USA RESTAURANT FUNDING INC.
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2015

1. Organization – Nature of Operations

USA Restaurant Funding, Inc. (the "Company" or "USAR") was incorporated under the laws of the State of Nevada on July 23, 2014 as USA Restaurants, Inc. On May 28, 2015, the Company amended its Articles of Incorporation to change its name to "USA Restaurant Funding, Inc.", to reflect the change in direction of the Company's business to the Restaurant Industry. As a result of the name change, the Company's trading symbol was changed to "USAR".

On December 26, 2015 the Nevada Secretary of State approved the Company's decision to change its name from USA Restaurant Funding, Inc. to The Chron Organization, Inc. In addition, the Chairman of the Company resigned, and a change of control occurred with a new management team put into place. The Company is in the development and reorganization stage. Its activities to date have been limited to capital formation, organization and development of its business plan.

While the FINRA-registered name and other registration may imply and continue to imply an association with the Restaurant Industry, the Company has no plans or intentions to develop any business within that Industry. Further, the entirety of the management team formally associated with the Restaurant Industry have resigned and new management has been brought in to direct the Company into a different Industry entirely.

The Company intends to provide home automation and energy conservation services to home owners. The services will include but are not limited to security, monitoring, and automation control that will enable the customer base to run a safe and efficient home. In addition to these services the Company will also provide electricity needs to its customer base through its retail electricity provider division.

2. Summary of Significant Accounting Policies

Use of Estimates – The preparation of financial statements in conformity with generally accepted accounting principles in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of sales and expenses during the reporting periods. Key estimates in the accompanying financial statements include, among others, revenue recognition, allowances for doubtful accounts, valuation of long-lived assets, and deferred income tax asset valuation allowances.

The financial statements are unaudited and are presented on the basis of the Company's ability to continue as a going concern. Other than continued current involvement, all references to financial transactions prior to December 31, 2015 have been removed from these financial statements. See further information in footnote (8), *Discontinued Operations*.

Cash Equivalents – The Company considers all highly-liquid investments with a maturity of three months or less, when purchased, to be cash equivalents. There was no cash or cash equivalents on-hand at December 31, 2015.

Fair Value of Financial Instruments - The Company calculates the fair value of its assets and liabilities which qualify as financial instruments and includes this information in the notes to consolidated financial statements when the fair value is different than the carrying value of those financial instruments. The estimated fair value of accounts receivable, prepaid and other current assets, and accounts payable and accrued expenses approximate the carrying amounts due to the relatively short maturity of these instruments. As stated above, the Company has discontinued its restaurant activities and as such has determined that the restaurant related assets have no fair value and no carrying value. The carrying value of short and long term debt also approximates fair value since these instruments bear market rates of interest. None of these instruments are held for trading purposes.

3. Going Concern

The Company's financial statements for the year ended December 31, 2015 have been prepared on a going concern basis, which contemplates the realization of assets and the settlement of liabilities and commitments in the normal course of business. The Company reported a net loss of $131,370 for the year ended December, 31, 2015, and an accumulated deficit of $242,819 at December 31, 2015. At December 31, 2015, the Company had a working capital deficit of $138,080.

The Company's ability to continue as a going concern may be dependent on the success of management's plan. The financial statements do not include any adjustments relating to the recoverability and classification of assets or the amounts and classification of liabilities that might be necessary should the Company be unable to continue as a going concern.

During the 2016 fiscal year, the Company intends to continue its efforts to raise funds to support its efforts through the sale of equity and/or debt securities.

To the extent the Company's operations are not sufficient to fund the Company's capital requirements, the Company may attempt to enter into a revolving loan agreement with financial institutions or attempt to raise capital through the sale of additional capital stock or through the issuance of debt. At the present time, the Company does not have a revolving loan agreement with any financial institution.

