OTC Markets

OTC Pink® Basic Disclosure Guidelines

Federal securities laws, such as Rules 10b-5 and 15c2-11 of the Securities Exchange Act of 1934 ("Exchange Act") as well as Rule 144 of the Securities Act of 1933 ("Securities Act"), and state Blue Sky laws, require issuers to provide *adequate current information* to the public markets. With a view to encouraging compliance with these laws, OTC Markets Group has created these OTC Pink Basic Disclosure Guidelines. We use the basic disclosure information provided by OTC Pink companies under these guidelines to designate the appropriate tier in the OTC Pink marketplace: Current, Limited or No Information. OTC Markets Group may require companies with securities designated as Caveat Emptor to make additional disclosures in order to qualify for OTC Pink Current Information tier.

Qualifications for the OTC Pink - Current Information Tier

Companies that make the information described below publicly available on a timely basis (90 days after fiscal year end for Annual Reports; 45 days after each fiscal quarter end for Quarterly Reports) qualify for the Current Information Tier. Financial reports must be prepared according to U.S. GAAP or IFRS, but are *not required to be audited* to qualify for the OTC Pink Current Information tier.

Initial Qualification:

- Subscribe to the OTC Disclosure & News Service on www.OTCIQ.com to publish your financial reports and material news.

- Create the following documents, save them in PDF format and upload them via www.OTCIQ.com:
  - Annual Financial statements (Document must Include: Balance Sheet, Income Statement, Statement of Cash Flows, Notes to Financial Statements) for the previous two fiscal years. If these reports are audited, please attach the audit letter from the PCAOB registered audit firm. Each year's Annual Financial statements should be posted separately under the report type "Annual Report" in OTCIQ.
  - Any subsequent Quarterly Reports since the most recent Annual Report.
  - The most recent fiscal period end report should also include information in accordance with these OTC Pink Basic Disclosure Guidelines; use the fillable form beginning on page 3.

- If financial reports are not audited by a PCAOB registered audit firm:
  - Submit a signed Attorney Letter Agreement (first two pages of the Attorney Letter Guidelines).
  - After following the appropriate procedures with a qualified attorney, upload an Attorney Letter complying with Attorney Letter Guidelines through your otciq.com account.

Ongoing Qualification:

- **For each Fiscal Quarter End**, upload a Quarterly Report via www.OTCIQ.com within **45** days of the quarter end. (A separate quarterly report is not required for the 4th quarter.) The Quarterly Report should include:
  - Information in accordance with these OTC Pink Basic Disclosure Guidelines -- use the fillable form beginning on page 3.
  - Quarterly financial statements (Balance Sheet, Income Statement, Statement of Cash Flows, Notes to Financial Statements).
  - No Audit Letter or Attorney Letter is required**.**

- **For each Fiscal Year End**, upload an Annual Report within **90 days** of the fiscal year end. The Annual Report should include:
  - Information in accordance with these OTC Pink Basic Disclosure Guidelines -- use the fillable form beginning on page 3.

    - Annual financial statements (Balance Sheet, Income Statement, Statement of Cash Flows, Notes to Financial Statements, and Audit Letter, if the financial statements are audited).

- If financial reports are not audited by a PCAOB registered audit firm, upload an Attorney Letter via www.OTCIQ.com complying with the Attorney Letter Guidelines within **120 days** of the fiscal year end.

Qualifications for the OTC Pink - Limited Information Tier

Companies that make the information described below publicly available within the prior 6 months qualify for the Limited Information Tier.

- Subscribe to the OTC Disclosure & News Service on www.OTCIQ.com to publish your financial reports and material news.
- Create a Quarterly Report or Annual Report for a fiscal period ended within the previous 6 months, save it in PDF format and upload it via www.OTCIQ.com. The Quarterly Report or Annual Report includes:
    - Balance Sheet, Income Statement, and Total Number of Issued and Outstanding Shares. Financial statements must be prepared in accordance with US GAAP, but are not required to be audited. (Please note that Cash Flow Statements are not required to qualify for the Limited Information tier; however, unless the financial statements include a Cash Flow Statement, no financial data will be included in the OTC Financials Data Service, which distributes company financial data to online investor portals and makes the data available on your company's Financials tab on www.otcmarkets.com)
    - A company in the Limited Information tier, may, but is not required to, include information in accordance with these OTC Pink Basic Disclosure Guidelines using the fillable form beginning on page 3.

