Item 6 Description of Business, Products and Services

a. Description of the issuer's business operations:

Complete Financial Solutions Inc. is an emerging financial services company, currently primarily engaged in mortgage services. Through our subsidiary Acceptance Capital Mortgage Corporation ("ACMC"), we are currently licensed in 27 states to service the borrowing and refinancing needs of individual home buyers and owners. As an independent residential mortgage broker and lender, ACMC originates mortgages in approximately 55 branch offices utilizing about 170 employees. We have access to the products and services of over sixty lenders, including five mini-correspondent banking lines, and are eligible to underwrite loans in our own name. Although we currently focus on mortgage solutions, we are developing additional financial product and service offerings for our mortgage customers and the real estate community, such as insurance services, credit repair services, loan servicing and banking services.

b. Date and State (or Jurisdiction) of Incorporation:

Nevada; incorporated July 7, 2006

c. Issuer's primary and secondary SIC Codes:

The Standard Industrial Code for our principal line of business is: 6162

d. Issuer's fiscal year end date:

December 31

e. Principal products or services, and their markets:
Loan Originations

We are an independent residential mortgage broker and lender. A significant portion of our originations are single-family mortgage loans that are eligible for FHA mortgage insurance, which represented about 43% of our originations in 2014. ACMC is an FHA Title II approved mortgage lender (mortgagee), with HUD Direct Endorsement approval, allowing it to underwrite, originate, fund, service and own FHA insured single-family mortgages. Qualified mortgage lenders are sometimes known as "Full-Eagles" (full-fledged FHA participating lenders) in the industry because they can perform any lender function on a FHA loans. ACMC is a "nonsupervised" lender, meaning it is not a financial institution (such as a bank, savings association, or a credit union) that is a member of the Federal Reserve System, or with accounts insured by the Federal Deposit Insurance Corporation (FDIC) or the National Credit Union Administration (NCUA). "Nonsupervised" mortgage lenders are regulated by the states. As a mortgage lender, we must acquire and maintain a license from each state in which we operate, obtain a separate agents' licenses where required, purchase bonds, and comply with state annual maintenance requirements.

Brokered Loans. Brokered loans do not involve the use of our own funds and rely on the lender to make the final funding decision. As a mortgage broker, we process and sell a lender's mortgage product to a borrower and receive an origination fee from either the borrower or the lender. If paid by the lender, the fee is typically fixed in advance of the transaction by the lender and is based on a percentage of the loan amount. If paid by the borrower the fee amount is more flexible. For FHA lending, originators can earn money based on the origination fee (maximum 1%) and discount points (maximum 2%) charged to the borrower. From the loan fee proceeds, we withhold an administration and a loan processing fee, and credit the balance to our originating branch office. Administration fees range from a low of $350 to a $1,000 cap on our largest brokered loans. Brokered loans represented about 7% of our mortgage originations in 2014.

Correspondent Lender Loans. With correspondent loans we originate loans utilizing a warehouse line of credit from a lender, and then sell the loans after settlement in the secondary market. Typically, the lender makes the funding decision for the loan, based on the lender's underwriting criteria. The advantage of this type of loan origination is that it allows us to control the yield spread premium ("YSP"). YSP is the dollar amount, expressed as a percentage of the loan amount that a lender is willing to pay for a particular piece of business. YSP can range from 0% (par rate) to several percentage points. Three percent (3.0%) is a typical YSP in our case. The loan typically is assigned to the lender to be sold directly to the secondary market. A correspondent loan typically includes the right to service the loan and a "servicing release premium" (SRP) is collected by the lender upon resale of the mortgages to the final investor. The lender typically pays us a portion of the SRP, usually between .375% and .75% of the loan amount, which we receive in addition to our standard administration and loan processing fees. Correspondent loans represented about 93% of our mortgage originations during 2014.

ACMC Underwritten Loans. In February 2013, ACMC earned its HUD Direct Endorsement approval, allowing it to originate, underwrite, fund and close its own FHA loans. We have since secured warehouse line of credit facilities that allow us to do this, and in March 2014, after completing our test-case phase with FHA, we began to underwrite our own loans in a measured approach for both FHA and USDA loans. Underwriting is largely managed by our Evansville Regional Office, a branch and operations center that we acquired earlier in 2014, and we have recently begun to accept loan origination from third party mortgage retailers (TPOs) providing them with wholesale underwriting and purchasing of loans.

ACMC Secondary Market Activity. As part of the acquisition of our Evansville regional office, we also entered into a management services agreement with an outside firm that specializes in the sale of mortgage loans into the secondary market. This firm, under contract with ACMC, provides best practices underwriting oversight to insure our mortgage loans meet the requirements for sale into the secondary market. In addition the firm manages warehouse lines that it uses to fund loans that are originated by both ACMC and TPOs. Finally, the firm has procured agreements with several companies that purchase our loans. As a result of this relationship, ACMC is now able to generate additional revenues from underwriting, funding, and selling its loans, as well as new revenues generated by the TPO relationships.

