Performance Summary

The following is a summary of significant events and transactions that occurred during the year ended July 31, 2015:

Beaverdell Project, British Columbia, Canada

On August 15, 2007, as amended August 20, 2007, and January 15, 2010, the Company entered into a Property Purchase Agreement (collectively the "Property Agreement") with St. Elias Mines Ltd., ("St. Elias"). Under the terms of the Property Agreement, the Company has the right to acquire a 100% interest (subject to a 1.5% net smelter royalty) in the Beaverdell Property. Pursuant to the terms of the Property Agreement, the Company can acquire a 100% interest in the Beaverdell Property by paying $250,000 to St. Elias, issuing 400,000 common shares of the Company to St. Elias and by incurring $1 million in exploration expenditures on the Beaverdell Property. Exploration work consisting of mechanized trenching, 3D-IP geophysical surveys and soil and rock geochemical sampling have been completed. St. Elias allowed the claims to expire, effectively cancelling the Property Agreement. Accordingly the Company has incurred an impairment charge of $1,385,581 was incurred for the year ended July 31, 2014.

Scandie Property, British Columbia, Canada

On February 22, 2011, the Company entered into an agreement to acquire a 100% interest in certain mining claims located in the Greenwood Mining Division, British Columbia for total consideration of $31,500. Exploration work consisting of geochemical soil sampling and geological mapping was completed during August 2011. Total costs for this work together with BC government mineral claim assessment filing fees were $7,429. The Scandie Property is in good standing until July 15th, 2017. No further expenditure is required to maintain these properties.

Donnamore Property, British Columbia, Canada

On February 24, 2011, the Company entered into an agreement to acquire a 100% interest in certain mining claims located in the Kamloops Mining Division, British Columbia for total consideration of $5,000. Exploration work consisting of geological mapping and rock sampling was completed in August 2011. Total costs for this work was $4,800. Exploration work comprising of geological mapping, geochemical soil and rock sampling and prospecting was completed during the summer of 2012. The total cost of this work was $50,000. The claims are in good standing until August 15th, 2022, and no further work is required to maintain this property.

Goldpost Property, British Columbia

On April 25, 2012, the Company entered into an agreement to acquire 100% interest in certain mining claims in the Osoyoos Mining Division, British Columbia, for total consideration of $163,353 (US$165,000). Exploration work consisting of geological mapping, geochemical soil and rock sampling and prospecting was completed during the summer of 2012. The total cost of this work was $25,000. During the year ending July 31, 2014, the Company allowed the property to lapse and impaired $163,353 to the Statement of Operations.

Chance E, Southwest Peru

On July 17, 2012, the Company entered into an option agreement with St. Elias Mines Ltd., ("St. Elias") whereby the Company can earn a 60-per-cent interest in the Chance E mineral concession which adjoins St. Elias's wholly owned Tesoro gold project located in southwestern Peru.

Under the terms of the option agreement, the Company can acquire a 60-per-cent interest in the Chance E claim (subject to a 1.5-per-cent net smelter returns royalty (NSR)) in consideration of making cash payments of $500,000 to St. Elias, issuing one million common shares of Intigold to St. Elias and incurring $1-million in exploration expenditures on the property over a three-year period. The Company's first year commitment under the option agreement is to pay $50,000 to St. Elias and incur $200,000 in exploration expenditures on the property.

On January 17, 2013, the Company issued 1,000,000 common shares to St. Elias pursuant to the option agreement. As at July 31, 2013, the Company has paid $50,000 as an option payment. St. Elias allowed this property to lapse effectively cancelling the option agreement. Accordingly, $150,000 was written off by the Company during the year ended July 31, 2014.

