NOTE 1 — ORGANIZATION AND SIGNIFICANT ACCOUNTING POLICIES

Organization and Basis of Presentation

Priority Aviation, Inc. (the "Company") was organized under the laws of Nevada on March 25, 1999 as Thoroughbred Interests, Inc. On May 18, 2004, the Company changed its name to Phoenix Interests, Inc.; on July 14, 2009 the Company changed its name to NuMobile, Inc.; and on December 27, 2013, following completion of an agreement and plan of merger as described below, the Company changed its name to Priority Aviation, Inc.

On December 13, 2013 the Company entered into an Agreement and Plan of Merger and Reorganization ("Agreement") with PJET. Following the merger the Company's common stock was issued to owners of PJET. This resulted in the prior owners of PJET owning the equivalent to 86.6% of our total issued and outstanding stock after issuance. At the direction of the prior owners an additional 12.6% were issued related to the reverse merger to other individuals and affiliates associated with them.

The business combination was accounted for as a reverse acquisition and recapitalization using accounting principles applicable to reverse acquisitions whereby the financial statements subsequent to the date of the transaction are presented as a continuation of PJET. Under reverse acquisition accounting PJET (subsidiary) is treated as the accounting parent (acquirer) and the Company (parent) is treated as the accounting subsidiary (acquiree). All outstanding shares have been restated to reflect the effect of the business combination.

Concurrent with the closing of the Agreement, the Company changed its business from creating a comprehensive and global mobile computing technology business to providing on-demand charter, jet charter membership cards and aircraft sales and operations of wholly owned subsidiary NuMobile Inc. and its subsidiaries, were allocated to discontinued operations.

Concurrent with the merger the Company filed a Certificate of Change with the Secretary of State of Nevada on December 13, 2013 decreasing the number of authorized common shares from 6,000,000,000 to 250,000,000 and exchanging the common shares issued on the basis of one new share for every old share. On January 6, 2014, the Company affected the one-for-one thousand (1 for 1,000) reverse stock split of its common stock. All share information for common shares has been retroactively restated for the impact of this reverse stock split.

On December 10, 2015 the Company incorporated Q Technologies LLC, a Wyoming limited liability company, in order to enter into a memorandum of understanding with a private individual for the non-exclusive licensing of a Personal Fertility Assistant Product ("PFA"). (ref: Note 8 below).

Going Concern

The accompanying consolidated financial statements have been prepared in conformity with accounting principles generally accepted in the United States of America, which contemplate continuation of the Company as a going concern. The Company has reported a net loss of $1,127,796 and provided cash for operations of $75,126 during the year ended December 31, 2015 and has an accumulated deficit of $5,311,084 and a working capital deficit of $19,384,986 as of December 31, 2015. While the Company has recently reported profits from operations in this recent quarter, we have not yet achieved profitable operations period over period. These conditions raise substantial doubt as to the Company's ability to continue as a going concern. These consolidated financial statements do not include any adjustments that might result from the outcome of this uncertainty. These consolidated financial statements do not include any adjustments relating to the recoverability and classification of recorded asset amounts, or amounts and classification of liabilities that might be necessary should the Company be unable to continue as a going concern. Management believes that it can continue to raise equity or debt financing to support its operations. Management believes that this may cause additional dilution to its shares of common stock.

Stock Splits

On January 6, 2014, the Company affected a one-for-one thousand (1 for 1,000) reverse stock split of its common stock. All share information for common shares has been retroactively restated for these three reverse stock splits.

NOTE 1 — ORGANIZATION AND SIGNIFICANT ACCOUNTING POLICIES (cont'd)

Consolidated Financial Statements

The accompanying consolidated financial statements include the accounts of the Company and its wholly-owned subsidiaries, PJET, Q Technologies LLC, and NuMobile, Inc. NuMobile includes the consolidation of its wholly-owned subsidiaries, Enhance Network Communication, Inc. and Stonewall Networks, Inc. All NuMobile operations were discontinued upon completion of the business combination as more fully described below in Note 2. The accompanying consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America. All inter-company accounts and transactions have been eliminated.

