ACCOUNTANT'S COMPILATION REPORT

To the Board of Directors
Cerro Dorado, Inc. and subsidiary
Salt Lake City, UT

We have compiled the accompanying consolidated balance sheets of Cerro Dorado, Inc. and subsidiary (a corporation) as of September 30, 2015 and 2014, and the related consolidated statements of operations, consolidated stockholders' equity (deficit), and consolidated cash flows for the nine months then ended. We have not audited or reviewed the accompanying consolidated financial statements and, accordingly, do not express an opinion or provide any assurance about whether the consolidated financial statements are in accordance with accounting principles generally accepted in the United States of America.

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America and for designing, implementing, and maintaining internal control relevant to the preparation and fair presentation of the financial statements.

Our responsibility is to conduct the compilation in accordance with Statements on Standards for Accounting and Review Services issued by the American Institute of Certified Public Accountants. The objective of a compilation is to assist the owners in presenting financial information in the form of financial statements without undertaking to obtain or provide any assurance that there are no material modifications that should be made to the financial statements.

We are not independent with respect to Cerro Dorado, Inc.

NOTE 1 - ORGANIZATION AND DESCRIPTION OF BUSINESS

B.C. Realty Partners, Inc. was incorporated under the laws of the State of Florida on September 23, 1988, which is considered date of inception. By amendment to the Articles of Incorporation, its name was changed to Weather All Manufacturing USA, Inc. on November 23, 1998 and subsequently it changed its name to Cerro Dorado, Inc. on March 24, 1999. On July 14, 1999 as part of a merger the domicile was changed to the State of Nevada.

Cerro Dorado, Inc. is the parent company of a 50% owned subsidiary, Sociedad Contractual Minera Cerro Dorado Chile, trade name Cerro Dorado Chile. Cerro Dorado Chile was created on February 18, 2000. Collectively, they are referred to as "the Company."

The Company is principally in the business of acquiring and seeking to develop copper and gold mining interests in Chile, South America.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The accounting policies of Cerro Dorado, Inc. and its Subsidiary (the Company) conform to U.S. generally accepted accounting principles. The following is a summary of the more significant of such policies:

a. Accounting Method

The Company's consolidated financial statements are prepared using the accrual method of accounting. The Company has elected a calendar year-end.

b. Cash and Cash Equivalents

For purposes of the statement of cash flows, the Company considers all cash accounts and highly liquid investments with original maturities of three months or less to be cash equivalents.

c. Machinery and Equipment

Machinery and equipment are stated at cost less accumulated depreciation. Expenditures for minor replacements, maintenance and repairs which do not increase the useful lives of the property and equipment are charged to operations as incurred. Major additions and improvements are capitalized. Depreciation and amortization are computed using the straight-line method over an estimated useful life of 3 to 7 years.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

d. Estimates

The preparation of consolidated financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

e. Fair Value of Financial Instruments

The carrying amounts reported in the accompanying consolidated financial statements for cash and cash equivalents, accounts payable, and advances approximate fair values because of the immediate or short-term maturities of these financial instruments.

f. Concentrations of Risk

The Company maintains its cash in bank deposit accounts which, at times, may exceed the federally insured limits. Accounts are guaranteed by the Federal Deposit Insurance Corporation (FDIC) up to certain limits. The Company has not experienced any losses in such accounts or lack of access to its cash, and believes it is not exposed to significant risk of loss with respect to cash. However, no assurance can be provided that access to the Company's cash will not be impacted by adverse economic conditions in the financial markets.

g. Principles of Consolidation

The accompanying consolidated financial statements include the accounts of Cerro Dorado, Inc., and its 50% owned subsidiary, Sociedad Contractual Minera Cerro Dorado Chile. All significant intercompany transactions have been eliminated. In addition, the Company evaluates its relationships with other entities to identify whether they are variable interest entities in accordance with the Variable Interest Entity Subsections of FASB ASC Subtopic 810-10, *Consolidation – Overall*, and to assess whether it is the primary beneficiary of such entities. If the determination is made that the Company is the primary beneficiary, then that entity is included in the consolidated financial statements.