Loan Products. We have the ability to offer a wide selection of mortgage products, including conventional, FHA-insured, fixed and adjustable rate mortgages, with different maturities. Like conventional mortgages, there are several different types of FHA mortgages, including both fixed rate and adjustable rate products. We offer these loan products for both conforming loans (loans of $417,000 or less) and non-conforming loans (loans over $417,000). We also offer a variety of other loan products, including second trust deed loans, as needed to effectively compete with other loan originators. All of our loan products are designed according to standards required either for

participation in FHA mortgage insurance programs, or as required by secondary market investors to ensure liquidity. Our policy is not to engage in predatory lending or to provide high cost loans which feature either an interest rate or points and fees charged in connection with loans that exceed certain thresholds prescribed by federal or state law or local ordinances. We follow the Mortgage Bankers Associations' "Best Practices Statement" as part of our fair lending policy.

Processing Services

Mortgage loans funded in the U.S. must be processed according to the lender's specifications ("underwriting conditions") in order to be approved and funded. Our loan processing services are provided by ACMC. Another subsidiary, AlliancePro Processing, Inc. provides the internally developed, proprietary technology platform for our business. The loan processing procedure includes gathering written verification of borrower's documentation and credit worthiness, reviewing conditions imposed by the lender to close the loan, ordering settlement services from third-party vendors (e.g. appraisal, flood and title reports and mortgage insurance), funding any impounds required (taxes and insurance) and paying closing costs, and submitting the completed loan package to the underwriting department of the chosen lender where it is either approved, rejected, or "approved with conditions." If the result is approval "with conditions," then the loan processor must work with the loan originator and the borrower to conform the application to the lender's underwriting conditions. The processing portion of the mortgage origination process can take as little as a week or as long as several months.

Ancillary Services

We are seeking revenue growth by developing additional financial product and service offerings for our mortgage customers and the real estate community. Ancillary services currently do not constitute a material portion of our total revenues.

Accounting Services. We intend to offer accounting services to our mortgage customers through our subsidiary, Accounting Solutions, Inc. In January 2015, we entered into an agreement to acquire the assets of Emery Accounting, and have integrated its team of six full time employees and two part-time associates. Accounting Solutions, Inc. will offer personalized accounting, tax and bookkeeping services to individuals and small businesses in the U.S. and internationally.

Insurance Services. Currently inactive, Insurance Solutions Inc. offered several mortgage protection products on an agency basis from 2011 to 2014, including plans that provide return of premium, living benefits and cash to survivor, as well those that pay the balance of the mortgage upon death. We intend to utilize Insurance Solutions in the future to offer life and medical related insurance products to ACMC mortgage customers at the point of mortgage sale.

Credit Repair Services. Mortgage customers that need to rehabilitate their credit in order to qualify for a loan are currently referred to a reputable third-party credit restoration company. We may opt to offer this service in the future.

Loan Servicing. As we underwrite our own residential mortgage loans, we may retain the servicing rights. Loan servicing primarily involves the calculation, collection and remittance of principal and interest payments, the administration of mortgage escrow accounts, the collection of insurance claims, the administration of foreclosure procedures, the management of real estate owned (REO) property, and the disbursement of required protective advances. Loan servicers typically receive recurring, fee-based revenues based upon contractually established servicing fees, as well as interest income on

amounts deposited in collection accounts and amounts held in escrow to pay property taxes and insurance.

Bank Affiliation. On June 27, 2014, we acquired 23.3% of a state-chartered bank, and agreed to purchase the remaining equity after approval by the applicable federal banking regulators of our change in control application. See Note 4 — Investment in American Patriot Bank, included in the "Notes to Consolidated Financial Statements," Item 5 — Financial Statements.

Forward-Looking Statements

In addition to current and historical information, this Quarterly Report contains forward-looking statements. These statements relate to our future operations, prospects, potential products, services, developments, business strategies or our future financial performance. Forward-looking statements reflect our expectations and assumptions only as of the date of this report and are subject to risks and uncertainties. Actual events or results may differ materially. We have included a detailed discussion of certain risks and uncertainties that could cause actual results and events to differ materially from our forward-looking statements in the section titled "Risk Factors," filed with our Annual Report, posted with the OTC Disclosure and News Service on April 18, 2015 ("Annual Report"). We undertake no obligation to update or revise publicly any forward-looking statement after the date of this report, whether as a result of new information, future events or otherwise.