Use of Estimates

The preparation of consolidated financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the consolidated financial statements and the reported amounts of revenue and expenses during the reporting periods. As of December 31, 2015, the Company used estimates in determining accrued expenses, the value of stock based compensation issued for services and the value of the accrued derivative liability. Actual results could differ from these estimates.

Fair Value of Financial Instruments

FASB ASC 820, Fair Value Measurements and Disclosures, defines fair value as the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. FASB ASC 820 also establishes a fair value hierarchy which requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. FASB ASC 820 describes three levels of inputs that may be used to measure fair value:

Level 1 – Quoted prices in active markets for identical assets or liabilities.

Level 2 – Observable inputs other than Level 1 prices, such as quoted prices for similar assets or liabilities; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities.

Level 3 – Unobservable inputs that are supported by little or no market activity and that are financial instruments whose values are determined using pricing models, discounted cash flow methodologies, or similar techniques, as well as instruments for which the determination of fair value requires significant judgment or estimation.

If the inputs used to measure the financial assets and liabilities fall within more than one level described above, the categorization is based on the lowest level of input that is significant to the fair value measurement of the instrument.

The following table provides a summary of the fair value of our derivative liabilities as of December 31, 2015 and December 31, 2014:

Description	Level 1	Level 2	Level 3
As of December 31, 2015			
Liabilities			
Accrued derivative liability	-	$ 6,540,204	-
Accrued derivative liability from discontinued operation	-	$ 2,872,577	-
As of December 31, 2014

Accrued derivative liability from discontinued operation	-	$ 2,370,310	-

NOTE 1 — ORGANIZATION AND SIGNIFICANT ACCOUNTING POLICIES (cont'd)

Cash and Cash Equivalents

For purposes of the statements of cash flows, the Company defines cash equivalents as all highly liquid debt instruments purchased with a maturity of three months or less, plus all certificates of deposit.

Accounts Receivable

The Company maintains reserves for potential credit losses on accounts receivable. Management reviews the composition of accounts receivable and analyzes historical bad debts, customer concentrations, customer credit worthiness, current economic trends and changes in customer payment patterns to evaluate the adequacy of these reserves. Based on its analysis, as of December 31, 2015 and December 31, 2014, the Company has not provided a reserve for receivables.

Concentration of Credit Risk

Financial instruments, which potentially subject the Company to concentrations of credit risk, consist of cash and accounts receivables. The Company places its cash with high quality financial institutions and at times may exceed the FDIC $250,000 insurance limit. The Company extends credit based on an evaluation of the customer's financial condition, generally without collateral. Exposure to losses on receivables is principally dependent on each customer's financial condition. The Company monitors its exposure for credit losses and maintains allowances for anticipated losses, as required.

Property and Equipment

Property and equipment are stated at cost. Expenditures for maintenance and repairs are charged to earnings as incurred; additions, renewals and betterments are capitalized. When property and equipment are retired or otherwise disposed of, the related cost and accumulated depreciation are removed from the respective accounts, and any gain or loss is included in operations. Depreciation of property and equipment is provided using the straight-line method for substantially all assets with estimated lives of 5-7 years.

Intangible Assets

Intangible assets consist of purchased technology in connection with the acquisition of Enhance Network Communication, Inc. and Stonewall Networks, Inc. Company evaluates intangible assets for impairment, at least on an annual basis and whenever events or changes in circumstances indicate that the carrying value may not be recoverable from its estimated future cash flows. Recoverability of intangible assets is measured by comparing its net book value to the related projected undiscounted cash flows from these assets, considering a number of factors including past operating results, budgets, economic projections, market trends and product development cycles. If the net book value of the asset exceeds the related undiscounted cash flows, the asset is considered impaired, and a second test is performed to measure the amount of impairment loss.

Impairment of Long-Lived Assets

Long-lived assets are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable through the estimated undiscounted cash flows expected to result from the use and eventual disposition of the assets. Whenever any such impairment exists, an impairment loss will be recognized for the amount by which the carrying value exceeds the fair value. During the period ended December 31, 2015 and the year ended December 31, 2014, there was no impairment of long-lived assets.