Current Reporting of Material Corporate Events

OTC Markets Group encourages companies to make public disclosure available regarding corporate events that may be material to the issuer and its securities. Persons with knowledge of such events would be considered to be in possession of material nonpublic information and may not buy or sell the issuer's securities until or unless such information is made public. If not included in the issuer's previous public disclosure documents or if any of the following events occur after the publication of such disclosure documents, the issuer shall publicly disclose such events by disseminating a news release within 4 business days following their occurrence, and posting such news release through the OTC Disclosure & News Service.

Material corporate events include:

- Entry or Termination of a Material Definitive Agreement
- Completion of Acquisition or Disposition of Assets, Including but not Limited to mergers
- Creation of a Direct Financial Obligation or an Obligation under an Off-Balance Sheet Arrangement of an Issuer
- Triggering Events That Accelerate or Increase a Direct Financial Obligation or an Obligation under an Off-Balance Sheet Arrangement
- Costs Associated with Exit or Disposal Activities
- Material Impairments
- Sales of Equity Securities

- Material Modification to Rights of Security Holders
- Changes in Issuer's Certifying Accountant
- Non-Reliance on Previously Issued Financial Statements or a Related Audit Report or Completed Interim Review
- Changes in Control of Issuer
- Departure of Directors or Principal Officers; Election of Directors; Appointment of Principal Officers
- Amendments to Articles of Incorporation or Bylaws; Change in Fiscal Year
- Amendments to the Issuer's Code of Ethics, or Waiver of a Provision of the Code of Ethics
- Other events the issuer considers to be of importance
-

OTC Pink Basic Disclosure Guidelines

1) Name of the issuer and its predecessors (if any)

In answering this item, please also provide any names used by predecessor entities in the past five years and the dates of the name changes.

Sidney Resources Corporation - August 25, 2009 Idaho
Sidney Resources Corporation - January 3, 2002 Nevada

2) Address of the issuer's principal executive offices

Company Headquarters
Address 1: PO Box 817
Address 2: Lewiston, ID 83501
Address 3:
Phone: 414.379.7210

3) Security Information

Trading Symbol: SDRC
Exact title and class of securities outstanding: common shares
CUSIP: 826151102
Par or Stated Value: 0.0001
Total shares authorized: 500,000,000 as of: June 30, 2015
Total shares outstanding: 106,116,830 as of: September 30, 2015

Total restricted: 39,153,474 as of:
Total free trading: 66,963,356 as of: September 30, 2015
Total shareholders: 1673 as of: September 30, 2015
Total certificates: 2986 as of: September 30, 2015

Transfer Agent
Name: OTC Stock Transfer, Inc.
Address 1: 6364 South Highland Drive, Suite 201
Address 2: Salt Lake City, Utah 84121
Address 3:
Phone: 801.272.7272
Is the Transfer Agent registered under the Exchange Act?* Yes: X No:

*To be included in the OTC Pink Current Information tier, the transfer agent must be registered under the Exchange Act.

List any restrictions on the transfer of security:

None

Describe any trading suspension orders issued by the SEC in the past 12 months.

None

List any stock split, stock dividend, recapitalization, merger, acquisition, spin-off, or reorganization either currently anticipated or that occurred within the past 12 months:

None

4) Issuance History

List below any events, in chronological order, that resulted in changes in total shares outstanding by the issuer in the past two fiscal years and any interim period. The list shall include all offerings of equity securities, including debt convertible into equity securities, whether private or public, and all shares or any other securities or options to acquire such securities issued for services, describing (1) the securities, (2) the persons or entities to whom such securities were issued and (3) the services provided by such persons or entities. The list shall indicate:

- The nature of each offering (e.g., Securities Act Rule 504, intrastate, etc.);

Stock Issued for Services During January 1, 2011 – September 30, 2015.

IRC of Wisconsin 600,000 restricted common shares for consulting services rendered

Stock Privately Purchased During January 1, 2011 - March 31, 2015.

