recognized in net sales.

Off-Balance Sheet Arrangements The Company evaluates its transactions to determine if any variable interest entities exist. If it is determined that the Company is the primary beneficiary of a variable interest entity, then the entity will be consolidated in to the Company's financial statements.

Recently Adopted Accounting Standards The Company evaluates the pronouncements of various authoritative accounting organizations, primarily the Financial Accounting Standards Board("FASB"), the US Securities and Exchange Commission ("SEC"), and the Emerging Issues

Task Force (“EITF”), to determine the impact of new pronouncements on US GAAP and the impact on the Company. The Company has adopted the following new accounting standards:

Fair Value Measurements: – Accounting Standards Update (“ASU”) No.2010-06 amended existing disclosure requirements about fair value measurements by adding required disclosures about items transferring in to and out of levels 1 and 2in the fair value hierarchy; adding separate disclosures about purchase, sales, issuances, and settlements relative to level 3 measurements; and clarifying, among other things, the existing fair value disclosures about the level of disaggregation. The ASU was adopted during the period ended March31, 2010, and its adoption had no impact on the Company’s consolidated financial position, results of operations or cash flows.

Consolidations: – *ASU No.2009-17* revised the consolidation guidance for variable-interest entities. The modifications include the elimination of the exemption for qualifying special purpose entities, a new approach for determining who should consolidate a variable-interest entity, and changes to when it is necessary to reassess who should consolidate variable-interest entity. The ASU was adopted during the period ended March31, 2010, and its adoption had no impact on the Company’s consolidated financial position, results of operations or cash flows.

Embedded Derivatives: – *ASU No. 2010-11* clarified that the transfer of credit risk that is only in the form of subordination of one financial instrument to another is an embedded derivative feature that should not be subject to potential bifurcation and separate accounting. This ASU was adopted during the period ended September 30, 2010, and its adoption had no impact on the Company’s consolidated financial position, results of operations or cash flows.

Recently Issued Accounting Standards Updates The following accounting standards updates were recently issued and have not yet been adopted by the Company. These standards are currently under review to determine their impact on the Company’s consolidated financial position, results of operations, or cash flows.

Stock Compensation: - Issued in April 2010*, ASU No.2010-13* clarifies the classification of how an employee based payment award with an exercise price denominated in the currency of a market in which the underlying security trades. This ASU was effective for the first fiscal quarter beginning after December 15, 2010.

Business Combinations: Issued in December 2010, *ASU 2010-29* requires a public entity to disclose pro forma information for business combinations that occurred in the current reporting period. The disclosures include pro forma revenue and earnings of the combined entity for the current reporting period as though the acquisition date for all business combinations that occurred during the year had been as of the beginning of the annual reporting period. This ASU was effective for business combinations for which the acquisition date is on or after the beginning of the first annual reporting period beginning on or after December 15, 2010.

There were various other updates recently issued, most of which represented technical corrections to the accounting literature or application to specific industries. None of the updates are expected to have a material impact on the Company's consolidated financial position, results of operations or cash flows.

Going Concern We have incurred debts since inception and our ability to continue as a going concern depends upon our ability to develop profitable operations and to continue to raise adequate financing. We are actively targeting sources of additional financing to provide continuation of our operations. In order for us to meet our liabilities as they come due and to continue our operations, we are solely dependent upon our ability to generate such financing.

There can be no assurance that the Company will be able to continue to raise funds, in which case we may be unable to meet our obligations and we may cease operations. These factors, among others, raise substantial doubt about the Company’s ability to continue as a going concern.

NOTE 4: INVENTORIES

According to *IAS 2* Inventories are assets held, either for sale in the ordinary course of business or in the process of production for such sale, or in the form of materials or supplies to be consumed in the production process or in the rendering of services. The basis of valuation is now limited to FIFO or weighted-average cost, should be disclosed.

Inventories consist of the two forest management plans purchased in 2011. Dos Ramos I has 979.12 hectares with an approved license for the extraction of 10,086.548 cubic meters of various species of semi-hard and hardwoods of commercial demand, both in the region and worldwide, through the Operation License number 371/10, as authorized by IPAAM. Dos Ramos II has 1,351.79 hectares, and contains 4,701.947cubic meters of timber authorized for extraction through the IPAAM license number 538/10.

Effective December 31st, 2014 the company has made the following changes to how it accounts for the Timber inventory holdings located on its property Fazenda Jatuarana:

1) Separated the raw land value from the Timber inventory.
2) Reduced the raw land value from the appraised amount to the par value of .001 per share issued for the value of the lands as a conservative cost basis in the amount of $75,420 and $82,140; $191,442 and $264,816 as of December 2012, 2013, and 2014 for Fazenda Jatuarana.
(The estimated Historical Cost in terms of Brazilian Reais was approximately: 6,307,638 to 1,500,000 Reais)
4) Ending Inventories of Timber costs are estimated in US Dollars using FIFO of $801,575, $728,812, and $521,592 worth of sellable timber.

The results from these calculations are, as follows:

	December 31, 2012	December 31, 2013	December 31, 2014
Dos Ramos I and II	$75,420	$82,140	$82,140
Fazenda Jatuarana	191,442	264,816	264,816
Central Borba	-	-	586,919
Total	$266,862	$346,956	$936,875

Allocations of the ending inventories with respect to the Land Management Areas are as follows:

	December 31, 2012	December 31, 2013	December 31, 2014
Dos Ramos I and II	$226,540	$170,542	$45,730
Fazenda Jatuarana	575,035	556,270	147,433
Central Borba	-	-	-
Total	$801,575	$728,812	$521,592

December 31, 2014 @ 2.22 BR = $3,597,477

These conversions are in accordance with IAS 21 {*The Effects of Changes in Foreign Exchange Rates}*.

NOTE 6: FOREST MANAGEMENT PLANS PAYABLE

In 2011, the Company incurred indebtedness in the amount to of BRL $150,000. (US $90,000) for the purchase of two Sustainable Forest Management Plans – Lago Preto Dos Ramos I and Lago Preto Dos Ramos II –from land owners Jander Luciode Souza Cruz and Francodas Santos Yamane, respectively. The indebtedness bears no interest, and is payable upon commencement of timber extraction from each respective parcel of land. As of the December 31, 2014, there was a remaining balance of $72,000 owed for the Forest Management Plan.

Note 7: CONTINGENT LIABILITIES

The following contingent liabilities have been reported in accordance with IAS 37 which defines a contingent liability differently than US GAAP, briefly as follows:

A possible obligation arising from past events, the outcome of which will be confirmed only on the occurrence or nonoccurrence of one or more uncertain future events which are not within the control of the reporting entity;

A present obligation arising from past events, which is not recognized either because it is not probable that an outflow of resources will be required to settle an obligation or the amount of the obligation cannot be measure with sufficient reliability.

Under IAS 37, the reporting entity is not to give formal recognition to a contingent liability, but it should disclose in the notes to the financial statements the following information:

1. An estimate of its financial effect;
2. An indication of the uncertainties relating to the amount or timing of any outflow; and
3. The possibility of any reimbursement.

Disclosure of this information is not required if the possibility of any outflow is settlement is remote, or if it is impracticable to do so.

As of October 28, 2014, Think Green Financial Services, Inc. filed an action in the Eleventh Judicial Circuit Court in Miami, FL seeking damages of an investment in the amount of $300,000 for 50% of the income generated from
Production and sale of timber products. According to the Company, the action has gone to mediation and the parties have agreed to settle remaining debts owed by paying $10,000 per month until the Company has paid the balance in full. As of December 31, 2014, the balance owed to Think Green was approximately $158,000 net.

During the second through the fourth quarters of 2014, IBC Funds, LLC, entered into a 3a10 with the Company to settle claims brought forth in the twelfth Judicial Circuit Court in Sarasota, FL for failure to pay outstanding liabilities shown in the accounts payable and balance sheets. It was ordered and adjudged that the settlement agreement and stipulation is hereby approved as fair to the party to whom the shares will be issued, assuming satisfaction of all other applicable securities laws, these will be exempt from registration under the Securities Act of 1933.

In connection with the IBC Funds, LLC financial arrangement, was the payment of Invoices owed to K.R.P. Florestal, Ltd in the amount of $225,000 for a timber future contract that was reciprocal to a vender in Brazil, whereby the Company converted this debt using its shares as payment to IBC Funds, LLC for the payment of the invoices through this legal structure known as a 3a10 that was approved in Federal Court in Sarasota, Florida. Therefore, as a result, as of December 31, 2014, the Company has a claim against K.R.P. Florestal, Ltd, for an unpaid debt

purchases in the amount of $275,000 for funds paid to K.R.P.Florestal, Ltd. KRP Florestal is expected to render a note payable during the last quarter of 2015 that will satisfy this debt repayment.