NOTE 1 — ORGANIZATION AND SIGNIFICANT ACCOUNTING POLICIES (cont'd)

Accrued Derivative Liability

The Company's convertible debt and the Series A, D and E preferred stock can be converted into common stock at a conversion price that is a percentage of the market price; therefore the number of shares that could be required to be delivered upon "net-share settlement" is essentially indeterminate. The Company has bifurcated the beneficial conversion features embedded in its convertible debentures and preferred stock and has recorded the fair value of these beneficial conversion features as a current liability.

Convertible Preferred Stock and Convertible Note

The Company's Series D and E preferred stock and convertible debt are presented as liabilities since the Company has financial instruments that are convertible into common stock at a conversion price that is a percentage of the market price; therefore the number of shares that could be required to be delivered upon "net-share settlement" is essentially indeterminate and the Company may not have enough authorized shares to satisfy the conversion of its convertible preferred stock.

Revenue Recognition

The Company's revenue recognition policies are in compliance with SEC Staff Accounting Bulletin (SAB) 104. Revenue is recognized when services are rendered to customers when a formal arrangement exists, the price is fixed or determinable, the delivery is completed, no other significant obligations of the Company exist and collectability is reasonably assured. Payments received before all of the relevant criteria for revenue recognition are satisfied are recorded as unearned revenue.

Income Taxes

The Company accounts for income taxes in accordance with Accounting Standards Codification ("ASC") Topic 740, Income Taxes, which requires that the Company recognize deferred tax liabilities and assets based on the differences between the financial statement carrying amounts and the tax bases of assets and liabilities, using enacted tax rates in effect in the years the differences are expected to reverse. Deferred income tax benefit (expense) results from the change in net deferred tax assets or deferred tax liabilities. A valuation allowance is recorded when it is more likely than not that some or all deferred tax assets will not be realized.

Loss Per Share

In accordance with ASC Topic 280 – "Earnings Per Share", the basic loss per common share is computed by dividing net loss available to common stockholders by the weighted average number of common shares outstanding. Diluted loss per common share is computed similar to basic loss per common share except that the denominator is increased to include the number of additional common shares that would have been outstanding if the potential common shares had been issued and if the additional common shares were dilutive. The following potential common shares have been excluded from the computation of diluted net loss per share for the nine months ended December 31, 2015 because the effect would have been anti-dilutive:

	December 31, 2015
Common stock issuable (approximate) upon conversion of convertible debt	3,226,175,694
Common stock issuable (approximate) upon conversion of convertible preferred stock	182,013,206

NOTE 1 — ORGANIZATION AND SIGNIFICANT ACCOUNTING POLICIES (cont'd)

Recently Issued Accounting Pronouncements

In April 2015, the FASB issued ASU 2015-03, Simplifying the Presentation of Debt Issuance Costs. The new standard will require debt issuance costs to be presented on the balance sheet as a direct reduction of the carrying value of the associated debt liability, consistent with the presentation of debt discounts. Currently, debt issuance costs are presented as a deferred asset. The recognition and measurement requirements will not change as a result of this guidance. The standard is effective for the annual reporting periods beginning after December 15, 2015 and will be applied on a retrospective basis. This amendment will not have a material impact on our financial statements.

On June 10, 2014, The Financial Accounting Standards Board ("FASB") issued Accounting Standards Update No. 2014-10, Development Stage Entities (Topic 915): Elimination of Certain Financial Reporting Requirements, including an Amendment to Variable Interest Entities Guidance in Topic 810, consolidation, which removes all incremental financial reporting requirements from GAAP for development stage entities, including the removal of Topic 915 from the FASB Accounting Standards Codification. For the first annual period beginning after December 15, 2014, the presentation and disclosure requirements in Topic 915 will no longer be required for the public business entities. The revised consolidation standards are effective one year later, in annual periods beginning after December 15, 2015. Early adoption is permitted. The Company has adopted the amendment.

On September 25, 2015, the FASB issued Accounting Standards Update, Business Combinations (Topic 805): Simplifying the Accounting for Measurement-Period Adjustments. The amendments are effective for fiscal years beginning after December 15, 2015, including interim periods within those fiscal years. The amendments should be applied prospectively to adjustments to provisional amounts that occur after the effective date of this Update with earlier application permitted for financial statements that have not been issued. This amendment will not have a material impact on our financial statements.