4. Notes Payable

On December 31, 2015 the Company had unsecured notes payable in the aggregate amount of $91,100 (the "Notes") and which are not accruing interest. The Notes have matured, and are considered to be in default. The Company is in the process of restructuring the Notes. The Notes outstanding at December 31, 2015 are as follows:

Note payable to a third party is due upon demand with no interest rate The note is unsecured.	$	56,000
Note payable to a third party is due upon demand with no interest rate The note is unsecured.		35,100
Total current maturities	$	91,100

5. Convertible Promissory Notes

Prior to January 1, 2015 the Company issued a Convertible Promissory Note (the "Vernier Convertible Promissory Note"). The Vernier Convertible Promissory Note is not accruing interest. The principal balance under the Vernier Convertible Promissory Note at December 31, 2015 is $25,000. Holders of the Vernier Convertible Promissory Note have the right to convert all or any part of the outstanding principal to shares of common stock of the Company. The Vernier Convertible Promissory Note is convertible at a $0.0001 per share price of the Company's common stock as listed on the Pink Sheets. The Holders of the Vernier Convertible Promissory Note converted $7,898.41 into 78,984,100 shares of common stock of the Company during the fiscal year ended December 31, 2015.

Prior to January 1, 2015 the Company issued a Convertible Promissory Note (the "Radcliffe Convertible Promissory Note"). The principal balance under the Radcliffe Convertible Promissory Note at December 31, 2015 is $0. The Radcliffe Convertible Promissory Note was convertible at a $0.0001 per share price of the Company's common stock as listed on the Pink Sheets. The Holders of the Radcliffe Convertible Promissory Note converted the entire balance of $3,750 into 37,500,000 of common stock of the Company during the fiscal year ended December 31, 2015.

6. Contingent Liabilities

The Company accounts for its contingent liabilities under ASC 450, *Contingent Liabilities*, which is indicates a liability should be recognized only if the available information indicates that (1) it is probable liability has been incurred and (2) the amount of the loss can be reasonably estimated. As noted in footnote (5) above, the Vernier convertible Promissory Note remains outstanding in the amount of $25,000. While evidence indicates that the balance may have been paid, either in part or in whole, by prior management, the Company is eager to distinguish itself from prior management and settle the balance in order to direct its attention to operations.

As a result, and using guidance from ASC 450, the Company believes it is probable that a liability has been incurred, and has accrued the maximum $25,000 associated with commitments made by the prior management team. The Company estimates the liability will be settled prior to June 30, 2016.

7. Income Taxes

No provision for federal income taxes has been recognized for the years ended December 31, 2015 as the Company has a net operating loss carry forward for income tax purposes available in each period. Additionally, it is uncertain if the Company will have taxable income in the future so a valuation allowance has been established for the full value of net tax assets. The deferred tax asset consists of net operating loss carry forwards and the Company has no deferred tax liabilities.

At December 31, 2015, the Company has net operating loss carry forwards of $82,559 for federal income tax purposes. This net operating loss carry forwards may be carried forward in varying amounts until 2036 and may be limited in their use due to significant changes in the Company's ownership.

	December 31, 2015
Net operating loss carryforwards	$ 82,559
Less: valuation allowance	(82,559)
Net deferred tax asset	$ —

The Company has valued its net deferred tax asset at zero with a valuation allowance due to the substantial doubt taxable income will be generated in the future to utilize the deferred tax asset.

8. Discontinued Operations

The Company has accounted for discontinued operations under Accounting Standards Update No. 2014-08, *Reporting Discontinued Operations and Disclosures of Disposals of Components of an Entity*. Under this guidance, a discontinued operation is defined as a strategic shift that has (or will have) a major effect on an entity's operations and financial results. As noted in footnote (1) above, the Company has exited the Restaurant Industry and has shifted its strategy to home automation and energy conservation services. Management believes this adequately qualifies as a strategic shift under Update No. 2014-08. As of December 31, 2015, the Company has not had any operations in its new industry. As a result, all financial activity prior to December 31, 2015 are considered to be discontinued operations.

9. Subsequent Events

On February 5, 2016 the new management team settled a lawsuit dispute, incurred by the prior management team, in the amount of $10,000. The case was a civil matter dispute between a third party and the Company. The case was dismissed without prejudice on or around January 25, 2016.
