5) Financial Statements:

Financial Statements for the quarterly report ending September 30, 2015 have been filed on November 16, 2015.

6) Describe the Issuer's Business, Products and Services

a. A description of issuer's business operations:
Advanced Defense Technologies, Inc. ("ADTI" or the "Company") was originally incorporated as June Project 1 Corp. on May 26, 1998 in Florida with authorized common stock of 50,000,000 at $.001 par value. June Project 1 Corp was in the business of discovery, development and licensing of functional food, medical food and dietary supplement technologies.

Starting in May 2006 and through December 2006 the Company completed the acquisition of all outstanding stock of Collagen Treatments, Inc. and Mercer Labs Corporation by the issuance and transfer of 40,400,000 shares of its common capital stock, representing 81% of the outstanding stock of the Company after the acquisition.

Collagen Treatment, Inc. (subsidiary) was incorporated under the laws of the state of Nevada on November 3, 2006 and was in the business of the sales of cosmeceutical skincare products through the internet.

Mercer Labs Corporation provides analytical testing and lab services for dietary supplements, natural products, vitamins and cosmeceuticals.

On April 13, 2007 the name was changed to "Medcore Holdings, Inc." and the authorized common stock was changed to 100,000,000 shares and 20,000,000 preferred shares. None of the preferred shares were issued.

On December 19, 2009 the Company purchased the patents, technology, contracts, ongoing relationships, research projects, research and development funded by the government contracts and exclusive rights to use its patents from "RST Scientific Research Inc." In conjunction with this asset purchase the Company decided to change its name to Advance Defense Technologies Inc. and focus on developing and marketing new breakthrough technologies for applications in defense, homeland security and large scale use of communications systems in private sector. Further, the Company increased its common stock to 1,000,000,000 shares, $.001 par value.

The Company completed its corporate restructuring including a name change, 1- for 500 reverse split, and ticker symbol change to ADCF.PK from MEDC.PK on June 1, 2010.

The Company develops systems and break-through technologies for the military defense and homeland security industry. The Company's technology/products have been developed under several SBIR Programs with government agencies including the US military (USAF, ARMY, NAVY and MDA), NASA, DARPA and a prestigious defense contractor (Phillips Labs).

ADTI's new patented phased array technology provides leading edge solutions to the current issues of high cost, high power dissipation, size, and weight and system complexity.

The major technology innovations include: small size multi-band phased array antennas, T/R modules, wideband transceivers, diplexer/multiplexer networks, electronically steered antennas (ESAs), and wideband RF antenna systems for high data rate communication links, mobile communications and wideband tracking radar and sensor systems.

The Company has been building proprietary technology that provides exceptionally lightweight, extremely compact, and very inexpensive scanning antenna arrays and full duplex multi-channel RF transceiver designs that are capable of transmitting and receiving high speed data.

The new technology/products have potential for dual use applications in both the defense and commercial sectors. The expected customers for ADTI technology/products will include both defense and public sectors. The anticipated customers will include:

US Air Force
US Navy
US Army
Boeing
Raytheon
TECOM Industries
Lockheed Martin
Northrop Grumman
General Dynamics
Harris
SATCOM Industry
L-3 Communications
UAV Industry
High power Up-link and Down-link antenna systems

The Company has been seeking alliances or joint ventures with a number of defense and commercial companies and has recently made technology presentations to Rantec Microwave Antennas and Northrop Grumman. There is pressing need for airborne conformal phased array antennas operating at SATCOM bands. ADTI beam steering technology forms one of the best candidates for this big market.

ADTI technology/products include:

(1) Wideband (2 to 40 GHz) low cost, low loss beam scan technology (Phase shifter

Technology)
(2) Multi-band phased array antenna systems operating at X, Ku and Ka band
(3) Beam scanning from 3 to 12 GHz, 8 to 20 GHz, and 8 to 35 GHz
(4) T/R modules (operating from 8 to 40 GHz)
(5) Multi-channel (2, 4 and 6-channel) transceiver designs, each channel capable of high data rate (over 1 Giga bit/s data) transfer
(6) Multi-channel Diplexer/Multiplexers for wideband duplex data links
(7) Low noise receiver front-end technology
(8) Electronically scanned antenna arrays (ESAs)

7) Describe the Issuer's Facilities

Forward-Looking Statements

Certain of the matters discussed concerning our operations, cash flows, financial position, economic performance and financial condition, including in particular, the likelihood of our success in developing and expanding our business and the realization of sales, include forward-looking statements.

All statements other than historical facts may be forward-looking statements, such as "may," "will," "should," "likely," "projects," "expects," "anticipates," "intends," "plans," "believes," "estimates," and similar expressions are used to identify forward-looking statements. We caution investors that these statements are subject to risks and uncertainties many of which are difficult to predict and generally beyond our control that could cause actual results to differ materially from those expressed in, or implied or projected by, the forward-looking information and statements

Readers of this document are cautioned that our forward-looking statements are not guarantees of future performance and the actual results or developments may differ materially from the expectations expressed in the forward-looking statements.

As for the forward-looking statements that relate to future financial results and other projections, actual results will be different due to the inherent uncertainties of estimates, forecasts and

Projections and may be better or worse than projected and such differences could be material. Given these uncertainties, you should not place any reliance on these forward-looking statements. These forward-looking statements also represent our estimates and assumptions only as of the date that they were made. We expressly disclaim a duty to provide updates to these forward-looking statements, and the estimates and assumptions associated with them, after the date of this filing, to reflect events or changes in circumstances or changes in expectations or the occurrence of anticipated events.

Although we believe that the expectations reflected in the forward looking statements are reasonable, management can give no assurance that such expectations will prove to have been correct. Generally, forward looking statements relate to business plans or strategies, projected or anticipated benefits or other consequences of such plans or strategies, or projections involving anticipated revenues, expenses, earnings, levels of capital expenditures, liquidity or indebtedness, ability to raise working capital, or other aspects of operating results or financial position.

All phases of our operations are subject to a number of uncertainties, risks and other influences which are set forth in this quarterly report (discussed as **Risk Factors**), many of which are outside of our control and any one of which, or a combination of which, could materially affect our results of operations and whether the forward looking statements made by us ultimately prove to be accurate.

Management believes that the Company is now in a favorable position to commence generating sustainable revenues and avoid an otherwise necessary capital raise to fund product commercialization and/or operating costs. No assurance can be given that we can complete the development of any technology or that, if any technology is fully developed, it can be manufactured and marketed on a commercially viable basis. Furthermore, no assurance can be given that any technology will receive market acceptance.