Each Purchase was Private with no Registration.
68,636 restricted common shares purchased for $0.02 per share = $1,372.72
1,722,222 restricted common shares purchased for $0.004 per share = $7,250.00
500,000 restricted common shares purchased for $0.01 per share = $5,000.00
2,000,000 restricted common shares purchased for $0.0035 per share = $7,000.00
10,000,000 restricted common shares purchased for $0.0044 per share = $10,000.00
2,500,000 restricted common shares purchased for $0.0058 per share = $14,500.00
2,970,297 restricted common shares purchased for $0.0048 per share = $14,500.00
3,000,000 restricted common shares purchased for $0.0048 per share = $14,500.00
300,000 restricted common shares purchased for $0.01 per share = $3,000.00
300,000 restricted common shares purchased for $0.01 per share = $3,000.00
200,000 restricted common shares purchased for $0.01 per share = $2,000.00
100,000 restricted common shares purchased for $0.01 per share = $1,000.00
200,000 restricted common shares purchased for $0.01 per share = $2,000.00
100,000 restricted common shares purchased for $0.01 per share = $1,000.00
100,000 restricted common shares purchased for $0.01 per share = $1,000.00

- Any jurisdictions where the offering was registered or qualified;

N/A

- The number of shares offered;

N/A

- The number of shares sold;

See above

- The price at which the shares were offered, and the amount actually paid to the issuer;

See above

- The trading status of the shares; and

Restricted, with legend

- Whether the certificates or other documents that evidence the shares contain a legend (1) stating that the shares have not been registered under the Securities Act and (2) setting forth or referring to the restrictions on transferability and sale of the shares under the Securities Act.

All stock was issued with the appropriate Rule 144 legend

5) Financial Statements

Provide the financial statements described below for the most recent fiscal year end or quarter end to maintain qualification for the OTC Pink Current Information tier. For the initial disclosure statement (qualifying for Current Information for the first time) please provide reports for the two previous fiscal years and any interim periods.

- Balance sheet;
- Statement of income;
- Statement of cash flows;
- Financial notes; and
- Audit letter, if audited

The financial statements requested pursuant to this item shall be prepared in accordance with US GAAP by persons with sufficient financial skills.

You may either (i) attach/append the financial statements to this disclosure statement or (ii) post such financial statements through the OTC Disclosure & News Service as a separate report using the appropriate report name for the applicable period end. ("Annual Report," "Quarterly Report" or "Interim Report").

If you choose to publish the financial reports separately as described in part (ii) above, you must state in the accompanying disclosure statement that such financial statements are incorporated by reference. You may reference the document(s) containing the required financial statements by indicating the document name, period end date, and the date that it was posted to otciq.com in the field below.

The September 30, 2015 Financial Statements are incorporated by reference and are being filed separately.

Information contained in a Financial Report is considered current until the due date for the subsequent Financial Report. To remain in the OTC Pink Current Information tier, a company must post its Annual Report within 90 days from its fiscal year-end date and Quarterly Reports within 45 days of its fiscal quarter-end date.

6) Describe the Issuer's Business, Products and Services

Describe the issuer's business so a potential investor can clearly understand the company. In answering this item, please include the following:

- a description of the issuer's business operations;

Sidney Resources Corporation has been preparing for work to begin on July 25, 2015 at the Lucky Ben Mine Group properties located in the Warren Mining District in Central Idaho. The Lucky Ben Mine Group properties consists of three patented, deeded claims totaling 53 acres+/- and 2 unpatented claims totaling 80 acres +/-. Dan Hally of Sidney Resources Corporation will be accompanied by Project Geologist, Richard Morris, along with a field assistant, a Mining Engineer, and a Project Engineer.

Our Team is planning to examine the Adit for necessary improvements as well as the area around the Adit that will be necessary to provide safe access to remove the cave in which currently blocks full tunnel access approximately 75 feet into the tunnel. It was common practice in mines such as the Lucky Ben for miners to close a tunnel by causing a cave in just inside the tunnel entrance. The purpose of these closures was to protect the valuable ore from unauthorized mining activities. Our Project Engineer is preparing an operation plan and cost estimate for removing the blockage and open the remaining tunnel for further sampling and inspection.

On June 2, 2015, Sidney Resources personnel met with staff members of the Payette National Forest McCall Ranger District on site to complete a review of the permit application for use of the Arlise Gulch Road and to complete an assessment of the current road conditions and outline necessary improvements and hazard mitigation work to be completed upon approval and issuing of the road use permit requested by Sidney Resources.

A notice was received from the McCall Ranger District that the permit application for use of the Arlise Gulch Road was approved and permission was granted for work to begin clearing downed trees and debris from the road.

On July 3rd work began to clear downed trees, rocks and brush from the road and the work was completed on July 5th. The Lucky Ben Mine Property and main Adit are now accessible and additional work has begun to protect the creek crossing and manage water runoff as outlined in the permit.