1.3 Results of Operations

Three months ended July 31, 2015

During the quarter ended July 31, 2015, the Company incurred a comprehensive loss of $287,246 compared to $1,719,316 loss for the corresponding period. The largest expense items that resulted in a significant decrease in net comprehensive loss for the quarter ended July 31, 2015 were;

General exploration for the quarter ended July 31, 2015, remained $nil for the quarters ended July 31, 2014 and July 31, 2013. Until the Company raises sufficient capital, the Company has reduced its work on its mining operations. All the properties held by the Company are being maintained in good standing unless otherwise stated. The Company is continuing its efforts of raising sufficient capital for it to enable its exploration activities.

Consulting fees for the quarter ended July 31, 2015, were $74,000 compared to $63,000 for the corresponding period ending July 31, 2014. The increase was related to consultants further developing Ttagit.

Office and general expenses for quarter ended July 31, 2015 increased to $51,098 from $24,617 for the quarter ended July 31, 2014. The decreases relate to the following items;

- Investor relations costs for the quarter ended July 31, 2015 were $17,773, compared to $nil for the quarter ended April 30, 2014. The Company continues to focus its marketing and promotional activities and this resulted in the Company receiving $554,540 in the exercise of warrants or through private placements.
- Office supplies for the quarter ended July 31, 2015 were $168 (2014: $7,775). The reduction was caused by the expenses relating to the Ttagit that are no longer required.
- Rent charges for the quarter ending July 31, 2015 decreased to $7,123, (2014: $11,569). The reduction was caused by the receipt of amounts due from offering office services to an arm's length party.

Professional fees for the quarter ended July 31, 2015 increased to $68,110 from $64,105 for the quarter ended July 31, 2014. The increase in professional fees related to legal fees related to a lawsuit that was filed against the Company for non-payment of consulting fees. The Company intends to defend itself against the plaintiff.

Stock-based compensation charges for the quarter ended July 31, 2015 increased to $87,437 from $29,835 for the quarter ended July 31, 2014. The Company issued 700,000 stock options during the quarter ended July 31, 2015 as well as incurring subsequent quarterly charges from issuances of stock options in previous quarters. The Company uses the Black-Scholes method of calculating the stock-based compensation expense.

The operating loss for the three months ending July 31, 2015 increased to $287,246 (2014: $183,734); the increase in operating loss was caused by the aforementioned expenses for the quarter.

During the quarter ended July 31, 2014, St. Elias allowed its Beaverdell and Chance E properties to lapse. Accordingly, the Company has written-off $1,535,582 during the three months ending July 31, 2014. There was no right off of any exploration properties for the quarter ended July 31, 2015.

Net loss and comprehensive loss for the three months ending July 31, 2015 was $287,246 (2014: $1,719,316).

Year ended July 31, 2015

During the year ended July 31, 2015, the Company incurred a comprehensive loss of $742,550 compared to $2,235,146 loss for the corresponding period. The largest expense items that resulted in a significant decrease in net comprehensive loss for the year ended July 31, 2015 were;

General exploration for the year ended July 31, 2015, decreased to $nil from $20,520 for the year ended July 31, 2014. Until the Company raises sufficient capital, the Company has reduced its work on its mining operations. All the properties that are being held by the Company are being maintained in good standing unless otherwise stated. The Company is continuing its process of raising sufficient capital to enable its exploration activities.

Consulting fees for the year ended July 31, 2015, were $246,421 compared to $183,000 for the corresponding period ending July 31, 2014. The large increase was related to consultants developing products for the Company's subsidiary Ttagit Social Networks Inc.

Office and general expenses for year ended July 31, 2015 increased to $118,843 from $112,740 for the year ended July 31, 2014. The increase relates to the following items;

- Investor relations costs for the year ended July 31, 2015 were $25,673 (2014: $24,623). The Company continues its focus on its marketing and promotional activities resulting in the exercise of 1,652,596 warrants realising cash proceeds of $230,540 and issuing 6,480,000 shares through private placements.
- Office supplies decreased to $708 (2014: $10,284) for the year ended July 31, 2015. The reduction was caused by the expenses relating to Ttagit that are no longer required.
- Travel and entertaining costs were $16,467 for the year ended July 31, 2015 (2014: $nil), as the Company incurred costs relating to its promotional and marketing activities.
- Rent decreased to $40,439 (2014: $45,484) due to the receipt of amounts due from offering office services to an arm's length party.

