**5) Financial Statements: Incorporated by reference. Filed with OTC Markets on 2-9-16**

**6) Describe the Issuer's Business, Products and Services**

Describe the issuer's business so a potential investor can clearly understand the company. In answering this item, please include the following:

A. Description of the issuer's business operations;

The Movie Studio is a vertically integrated publicly traded motion picture production and distribution company based in Hollywood, Florida.

B. Date and State (or Jurisdiction) of Incorporation: Incorporated July 26th 1961 in Delaware

C. the issuer's primary and secondary SIC Codes;

D. the issuer's fiscal year end date; October 31st

E. principal products or services, and their markets;

The Movie Studio platform consists of three verticals that operate synergistically with each other. Strategic Partner, is the first of the three verticals. In this vertical, the Company enters into agreements with substantial asset partners, wherein these partners can promote their brand, product, or service through the Movie Studio, which can offer them, through the its vertical integration model, a variety of opportunities, as a result of their association with the movie business. Each partner agreement is crafted in the best interest of the client's needs or objectives.

Locations Pay Us is the second vertical, wherein we get paid for filming a scene of our movie at the location of a client. The excitement generated from motion picture production at given location can drive traffic to the client's point of sale (POS); as a result, the Company and the client both benefit from this arrangement. In addition, the Company utilizes its win-a-part-in-a-movie contest at the location; it also provides digital plates to the client's location, which can utilize the key art shot of the location as base artwork for web, print or television at no additional cost in perpetuity. Clients have reported that their locations have seen double digit increases in their margins on the night of the filming event. Product Placement is the third vertical. The motion picture product placement industry is a two-billion-dollar industry; companies utilize this platform to create worldwide brand awareness for their brand, product or service, with the average movie impact of fifteen (15) years (in five year distribution cycles). In addition, these companies provide us products that

we utilize at movie events for PPG (on premise promotional giveaways); they also gain additional branding exposure in direct interaction with the brands exact demographic. The value proposition for investors is in the bi-product of manufacturing of a major motion picture asset(s), which reduces capital expenses (CAP X) by utilizing these vertical in the manufacturing of the intellectual property (movie) asset. The completed movie then employs a significant expense to revenue ratio, by utilizing these metrics. The motion picture asset is ultimately licensed to seventy (70) countries around the world (foreign market) and domestically in the traditional media outlet channels, movie theaters, television, DVD, pay cable, Video on Demand (VOD) mobile etc. In addition, the motion picture integrates a soundtrack, which creates an additional revenue stream for investors. The Company has proven the business model on all three verticals prior to occupying a 17,000 sq. ft. production studio in downtown Hollywood, Florida complete with a 5,000 sq. ft. 2 edit suites, complete motion picture manufacturing lighting and equipment, cameras, talent division, and in-house marketing. The Movie Studio manufactured its first feature film production titled *Exposure* starring Corey Feldman and is currently in pre-production of the sequel *Double Exposure* and Pre-Production of BAD ACTRESS. In addition, The Movie Studio can generate additional revenue streams from studio rentals and music video production. The Company is currently fully operational and implementing its business model to scale the Companies operations.

## 7) Describe the Issuer's Facilities

17,000 sq. ft. production studio in downtown Hollywood, Florida complete with a 5,000 sq. ft. 2 edit suites, complete motion picture manufacturing lighting and equipment, cameras, talent division, and in-house marketing.
