Item 6 Describe the Issuer's Business, Products and Services

A. Description of the issuer's business operations;

AMERICAN GREEN

American Green was one of the first publicly-traded companies to address the legal medical marijuana business in 2009. It now is embarking on the strategy to become a major participant in the expanding medical and adult use cannabis market on a national scale.

American Green continues to offer retailing, branding and commercial cultivating strategies in conjunction with its ongoing business with various licensed medical marijuana medical and retail dispensaries. The company has consulted with dispensary operators in California, Colorado, Washington, Oregon and Arizona. Being located in Arizona, a very effectively regulated medical marijuana (MMJ) market, American Green is focusing on providing goods and services that operators of licensed nonprofit MMJ dispensaries in regulated environments require. This strategy will allow American Green to further penetrate the market and to leverage its existing brands, products and services. As a result, the ZaZZZ network is being adapted to sell non-MMJ products to customers of MMJ dispensaries; lines of non-MMJ hemp based products are in development; online communities, products and services are being created; and consulting opportunities involving compliance, business development and financial services have been identified.

THE ZAZZZ MACHINE AND NETWORK

The ZaZZZ™ machine and network remain an opportunity for American Green. The Company has sought new uses for ZaZZZ. The machines provide verified vending bolstered by proprietary IP in the form of the Tomassi patent numbers 7,493,190 and 6,711,465, ZaZZZ™. The Company has begun selling unique products in ZaZZZ units that cannot be found behind the counter. This concept is called "store within a store". The Company is working with a dispensary in Portland OR that will stay open 24/7 using a ZaZZZ machine for automated service of customers instead of late night personnel.

MANAGEMENT SERVICES

The Company is seeking to provide management, financial, business and professional services to MMJ and recreational industries in Arizona, Colorado and Oregon. A significant portion of this industry is controlled by small operators who lack the resources and expertise to survive in highly a scrutinized, regulated and competitive environment.

Dispensary operators now recognize the need for effective management, financial and professional services. American Green provides a broad array of compliance, financial, business development and management services to an industry in desperate need of these services.

SELLING CANNABIS-RELATED PRODUCTS UNDER LICENSE

In second quarter 2015, creating Joint Ventures with MMJ operators created a multitude of opportunities for American Green. Many of these are in development and are related, but not limited to: cultivation facilities, unique genetic strains, extraction, and manufacturing of proprietary products, profitable media properties, and joint venture agreements. The Company is licensing it's brand and logo to these operators to advance American green's strategy of becoming a national recognized cannabis brand.

The Company's image is very attractive to a segment of the population, including both Millennials and Baby Boomers. As such, American Green is creating products for sale under license that appeal to these groups.

MMJ Products: To leverage American Green's cannabis image and presence in MMJ dispensaries, a line of MMJ products are under development. These include custom pre-rolls, cured flower and solvent free extractions. All products will be distributed under license throughout the state at participating dispensaries and retail locations.

Hemp Based CBD Products: American Green has identified a supplier of refined CBD isolate, processed from organic hemp in the EU. This ingredient contains no THC. Formal studies in Europe and worldwide anecdotal stories of the health benefits from in high-CBD marijuana have captured the interest of the public, fueling interest in hemp-based CBD products. American Green is actively developing and testing such CBD products. Products are intended for sale in retail nutritional stores as well as MMJ dispensaries.

CULTIVATION PRODUCTS

American Green has relationships with some of the top legal cannabis cultivators in the US and has a comprehensive collection of leading edge equipment and nutrients. The breadth of the company's cannabis cultivation program allows it to appeal to both professional and enthusiast cultivators. All of the products below will be used in or by American Green facilities and many of the company's affiliates.

OG Tea: The Company distributes OG Tea products. Microbial Tea is a pure, concentrated tea formula derived from only plant and mineral sources. It has no compost or animal by-products, and is guaranteed free of toxic materials, pathogens or heavy metals. This formula was made by the OG Tea Company with the purest

and cleanest ingredients available and can be used as a foliar, diluted for soil drenching or brewed into tea.

Green Universe: American Green has acquired one of Sonoma County's most successful cultivation supply retail shops. The company expects to expand this brand under the American Green banner including a greatly enhanced online presence for broader reach of sales.

Truth Lighting: The Company has acquired the proprietary rights to an LED light array for cannabis cultivation. The company expects to expand this brand under the American Green banner.

Jurassic Water: The Company has acquired the proprietary rights to a hyper-suspension O2 water unit as a key component of its cultivation division. The system allows cultivators to apply water in excess of 25 ppm O2 to the root structure of plants; an increase of four times standard water. The process does not interrupt surface tension allowing the ppm to be retained for extended periods of time during the watering process.

American Green Clothing: The Company is currently selling clothing and accessories under the American Green brand. The Company is working toward developing a full line of clothing and accessories under the American Green brand for traditional brick-and-mortar sales, as well as through the Zazzz and MMJ dispensary networks. All products are available through web based purchase at store.AmericanGreen.com and www.amazon.com/shop/americangreen as well as other online entities.

Online Properties: American Green is developing a suite of online properties which ultimately will be tied together. Properties include: The Urban Cannabist, a website to identify MMJ dispensaries; American GreenZine, a lifestyle publication; American Green Clothing, a shopping site; and AmericanGreen.com, our flagship site. The Company has plans to connect with consumers through the ZaZZZ™ machines as well as its online presence. American Green is building its online properties to form a seamless experience that will allow consumers to enjoy online content, access relevant information, shop for non-MMJ products and arrange for cannabis purchase where legal.

ALTITUDE ORGANIC LICENSING CORPORATION

Tranzbyte Corporation (Fka Altitude Organic Corporation) purchased Altitude Organic Licensing Corporation through a binding letter of intent dated August 9, 2010.
