Information contained in a Financial Report is considered current until the due date for the subsequent Financial Report. To remain in the OTC Pink Current Information tier, a company must post its Annual Report within 90 days from its fiscal year-end date and Quarterly Reports within 45 days of its fiscal quarter-end date.

The financial statements are attached to this disclosure statement.

6) Describe the Issuer's Business, Products and Services

Describe the issuer's business so a potential investor can clearly understand the company. In answering this item, please include the following:

A. a description of the issuer's business operations;

Orbit International Corp. conducts its operations through its Electronics and Power Groups. Its Electronics Group is comprised of its Orbit Instrument, Tulip Development Laboratory ("TDL") and Integrated Combat Systems ("ICS") Divisions. Through its Orbit Instrument and TDL Divisions, it is engaged in the design, manufacture and sale of customized electronic components and subsystems. ICS, located in Louisville, Kentucky, performs systems integration for gun weapons systems and fire control interface, cable and harness assembly, as well as logistics support and documentation. The Power Group is comprised of its wholly owned subsidiary, Behlman Electronics Inc. ("Behlman") and is engaged in the design and manufacture of high quality commercial power units, AC power, frequency converters, uninterruptible power supplies and commercial-off-the-shelf ("COTS") power solutions.

B. Date and State (or Jurisdiction) of Incorporation:

Orbit International Corp. was incorporated under the laws of the State of New York on April 4, 1957 as Orbit Instrument Corp. In December 1986, the state of incorporation was changed from New York to Delaware and in July 1991, the name was changed to Orbit International Corp.

C. the issuer's primary and secondary SIC Codes;

3679(Electronic Components, not elsewhere classified)

D. the issuer's fiscal year end date;

December 31

E. principal products or services, and their markets;

The Electronics Group's ("OEG") principal products include remote control units ("RCU"), intercommunication panels, displays, keyboards, keypads and pointing devices, operator control trays, command display units ("CDU'S"), MK 110 signal data converter ("SDC"), and cable and harness assemblies. These products are used primarily in support of military programs. The Power Group's principal products include power supplies, frequency converters, uninterruptible power supply products and inverters. These products are primarily used in commercial applications and in support of military programs.

7) Describe the Issuer's Facilities

The goal of this section is to provide a potential investor with a clear understanding of all assets, properties or facilities owned, used or leased by the issuer.

In responding to this item, please clearly describe the assets, properties or facilities of the issuer, give the location of the principal plants and other property of the issuer and describe the condition of the properties. If the issuer does not have complete ownership or control of the property (for example, if others also own the property or if there is a mortgage on the property), describe the limitations on the ownership.

If the issuer leases any assets, properties or facilities, clearly describe them as above and the terms of their leases.

Our plant and executive offices are located at 80 Cabot Court, Hauppauge, New York. This facility, which consists of approximately 60,000 square feet (of which approximately 50,000 square feet are available for manufacturing operations) in a two-story, brick building, was completed in October 1982 and expanded in 1985. We are currently operating this facility at approximately 70% of capacity. In March 2001, we completed a sale leaseback transaction whereby we sold our land and building for $3,000,000 and entered into a twelve-year net lease with the buyer of the property. Effective January 1, 2011, we entered into an amendment to the lease. The amendment extended the lease expiration date to December 31, 2021 and modified the lease payments as follows: approximately $32,500 per month for January 2011 through December 2013, approximately $35,400 per month for January 2014 through December 2016, and approximately $38,600 per month for January 2017 through December 2021. In connection with the lease amendment, our landlord agreed, at its sole expense, to make certain improvements to the facility.

In December 2007, our Behlman subsidiary entered into a lease for a 2,000 square foot facility at 2363 Teller Road, Unit 108, Newbury Park, California, which is used as a selling office for all of the Company's operating units. In December 2012, the lease was amended whereby the expiration date was extended to December 31, 2017 at a lease payment of approximately $2,300 per month for the term of the lease.

In April 2009, our TDL subsidiary entered into a five-year lease, which expired October 31, 2014, for a 50,000 square foot facility at 300 Commerce Boulevard, Quakertown, Pennsylvania. This facility was used for manufacturing, engineering and administration. TDL only paid certain operating expenses from April through October 2009 and lease payments commenced November 1, 2009. In December 2011 and October 2012, the lease was amended. The lease provided for lease payments of approximately $15,300 per month for the first four years of the lease and approximately $17,800 per month for the fifth year. In October 2013, we decided to consolidate our Quakertown, PA facility into our Hauppauge, NY facility. The consolidation was completed prior to June 30, 2014 and the lease was not renewed.

