E. Principal Products or Services and their Markets

The predecessor company to Golden Age Resources, Inc., was Martin-Miller Internet Malls, Inc. (the "Company") Martin-Miller was organized in April 2000 with the issuance of 6,200,000 common shares of an original authorization of 25,000,000 common shares.

The products/services of Martin-Miller was an internet services company and developed a format for the development of a niche internet industry mall. To facilitate the internet mall format, the "Company" developed specific and detailed software and a web site which allowed users to easily search for related web sites and services.

The first site was devoted to the sale of information within the Mexico market. Once this mall was established, the company sought to develop other mall sites and promote them as "niche" mall destinations for specific subjects on the Internet.

The Company entered into revenue sharing agreements with unrelated parties that were selling their products and services via banner advertisements on the Company's web site. The Company utilized the web site traffic it developed to encourage customers to purchase premium ad placements with particular information of service expertise.

The Company developed other niche malls that corresponded with Management's view of the larger potential markets. The Company's mission was to expand its position as a pioneer and leader in the niche internet industry malls by providing consumers and service/product providers an effective means to find each other through the use of state-of-the-art technology and internet access.

The Company developed specialized internet industry malls that were pertinent to that specific type of mall before promoting and advertising the mall. The Company's goal was to develop the largest, most organized niche malls on the Internet.

Golden Age Resources, Inc., successor to Martin-Miller Internet Malls, Inc. was originally organized in the business of home health care referrals. The Company initiated a diversification program in the third quarter of 2012 by an acquisition into the hi-tech arena. Subsequently, the Company redirected its core business into a technology based emerging company and has detailedly organized a business plan of internal and external growth. The technology – marketing based plan has proven to be very profitable from this re-direction. (Unaudited)

Note 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES:

The consolidated financial statements have been prepared utilizing the accrual method of accounting. No provision for income taxes has been recorded. The Company utilized the straight-line method for the depreciation of fixed assets. Amortization of organization costs and computer software are expensed over a 60 month period. System development and proprietary development costs are expensed over a 120 month period.

Re-Styled Financial Statements

The Company entered into Employment Contract with the Company's CEO / Director, and a Consulting Agreement with Larmco International Consulting; both agreements are for a 12 month term. The effective date of the Contract and Agreement is March 15, 2015. The Contract and Agreement total \$500,000 for the 12 month term and are to be paid in cash and/or GDAR stock (See Note 10). Hence, a re-statement of the First Quarter Financial Statements was prompted, and accordingly, the Second Quarter Re-statement is hereby presented.

Note 2: REVERSE MERGER:

The Company commenced operations February 1, 2008 as Golden Age Resources, LLC, and a Florida Limited Liability Company. Effective December 4, 2008, the Company entered into a "reverse merger agreement" with Martin Miller Internet Malls, Inc. Additionally, a name change was adopted and approved by the Board of Directors and approved by the State of Nevada. The name became **Golden Age Resources, Inc.**

Note 3: COMMON STOCK:

At the time of the "reverse merger" on December 4, 2008, the consolidated Golden Age Resources, LLC and Martin Miller Internet Malls, Inc. had increased the authorized common stock shares to 100,000,000. The authorized shares were decreased to 725,000,000 at a par value of \$.001 per authorization of the Director on May 13, 2013. Authorized shares at a par value of \$.001 were increased to 3,000,000,000 per authorization of the Director during the First Quarter, 2015. On May 21, 2015, the Board of Directors authorized the change of par value to .00001 per share.

Note 4: EARNINGS PER SHARE:

Total shares issued and outstanding as of June 30, 2015 was 1,195,122,860 (basic and diluted). Comprehensive income is defined to include all changes in equity except those resulting from investments by owners and distributions to owners. Among other disclosures, SFAS No. 130 requires that all items that are required to be recognized under current accounting standards as components of comprehensive income be reported in a financial statement that is displayed with the same prominence as other financial statements. The Company does not have any assets requiring disclosure of comprehensive income.