These transactions are technically considered *irregularities* in accordance with standards No. 5 (AS5) and PCAOB standard No. 2 (AS2), *An Audit of Internal Control over Financial Reporting That is Integrated with an Audit of Financial Statements* as it relates to audit risks. Until such *irregularity* has been clarified in the subsequent periods, these transactions may be deemed as some kind of stock distribution scheme for being able to liquidate shares sooner than the 1 year waiting period under the rules of 144k due to the proceeds that were paid to the vendor K.R.P Florestal, Ltd., the vendor, rather than paid to the Company for its shares.

NOTE 8: STOCKHOLDERS' EQUITY

On February 16, 2011, the Company filed documents with the State of Florida Department of Corporations to convert its limited liability company status to a C corporation. Upon conversion, the Articles of Organization we replaced with the Articles of Incorporation authorizing 20,000,000 shares of common stock, par value $0.001.

On March16, 2012, as a result of the Share Exchange (Note1), Eco Sys acquired one hundred percent (100%) of the issued and outstanding shares of common stock of AMZO. In exchange, 70,000,000 shares of Eco Sys common stock were issued ratably to the AMZO shareholders.

On March29, 2012, 60,000,000 shares of the Company's common stock were issued to the holders of
Certain convertible debt owed by the Company in the amount of $60,000, resulting in the convertible debt being paid in full.

The issuance of the common stock pursuant to the terms of the convertible note, affected the number of total issued and outstanding shares, and triggered an anti-dilution provision as it pertains to the percentage of shares owned by EGCT. As a result, an additional 2,020,618 shares were issued to the Company, thereby maintaining the ownership of EGCT shares at 3%, or 4,020,618 shares, as required by the anti-dilution provision.

On April 19th, 2012 the company affected a 3-1 forward split bringing its total issued and outstanding common stock to 401,880,000.

From August to November of 2013 the company issued 42,009,358 shares of its common stock in reference to joint venture and consulting services.

On June 24th, 2014, 250,000,000 shares of the Company's common stock were authorized. During the 4th quarter the company increased its authorized shares again with the State of Nevada to 3,000,000,000 (Three Billion) shares.

As of December 31st, 2014, The Company's current total issued and outstanding common stock was 1,121,302,312 according to the transcript of all shares that were issued to shareholders by the Company's Transfer Agent Bay City Transfer Agent and Registrars of Saginaw, Michigan, are recorded and accounted for in accordance with *IAS 32* for the issuance of share capital at par value.

NOTE 9: NOTES PAYABLE

On November 8, 2012, the company entered in to a one year joint venture agreement with BPA Trading and Investment Corp., Panama Corporation (BPA). The agreement was executed for the purpose of revenue sharing on a 50/50 basis, and was initially funded $50,000 to commence operations. The current balance due is $50,000.00 payable to BPA as of December 31, 2014.

During the second quarter 2014 the company entered into a 3A10 agreement with IBC Funds, LLC in order to
extinguish debts. Approximately 10 million shares were issued to IBC Funds, LLC and in turn IBC Funds, LLC will be paying, in installments, debt on behalf of the company.

During the 3rd quarter of 2014, two new notes payable were entered into, one for $25,000 payable to Carmen Ubieto and therefore $50,000 payable to Juan Carlos Ubieto. Juan Carlos Ubieto is the investment relations officer and is also a director of the Company.

NOTE 10: SUBSEQUENT EVENTS

In 2009, the FASB ASC Topic 865 (formerly FASB 165, Subsequent Events), which defines the period after the balance sheet date that subsequent events should be evaluated and provides guidance in determining if the events hold be reflected in the current financial statements. This ASC Topic also requires disclosure regarding the date through which subsequent events have been evaluated.

The Company has evaluated subsequent events through the time since the December 31, 2014 financial statements were issued and no events have occurred subsequent to December 31, 2014 that require disclosure or recognition in these financial statements with the exception of the following:

The company signed a letter of intent to purchase a saw mill near the land that was recently purchased, in order to process the timber that it located on it. A $2 million dollar loan will need to be obtained in order to purchase the mill and is now in negotiation with several financial institutions.

The company entered in to another 3a10 settlement with IBC Funds, LLC to clean some of the older accounts payables off of the Balance Sheet. An Interim Financial Disclosure was filed disclosing this material definitive event on November 7th, 2014.

The company also signed a letter of intent to purchase a forest management plan in an area with over one million cubic meters of licensed timber in the State of Acre –Brazil. A $20 million 3 year loan will be obtained to purchase the management plan.