Our ICS Division operates out of a facility in Louisville, Kentucky. ICS entered into a new lease for a three year period, with a three year renewal option, for approximately 4,700 square feet. The lease payments are as follows: approximately $4,100 per month for April 2014 through March 2015, approximately $4,300 per month for April 2015 through March 2016, and approximately $4,500 per month for April 2016 through March 2017.

8) Officers, Directors, and Control Persons

ORBIT INTERNATIONAL CORP. AND SUBSIDIARIES
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(unaudited)

(NOTE 1) – Basis of Presentation and Summary of Significant Accounting Policies:

General

The interim financial information contained herein is unaudited. However, in the opinion of management, such information reflects all adjustments (consisting only of normal recurring accruals) necessary for a fair presentation of the results of operations for the periods being reported. Additionally, it should be noted that the accompanying consolidated financial statements do not purport to contain complete disclosures required for annual financial statements in accordance with accounting principles generally accepted in the United States of America.

The results of operations for the nine months ended September 30, 2015 are not necessarily indicative of the results of operations that can be expected for the year ending December 31, 2015.

The December 31, 2014 balance sheet has been derived from the audited consolidated financial statements at that date, but does not include all disclosures required by GAAP. These condensed consolidated statements should be read in conjunction with the Company’s audited consolidated financial statements for the year ended December 31, 2014 contained in the Company’s 2014 Annual Report filed with the OTC Pink Marketplace on March 31, 2015.

Cash Equivalents

The Company considers all highly liquid investments with a maturity of three months or less when purchased to be cash equivalents. The Company maintains cash in bank deposit accounts, which, at times, exceed federally insured limits. The Company has not experienced any losses on these accounts.

Marketable Securities

The Company's investments are classified as available-for-sale securities and are stated at fair value, based on quoted market prices, with the unrealized gains and losses, net of income tax, reported in accumulated other comprehensive income (loss). Realized gains and losses are included in investment income. Any decline in value judged to be other-than-temporary on available-for-sale securities are included in earnings to the extent they relate to a credit loss. A credit loss is the difference between the present value of cash flows expected to be collected from the security and the amortized cost basis. The amount of any impairment related to other factors will be recognized in comprehensive income (loss). The cost of securities is based on the specific-identification method. Interest and dividends on such securities are included in investment income.

Allowance for Doubtful Accounts

Accounts receivable are reported at their outstanding unpaid principal balances reduced by an allowance for doubtful accounts. The Company estimates doubtful accounts based on historical bad debts, factors related to specific customers' ability to pay and current economic trends. The

Company writes off accounts receivable against the allowance when a balance is determined to be uncollectible.

Inventories

Inventories, which consist of raw materials, work-in-process, and finished goods, are recorded at the lower of cost (average cost method) or market. Inventories are shown net of any reserves relating to any potential slow moving or obsolete inventory.

Property and Equipment

Property and equipment are recorded at cost. Depreciation and amortization of the respective assets are computed using the straight-line method over their estimated useful lives ranging from 3 to 10 years. Leasehold improvements are amortized using the straight-line method over the remaining term of the lease or the estimated useful life of the improvement, whichever is less.

Long-Lived Assets

When impairment indicators are present, the Company reviews the carrying value of its long-lived assets in determining the ultimate recoverability of their unamortized values using future undiscounted cash flow analyses. In the event the future undiscounted cash flows of the long-lived asset are less than the carrying value, the Company will record an impairment charge for the difference between the carrying value and the fair value of the long-lived asset.

Goodwill

The Company records goodwill as the excess of purchase price over the fair value of identifiable net assets acquired. In accordance with Accounting Standards Codification (“ASC”) 350, goodwill is not amortized but instead tested for impairment on at least an annual basis. The Company, where appropriate, will utilize Accounting Standards Update (“ASU”) 2011-08 which allows the Company to not perform the two-step goodwill impairment test if it determines that it is not more likely than not that the fair value of the reporting unit is less than the carrying amount based on a qualitative assessment of the reporting unit. The Company’s annual goodwill impairment test is performed in the fourth quarter each year or sooner when impairment indicators are present. If the goodwill is deemed to be impaired, the difference between the carrying amount reflected in the financial statements and the estimated fair value is recognized as an expense in the period in which the impairment occurs. In determining the recoverability of goodwill, assumptions are made regarding estimated future cash flows and other factors to determine the fair value of the assets.

(NOTE 1) – Basis of Presentation and Summary of Significant Accounting Policies (continued):

Income Taxes

The Company recognizes deferred tax assets and liabilities in accordance with ASC 740 based on the expected future tax consequences of events that have been included in the financial statements or tax returns. Under this method, deferred tax assets and liabilities are determined based on the difference between the financial statement and tax basis of assets and liabilities using enacted tax rates in effect for the year in which the differences are expected to reverse. Valuation allowances have been established to reduce deferred tax assets to the amount expected to be realized. The Company evaluates uncertain tax positions and accounts for such items in accordance with ASC 740-10. The Company is subject to federal income taxes and files a consolidated U.S. federal income tax return. In addition to the federal tax return, the Company files income tax returns in various state jurisdictions on both an unconsolidated and consolidated basis depending on the respective state. The Company is subject to routine income tax audits in various jurisdictions and tax returns remain open to examination by such taxing authorities in accordance with their respective statutes.

Revenue and Cost Recognition

The Company recognizes its revenue upon the shipment of product. The Company recognizes such revenue when title and risk of loss are transferred to the customer and when: i) there is persuasive evidence that an arrangement with the customer exists, which is generally a customer purchase order, ii) the selling price is fixed and determinable, iii) collection of the customer receivable is deemed probable, and iv) we do not have any continuing obligations.

All contracts are for products made to specific customer specifications with no right of return. All units are shipped with a one-year warranty.

Deferred Rent

The Company’s leases have escalation clauses which are recognized on a straight line basis over the life of the lease. The amounts are recorded in accrued expenses in the accompanying financial statements.

Comprehensive Income (Loss)

Comprehensive income (loss) consists of net income (loss) and unrealized gains and losses on marketable securities, net of tax. The Company has elected to present the components of net income (loss), the components of other comprehensive income (loss) and total comprehensive income (loss) as a single continuous statement.

(Note 2) - Stock-Based Compensation:

The Company had stock-based employee compensation plans, which provided for the granting of nonqualified and incentive stock options, as well as restricted stock awards and stock appreciation rights to officers, employees and key persons. The plans granted options at the market value of the Company's stock on the date of such grant and all options expired ten years after grant. The terms and vesting schedules for stock-based awards vary by type of grant and generally the awards vest based upon time-based conditions. Stock option exercises are funded through the issuance of the Company's common stock. Stock-based compensation expense was $41,000 and $14,000 for the nine and three months ended September 30, 2015, respectively, and was $79,000 and $26,000, respectively, for the comparable 2014 periods.

The Company's stock-based employee compensation plans allowed for the issuance of restricted stock awards that may not be sold or otherwise transferred until certain restrictions have lapsed. The unearned stock-based compensation related to restricted stock granted is being amortized to compensation expense over the vesting period. The stock-based expense for these awards was determined based on the market price of the Company's stock at the date of grant applied to the total number of shares that were anticipated to vest. As of September 30, 2015, the Company had unearned compensation of $238,000 associated with all of the Company's restricted stock awards, which will be expensed over approximately the next five years. The unvested portion of restricted stock awards at September 30, 2015 and 2014 were approximately 86,000 and 112,000 shares, respectively.

There are currently no stock-based compensation plans in effect that provide for the granting of stock option or restricted shares.

The following table summarizes the Company's nonvested restricted stock activity for the nine months ended September 30, 2015:

	Number of Shares	Weighted-Average Grant-Date Fair Value
Nonvested restricted stock at January 1, 2015	103,000	$3.23
Granted	-	-
Vested	(17,000)	3.23
Forfeited	-	-
Nonvested restricted stock at September 30, 2015	86,000	$3.23

(NOTE 3) – Debt:

On November 8, 2012, the Company entered into a credit agreement ("Credit Agreement") with a commercial lender pursuant to which the Company established a committed line of credit of up to $6,000,000. This line of credit was used to pay off, in full, all of the Company's obligations to its former primary lender and to provide for its general working capital needs. In June 2013, the Company's Credit Agreement was amended whereby the Company is permitted to purchase up to $400,000 of its common stock in each year beginning July 1 and ending June 30 during the term of the Credit Agreement. The Company was not in compliance with one of the financial covenants contained in its Credit Agreement at December 31, 2014. In March 2015, the Company's Credit Agreement was amended whereby (i) compliance with the Company's consolidated fixed charge coverage ratio was waived for the year ended December 31, 2014 (ii) the Company's consolidated fixed charge coverage ratio was amended and compliance with such amended ratio was waived for the quarter ending March 31, 2015 (iii) the Company is required to maintain consolidated tangible net worth of no less than $12,350,000 for each quarter beginning with the quarter ending March 31, 2015 (iv) the line of credit was reduced to $4,000,000 from $6,000,000 and (v) the Company is no longer required to have an aggregate of cash, marketable securities and excess availability under its borrowing base of no less than $3,000,000. In October 2015, the Company's Credit Agreement was further amended whereby the expiration date on its credit facility was extended to August 1, 2017.

