NOTES TO FINANCIAL STATEMENTS
(Unaudited)

NOTE 1 - BASIS OF PRESENTATION

The accompanying unaudited interim and year-end financial statements of Vid3G Inc. (formerly U.S. Mine Makers, Inc. the "Company") have been prepared in accordance with accounting principles generally accepted in the United States of America. In the opinion of management, all adjustments, consisting of normal recurring adjustments, necessary for a fair presentation of the financial position and the results of operations for the interim periods presented have been reflected herein. The results of operations for interim periods are not necessarily indicative of the results to be expected for the full year.

During 2015, changed its fiscal year end to December 31 from its previous fiscal year end of June 30.

NOTE 2 – CAPITAL TRANSACTIONS

During the period from January 1, 2016 through March 24, 2016, two separate series of transactions occurred that resulted in a change in the controlling shareholder group, as follows:

February 1, 2016 **-** On February 1, 2016, the previous controlling shareholders of the Company assumed 100% of its net liabilities as a condition precedent to a simultaneously occurring transaction which involved the change in control described in the following paragraph. The $509,929 assumption is considered to be an 'in-kind' capital contribution. Accordingly, the Company has reflected this as a component of additional paid-in capital at February 1, 2016. As a result of this transaction, 100% of the Company's assets and liabilities were extinguished on that date.

Also on February 1, 2016, the Company acquired two patents in exchange for common stock, resulting in a change in controlling ownership of the Company. The patents were recorded as 'intangible assets' in during the period ended March 24, 2016, but were subsequently distributed in exchange for a return of the shares issued to acquire these intangible assets in connection with the March 24, 2016 transactions described immediately below.

March 24, 2016 **–** On March 24, 2016, the Company acquired 100% of Cyber Junky sp. z o. o. ("CJ"), a limited liability company domiciled in Warsaw, Poland, in exchange for 550,000,000 common stock, resulting in a change in controlling ownership of the Company. As a condition precedent to this transaction, the intangible assets associated with the February 1, 2016 transaction were distributed to its previous owners in exchange for the return of the Company's common shares issued on that date to acquire those intangible assets.

CJ is engaged in providing website-domain related services, and its assets consist solely of the intellectual property upon which its web-based platform is built. As a result of the acquisition of CJ on March 24, 2016, the Company has recorded CJ's intangible assets in the accompanying March 24, 2016 balance at fair value based upon a preliminary report from an independent valuation professional in the amount of $2,798,680. The Company considers the fair value of the intellectual property to be more readily determinable than the fair value of its shares issued to acquire CJ, due to the limited trading activity of its common shares, and therefore has determined the value of the intellectual property more accurately represents the value of this transaction. The value of the intellectual property is subject to adjustment upon receipt of the final valuation report. However, the Company does not anticipate any such adjustments, if any, to be material.