Risk Factors

The above summary description of our business should be read in conjunction with the more extensive disclosure contained in Item 6 of our Annual Report, which contains additional information related to the mortgage industry, the mortgage origination process, recent industry trends, competition, and government regulation. In addition, material risk factors are contained in the Annual Report related to the industry and our business which may affect our future prospects, performance and results. Some of the risk factors that investors or potential investors in our securities should consider are summarized as follows:

- We need additional capital and may not be able to access financing sources on favorable terms, or at all, which could adversely affect our ability to implement and operate our business as planned
- Future revenue growth and profitability remain uncertain
- Mortgage lending volume was significantly lower in 2014 than in 2013, and may decrease further in 2015 and future years, which would adversely affect our business
- Events similar to, and lingering effects from, the extreme turmoil in the mortgage industry and mortgage credit market that occurred from 2007 to 2009 could adversely affect our business
- Deteriorating mortgage market conditions or a continued delay in recovery of the residential mortgage market may continue to have a material adverse effect on our earnings and financial condition
- The potential limitation or wind-down of, the role Ginnie Mae, Fannie Mae and Freddie Mac play in the residential mortgage industry could disrupt the mortgage market and have a material adverse effect on our business
- There is recent litigation in the mortgage industry related to securitizations against issuers, sellers, originators, underwriters and others that may adversely affect our business operations; We may become a defendant in lawsuits, and we may not prevail in these matters
- Competition in the residential mortgage industry is intense and may adversely affect our business operations and financial performance; the dominance of a limited number of companies may affect our ability to operate and compete effectively

- The mortgage industry is heavily regulated and changes in current legislation or new legislation could adversely affect our business
- Violation of various federal, state and local laws may result in financial losses
- Our long-term success is primarily dependent on our ability to increase our mortgage origination volumes and revenues and to a lesser extent develop our ancillary service revenues
- We depend on the accuracy and completeness of information about borrowers and counterparties and any misrepresented information could adversely affect our business, financial condition and results of operations
- Our business may be adversely affected if we lose our FHA-approved lender status
- Representations and warranties made by us in our loan origination, financing or sales agreements may subject us to liability or require us to repurchase mortgage loans
- We may be limited in the way in which we market our business or generate revenue by U.S. federal law prohibiting referral fees in real estate transactions, and if we are found to be in violation of such laws we would be subject to significant liability
- We may be unable to effectively manage our desired growth, which could ultimately strain our financial, personnel and technical resources
- If we fail to maintain an effective system of internal controls, we may not be able to detect fraud or report our financial results accurately, which could cause current and potential stockholders to lose confidence in our financial reports and have an adverse effect on our stock price
- We depend on key and highly skilled personnel to operate our business, and if we are unable to retain our current or hire additional personnel, our ability to develop and successfully market our business could be harmed
- Our business is subject to online security risks, including security breaches and identity theft; Our failure to protect the personal and financial information of borrowers could result in liability and harm our reputation
- Unplanned system interruptions or system failures could harm our business and reputation
- Our principal shareholder owns a significant percentage of our voting shares and is able to exercise significant influence over our corporate decisions
- We do not expect to pay dividends in the foreseeable future and we may be restricted in paying dividends on our common stock
- Our stock price may be volatile and the trading of our shares may be limited, which may make it difficult for you to sell shares when you want at prices you find attractive
- Issuances of additional shares of our common stock may adversely affect its market price and significantly dilute stockholders
- If we are forced to liquidate, we may have few unpledged assets for distribution to unsecured creditors or equity holders
- Alliances, mergers and acquisitions could result in operating difficulties, dilution and other harmful consequences

Item 7 Description of Facilities

Our principal administrative facilities are located in approximately 4,000 square feet of office space in Spokane, Washington pursuant to a month-to-month rental agreement. Our branch offices are located throughout the 27 states in which we operate, and are comprised of a number of commercial lease locations and home offices. The Company is a party to approximately 22 commercial leases in branch locations and is obligated to make all lease payments. Management believes the commercial lease rates were competitive for the local commercial real estate market at the times of agreement. Management believes our facilities are adequate for our present needs.

COMPLETE FINANCIAL SOLUTIONS INC AND SUBSIDIARIES

NOTES TO FINANCIAL STATEMENTS

September 30, 2015

NOTE 1 – Organization of Business:

Complete Financial Solutions Inc. ("CFSI," the "Company," "we" or "us") was incorporated in July 2006 under the laws of the State of Nevada. We are a financial services holding company primarily engaged in mortgage services. Our subsidiary Acceptance Capital Mortgage Corporation ("ACMC") is a residential mortgage broker, lending and processing company that operates and maintains offices throughout the United States.