It is our goal to complete the removal of the tunnel blockage and inspect and sample the existing underground structures to include the tunnel, shafts and stopes. In addition to this work, it is our plan to complete sampling of the main historical dump as well as multiple other smaller dumps we located during our assessment of the claims. We will do an extensive trenching program to allow sampling along the primary vein structure and in areas we located that upon initial assessment indicate the likelihood of additional structures located on the claims.

The following is an anticipated plan for future development activities:

1. Receive and review operational plan & estimates by Ground Hog Mining for opening the tunnel and cleaning out the cave-in.
2. Open tunnel and trench NE from the "Open Cut".
3. Complete inspection, mapping, and sampling of all safely accessible areas.
4. Improve Adit area
5. Submit all samples for assa6.Continue work with the U.S. Forest Service to improve access to the properties and minimize environmental impact.
6. Review assay data.
7. Develop continued exploration/development work based on data & funding.

We are working with our Project Geologist and a group of Mining Engineers who have extensive experience in the development of properties similar to the Lucky Ben Mine Group. The team of experts we have assembled have an extensive level of experience in the Warren Mine District and they will play a key role in developing the plan for moving the property forward and have been invaluable this season as we continue to complete work on site.

Work continued in September on site at the Lucky Ben Mine Group properties and Dan Hally of Sidney Resources Corporation and Project Geologist, Richard Morris, along with a small crew continued work to clear the Adit of material and water in preparation for work to begin on clearing the cave in located approximately 50 feet inside the tunnel.

Our Team was successful in clearing the Adit of debris and completed the work on a temporary drainage system to keep water from building within the tunnel. Accessible areas of the tunnel and main stoop were mapped and measured.

Trenching was completed in the area of the landing in front of the Adit which is one of the locations of the historical main dump. Road work in this area that was completed under the previous administration buried the dump well under parts of the road. Trenching was completed in an attempt to sample the historical dump and determine the economic feasibility of processing the dump contents. The results of the trenching at this time indicate that it wouldn’t be economically feasible to process the dump material because it is highly diluted with overburden and fill from the road construction and landing construction that was previously completed in this area.

The first stope was accessed and strongly iron-oxidized vein quartz material was removed from the stope where the early mining activity stopped. Samples contained visible gold.

Our Project Engineer and Mining Contractor have completed an operation plan and cost estimate for removing the blockage and open the remaining tunnel for further sampling and inspection. The following photos are of the tunnel blockage.

Our focus is on raising the next $100,000.00 which will allow us to continue operating and open up the tunnel so we can inspect and sample the existing underground structures including the shafts and stopes. Our Mining Contractor is ready to mobilize their equipment and crews once we have the funding secured but work will need to begin as soon as possible before winter arrives. They estimate 20 days to complete the work and once the tunnel is opened we can complete underground work even with snow on the ground as long as snow depths are manageable.

The removal of the blockage is imperative to the project moving forward and the following is an overview of how we the project will proceed.

CLEAN-OUT - Clean out the cave-in 50' from the tunnel entrance to gain access to the rest of the adit. Any other caved in areas also need to be cleaned out, including raises that may or may not have been driven to the surface. The adit must be completely accessible to the face (end of the existing tunnel), we must also pump out the winze, (An inclined or vertical shaft or passage between levels in a mine), as Czizek talked about in the Leland Transcript. It is very important that sampling be done at this location. The purpose of this work is to gain access to all areas that were mined, and also areas that were not mined, but showed quartz veining that could host potentially valuable mineralization.

SAMPLING - All areas that were mined should be sampled. Just because mining stopped in a particular area doesn't mean they were out of ore. It means they were out of V.G. (visible gold). Assaying in these areas may still show high enough gold/silver values to warrant continued exploration efforts. All quartz veins not mined should also be sampled. Just because they weren't mined doesn't necessarily mean they carry no values. The Czizek's were mining only material that showed only visible gold like we found in the sample we collected. This doesn't mean that what was left has no values, it means that these areas just didn't meet their requirements at the moment. Careful attention should be paid to the winze because that was supposed to be carrying high grade gold values.

EXPLORATION/DEVELOPMENT – We are anticipating areas where exploration to develop reserves are obvious, once the sample assay results are plotted. Exploration in favorable areas should be planned and undertaken as assay results dictate. If good values show up from samples in the winze, then the question becomes "how do we check for the down-dip extension of this zone. Our Geologist has suggested that we drive a drift northward from the south-facing slope to cut the vein - say 100' below the adit level. Once the vein is crossed, slusher drifts could be driven 150' in each direction along the vein (300' total) to test the mineralization. If significant values are found then a raise (or raises) should be driven upward to the adit level to further explore & develop this (these) zone (zones). Other zones with significant gold/silver values should also be explored & developed. The object of this work is to show that yes, we do have X tons with the appropriate values and they can be economically mined. Economic mining, however, is contingent on a mining plan (to be developed) that shows the developed reserves can successfully mined This plan will have to be worked out so a minimum of dilution results from mining a narrow vein plus other costs, such as ore transportation to the mill, are shown to be feasible. With the assistance of our geologist, mining engineer and mining contractor we are developing our 5 year plan.

