M PHARMACEUTICAL INC. (formerly First Sahara Energy Inc.)

Notes to Interim Consolidated Financial Statements (Unaudited)

For the nine months ended September 30, 2015

1. General information

M Pharmaceutical Inc. ("the Company") is a clinical-stage company developing innovative technologies for the monitoring and treatment of obesity, diabetes, and other gastroenterological indications. The Company was incorporated on March 11, 2003 under the laws of the Province of Ontario. On November 26, 2014, the Company was continued into the Province of Alberta from Ontario. The address of the head office is suite 430-580 Hornby Street, Vancouver, BC V6C 3B6.

2. Going concern

The ability of the Company to realize its business plan and continue operations is dependent upon the Company being able to commercialize a product for sale, to finance research, development and commercialization costs and compete in a competitive marketplace for diabetes monitoring products. Although the Company believes it will be successful, there is no guarantee the Company will produce a product that is marketable or obtains consumer acceptance.

These interim consolidated financial statements have been prepared on the basis of accounting principles applicable to a going concern. Accordingly, they do not give effect to adjustments that would be necessary should the Company be unable to continue as a going concern and therefore be required to realize its assets and liquidate its liabilities and commitments in other than the normal course of business and at amounts different from those in the accompanying financial statements. Such adjustments could be material. The Company has a need for financing working capital, product development, marketing and sales. Because of continuing operating losses, the Company's continuance as a going concern is dependent upon its ability to obtain adequate financing and to reach profitable levels of operations. It is not possible to accurately predict whether present financing efforts will be successful or if the Company will attain profitable levels of operations. The Company will periodically have to raise funds to continue operations and, although it has been successful in doing so in the past, there is no assurance it will be able to do so in the future. These conditions raise significant doubt about its ability to continue as a going concern.

3. Basis of preparation

Basis of measurement

These interim consolidated financial statements were prepared on a going concern basis, under the historical cost convention, as modified by the measurement at fair value of certain financial assets and financial liabilities. Share options and share awards granted to employees and third parties are recognized at fair value at the date of grant.

Statement of compliance

The interim consolidated financial statements for the nine months ended September 30, 2015, including comparatives, have been prepared in accordance with IAS 34 "Interim Financial Reporting" (IAS 34). They do not include all of the information required in annual financial statements in accordance with IFRSs, and should be read in conjunction with the consolidated financial statements for the year ended December 31, 2014. The accounting policies set out below have been applied consistently to all periods presented in these financial statements.

M PHARMACEUTICAL INC. (formerly First Sahara Energy Inc.)

Notes to Interim Consolidated Financial Statements (Unaudited)

For the nine months ended September 30, 2015

The interim consolidated financial statements were authorized for issue by the Board of Directors on November 23, 2015.

Use of estimates and judgments

The preparation of interim consolidated financial statements in conformity with IFRS requires management to make judgments, estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results may vary significantly from these estimates. Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimates are revised and in any future period affected.

Functional and presentation currency

These interim consolidated financial statements are presented in Canadian dollars, which is the Company's functional and presentation currency.

Adoption of New and Revised Reporting Standards

The Company adopted all new and revised standards issued by the International Accounting Standards Board ("IASB") and the International Financial Reporting Interpretations Committee ("IFRIC") of the IASB effective for periods beginning on or before January 1, 2015, being amendments related to the Annual Improvements to IFRSs 2010-2012 and 2011-2013 Cycles. The amendments related to the Annual Improvements Cycles clarified standards already in effect and did not impact the Company's interim financial position, results of operations or disclosures.

The Company did not adopt any new or revised standards in advance of their effective dates.

4. Basis of consolidation

The consolidated financial statements comprise the financial statements of the Company and its wholly owned subsidiaries M Diagnostics Inc., RX Global Capital Inc. and TriMtec Biomedical Inc. as at September 30, 2015.

The companies are collectively referred to as the "Group". All significant intercompany balances and transactions have been eliminated upon consolidation. Changes in the Group's interest in a subsidiary that do not result in a loss of control are accounted for as transactions with owners in their capacity as owners. No gain or loss is recognized in profit or loss.