NOTE 2 – Summary of Significant Accounting Policies:

Unaudited Interim Financial Information **-** The accompanying consolidated financial statements were not subjected to an audit, review, or compilation engagement, and, accordingly, no opinion or conclusion is expressed, nor any assurance provided on them. In the opinion of management, the accompanying consolidated financial statements include all adjustments, consisting of normal recurring adjustments and accruals necessary for a fair presentation of our consolidated balance sheets, operating results, and cash flows for the periods presented. Certain information and footnote disclosures normally included in financial statements prepared in accordance with accounting principles generally accepted in the United States ("GAAP") have been omitted.

Principles of Consolidation – The consolidated financial statements include the accounts of Complete Financial Solutions Inc. and its wholly-owned subsidiaries ACMC, Accounting Solutions, Inc., Insurance Solutions Inc., and AlliancePro Processing, Inc. All inter-company accounts and transactions have been eliminated in consolidation.

Use of estimates – The preparation of financial statements in conformity with GAAP requires management to make certain estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent liabilities at the date of the financial statements and the reported amount of revenue and expenses during the reporting period. Changes in these estimates and assumptions may have a material impact on our financial statements and notes. Actual results may vary from estimates and assumptions that were used in preparing the financial statements.

Cash and cash equivalents – We consider all highly liquid debt securities purchased with original or remaining maturities of three months or less to be cash equivalents. The carrying value of cash equivalents approximates fair value.

Accounts Receivable **-** We assess the collectability of accounts receivable based on past collection history and current events and circumstances. Accordingly, we adjust the allowance on accounts receivable to reflect net receivables that we ultimately expect to collect. We consider our current receivables to be fully collectible; accordingly, no allowance for doubtful accounts has been recorded. If amounts become uncollectible, they will be charged to operations when that determination is made.

Comprehensive income **–** Comprehensive income includes net profits as currently reported by the Company adjusted for other comprehensive income, net of comprehensive losses. Other comprehensive income consists of unrealized gains and losses related to our equity securities accounted for available-for-sale with changes in fair value recorded through stockholders' equity.

Fair value of financial instruments **-** The financial instruments recognized in our balance sheet include cash, accounts receivable, accounts payable, and notes payable. All instruments are accounted for on a historical cost basis, which, due to the short maturity of these financial instruments, approximates fair value at September 30, 2015 and December 31, 2014. We did not engage in any transaction involving derivative instruments.

Stock Based Compensation **–** We account for share-based compensation to our employees, contractors and directors and measure the amount of compensation expense for all stock-based awards at fair value on the date of grant and recognition of compensation expense over the service period for awards expected to vest. Restricted stock awards issued to employees, contractors and directors are measured based on the fair market values of the underlying stock on the dates of grant.

Income Taxes – The Company provides for income taxes in accordance with Accounting Standards Codification No. 740 using an asset and liability based approach. Deferred income tax assets and liabilities are recorded to reflect the tax consequences on future years of temporary differences of revenue and expense items for financial statement and income tax purposes.

We have incurred net operating losses over the past several years. As of December 31, 2014, we had a net operating loss carryforward available to offset future taxable income for federal and state income tax purposes.

Net Income Per Share of Common Stock **-** We prepare our financial statements on the face of the income statement for both basic and diluted earnings per share. Basic earnings per share excludes potential dilution and is computed by dividing income available to common stockholders by the weighted-average number of common shares outstanding for the period. Diluted earnings per share reflects the potential dilution that could occur if securities or other contracts to issue common stock were exercised or converted into common stock or resulted in the issuance of common stock that then shared in the earnings of the entity. As of September 30, 2015, we had no contracts to issue common stock, other than warrants outstanding to purchase up to 350,000 shares of common stock.

Property and Equipment **-** All property and equipment is recorded at cost and depreciated over ten years using the straight-line method. Upon sale or retirement, the cost and related accumulated depreciation are eliminated from the respective accounts, and the resulting gain or loss is recorded. Repairs and maintenance charges that do not increase the useful lives of the assets are charged to operations as incurred.

Depreciation expense for the nine months ended September 30, 2015 and 2014 were $75,555 and $65,250, respectively.

Internal Website Development Costs **-** Under ASC 350-50, website development costs, costs and expenses incurred during the planning and operating stages of our website are expensed as incurred. Under ASC 350-50, costs incurred in the website application and infrastructure development stages are capitalized by the Company and amortized to expense over the website's estimated useful life or period of benefit.

Impairment of Long-Lived Assets **-** We evaluate the recoverability of long-lived assets and the related estimated remaining lives at each balance sheet date. We records an impairment or change in useful life whenever events or changes in circumstances indicate that the carrying amount may not be recoverable or the useful life has changed.

These financial statements were not subjected to an audit, review, or compilation engagement, and, accordingly, no opinion or conclusion is expressed, nor any assurance provided on them.

Deferred Offering and Acquisition Costs - We defer as other assets the direct incremental costs of raising capital until such time as the offering is completed. At the time of the completion of the offering, the costs are charged against the capital raised. Should the offering be terminated, deferred offering costs are charged to operations during the period in which the offering is terminated.

Advertising costs – We expense all costs of advertising as incurred. The advertising costs included in general and administrative expenses for the six months ended September 30, 2015 and 2014 were $252,634 and $221,125, respectively.

Recently Issued Accounting Pronouncements - As of September 30, 2015 and December 31, 2014, none of the recently issued accounting standards and interpretations are expected to have a material impact on our consolidated financial position, operations or cash flows.

NOTE 3 – Restatement:

The consolidated balance sheet as of December 31, 2014 has been revised to correct an error in accounting for the Company's various balance sheet accounts which includes: accounts receivable, prepaids, deferred tax asset, investment in bank, goodwill, accounts payable, accrued payroll and taxes, long term debt, payable to branches, additional paid in capital and retained deficit. In accordance with applicable Generally Accepted Accounting Principles (GAAP), the Company calculated and recognized adjustments accordingly.

These financial statements were not subjected to an audit, review, or compilation engagement, and, accordingly, no opinion or conclusion is expressed, nor any assurance provided on them.

These financial statements were not subjected to an audit, review, or compilation engagement, and, accordingly, no opinion or conclusion is expressed, nor any assurance provided on them.

NOTE 4 – Revolving Lines and Line of Credit:

We have a secured line of credit in the amount of $50,000. The balance of this line of credit was $32,567 on September 30, 2015 and $34,869 on December 31, 2014 with interest rates of 1.99% to 24.99%. Accounting Solutions has a line of credit with a current outstanding balance of $19,500.

NOTE 5 – Investment in American Patriot Bank:

On June 27, 2014, we purchased a 23.3% interest in American Patriot Bank (the "Bank"), a subsidiary of American Patriot Financial Group, Inc. We paid initial consideration of $395,000. Under the terms of the purchase agreement, within nine months of receipt of approval of a change in control by applicable banking regulatory authorities, we will purchase a controlling interest in the Bank for an additional investment totaling $1,050,000. During the pendency of the change in control application, we made quarterly capital infusions in the Bank, consisting of $200,000 on September 30, 2014, $55,000 on December 31, 2014, and a commitment on March 31, 2015 to pay $120,000. The March commitment was paid on April 30, 2015.

NOTE 6 – Investment in Northern Star Bank:

On September 30, 2014, we entered into a letter of intent to acquire the common stock of Northern Star Bank, and made an initial investment of $45,000. Under the terms of the letter of intent, we had the right to purchase a controlling interest in Northern Star Bank upon approval of a change in control application from the appropriate bank regulators. We were unable to complete the acquisition as state banking regulators placed the bank into FDIC receivership in December 2014. We have applied to the FDIC for a return of our initial investment.

These financial statements were not subjected to an audit, review, or compilation engagement, and, accordingly, no opinion or conclusion is expressed, nor any assurance provided on them.

NOTE 7 - Long-term Debt:

Long-term debt at September 30, 2015 is summarized as follows:

	Due Within One Year	Due After One Year	Totals 9/30/2015
Note payable with no set monthly Payments with accrued interest at 12%	$ -	$ 109,750	$ 109,750

2018 and beyond	1,010,107
	$ 1,281,607

NOTE 8 - Warehouse line of credit:

We have three warehouse lines of credit, two for $5,000,000 and the other for $2,000,000. Each line bears interest at the Note rate of the loans on the line. The lines of credit are secured by the mortgages loans held for sale. Principal and interest payments are due as mortgage loan sales close. At September 30, 2015 and December 31, 2014, there were $12,624,895 and $ 7,577,212 outstanding under these warehouse lines. All of these loans on the warehouse lines were sold in the normal course of business shortly after the end of the period.

NOTE 9– Investment in Bank

In October 2007, we tendered $100,000 to a federal charter commercial bank simultaneous with signing a definitive agreement for the purchase of the bank. On May 23, 2008, we tendered an additional $25,000 to the bank in exchange for additional time to complete the transaction. During the first quarter of 2014, the purchase opportunity expired and we recognized a loss of $125,000.

These financial statements were not subjected to an audit, review, or compilation engagement, and, accordingly, no opinion or conclusion is expressed, nor any assurance provided on them.

NOTE 10 – Investments

NOTE 16 – Legal Proceedings and Litigation Contingencies:

In May 2015, a lawsuit was filed against ACMC by the FDIC as receiver for Bank United FSB (Federal Deposit Insurance Corporation as Receiver for BankUnited, F.S.B v. Acceptance Capital Mortgage Corporation, U.S. District Court for the Southern District of Florida, Case No. 15cv21884). The lawsuit alleges that ACMC breached its agreement with BankUnited by providing incomplete, inaccurate, false or misleading information regarding a mortgage loan sold or assigned to Bank United. The loan in question was originated April 2007 and has since defaulted. The exact amount of the damages are not disclosed in the complaint, but the original amount of the loan was $642,000. ACMC has denied the allegations and raised certain affirmative defenses, including that the claim is barred by the applicable state statute of limitations. The ACMC matter is currently set for mediation in 2016.

From time to time we are subject to a variety of claims and litigation incurred in the ordinary course of business. In our opinion, the outcome of our pending legal proceedings, individually or in the aggregate, will not have a material adverse effect on our business operations, results of operations, cash flows or financial condition.

Management has regular litigation reviews, including updates from outside counsel, to assess the need for accounting recognition or disclosure of contingencies relating to pending lawsuits. The Company accrues an undiscounted liability for those contingencies where the incurrence of a loss is probable, and the amount can be reasonably estimated. The Company does not record liabilities when the likelihood that the liability has been incurred is probable but the amount cannot be reasonably estimated or when the liability is believed to be only reasonably possible or remote. For contingencies where an unfavorable outcome is reasonably possible and which are significant, the Company discloses the nature of the contingency and, where feasible, an estimate of the possible loss. For purposes of our litigation contingency disclosures, "significant" includes material matters as well as other items which management believes should be disclosed.

Management judgment is required related to contingent liabilities and the outcome of litigation because both are difficult to predict. Litigation is subject to inherent uncertainties and unfavorable rulings could occur. Although management currently does not believe resolving any pending proceeding will have a material adverse impact on our financial statements, management's view of these matters may change in the future. A material adverse impact on our financial statements could occur for the period in which the effect of an unfavorable final outcome becomes probable and reasonably estimable.

NOTE 17 – Impairment Analysis:

The Company conducted an impairment analysis on the carrying value of its wholly-owned subsidiary Acceptance Capital Mortgage Corporation ("ACMC") as of December 31, 2014 and the nine months ended September 30, 2015. Management determined that an impairment was not necessary. Key indicators utilized to arrive at this decision were the past, present and future income trends of ACMC, as well as the value which ACMC has in it licenses to conduct mortgage operations in twenty six states.

NOTE 18 – Acquisition of Emery Accounting

The Company entered into an agreement to acquire the assets of Emery Accounting on January 6, 2015. The purchase price was 800,000 shares of CFSI stock valued at $152,000. The structure allows the seller an option to rescind this deal. That option expires on January 6, 2016. The Company believes this option will not be exercised and has recorded this transaction as a stock subscription.

The Company has changed the name of this organization to Accounting Solutions.

NOTE 19 – Subsequent Event:

The Company's management has evaluated events occurring between September 30, 2015 and November 15, 2015, which is the date of the financial statements were available to be issued, and has recognized in the financial statements the effects of all subsequent events that provide additional evidence about conditions that existed at November 15, 2015, including the estimates inherent in the processing of the financial statements.

For the nine-months ended September 30, 2015, compared to the 2014 nine-month period, our revenue increased 44%, from $7,142,725 to $10,271,882. We reported a net income for three-month period ended September 30, 2015, of $82,599, compared to a net income of $149,016 for the three-months ended September 30, 2014. For the nine-month period net income was $261,663, compared to $94,882 in 2014.

- ***Revenue Sources.*** Revenues from ACMC mortgage services represented nearly 100% of our total consolidated revenues for the three- and nine-months ended September 30, 2015. Our loan origination revenues include processing revenue, which is a function of ACMC mortgage services. Other services consisting of accounting, appraisal and insurance products were not a material portion of our total revenues, though in future periods we expect additional revenues from accounting services.

- ***Branch Offices***. We currently have approximately 55 branch offices located in 27 states. We depend on the ability of the employees in our branch offices to locate new customers, grow our transactional volume, manage customer relationships, provide customers with information about our products and services, and assure the payment of our fees. Many employees operate out of home-based offices. We maintain leases on approximately 40% of our branch offices.