Payment of interest on the line of credit is due at a rate per annum as follows: either (i) variable at the lender's prime lending rate (3.25% at September 30, 2015) and/or (ii) 2% over LIBOR for 30, 60 and 90 day LIBOR maturities, at the Company's sole discretion. The line of credit is collateralized by a first priority security interest in all of the Company's tangible and intangible assets. Outstanding borrowings under the line of credit were $1,495,000 at September 30, 2015 at an interest rate of 2.21% representing 2% plus the 30 day LIBOR rate. Outstanding borrowings under the line of credit were $1,725,000 at December 31, 2014 at an interest rate of 2.16% representing 2% plus the 30 day LIBOR rate. The Company had approximately $2,505,000 of availability under its line of credit at September 30, 2015.

The Credit Agreement contains customary affirmative and negative covenants and certain financial covenants. Additionally, available borrowings under the line of credit are subject to a borrowing base of eligible accounts receivable and inventory. All outstanding borrowings under the line of credit are accelerated and become immediately due and payable (and the line of credit terminates) in the event of a default, as defined, under the Credit Agreement. The Company was in compliance with the financial covenants contained in its Credit Agreement at September 30, 2015.

(NOTE 4) – Net Income (Loss) Per Common Share:

The following table sets forth the computation of basic and diluted net income (loss) per common share:

	Nine Months Ended September 30,		Three Months Ended September 30,	
	2015	2014	2015	2014
Denominator:				
Denominator for basic net Income (loss) per share - weighted-average common shares.....	4,377,000	4,384,000	4,337,000	4,382,000
Effect of dilutive securities:				
Employee and directors stock options	-	-	-	-
Unearned portion of restricted stock awards.....	-	-	-	-
Denominator for diluted net income (loss) per share - weighted-average common shares and assumed conversion....	4,377,000	4,384,000	4,337,000	4,382,000

The numerator for basic and diluted net income (loss) per share for the nine and three month periods ended September 30, 2015 and 2014 is the net income (loss) for each period.

Approximately 86,000 and 112,000 shares of common stock were outstanding at September 30, 2015 and 2014, respectively, but were not included in the computation of basic income (loss) per share. These shares were excluded because they represent the unvested portion of restricted stock awards.

(NOTE 5) - Cost of Sales:

For interim periods, the Company estimates certain components of its inventory and related gross profit.

(NOTE 6) - Inventories:

Inventories are comprised of the following:

	September 30, 2015	December 31, 2014
Raw Materials.....	$ 6,639,000	$ 6,934,000
Work-in-process.....	4,324,000	3,884,000
Finished goods.....	325,000	271,000
TOTAL	$11,288,000	$11,089,000

(NOTE 7) – Marketable Securities:

The following is a summary of the Company's available-for-sale marketable securities at September 30, 2015 and December 31, 2014:

September 30, 2015	Amortized Cost	Fair Value	Unrealized Holding Loss
Corporate Bonds	$ 298,000	$ 247,000	$(51,000)
December 31, 2014			
Corporate Bonds	$ 297,000	$ 284,000	$(13,000)

(NOTE 8) - Fair Value of Financial Instruments:

ASC 820*, Fair Value Measurements and Disclosures,* establishes a framework for measuring fair value in GAAP and expands disclosure about fair value measurements. This statement enables the reader of the financial statements to assess the inputs used to develop those measurements by establishing a hierarchy for ranking the quality and reliability of the information used to determine fair values. The statement requires that assets and liabilities carried at fair value will be classified and disclosed in one of the following three categories:

Level 1: Quoted market prices in active markets for identical assets or liabilities.

Level 2: Observable market based inputs or unobservable inputs that are corroborated by market data.

Level 3: Unobservable inputs that are not corroborated by market data.

In determining the appropriate levels, the Company performs a detailed analysis of the assets and liabilities that are subject to ASC 820.

The table below presents the balances, as of September 30, 2015 and December 31, 2014, of assets measured at fair value on a recurring basis by level within the hierarchy.