For consolidation purposes, control is achieved when the Company is exposed, or has rights, to variable returns from its involvement with the investee and has the ability to affect those returns through its power over the investee.

Specifically, the Company controls an investee if, and only if, the Company has:

- o Power over the investee (i.e., existing rights that give it the current ability to direct the relevant activities of the investee);
- o Exposure, or rights, to variable returns from its involvement with the investee;
- o The ability to use its power over the investee to affect its returns

Generally, there is a presumption that a majority of voting rights result in control. To support this presumption and when the Company has less than a majority of the voting or similar rights of an investee,

M PHARMACEUTICAL INC. (formerly First Sahara Energy Inc.)

Notes to Interim Consolidated Financial Statements (Unaudited)

For the nine months ended September 30, 2015

the Company considers all relevant facts and circumstances in assessing whether it has power over an investee, including:

- o The contractual arrangement with the other vote holders of the investee
- o Rights arising from other contractual arrangements
- o The Company's voting rights and potential voting rights

The Company re-assesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control. Consolidation of a subsidiary begins when the Company obtains control over the subsidiary and ceases when the Company loses control of the subsidiary. Assets, liabilities, income and expenses of a subsidiary acquired or disposed of during the period are included in the consolidated financial statements from the date the Company gains control until the date the Company ceases to control the subsidiary.

Profit or loss and each component of other comprehensive income (OCI) are attributed to the equity holders of the parent of the Company and to the non-controlling interests, even if this results in the non-controlling interests having a deficit balance. When necessary, adjustments are made to the financial statements of subsidiaries to bring their accounting policies into line with the Company's accounting policies. All intra-group assets and liabilities, equity, income, expenses and cash flows relating to transactions between members of the Company are eliminated in full on consolidation.

A change in the ownership interest of a subsidiary, without a loss of control, is accounted for as an equity transaction.

If the Company loses control over a subsidiary, it derecognises the related assets (including goodwill if any), liabilities, non-controlling interest and other components of equity while any resultant gain or loss is recognised in profit or loss. Any investment retained is recognised at fair value.

On February 26, 2014, the Company issued 330,000 common share units at a price of \$0.50 per common share for gross proceeds of \$165,000. Each unit consists of one common share and one common share purchase warrant. Each warrant is exercisable for 2 years from closing at an exercise price of \$0.70 per common share.

On June 18, 2014, the Company completed a non-brokered private placement and raised gross proceeds \$1,035,000 by issuing 5,174,998 units at \$0.20 each. Each unit consisted of one common share and one common share purchase warrant. Each warrant is exercisable for 2 years from closing at an exercise price of \$0.50 per common share. The Company used the proceeds from this financing for general working capital. The Company paid \$31,427 finder's fees to those assisting it in completing this financing in the amount of 8% cash.

On June 20, 2014, the Company issued 60,000 common shares at a price of \$0.50 per common share for gross proceeds of \$30,000 for debt. On July 2, 2014, the Company issued 40,000 common shares at a price of \$0.50 per common share in payment of finder's fees total amount \$20,000.

On July 24, 2014, 200,000 units with a value of \$60,000 were issued to reduce promissory notes from \$385,000 to \$85,000. On July 17, 2014 \$200,000 of cash was paid. Each unit consists of one common share and one half of a share purchase warrant. Each warrant is exercisable for 3 years from closing at an exercise price of \$0.50 per common share. The 100,000 warrants were attributed a value of \$40,000 based on the Company's share price on the date the warrants were issued using the Black Scholes model. The shares were settled in the agreement at a price of \$0.40 per share. When the 200,000 shares were issued, they were attributed a value of \$60,000 based on the Company's share price on July 24, 2014. As a result, a gain of \$20,000 has been recognized.

On February 19, 2015, the Company issued 806,667 common shares of the Company's common stock to the shareholders of M Diagnostics Inc. for acquisition of license technology relating to the diabetes monitoring devices.

