PERMANENT TECHNOLOGIES, INC.
NOTES TO FINANCIAL STATEMENTS
SEPTEMBER 30, 2015

NOTE 1: NATURE OF OPERATIONS

The Company is in the business of designing and manufacturing a patented multi-faceted, vibration-proof, self-locking nut and bolt system to be used in the fastener industry. The Company also manufactures and sells a patented removal tool. The patents include numerous USA and Canadian patents as well as patents in the UK, EU, China, and industrialized South American countries.

NOTE 2: BASIS OF ACCOUNTING AND GOING CONCERN ASSUMPTION

The accompanying financial statements present financial results on an accrual basis of accounting.

The financial statements have been prepared on a going concern basis, which presumes the realization of assets and discharge of liabilities in the normal course of business for the foreseeable future.

The Company has not realized profit from operations since its inception. As of September 30, 2015, the Company is in the development stage and will not generate significant revenues or profitable operations in the near future and there can be no assurance that it will either achieve or maintain profitability in the future. As a result, the Company may be unable to continue as a going concern.

The Company will also require additional capital to fund its continuing operations and development. The Company's ability to continue as a going concern is dependent on its ability to raise additional capital, bring its products to market and achieve and maintain profitable operations. The outcome of these matters cannot be predicted at this time. These financial statements do not include any adjustments which might be necessary should the Company be unable to continue its operations.

NOTE 3: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES
