Item 6. Describe the Issuer's Business, Products and Services

A. Description of the Issuer's Business Operations: Hop-on, Inc. (HPNN.PK) Since 2003, the Company has continually obtained essential patent portfolio license agreements for mobile communications, computing and home entertainment devices.

Hop-on has relationships with worldwide wireless carriers that have now fewer vendor options since Nokia moves to buy Alcatel-Lucent, Huawei and ZTE and having security and IPR issues.

Hop-on, Inc. is an international leader in the development and manufacture of electronics, distributed software and telecommunications hardware and services. Since inception in 1993, the company has a long-standing history of innovation and progressive market development, and has maintained position as one of the few remaining US-based manufacturers of wireless technology. Hop-on is known for developing the world's first disposable cell phone.

Hop-on has numerous licensing agreements for GSM, CDMA, and 4G LTE, WIFI, Infrastructure Equipment, Base Stations and base station controllers; circuit switched and packet switched core network elements such as mobile switching, gateway servers and support nodes; transmission equipment; home, visitor and equipment identity registers, network management and operation and maintenance equipment; devices and appliances providing interfaces and Subscriber Terminals and/or fixed telephone networks, multimedia services or the Internet and test equipment for different technologies.

Hop-on is one of eight ODMs with a license with Microsoft for their patent portfolio of Android Operating systems (link: http://news.microsoft.com/2014/02/20/hoponpr/)

Hop-on has sales opportunities for mobile computing and machine-to-machine (M2M) communications products that work over cellular networks. Hop-on is in the process of selling 3G and 4G mobile broadband wireless modems, routers and gateways as well as software, tools, and services for niche markets. These markets include healthcare, automotive and transportation, energy, field service, industrial and infrastructure, networking, sales and payment, and security gateways.

Hop-on is bringing a network of specialists in mobile broadband and M2M integration to support customer's worldwide, focused on emerging markets and regional/rural carriers.

Hop-on is poised to add 5G & next generation networks to microcells, MBMS to security innovations that will capitalize on global trends and will create a more effective pricing model business for 5G / 4G / LTE, Antennas, Connectivity, IoT, M2M, Small Cells.

In the US and EU markets with the merger of Nokia and Alcatel will create a niche market and less hardware and software providers to work with whom have the proper IPRs. Hop-on is composed to take advantage of Huawei and ZTE that have been "effectively" barred from executing with US and European carriers over national security concerns and violating IPR's from essential patent holders.

Below is a summary listing of the trademarks owned by the Company:

Hop-on Trademark
Chitter Chatter Trademark

D. The Issuer's Fiscal Year End Date

December 31

E. Principal Products or Services and Their Markets

Hop-on, Inc. (HPNN.PK) is a global ODM and OEM innovator of manufacturing of consumer and commercial electronics, based in the United States and China. Over the past 22 years, Hop-on has successfully secured essential patents for mobile communications and computing technologies, and is respected for developing the world's first disposable cell phone. Hop-on's focus is on innovative tier-1 quality consumer/commercial electronics targeting today's demanding world market. For more information, please visit www.hop-on.com

Hop-on Wireless, Inc. is a wholly owned subsidiary that is on the cutting edge of wireless technology. Our success in securing essential patents for GSM and CDMA technologies has resulted in license agreements with(this is not a sentence) Hop-on offers a variety of GSM cell phones, from low-cost to smart phone technology in support of Hop-ons MVNE and MVNO business solutions. These handset models will work in all GSM frequency bands for domestic and international carriers.

Hop-on Telecom Division focuses on worldwide, industry specific cell phone solutions and currently includes:
Hop-on Mobile S. de R.L. de C.V., Mexico is a wholly owned subsidiary. Currently Hop-on Mobile is not doing any business. Previously the Company was marketing and distributing the world's first tourism industry specific cell phone with 24 hour a day privileges and services. The Company is looking to exploit its "first mover" advantage and bring its truly new and innovative product to market in Mexico and neighboring markets.

USAcig, Inc. is a wholly owned subsidiary that specializes electronic cigarettes and production of "The Electric Cigarette™" (TEC) and "The Electric Cigar™". Currently not in operations.

Mobile Gaming Corp, Inc., www.webcasinos.com a wholly owned subsidiary focusing on "Web Casinos" provides Hop-on's core gambling interactive gaming technology that is based on a proprietary software solution. Hop-on is positioned to provide a next generation wagering solution for mobile and interactive multimedia broadband networks. This will address security and interoperability issues raised by mobile, PC, and Satellite TV wagering. Mobile Gamine Corp provides best of breed technology and competitive solutions to fill the need for authentication, access control, charging in a mobile network, PC and Satellite Television for live interactive wagering in legal jurisdictions. Hop-on has the capability of creating a new "white label" branding solution for company that wants to take advantage of the multibillion dollar industry in real-time. Amidst the Facebook era, we are surrounded by a generation of savvy Internet users that are looking for new social media channels. Web Casinos offer the new media for On-line Poker, Black Jack, Baccarat and other venues for social wagering. Hop-on is in the process of negotiating a license deal for its use of its gaming software.

Item 7. Describe the Issuer's Facilities

The Company utilizes a PO BOX 940, Temecula CA 92593-0940. The Company also has satellite offices in Shenzhen, China and Temecula, California. The cost of the office in Shenzhen is carried by the OEM partner in China.

There are no other substantial leases, assets or property, other than the intellectual property and the majority ownership of another public company which is detailed in the Financial Statements and the Notes to the Financial Statements, both of which were filed with OTCMarkets on July 7, 2015 and are incorporated by reference herein.

Item 8. Officers, Directors and Control Persons