In February 2015, the Company completed a private placement and raised gross proceeds of \$1,080,000 by issuing 5,400,000 shares at \$0.20 per unit. Each unit consisted of one common share and one common share purchase warrant. Each warrant is exercisable for 2 years from closing at an exercise price of \$0.50 per common share.

During February 2015, the Company issued 110,600 finder's warrants. Further to the letter of intent, the Company issued 806,668 common shares of the Company's common stock (the "Acquisition Shares") and made a cash payment of US\$150,000 to the former shareholders of M Diagnostics Inc.

In April 2015, the Company closed the acquisition and issued a total of 9,522,400 common shares at a

deemed price of \$0.25 per share (FMV \$0.16), including 3,500,000 shares pursuant to the license agreement. The 3,500,000 shares are subject to a 3 year escrow agreement, with 10% of the escrowed shares being immediately releasable, and the balance being released in equal tranches every six months thereafter. The Company also issued 5,664,000 replacement warrants, exercisable at \$0.25 per warrant expiring on February 10, 2020.

On April 16 2015, the Company consolidated its common shares on the basis of ten old common shares for one new common share. The consolidation was approved by shareholders at a special meeting of the Company held on October 10, 2014 and was approved by the Canadian Securities Exchange ("CSE") in April 2015. The consolidation was intended to better position the Company for institutional investors seeking growth opportunities in the life sciences industry.

On May 8, 2015, the Company issued 2,124,814 common shares to consultants and other service providers pursuant to contractual arrangements, and to settle certain debts of the Company owed to insiders and consultants at a deemed price of \$0.17 per share in aggregate \$361,218.

12. Financial Risk Management

Financial instruments consist of cash and cash equivalents, marketable securities, accounts receivable, trade and other payables, loan and notes payable. Cash and cash equivalents and accounts and notes receivable are categorized as loans and receivables, marketable securities are held for trading and trade and other payables, loan and notes payable are categorized as other financial liabilities.

The carrying values of cash and cash equivalents, accounts and notes receivable, and trade and other payables, loan and notes payable approximate their fair values and any difference would not be significant. Investments in marketable securities are recognized at the Level 1 fair value at the date of the financial statements using the quoted market price.

There have been no changes in the nature of financial instruments of the Company, the methods used by the Company to measure the risks arising from financial instruments or in the Company's objectives, policies and processes for managing such risks since the year ended December 31, 2014. The Company's capital management policies are consistent with those used at December 31, 2014.

13. Loss per share

Basic and diluted loss per share

The calculation of basic and diluted loss per share at September 30, 2015 was based on net loss of \$2,095,841 (2014 - \$634,508), and a weighted average number of common shares outstanding of 44,222,434 (2014 - 4,537,008). All outstanding options and warrants were excluded from the calculation of diluted loss per share because their effect was anti-dilutive.

14. Subsequent events

On October 27, 2015, the Company issued unsecured convertible securities ("Debentures") to settle trade payables in the amount of \$743,266.36. This is not reflected in the financial statements as of September 30, 2015.

The term of the Debentures is 36 months at 10% annual simple interest, with the interest to be paid up front through the issuance of interest units.

The Company is hereby authorized and directed to issue certificates representing the Debentures to be effective as of October 27, 2015. Each Debenture is convertible to Common Shares at an exercise price of C\$ 0.10. The terms of the Debentures are 36 months at 10% annual simple interest. The interest shall be paid up front, through the issuance of Interest Units. Each Interest Unit consists of one share of the Company's common stock (at a deemed price of C\$ 0.05 per unit) and one warrant with an exercise price of C\$ 0.10 and a term of two years.

Up to an aggregate of 7,432,660 Common Shares are hereby reserved for issuance upon conversion from time to time of the Debentures. The Company issued 4,459,596 Interest Units.

On November 20, 2015, the Company entered into a non-binding Letter of Intent to acquire assets from Chelatexx, LLC ("Chelatexx") related to a reformulated orlistat for weight loss. The contemplated terms of this acquisition include an upfront cash payment, issuance of 10 million shares of M Pharmaceutical, and a