- ***Revenue Trends and Growth*** We attribute our increase in revenue in 2015 to improving conditions in the residential mortgage market coupled with a continued low interest rate environment; as well as new revenues from originations, underwriting and secondary market activity as a result of the assimilation and integration in 2014 of an Indiana-based underwriting and loan approval office. We funded $63,257,472 in mortgage loans in the third quarter of 2015, compared to $53,883,817 in the comparable quarter in 2014. We believe that we have weathered the storm in the industry which began in 2007, but we cannot assure you that this is the case. While home prices have recently increased in many parts of the country, the housing market has not fully recovered from the economic crisis. The U.S. mortgage loan origination market, which was approximately $1.75 trillion in each of 2012 and 2013, contracted to approximately $1.12 trillion in 2014. It is projected to expand slightly to $1.23 trillion in 2015 according to industry forecasts.[1] According to MBA data, refinancing activity declined from approximately 71% of the origination market in 2012, to 63% in 2013 and 43% in 2014,[2] and is expected to decline to approximately 41% of the origination market in 2015. The lower levels in residential mortgage loan volume in 2014 and 2015, as compared to 2013 levels, and in particular the lower volume of mortgage refinancings, will require us to increase our relative percentage of purchase mortgage originations or our revenues per loan processed by our customers in order to achieve revenue growth. We seek to increase our revenue by:
    - increasing our purchase mortgage origination volumes;

- adding new branches and hiring additional qualified loan officers;
- increase our revenues per loan by adding underwriting services;
- adding ancillary financial product and service offerings

- ***Geographical expansion.*** We currently operate in 27 states through our branch offices. We seek to expand our national presence with qualified employees as financially and administratively feasible and since late in 2012 we have added 15 new branches, an increase of 31%. As an originator of mortgage loans, we must acquire and maintain a license from each state in which we operate. In addition, in most states our individual agent must also acquire a separate agent's license. The qualification process involves the purchase of bonds for each state, an annual audit at each state's discretion, and the cost of annual maintenance. On average these annual licensing costs can run from $7,000 to $10,000 per state. We continue to evaluate and consider other potential strategic opportunities for expansion, if and when they arise.

- ***Financial Position.*** On September 30, 2015, we had $38,887 in cash, compared to $533,881 at December 31, 2014. Our operating activities used $140,673 in net cash during the nine-months ended September 30, 2015, compared to $94,686 used during the corresponding period for the previous year. We have limited working capital and currently lack the funds to execute our business plan as fast as we would like or take advantage of strategic opportunities. We are required to meet certain net worth requirements to maintain our FHA approved lender status and maintain our secured warehouse line of credit facilities. Significant additional funding is required to complete our bank affiliation strategy.

Results of Operations

- ***Three Months and Nine Months ended September 30, 2015 and 2014***. Revenue for the three-months ended September 30, 2015 increased 16%, from $3,139,499 to $3,658,526. For the nine-month period, our revenue increased 44%, from $7,142,725 to $10,271,882. We reported a net income for three-month period ended September 30, 2015, of $82,599, compared to net income of $149,016 for the three-months ended September 30, 2014. For the nine-month period net income was $261,663, compared to $94,882 in 2014.

Revenue

Revenue for the three-months ended September 30, 2015, increased 16%, from $3,139,499 to $3,658,526. This increase was due to greater loan origination volume and our increased use of correspondent warehouse lines. Revenues are generated by mortgage origination activities and primarily consist of origination fees paid by borrower or Investor (broker), the yield spread premium offered by an investor, the service release premium paid by an investor and loan processing fees. Loan origination revenue includes processing revenue, which is a function of ACMC mortgage services. Revenue also includes a nominal amount of appraisal and insurance product revenue.

Costs and Expenses

Cost of revenue

Loan costs for the three-months ended September 30, 2015, as compared to the corresponding period ended September 30, 2014, increased by $233,989 or 78%. This increase is a by-product of originating more loan volume. Loan costs represent third-party fees paid to service vendors and suppliers to complete a loan transaction as well as administration and loan processing fees.

Corporate Salaries, Wages and Employee Benefits

Corporate salaries, wages and employee benefits expenses, including payroll taxes, increased by $209,393 for three-months ended September 30, 2015, or 9.5% over the third quarter of 2014. Salaries are paid to branch employees based on compensation agreements with the Company. Licensed loan originators are compensated according to rules established by Regulation Z and the Consumer Finance Protection Bureau. Loan processors receive a flat fee paid from each closed and funded loan. Corporate employees are paid a salary and may earn a bonus based on the pre-tax profitability of the company.

Selling, General and Administrative Expenses

Selling, general and administrative expenses (SG&A), include consulting, legal and professional services, as well as expenses for rent and utilities, marketing, insurance, licensing, bad debts, sales tax and other taxes, and other costs. Aggregate rent for the quarter ended September 30, 2015 was $95,251 and $110,672 for the quarter ended September 30, 2014. Advertising costs included in SG&A for the quarter ended September 30, 2015 and September 30, 2014 were $104,571 and $93,712, respectively. SG&A expenses increased by approximately $57,000 or 11% for the quarter ended 2015 as compared to 2014.

Depreciation and Amortization

Depreciation and amortization expenses include depreciation on our fixed assets and amortization of our intangible assets. Depreciation and amortization increased by $6,375 for the three months ended September 30, 2015 as compared to the comparable 2014 period.