Professional fees the year ended July 31, 2015 decreased to $109,002 from $113,175 for the year ended July 31, 2014. Professional fees relate to legal and accounting costs during the period. The reduction was caused by a reduction in accounting services during the year ended July 31, 2015.

Stock-based compensation charges for the year ended July 31, 2015 were $245,019 (2014: $100,507). The Company issued 3,350,000 stock options at an exercise price between $0.10 & $0.17 per share during the year ended July 31, 2015. The Company uses the Black-Scholes method of calculating the stock-based compensation expense.

The operating loss for the year ended July 31, 2015 increased to $742,596 (2014: $556,908); the increase in operating loss was caused by the aforementioned expenses for the year.

The Company received interest income of $46 for the year ended July 31, 2015 (2014: $146). The decrease in interest received is directly related to the reduction on cash on deposit. The Company expensed its investment in the Goldpost, Beaverdell and Chance E properties by allowing the claims to lapse; $1,698,934 was expensed during the year ended July 31, 2014. The Company received a tax credit for mineral expenses of $21,700 for the year ended July 31, 2014. The Company suffered a loss on sale of capital assets of $1,150; these related to the sale of computer equipment which were no longer required.

Net loss and comprehensive loss of the year ended July 31, 2015 was $742,550 (2014: $2,235,146). The subsidiary, Ttagit Social Networks Inc., has a non-controlling interest of 49%, hence $47,222 (2014: $30,412) is attributable to them.

The Company explores for minerals with an emphasis on gold, and has no operating property. The Company has also invested in Ttagit Social Networks Inc. The Company has no earnings and therefore finances these exploration activities by the sale of common shares. The key determinants of the Company's operating results are the following:

(a) the state of capital markets, which affects the ability of the Company to finance its exploration activities;

(b) the write down and abandonment of mineral properties as exploration results provide further information relating to the underlying value of such properties; and

(c) market prices for natural resources.

For the year ended July 31, 2015, the Company reported no discontinued operations, no changes in accounting policy and declared no cash dividends.

1.5 Summary of Quarterly Results

The following table sets forth selected financial information of the Company for each of the last eight quarters:

October 31, 2013	1	159,360	(322,701)	(0.01)

Note 1– The Company impaired its investment in the Goldpost property. The value of the impairment was $163,353.

Note 2 – The Company incurred an impairment charge of $1,535,582 relating to the Beaverdell and Chance E properties.

1.6 Liquidity and Capital Resources

The Company's operations consist of the exploration, evaluation of natural resource properties, and the development of technology. The Company's financial success is dependent upon its ability to find economically viable properties and develop them. The process can take many years and is largely dependent on factors beyond the control of the Company. The Company's historical capital needs have been met by the sale of the Company's stock. The Company's current funds on hand are not sufficient to cover the Company's exploration and administrative expenses. There is no assurance that equity funding will be possible at the times required by the Company. The Company is finding it extremely challenging to raise equity funds. If no funds are can be raised, then the Company may require a significant curtailing of operations to ensure its survivability.

To date, the Company's operations have been funded almost entirely through the sale of the Company's stock. There is no assurance that the Company will continue to be successful by funding its operations through equity financings. The Company will continue to seek capital through the issuance of common shares.

The Company is a junior exploration company with no revenue-producing operations. Activities include acquiring mineral properties and conducting exploration programs. The mineral exploration business is risky and most exploration projects will not become mines. For the funding of property acquisitions and exploration that the Company conducts itself, the Company does not use long-term debt. Rather, it depends on the issuance of shares from the treasury to investors. Such stock issues in turn, depend on numerous factors, important among are which are a positive mineral exploration climate, positive stock market conditions, a company's track record and experience of management. The Company is also dependent upon extensions of option agreements for the property expenditure requirements.

The financial statements have been prepared on a going concern basis which assumes that the Company will be able to realize its assets and discharge its liabilities in the normal course of business for the foreseeable future. The Company incurred a net loss and comprehensive loss of $742,550 during the year ended July 31, 2015 and has a cash balance and a working capital deficiency of $26,312 and $403,675, respectively, as at July 31, 2015. The Company's ability to meet its obligations as they fall due and to continue to operate as a going concern is dependent on the continued financial support of the creditors and the shareholders. In the past, the Company has relied on sales of its equity securities to meet its cash requirements. There can be no assurance that funding from this or other sources will be sufficient in the future to continue and develop its mineral properties and provide funding to Ttagit Social Networks Inc. Even if the Company is able to obtain new financing, it may not be on commercially reasonable terms or terms that are acceptable to it. Failure to obtain such financing on a timely basis or extensions on the option agreements, could cause the Company to reduce or terminate its operations. The above indicates the existence of a material uncertainty that may cast significant doubt on the Company's ability to continue as a going concern.

As of July 31, 2015, the Company had 40,167,878 issued and outstanding shares and 52,223,878 shares on a fully diluted basis. Since the warrant and stock option price is greater than the market of the price of the Company's shares at the date of this report, then no warrants or stock options will be exercised and no funds will be raised.

The Company had $(403,675), of working capital as at July 31, 2015 compared to $(491,034) as at July 31, 2014. The increase in working capital resulted from the cash used in operations of $553,783, (2014: $169,243) and which was offset by financing activities generating cash of $584,290, (2014: $125,500) during the year ending July 31, 2015, due to the issuance of 8,607,596 common shares for net cash proceeds of $585,290 (2014: $97,500).

1.7 Capital Resources

As at July 31, 2015, the Company had cash of $26,312(July 31, 2014: $2,265). The Company is aggressively pursuing equity financing and there can be no guarantees that the Company will be successful in its endeavors.

As of the date of this MD&A, the Company has no outstanding commitments except for its property agreements, if any. The Company has not pledged any of its assets as security for loans, or otherwise and is not subject to any debt covenants.

The Company may not have sufficient working capital at this time to meet its ongoing financial obligations. The Company's ability to meet its obligations as they fall due and to continue to operate as a going concern is dependent on the continued financial support of the creditors and the shareholders. In the past, the Company has relied on sales of its equity securities to meet its cash requirements. There can be no assurance that funding from this or other sources will be

sufficient in the future to continue and develop its mineral properties and provide funding to Ttagit Social Networks Inc. Even if the Company is able to obtain new financing, it may not be on commercially reasonable terms or terms that are acceptable to it.

1.8 Off-Balance Sheet Arrangements

The Company has no off-balance sheet arrangements.

1.9 Transactions with Related Parties

The expenditures charged by related parties to the Company and not disclosed elsewhere in these consolidated financial statements consist of the following:

(a) paid or accrued $60,000 (2014 - $64,000) as consulting fees to the President and to the CEO of the Company.

(b) paid or accrued $60,000 (2014 - $60,000) as consulting fees to the CFO of the Company. The Company also paid $36,000 ($2014 - $36,000) as accounting fees to a company controlled by the CFO.

(c) paid or accrued $39,500 (2014 - $10,000) as consulting fees to the president of TTAGIT.

(d) stock based compensation was $49,595 for the related parties (2014 - $34,796).

The terms and conditions of the transactions with key management personnel and their related parties are made at terms equivalent to those that prevail on similar transactions to non-key management personnel related entities at an arm's length basis

As at July 31, 2015, there was $92,600 (2014 - $108,350) due to the related parties in accounts payable and accrued liabilities.

1.10 Critical Accounting Estimates.

The preparation of the Company's financial statements requires management to use estimates and assumptions that affect the reported amounts of assets and liabilities as well as revenue and expenses.

The most critical accounting estimates upon which company financial statements depend on those estimates of proven and probable reserves and resources, recoverable ounces there from, and assumptions of operating costs and future mineral prices. Such estimates and assumptions affect the potential impairment of long-lived assets and the rate at which depreciation, depletion and amortization. In addition, management must estimate costs associated with mine reclamation's enclosure costs.

The Company presently has no properties with proven or inferred reserves. When such a situation arises. The Company will utilize existing industry standards, with respect to the reporting and accounting for these issues.

The Company accounts for all stock-based payments and awards using the fair value based method. Under the fair value based method, stock-based payments to non-employees are measured at the fair value of the consideration received, or the fair value of the equity estimates issued, or liabilities incurred, whichever is more reliably measurable.

The Company will have an obligation to reclaim its properties after the minerals have been depleted. These estimated costs, known as the Asset Retirement Obligation, will be recorded as a liability at their fair values in the periods in which they occur, and at each reporting period, are increased to reflect the interest (accretion expense) considered in the initial fair value management of the liabilities. Reclamation expenses vary from jurisdiction to jurisdiction. The Company has no material ARO at this time.

1.11 Changes in Accounting Policies including Initial Adoption

See Note 2 Company's financial statements for the year ended July 31, 2015.

Going concern issue

The Company's financial statements have been prepared on a going concern basis which assumes that the Company will be able to realize its assets and discharge its liabilities in the normal course of business for the foreseeable future. The continuing operations of the Company are dependent upon the continued financial support of the creditors and the shareholders. In the past, the Company has relied on sales of its equity securities to meet its cash requirements. There can be no assurance that funding from this or other sources will be sufficient in the future to continue and develop its mineral properties and provide funding to Ttagit Social Networks Inc. Even if the Company is able to obtain new financing, it may not be on commercially reasonable terms or terms that are acceptable to it. Failure to obtain such financing on a timely basis or extensions on the option agreements, could cause the Company to reduce or terminate its operations. The above indicates the existence of a material uncertainty that may cast significant doubt on the Company's ability to continue as a going concern.

The Company may encounter difficulty sourcing future financing in light of the recent economic downturn. The current financial equity market conditions and the inhospitable funding environment make it difficult to raise capital through the private placements of shares. The venture capital industry has been severely affected by the world economic situation as it is considered speculative and high-risk in nature, making it even more difficult to fund. While the Company is using its best efforts to achieve its business plans by examining various financing alternatives, there is no assurance that the Company will be successful with any financing ventures.

Internal control over financial reporting and disclosure controls and procedures

Management is responsible for the design and maintenance of both internal control systems over financial reporting and disclosure controls and procedures. Disclosure controls and procedures are designed to provide reasonable assurance that relevant information is gathered and reported

to senior management on a timely basis so that appropriate decisions can be made regarding public disclosure.

Current disclosure controls include meetings with the CEO, chief financial officer and members of the Board of Directors and audit committee through e-mails, on telephone conferences and informal meetings to review public disclosure. All public disclosures are reviewed by certain members of senior management and the board of directors and audit committee the Board of Directors has delegated the duties to the chief executive officer who is primarily responsible for financial and disclosure controls.

Management and the board of directors continue to work to mitigate the risk of material misstatement.

Risk and uncertainties

While the Company has no operating properties for following is a brief discussion of those distinctive or special characteristics of the company's potential operations and industry, which may have a material impact on, or constitute risk factors in respect of the Company's financial performance.

Mining risks and insurance

The business of mining is subject to certain types of risks and hazards, including environmental hazards, industrial accidents, unusual or unexpected changes to rock formations, changes to the regulatory environment, and general price volatility of the mineral market.

The Company is aware of potential risk and uncertainty, and intends to follow up. Generally accepted industry practices with respect to insurance, mineral price volatility, and such other areas that can occur. It is the decision of company management to mitigate these risks to the best of its abilities. At present, the company has no properties with proven reserves, either inferred or otherwise.
