Agreement and Plan of Merger

After several weeks of negotiation and due diligence by all parties, and following the January 27, 2016 Written Consent of the Board of Directors of Golden Grail Technology Corp. (the "Company") the Company entered into an Agreement and Plan of Merger (the "Merger Agreement"), on February 1, 2016 with Accurate Venture, Inc., a company incorporated pursuant to the laws of the State of Florida ("ACCURATE"), and Golden Grail Merger Corp., a Nevada corporation and a wholly-owned subsidiary of the Company ("Merger Sub").

Formation of Merger Sub

Pursuant to the January 27, 2016 Written Consent, the Company formed Merger Sub by filing Articles of Incorporation in the State of Nevada on January 28, 2016.

Creation of Series C Preferred Stock

The Certificate of Designation for the Company's new Series C Preferred Stock was approved by the Company's Board of Directors by Written Consent on January 27, 2016 and filed with the State of Nevada on January 28, 2016.

Per the Certificate of Designation, there are a total of 19 shares of Series C Preferred Stock. Each share of Series C Preferred Stock converts into 1% of the total outstanding shares of common stock at any given time.

Closing of the Merger with Accurate Venture, Inc.

On February 2, 2016, the Closing for the Merger Agreement was held and pursuant to which, ACCURATE merged with and into Merger Sub, with Merger Sub continuing as the surviving entity that succeeded to all of the assets, liabilities and operations of ACCURATE and ACCURATE effectively became our wholly-owned operating subsidiary (the "Merger").

Golden Grail Technology Corp.
Notes to Financial Statements
December 31, 2015 and 2014
(Unaudited)

Note 1 - Nature of Operations and Going Concern

Nature of Operations

Golden Grail Technology Corp. ("Golden Grail" the "Company", "we", "us", "our") was incorporated in the State of Nevada on December 3, 1985 as Intermountain Capital, Inc. The Company has changed names a number of times since its incorporation and became Golden Grail Technology Corp. on November 6, 2014.

Golden Grail previously operated in the oil and gas industry and ceased those operations in 2009. The Company is currently focused on developing high end eCommerce sites with an efficient use of technology, people and capital.The Company launched its first eCommerce site in the third quarter of 2014, second site in the fourth quarter of 2014 and third site in the first quarter of 2015. The Company is involved in ongoing discussions with potential partners in a variety of product sectors which include: Apparel, Health & Beauty, Personal Care, Gourmet Food, and Consumer Electronics.

The first technology business launched was an eCommerce site focused on high quality jewelry. The name of this website is www.bandsofvalor.com. The Bands of Valor concept was formed in early 2014 and the site was launched in the third quarter of 2014. Bands of Valor is a company that honors those who serve through the form of jewelry. In the second quarter of 2015 the Company received notice that the supplier of the NYPD and FDNY licensed jewelry sold through www.bandsofvalor.com would no longer be offering the Company its products for sale. The Company is sourcing a new supplier of products that revolves around first responders (fire, police, EMS).

Basis of Presentation

The accompanying financial statements are unaudited. The unaudited financial statements have been prepared in accordance with accounting principles generally accepted in the United States ("GAAP") and pursuant to the rules and regulations of the Securities and Exchange Commission (the "SEC").

Restatement

The 2014 financial statements have been restated to reflect the capitalization of website development costs as intangible assets. These costs had previously been charged to expense as incurred. As a result of the restatement, intangible assets at December 31, 2014 increased by $27,883 and accumulated deficit decreased by the same amount.

Going Concern

The accompanying unaudited financial statements have been prepared on a going concern basis, which contemplates the realization of assets and the satisfaction of liabilities in the normal course of business. The Company currently has limited operating activities. Additionally, the Company has negative cash flows from continuing operations and has a working capital deficit of $1,253,928 at December 31, 2015. These factors raise substantial doubt about the Company's ability to continue as a going concern.

The Company's ability to continue existence is dependent upon commencing its planned operations, management's ability to develop and achieve profitable operations and/or upon obtaining additional financing to carry out its planned business. However, there can be no assurance that these arrangements will be sufficient to fund its ongoing capital expenditures, working capital, and other cash requirements. The outcome of these matters cannot be predicted at this time.

There can be no assurance that any additional financings will be available to the Company on satisfactory terms and conditions, if at all. In the event we are unable to continue as a going concern, we may elect or be required to seek protection from our creditors by filing a voluntary petition in bankruptcy or may be subject to an involuntary petition in bankruptcy. To date, management has not considered this alternative, nor does management view it as a likely occurrence.

The accompanying unauditedfinancial statements do not include any adjustments related to the recoverability or classification of asset-carrying amounts or the amounts and classification of liabilities that may result should the Company be unable to continue as a going concern.

Note 2 - Summary of Significant Accounting Policies

Use of estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

Revenue Recognition

The Company recognizes revenue when the following criteria have been met: persuasive evidence of an arrangement exists, no significant Company obligations remain, collection of the related receivable is reasonably assured, and the fees are fixed or determinable.

Basic and diluted loss per share

We utilize ASC 260, "Earnings Per Share" for calculating the basic and diluted loss per share. In accordance with ASC 260, the basic and diluted loss per share is computed by dividing net loss available to common stockholders by the weighted average number of common shares outstanding. Diluted net loss per share is computed similar to basic loss per share except that the denominator is adjusted for the potential dilution that could occur if stock options, warrants, and other convertible securities were exercised or converted into common stock. Potentially dilutive securities are not included in the calculation of the diluted loss per share if their effect would be anti-dilutive. The Company has 243,197,438 and 8,866,667 common stock equivalents at December 31, 2015 and 2014, respectively. For the years ended December 31, 2015 and 2014 these potential shares were excluded from the shares used to calculate diluted earnings per share as their inclusion would reduce net loss per share.

