Each of the above issuances were offered in reliance on an exemption from registration under Section 4(a)(2) of the Securities Act of 1933, as amended (the "Securities Act") and none of the issuances were registered or qualified in any jurisdictions and were offered pursuant to applicable exemptions from registration. The shares, when issued, were restricted securities and contained a restrictive legend stating that the shares were not registered under the Securities Act.

Item 5: Financial Statements

The issuer's quarterly report for the period ending September 30, 2015 has been posted through the OTC Disclosure & News Service and is incorporated herein by reference.

Item 6: Describe the Issuer's Business, Products and Services

Profile Solutions, Inc. designs, develops, manufactures and sells security-based identification products and systems that incorporate state-of-art technology to verify a person's identity, or grant physical access. Our lead products include biometric or proximity-based access control and time and attendance solutions. The Company developed turnkey integrated applications that incorporate its proprietary Access-It hardware platform: The Company also integrates its applications with its patented biometric technology for additional security when required. The Company will target the Law enforcement, Cannabis Industry and Corporate America as its customer base. The Company has limited customers, products and revenues to date.

Through an Asset Purchase Agreement with Pearl Group Advisors, Inc., a company owned by Dore Perler, we acquired turnkey integrated applications that incorporate our proprietary Access-It hardware platform: We also integrate our applications with biometric technology for additional security when required and other third party hardware manufacturers and developers.

Our products include biometric or proximity based time & attendance and access control solutions, the Access-IT product line, targeting Recreational and Medical Marijuana Dispensaries, Retail Stores and Grow Operations, Prison/Work Release/Jail/treatment center fingerprint access solution, and transportation tracking. Our products can be used by a diverse base of clients in many technical areas and markets.

We also offer for sale, off the shelf security products including CCTV, Video surveillance cameras, DVR's and has created an E-Commerce website for future sale of security products and accessories security products, accessories and health products for the MMJ and security industry and consulting advisory services for the MMJ industry.

Our lead products include our patented proprietary biometric or proximity based access control solutions, the Access-it product line, targeting Recreational and Medical Marijuana Dispensaries, Retail Stores and Grow Operations.

We are developing a fingerprint / FOB based access control security storage device that can store important valuables and/or critical medications in a climate controlled environment. The storage device will have secure user access.

Since we create the entire product line, we can customize products for a specific marketplace or business. We can engineer products for a diverse base of clients in many technical areas and markets.

On August 20, 2014, we entered into a one-year licensing agreement with Paladin Electronic Services, Inc. ("Paladin") for the license of security technologies. The United States Patent & Trademark Office granted US Patent # 7,424,618 to Paladin on September 9, 2008. Paladin granted us the exclusive worldwide license to market, use and sell Paladin's patented technologies including its fingerprint recognition process. Paladin created the Access-IT (AI) product line which incorporates this patented technology which can find a fingerprint match with a full 360 degree offset as well as being placed on the fingerprint sensor too high or too low. It is this auto-targeting feature, which allows Paladin to identify individuals with nothing more than a fingerprint where others fail. Additionally, we have the right to acquire the technologies while the agreement is in effect.

Many of our goods and services are customized to individual customer needs. We plan on marketing our systems to manufacturers, retailers and other businesses with at least 5 to 100 employees, to whom we market our smaller turnkey solution. We also plan on marketing to larger businesses, including Fortune 500 Companies that require full custom integration solutions. We offer for sale our systems through an in-house sales force as well as original equipment manufacturers ("OEMS") and independent sales representatives. We plan on engaging in direct marketing programs, trade show participation, and local, regional and national advertising campaigns to generate sales. Moreover, we have offered consulting and design services to specialized biometric development and deployment projects. By offering our expertise in the design and deployment of biometric systems we may gain additional revenues and create another marketing avenue.

Pursuant to the Exclusive License Agreement described above, the Company licensed the proprietary rights to its line of Access-IT Products based upon physical access control to restricted areas and the use of Biometrics as a means of identification. We also acquired Worldwide Patent rights and the rights to purchase all the technology if so desired. This Agreement expired in August 2015 and we are currently in negotiations to extent and expect to extend the license for an additional one year term at no additional cost.
