(4) Issuance History

Q4 of 2014 saw the beginning of a capital restructuring of the corporation, in anticipation of a broadening of its corporate goals. The company sought to remove debt from its books, and several Convertible Debt holders elected to convert the debt into common shares of the company, on a pre-split basis.

This conversion of debt into common shares was consistent with the disclosures that we have made relative to convertible debentures and the notional number of shares that have been disclosed as issued and outstanding in the marketplace.