NOTE 11: DEBT-CONVERSIONS

During the year of 2014, the Company participated in three (3) 3a10 Debt-Conversions with IBC Funds, LLC in order to satisfy obligations that were past due more than 90 days. Accounting for these Debt-Conversions are in accordance with revised *IAS 32* whereby the debtor has accepted "sweeteners" to induce prompt conversion of the outstanding debt, discounts, and fees associated with satisfying the obligations in full. The Company has accounted for such "sweeteners" as discounts recorded upon conversion as a reduction in contributed capital rather than the previously acceptable alternative accounting treatment of expensing the discounts in the period of conversion are, as follows:.

Item 4 Controls and Procedures

(a) Evaluation of disclosure controls and procedures.

Our management is responsible for establishing and maintaining adequate internal control over financial reporting for the Company. Internal control over financial reporting is defined in Rule 13a-15(f) or 15d-15(f) promulgated under the Securities Exchange Act of 1934 (Exchange Act) as a process designed by or under the supervision of, our principal executive and principal financial officers and effected by our Board of Directors, management and other personnel, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles and includes those policies and procedures that:

Pertain to the maintenance of records that is in reasonable detail accurately and fairly reflect the transactions and dispositions of our assets

Provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the Company are being made only in accordance with authorizations of our management and directors: and

Provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use or disposition of the Company's assets that could have a material effect on the financial statements.

Item 4 Controls and Procedures - Continued

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Management assessed the effectiveness of the Company's Internal Control over financial reporting as of September 30, 2015. In making this assessment, management used the criteria set forth by the Committee of Sponsoring Organizations of the Treadway Commission in this Internal Control-Integrated Framework.

Based on our assessment, we believe that, as of September 30, 2015 our internal control over financial reporting was not effective.

Evaluation of Disclosure Controls and Procedures

We maintain disclosure controls and procedures (as defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act) that are designed to ensure that information required to be disclosed in the reports we file or submit under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms, and that such information is accumulated and communicated to our management, including our chief executive officer and chief financial officer, as appropriate to allow timely decisions regarding disclosure. In designing and evaluating the disclosure controls and procedures, management recognized that any controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving the desired control objectives, and management necessarily was required to apply its judgment in evaluating the cost-benefit relationship of possible controls and procedures.

Our management, with the participation of our chief executive officer and chief financial officer, has evaluated the effectiveness of our disclosure controls and procedures as of September 30, 2015. Based on their evaluation, our chief executive officer and chief financial officer have concluded that, as of September 30, 2015, our disclosure controls and procedures were not effective.

(b) Changes in internal controls.

There have not been any changes in the Company's internal control over financial reporting (as such term is defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act) during the quarter ended September 30, 2015 that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

PART II - OTHER INFORMATION

Item 1 Legal Proceedings

During the nine month period ended there was legal action taken by Think Green Financial Services, Inc. for the repayments of amounts owed for a joint venture that was discontinued for its lack of feasibility and synergy among the operating partners.

Item 2 Unregistered Sales of Equity Securities and Use of Proceeds

During the nine month period ended September 30, 2015, there was no modification of any instruments defining the rights of holders of the Company's common stock and no limitation or qualification of the rights evidenced by the Company's common stock as a result of the issuance of any other class of securities or the modification thereof.

Item 3 Defaults upon Senior Securities

There have been no defaults in any material payments during the covered period.

Item 4 Mine Safety Disclosures

Not applicable.

Item 5 Other Information

On July 30th, 2015, the Company entered into an Equity Purchase Agreement and a Registration Rights Agreement with Premier Venture Partners LLC, for the purchase of up to $ 15 Million in company shares. The activation of the agreements are contingent with the company completeing its audit and becoming fully reporting with the SEC through the filing of an S1 Registration Statement by November 30th, 2015. The company will have to complete the audits and recapitalize its position on the market in order to activate these agreements but once effective could potentially fund its Business Plans for Wood Products, the Certification of REDD+ Carbon Credits and its Industrial Hemp subsidiary in Colorado.

Item 6 Exhibits and Reports on Form 8-K

(a) Exhibits

33.1 Certification pursuant to Section 302 of Sarbanes Oxley Act of 2002

33.2 Certification pursuant to Section 906 of Sarbanes Oxley Act of 2002

(b) Reports on Form 8-K

No reports on Form 8-K were filed during the quarter ended September 30, 2015.