In November 2015, the FASB issued ASU No. 2015-17, *"Income Taxes (Topic 740): Balance Sheet Classification of Deferred Taxes."* Under this guidance, deferred tax liabilities and assets are required to be classified as noncurrent in a classified statement of financial position. Prior to this guidance, the deferred taxes for each jurisdiction (or tax-paying component of a jurisdiction) would be presented as a net current asset or liability and net non-current asset or liability. This guidance is effective for interim and annual reporting periods beginning after December 15, 2016 with earlier application permitted. This amendment will not have a material impact on our financial statements.

NOTE 2 – DISCONTINUED OPERATIONS

On December 13, 2013 the Company entered into an Agreement and Plan of Merger and Reorganization ("Agreement") with PJET. Following the merger, the Company's common stock was issued to owners of PJET. This resulted in the prior owners of PJET owning the equivalent to 86.6% of our total issued and outstanding stock after issuance. At the direction of the prior owners an additional 12.6% were issued related to the reverse merger to other individuals and affiliates associated with them. Upon the closing, the Company changed its business from creating a comprehensive and global mobile computing technology business to providing on-demand charter, jet charter membership cards and aircraft sales.

The major classes of assets and liabilities from discontinued operations as of December 31, 2015 and December 31, 2014 included in the consolidated balance sheets, are as gathered from the records transferred to the Company, unaudited, and subject to further verification are reported below as follows:

(c) ····· (continued)

On August 21, 2015 $50,000 of the $90,000 March 3, 2010 convertible debenture was transferred to Standard Holdings Co. ("Standard"). See Note (o) below.

(d) On February 18, 2010, the Company entered into a convertible debenture for cash proceeds of $50,000 with Cove Partners an unrelated party. The debenture initially matured on August 18, 2010 and bears interest at 8% per annum. In October 2010, the note's maturity was extended to March 31, 2011.

On May 20, 2010, the Company entered into a second convertible debenture with the same holder, for cash proceeds of $60,000. This debenture matured November 20, 2010, was issued on the same terms as the first convertible debenture.

On March 23, 2011, Cove Partners who held these notes dated February 18, 2010 and May 20, 2010 due from the Company in the amounts of $50,000 and $60,000 respectively plus accrued interest sold the notes to Glenwood Partners LLC a party unaffiliated with the Company, and the assignee renegotiated the terms of the note and amount due and payable from the Company. The Company and the holder executed replacement unsecured convertible promissory notes with the same principal amounts dated March 23, 2011 and due December 31, 2012. Interest on the replacement note accrues at a rate of 8 % per annum. The note is due on demand. The new note, plus any accrued and unpaid interest, is convertible at the holder's option at any time, into shares of the Company's common stock at a conversion price equal to 50% of the lowest of the closing bid prices for the common stock for the ten trading days prior to and including the conversion date.

(e) On May 27, 2010, the Company issued and sold a convertible note in the principal amount of $260,000, for a purchase price of $250,000 (reflecting an original issue discount of $10,000), to St. George Investments, LLC. Principal and unpaid interest on the note is due six months from the date of issuance. The note bears interest at the rate of 12% per annum, payable upon maturity. Outstanding principal, and accrued interest thereon is convertible into such number of shares of the Company's common stock, as is determined by dividing (i) the sum of (A) the Outstanding Amount, plus (B) an amount equal to 1% of the Outstanding Amount multiplied by the number of whole months elapsed from May 31, 2010 until the date of conversion but in no event less than 10% of the Outstanding Amount by (ii) the Conversion Price (as defined in the note) at that time. The conversion price is defined in the note as the lesser of (a) 60% of the average of the closing bid price of the Company's common stock on each of the five immediately preceding trading days or (b) $1.25. During the year ended December 31, 2011, $190,420 of the outstanding balance was converted into 993,000 shares of common stock. Subsequently additional principal of $22,395 was converted reducing the principal balance on the note to $47,185. The initial fair value of the conversion option feature was estimated at $151,637 using the Black-Scholes pricing model. The assumptions used in the Black-Scholes option pricing model at May 27, 2010 in connection with this debenture are as follows: (1) dividend yield of 0%; (2) expected volatility of 0%, (3) risk-free interest rate of 0.23%, and (4) expected life of 0.50 years.