Fair value of financial instruments

Our short-term financial instruments, including cash, accounts payable and notes payable, consist primarily of instruments without extended maturities, the fair value of which, based on management's estimates, reasonably approximate their book value.

Income taxes

The Company utilizes ASC 740 "Income Taxes" which requires the recognition of deferred tax assets and liabilities for the expected future tax consequences of events that have been included in the financial statements or tax returns. Under this method, deferred income taxes are recognized for the tax consequences in future years of differences between the tax bases of assets and liabilities and their financial reporting amounts at each year-end based on enacted tax laws and statutory tax rates applicable to the periods in which the differences are expected to affect taxable income.

Cash and cash equivalents

For purposes of the statement of cash flows, cash and cash equivalents includes demand deposits, saving accounts and money market accounts. The Company considers all highly liquid debt instruments with maturities of three months or less when purchased to be cash and cash equivalents.

Intangible assets

The Company's intangible assets consist of website development costs. The website development costs are considered to have an indefinite life. The Company employs the non-amortization approach to account for intangible assets having indefinite lives. Under the non-amortization approach, intangible assets having indefinite lives are not amortized into the results of operations, but instead are reviewed annually or more frequently if events or changes in circumstances indicate that the assets might be impaired, to assess whether their fair value exceeds their carrying value.

Recently Issued Accounting Standards

Note 5 - Income Taxes

The Company utilizes ASC 740 "Income Taxes", which requires the recognition of deferred tax liabilities and assets for the expected future tax consequences of events that have been included in the financial statement or tax returns. Under this method, deferred tax liabilities and assets are determined based on the difference between financial statements and tax bases of assets and liabilities using enacted tax rates in effect for the year in which the differences are expected to reverse.

Since the Company has incurred annual losses since inception, there has been no income tax expense or liability. The Company has provided a 100% valuation allowance for any deferred tax benefits resulting from net operating loss carryovers due to our limited operating history. In addressing the realizability of deferred tax assets, management considers whether it is more likely than not that some portion or all of the deferred tax assets will not be realized. The ultimate realization of deferred tax assets is dependent upon the generation of future taxable income during the periods in which those temporary differences are deductible.

The Company has not filed any of its tax returns through December 31, 2015.

The provisions of ASC 740 require companies to recognize in their financial statements the impact of a tax position if that position is more likely than not to be sustained upon audit, based upon the technical merits of the position. ASC 740 prescribes a recognition threshold and measurement attribute for the financial statement recognition and measurement of a tax position taken or expected to be taken on a tax return. ASC 740 also provides guidance on derecognition, classification, interest and penalties, accounting in interim

periods and disclosure.

Management does not believe that the Company has any material uncertain tax positions requiring recognition or measurement in accordance with the provisions of ASC 740. Accordingly, the adoption of these provisions of ASC 740 did not have a material effect on the Company's financial statements. The Company's policy is to record interest and penalties on uncertain tax positions, if any, as income tax expense.

All tax years for the Company remain subject to future examinations by the applicable taxing authorities.

NOTE 6 - SUBSEQUENT EVENTS

Agreement and Plan of Merger

On February 1, 2016 the Company entered into an Agreement and Plan of Merger (the "Merger Agreement") with Accurate Venture, Inc., a company incorporated pursuant to the laws of the State of Florida ("ACCURATE"), and Golden Grail Merger Corp., a Nevada corporation and a wholly-owned subsidiary of the Company ("Merger Sub").

On February 2, 2016, the Closing for the Merger Agreement was held and pursuant to which, ACCURATE merged with and into Merger Sub, with Merger Sub continuing as the surviving entity that succeeded to all of the assets, liabilities and operations of ACCURATE and ACCURATE effectively became our wholly-owned operating subsidiary (the "Merger").

At the effective time of the Merger, all of the outstanding shares of ACCURATE automatically converted into the right to receive all 19 shares of the Company's newly created Series C Preferred Stock as consideration for the Merger. Since each share of Series C Preferred Stock converts into 1% of the total outstanding, the new shareholders who received Series C Preferred Shares under the terms of the Merger agreement now effectively control approximately 19% of the Company's voting power.

The Merger Agreement contained customary terms and conditions for agreements of this type, including completion of due diligence by the parties and approval of the Merger by ACCURATE shareholders, as well as an Escrow Agreement. Under the terms of the Escrow Agreement, ACCURATE is required to complete a PCAOB audit of the prior two (2) fiscal years ending on December 31, 2015 and December 31, 2014, as well as demonstrate certain increases in revenue following receipt of certain financing from the Company. ACCURATE is still in the process of finalizing its financial statements.

The Merger became effective upon the filing of the Articles of Merger Secretary of State for the State of Nevada, which occurred on February 2, 2016.

The Company believes that the Merger provides the opportunity to scale current operations with increased resources, talent and capital.

Lease Agreement

On January 25, 2016 the Company entered into a lease agreement for office and warehouse space consisting of 1,836 square feet at a rate of $1,969 per month in Deerfield Beach, Florida. The agreement was effective February 1, 2016 and terminates on January 31, 2017.