h. Impairment of Long-Lived Assets

The Company evaluates its long-lived assets for impairment whenever events or changes in circumstances indicate that the carrying amount of such assets may not be recoverable. Recoverability of assets to be held and used is measured by a comparison of the carrying amount of the asset to future non-discounted net cash flows expected to be generated by the asset. If such assets are considered to be impaired, the impairment to be recognized is measured by the amount by which the carrying amount of the assets exceeds the fair value of the assets. No assets were deemed to be impaired at September 30, 2015.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

i. Recent Accounting Pronouncements

The Company has reviewed all recently issued, but not yet adopted, accounting standards in order to determine their effects, if any, on its results of operations, financial position or cash flows. Based on that review, the Company believes that the following pronouncement will have a significant effect on its financial statements.

In June 2014, the FASB issued Accounting Standards Update No. 2014-10 ("ASU No. 2014-10"), which eliminated the definition of a Development Stage Entity and the related reporting requirements. ASU No. 2014-10 is effective for annual reporting periods beginning after December 15, 2014, with early adoption allowed. The Company chose to adopt ASU No. 2014-10 early, effective for the year ended December 31, 2014.

The Company has evaluated all other recent accounting pronouncements and believes such pronouncements do not have a material effect on the Company's financial statements.

NOTE 3 - MACHINERY AND EQUIPMENT

As of September 30, 2015 and 2014 machinery and equipment had a basis and accumulated depreciation balance of $1,288. No depreciation expense was recorded for the nine months ended September 30, 2015 and 2014.

NOTE 4 - INTANGIBLE ASSETS

In 1999 the Company did a reverse merger and signed an agreement to acquire the Lonco Millarepu 1/60 claim from a Chilean company. The Chilean company's owner was issued shares of Cerro Dorado in exchange for the claims. The agreement was signed on April 7, 1999. The agreement also called for creating a new subsidiary called Sociedad Contractual Minera Cerro Dorado Chile, trade name Cerro Dorado Chile.

On May 3, 2006 Cerro Dorado Chile issued shares to acquire 3 more claims: Fortuna 61/120, Colihues 1/40, and Antonio 1/20. However, management has recently confirmed that it presently does not have any ownership in the Colihues 1/40 and Antonio 1/20, and they are presently owned by another company. Management has recognized an impairment for the full value of those assets. At this time management believes that it still has some right in them because the shares were paid.

As of September 30, 2015 and 2014 the mining claims of Lonco Millarepu 1/60 and Fortuna 61/120 are reported at an impaired value of $409,500.

NOTE 5 - NON-CONTROLLING INTEREST

As explained in Notes 1 and 4, the subsidiary Sociedad Contractual Minera Cerro Dorado Chile is owned 50% by Cerro Dorado, Inc. and 50% by a non-controlling interest. The only assets owned by Sociedad Contractual Minera Cerro Dorado Chile are the mining claims Lonco Millarepu 1/60 and Fortuna 61/120. These intangible assets have been reported at an impaired value of $409,500 which results in a non-controlling interest equity balance of $204,750 as of September 30, 2015 and 2014.

NOTE 6 - RELATED PARTY TRANSACTIONS

The Company has received advances from various related parties primarily to cover financing needs of the Company. Such advances are short term, due on demand, and non-interest bearing. The balance of related party advances was $-0- and $1,416,686 as of September 30, 2015 and 2014, respectively.

The balance payable at September 30, 2014 of $1,416,686 was converted to 7,950,000 shares of common stock during the nine months ended September 30, 2015.

NOTE 7 - SUBSEQUENT EVENTS

The Company has evaluated subsequent events through October 28, 2015, the date which the financial statements were available to be issued, and noted no material subsequent events that would require adjustment in or disclosure to these financial statements as of September 30, 2015.