September 30, 2015	Total	Level 1	Level 2	Level 3
Corporate Bonds	$ 247,000	$ 247,000	$ -	$ -
December 31, 2014	Total	Level 1	Level 2	Level 3
Corporate Bonds	$ 284,000	$ 284,000	$ -	$ -

(NOTE 8) - Fair Value of Financial Instruments (continued):

The Company's only asset or liability that is measured at fair value on a recurring basis is marketable securities, based on quoted market prices in active markets and therefore classified as level 1 within the fair value hierarchy. The carrying value of cash and cash equivalents, accounts receivable, accounts payable and line of credit reasonably approximate their fair value due to their relatively short maturities. The fair value estimates presented herein were based on market or other information available to management. The use of different assumptions and/or estimation methodologies could have a significant effect on the estimated fair value amounts.

(NOTE 9) - Business Segments:

The Company conducts its operations through two business segments, the Electronics Segment (or "Electronics Group") and the Power Units Segment (or "Power Group"). The Electronics Group is comprised of the Orbit Instrument, TDL and ICS Divisions. Through its Orbit Instrument and TDL Divisions, it is engaged in the design, manufacture and sale of customized electronic components and subsystems. ICS, located in Louisville, Kentucky, performs systems integration for gun weapons systems and fire control interface, cable and harness assembly, as well as logistics support and documentation. The Power Group is comprised of Behlman and is engaged in the design and manufacture of high quality commercial power units, AC power, frequency converters, uninterruptible power supplies and commercial-off-the-shelf ("COTS") power solutions.

The Company's reportable segments are business units that offer different products. The reportable segments are each managed separately as they manufacture and distribute distinct products with different production processes.

The following is the Company's business segment information for the nine and three month periods ended September 30, 2015 and 2014:

(NOTE 10) - Goodwill:

As of September 30, 2015 and December 31, 2014, the Company's goodwill consists of the following:

Gross Carrying Value	Accumulated Amortization	Accumulated Impairment	Net Carrying Value
$868,000	$ -	$ -	$ 868,000

(NOTE 11) – Income Taxes:

For the nine and three months ended September 30, 2015, the Company recorded $7,000 and ($32,000), respectively, of state income and minimum tax expense (benefit). For the comparable periods in 2014, the Company recorded income tax expense of $13,000 and ($16,000), respectively, for state income and minimum tax expense (benefit). As of September 30, 2015, the Company has no material uncertain tax positions. At September 30, 2015, the Company continued to record a full valuation allowance on its net deferred tax asset.

(NOTE 12) – Equity:

On November 6, 2013, the Company’s Board of Directors authorized management to purchase up to $400,000 of its common stock pursuant to a buy back program. In conjunction with the buy back program, the Company’s Board of Directors authorized management to enter into a 10b5-1 Plan through which the Company purchased $200,000 of its common stock and completed the plan.

During the current year second quarter and in conjunction with the buy back program, the Company’s Board of Directors authorized management to enter into a new 10b5-1 Plan through which the Company was permitted to purchase up to $150,000 of its common stock. From May 14, 2015 to August 10, 2015, the Company purchased a total of 4,090 shares of its common stock under the Plan, for total cash consideration of approximately $12,000 for an average price of $2.92 per share.

(NOTE 12) – Equity (continued):

During August 2015, the Company's Board of Directors approved the purchase of 86,000 shares of its common stock, for total cash consideration of approximately $252,000, outside of the 10b5-1 Plan. The treasury shares and common shares associated with this purchase were retired in August 2015. As a result of this purchase, the 10b5-1 Plan was amended thereafter to reduce the amount of common shares the Company is permitted to purchase from $150,000 to $100,000. From August 11, 2015 to November 11, 2015, the Company purchased a total of 6,550 shares of its common stock under the amended Plan, for total cash consideration of approximately $20,000 for an average price of $2.99 per share.

(NOTE 13) – Consolidation of Operations:

In October 2013, the Company decided to consolidate the operations of its TDL subsidiary, located in Quakertown, PA into its Orbit International Corp. facility located in Hauppauge, New York. This decision was based on a number of factors, among them, TDL's lease which expired October 31, 2014, the uneven revenue stream at TDL, the uncertainty surrounding defense spending related to budget discussions in Washington DC and the Company's broader focus on cutting costs and promoting operating efficiencies. During the year ended December 31, 2014, the Company incurred a $1,089,000 operating loss from its TDL subsidiary, which included costs associated with the consolidation of its Quakertown facility including approximately $161,000 of accelerated non-cash amortization and depreciation expense.