EXPLOITATION - The object of all this work is to see if the developed reserves can be economically mined. A costing plan will help determine this. Mining at the Lucky Ben will be a smaller scale in comparison to large mine operations and because of the narrow vein structure will have limited daily

tonnage capacity. We are exploring a milling and processing solution for the ore once we move into full production.

We are continuing to explore alternatives to our current road access because of the challenges the current road creates. The current road which is known as the Arlise Gulch Road has a 31% grade and it is narrow and rocky. We are working with the U.S. Forest Service to identify a new road location that will eliminate the steep grades and water crossings. Two proposals are being drafted and work on permits will be completed during the winter. We completed additional survey work on the surface that helps us better identify the vein structure and help plan for future operations.

The Lucky Ben Mine is located in central Idaho in an area of historic gold mining, which included not only underground operations but also much placer mining with as many as 4 dredges in operation. Early surface exploration work at the Lucky Ben included both trenching and test pits. The major, most important work in the early 1900's included driving a 900' - 1,000' adit (tunnel) along the strike (direction) of a 1' - 2' wide, gold-bearing quartz vein. Several raises were also driven upward from the adit level to the surface to test the upward limits of the vein in favorable areas. One of these raises is still open and a camera lowered from the surface bottomed at the adit level, about 200' down. Although the picture wasn't too clear, it did show that a quartz vein was present in the raise and this will be an obvious area for sampling where accessible. The steep dip of the vein, the unfavorable topography, and the erratic nature of the mineralization strongly suggests that all exploration and sampling should, and will, be done underground. This will be especially true in any areas that were mined in the past. It is hoped also that silver values will provide a favorable boost in assay values. Silver values were never included, or paid for, in the past operation.
Resource blocks will hopefully be developed upon receipt of assays from the sampling program. Past work at the Lucky Ben showed a 1' - 2' wide mineralized quartz vein was mined. Samples will be taken at 5' intervals to help determine where potential ore reserves might be located. Reserves will then be converted to "ore blocks" if favorable assays and a cost program show we can operate with an acceptable amount of dilution and still have an economically successful operation above an economic cut-off grade. Costs will include not only the mining cost, but also ore-to-mill transportation cost, milling cost, concentrate transportation cost from mill to smelter, and a favorable smelter settlement contract. Free gold recovered during milling might be smelted locally.
While the sampling program is ongoing, an internal exercise must be completed to determine what minimum mining width is likely to prevail, given the attitude of the veins and the competency and mineralogy of the veins and wall rocks. With the knowledge of the dilution factor applicable then an estimate must be made of the cost to mine and process the mineralized material and thereby generate an economic cutoff grade to apply to the subsequent resource estimation.

We are continuing to focus on raising the necessary capital to keep the project moving forward and secure the funding so we can complete the removal of the blockage before winter sets in. We will continue to provide information to potential large scale investors as well as explore other sources such as EB-5 funding opportunities to address our long range requirements.

Over the past 8 months we have made significant progress in securing the necessary expertise to include our geologist and engineering consultants as well as identifying and securing a mining contractor. We now have a sound working relationship with the U.S. Forest Service and have the necessary expertise to move our operational plans forward for underground work that will meet Mine Safety and Health Administration requirements. These important steps when combined with the onsite work and improvements put us in a position where we are ready to continue moving forward as monies becomes available which will ensure the success of Sidney Resources Corporation.

Safe Harbor Forward-Looking Statements

To the extent that statements in the above information are not strictly historical, including statements as to revenue projections, business strategy, outlook, objectives, future milestones, plans, intentions, goals, future financial conditions, future collaboration agreements, the success of the Company's development, events conditioned on stockholder or other approval, or otherwise as to future events,

such statements are forward-looking, and are made pursuant to the safe harbor provisions of the Private Securities Litigation Reform Act of 1995. The forward-looking statements contained in this release are subject to certain risks and uncertainties that could cause actual results to differ materially from the statements made

- Date and State (or Jurisdiction) of Incorporation:

August 25, 2009 - Idaho

- the issuer's primary and secondary SIC Codes;

1040 Gold and Silver Ores

- the issuer's fiscal year end date;

December 31

7) Describe the Issuer's Facilities

The goal of this section is to provide a potential investor with a clear understanding of all assets, properties or facilities owned, used or leased by the issuer.