Other Income (expense)

Other income (expense) is primarily interest paid on promissory notes and gains and losses on sale of assets. There was other income of $147 for the three months ended September 30, 2015, compared to other income of $74,650 in the comparable 2014 period.

Interest expense is paid primarily on our notes payable. Our long-term debt totaled $1,149,607 at September 30, 2015 compared to $1,362,595 at December 31, 2014.

Financial Condition

Our total assets were $17,365,444 and $12,414,497 at September 30, 2015 and December 31, 2014 respectively. The increase in asset base is primarily due to the increase in the amount of loans held for sale as a result of warehouse lines of credit. At September 30, 2015 and December 31, 2014 there was $12,875,404 and $7,927,708 outstanding under these warehouse lines. Working capital (net of offsetting entries of loans held for sale and warehouse lines of credit) decreased from ($91,629) on December 31, 2014 to ($106,638) on September 30, 2015.

Our cash totaled $38,887 on September 30, 2015 compared to $533,881 at December 31, 2014, representing a decrease of $494,994. Our cash flow activity is described in more detail below (see “Liquidity and Capital Resources”).

Accounts receivable balances were $550,854 and $255,459 as of September 30, 2015 and December 31, 2014 respectively, representing an increase of $295,395. Accounts receivable are primarily influenced by loans we have closed but that have not funded (not yet paid). There is a direct correlation between accounts receivables and loans held for sale. Our total current liabilities were $13,763,792 and $9,073,385 at September 30, 2015 and December 31, 2014 respectively, representing an increase of $4,690,407.

Our stockholders’ equity increased by $396,828 to $2,264,923 at September 30, 2015 from $1,868,095 at December 31, 2014.

Liquidity and Capital Resources

Our operating activities used $140,673 in net cash during the nine-months ended September 30, 2015 compared to $94,686 used during the comparable 2014 period. Our cash balance as of September 30, 2015 totaled $38,887.

The following table presents a summary of our cash flows for the nine months ended September 30, 2013 and 2012 respectively (in thousands):

	Nine-months ended September 30	
	2015	2014
Net cash used in operating activities	$ (141)	$ (95)
Net cash provided by (used in) investing activities	(203)	(347)
Net cash provided by (used in) financing activities	(151)	541
Increase (decrease) in cash and cash equivalents	$ (495)	$ 100

Our current assets are primarily used to fund our minimum net worth requirements for our HUD designation. We do not currently have a line of credit facility to provide additional reserve capacity for general corporate and working capital purposes, or to make expenditures related to the growth and expansion of our business model. Our warehouse lines of credit are reserved for our loan products. Significant additional funding would be required for our bank affiliation strategy. We are also required to meet enhanced net worth requirements to maintain our FHA-approved lender status.

As part of our future expansion activities and our evaluation of strategic alternatives and opportunities, we may seek to acquire certain competitors or other business enterprises, or consider partnering or other collaboration agreements, or a bank affiliation transaction or other strategic transaction. Such alliances, mergers or acquisitions or dispositions could result in potentially dilutive issuances of our equity securities, the expenditure of our cash or the incurrence of debt or contingent liabilities. We may seek to finance a portion of the acquisition cost.

Inflation has not had a material impact on our business during the last two fiscal years. Inflation affecting the U.S. dollar is not expected to have a material effect on our operations in the foreseeable future.

Operating Activities

For the nine-month period ended September 30, 2015, net cash used by operating activities was $140,673 compared to $94,686 used during the comparable 2014 period.

The difference between our net income and our net cash used by operating activities was attributable to non-cash expenses included in net income, and changes in the operating assets and liabilities, as presented below (in thousands):

	Nine-months ended September 30	
	2015	2014
Net Income (loss)	$ 262	$ 95
Add: non-cash expenses	76	65
Add: changes in operating assets and liabilities	(478)	(255)
Net cash provided (used) by operating activities	$ (141)	$ (95)

Non-cash expenses are associated with the amortization of intangible assets, depreciation and amortization of property and equipment, and stock-based compensation expense.

Changes in operating assets and liabilities primarily reflect changes in working capital components of the balance sheet apart from cash and cash equivalents. Net cash provided by operating activities also reflects changes in some non-current components of the balance sheet, such as liabilities to branch offices.

Investing Activities

For the nine months ending September 30, 2015, net cash used for investing activities was $202,992, compared to $346,824 used during the comparable 2014 period.

Financing Activities

For the nine months ending September 30, 2015, net cash used for financing activities was $151,329, compared to $541,358 provided by financing activities during the comparable 2014 period. Our net cash generated by financing activities consists primarily of proceeds from the issuance of notes payable.