In responding to this item, please clearly describe the assets, properties or facilities of the issuer, give the location of the principal plants and other property of the issuer and describe the condition of the properties. If the issuer does not have complete ownership or control of the property (for example, if others also own the property or if there is a mortgage on the property), describe the limitations on the ownership.

If the issuer leases any assets, properties or facilities, clearly describe them as above and the terms of their leases.

None

8) Officers, Directors, and Control Persons

The goal of this section is to provide an investor with a clear understanding of the identity of all the persons or entities that are involved in managing, controlling or advising the operations, business development and disclosure of the issuer, as well as the identity of any significant shareholders.

A. Names of Officers, Directors, and Control Persons. In responding to this item, please provide the names of each of the issuer's executive officers, directors, general partners and control persons (control persons are beneficial owners of more than five percent (5%) of any class of the issuer's equity securities), as of the date of this information statement.

Gregg Lindner, Director and CEO, Daniel Hally, Director, Secretary, Treasurer and Vice-President of Finance.

B. Legal/Disciplinary History. Please identify whether any of the foregoing persons have, in the last five years, been the subject of:

- A conviction in a criminal proceeding or named as a defendant in a pending criminal proceeding (excluding traffic violations and other minor offenses);

  None

- The entry of an order, judgment, or decree, not subsequently reversed, suspended or vacated, by a court of competent jurisdiction that permanently or temporarily enjoined, barred, suspended or otherwise limited such person's involvement in any type of business, securities, commodities, or banking activities;

  None

3. A finding or judgment by a court of competent jurisdiction (in a civil action), the Securities and Exchange Commission, the Commodity Futures Trading Commission, or a state securities regulator of a violation of federal or state securities or commodities law, which finding or judgment has not been reversed, suspended, or vacated; or

   None

4. The entry of an order by a self-regulatory organization that permanently or temporarily barred suspended or otherwise limited such person's involvement in any type of business or securities activities.

   None

C. Beneficial Shareholders. Provide a list of the name, address and shareholdings or the percentage of shares owned by all persons beneficially owning more than ten percent (10%) of any class of the issuer's equity securities. If any of the beneficial shareholders are corporate shareholders, provide the name and address of the person(s) owning or controlling such corporate shareholders and the resident agents of the corporate shareholders.

   None

   CEDE & Co Depository Trust Company

9) Third Party Providers

Please provide the name, address, telephone number, and email address of each of the following outside providers that advise your company on matters relating to operations, business development and disclosure:

Legal Counsel
Name: Jonathan Hally
Firm: Blewett Mushlitz, LLP
Address 1: 301 D Street
Address 2: Lewiston, Idaho 83501
Phone: (208) 413-6678
Email: jonhally@idahoconstructionlawyers.com

Accountant or Auditor
Name: Wm. Thomas Baker, P.A.
Firm:
Address 1: 8245 Cornerstone
Address 2: Hayden, ID 83835
Phone: 208-762-9737
Email: tom@tombakercpa.com

Legal Counsel
Name: Morgan E. Petitti, Esq.
Firm: Petitti Law
Address 1:114 Barrington Town Square, Suite 159
Address 2: Aurora, Ohio 44202
Phone: 330-697-8548
Email: PetittiLaw@gmail.com

Geologist: Any other advisor(s) that assisted, advised, prepared or provided information with respect to this disclosure statement.
Name: Richard Morris
Firm:
Address 1: 2320 Bolivar Rd
Address 2: Spokane Valley, WA
Phone:
Email: wrockhammer@gmail.com

10) Issuer Certification

The issuer shall include certifications by the chief executive officer and chief financial officer of the issuer (or any other persons with different titles, but having the same responsibilities).

The certifications shall follow the format below:

I, Gregg Linder certify that:

1. I have reviewed this quarterly disclosure statement of Sidney Resources Corporation;

2. Based on my knowledge, this disclosure statement does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this disclosure statement; and

3. Based on my knowledge, the financial statements, and other financial information included or incorporated by reference in this disclosure statement, fairly present in all material respects the financial condition, results of operations and cash flows of the issuer as of, and for, the periods presented in this disclosure statement.

November 05, 2015 [Date]