During January 2014 St. George Investments assigned the notes to Mastiff.

(f) On December 15, 2009, the Company entered into a convertible debenture for cash proceeds of $100,000 with Cove Partners, LLC The debenture initially matured on June 15, 2010 and bears interest at 8% per annum. On June 15, 2010, the note's maturity was extended to March 31, 2011. On January 20, 2011, the party who held the debenture assigned the debenture to DCB LLC a party unaffiliated with the Company. The note bears interest at 8% per annum. The holder is entitled, at its option, to convert any or all of the outstanding principal plus accrued and unpaid interest at any time into shares of the Company's common stock, at a price per share equal to 50% of the lowest closing bid price for the preceding 10 days prior to the Company receiving notice of conversion.

(g) On October 20, 2010, James Hinderliter, an employee who held a note dated October 1, 2009 due from the Company in the amount of $300,000 plus $27,000 in accrued interest assigned the note to St. George Investments LLC a party unaffiliated with the Company, and the assignee renegotiated the terms of the note and amount due and payable from the Company. The original note was past due and the new holder waived any defaults, and the Company and the holder executed a replacement unsecured convertible promissory note with principal of $169,000. The conversion price means 60% of the lesser of (y) the average of the closing bid prices of the common stock on each of the five immediately preceding trading days, or (z) the closing bid price for the common stock for the trading day immediately preceding the date of conversion. The assumptions used in the Black-Scholes option pricing model at October 20, 2010 in connection with this replacement note are as follows: (1) dividend yield of 0%; (2) expected volatility of 0%, (3) risk-free interest rate of 0.17%, and (4) expected life of 0.50 years.

On October 22, 2010, John Murphy an unrelated party who held a note dated October 1, 2009 due from the Company in the amount of $223,844 plus $20,146 in accrued interest assigned the note to St. George Investments LLC a party unaffiliated with the Company, and the assignee renegotiated the terms of the note and amount due and payable from the Company. The original note was past due and the new holder waived any defaults, and the Company and the holder executed a replacement unsecured convertible promissory note with principal of $133,152. Interest on the replacement note accrues at a rate of 12% per annum; provided that upon occurrence of an event of default interest shall accrue at a rate of 18% per annum. The note is due on demand. At any time prior to payment in full of the entire outstanding principal amount of this note, plus accrued interest hereunder, fees and collection costs, the holder shall have the right, at holder's option, to convert the outstanding amount on this note, in whole or in part, into the number of shares of common stock as is determined by dividing (i) the sum of (A) the conversion amount, plus (B) an amount equal to 1% of the conversion amount multiplied by the number of whole months elapsed from the date hereof until the date of conversion but in no event less than 10% of the conversion amount by (ii) the conversion price at that time. The conversion price means 60% of the lesser of (y) the average of the closing bid prices of the common stock on each of the five immediately preceding trading days, or (z) the closing bid price for the common stock for the trading day immediately preceding the date of conversion. The assumptions used in the Black-Scholes option pricing model at October 22, 2010 in connection with this replacement note are as follows: (1) dividend yield of 0%; (2) expected volatility of 0%, (3) risk-free interest rate of 0.17%, and (4) expected life of 0.50 years.

On August 21, 2013 St. George Investments assigned the notes to Blulife Inc. ("Blulife") a party unaffiliated with the Company, and the assignee renegotiated the terms of the note and amount due and payable from the Company. The original note was past due and the new holder waived any defaults, and the Company and the holder executed a replacement unsecured convertible promissory note with principal of $250,000. Interest on the replacement note accrues at a rate of 4% per annum; provided that upon occurrence of an event of default interest shall accrue at a rate of 18% per annum. The note is due on demand. At any time prior to payment in full of the entire outstanding principal amount of this note, plus accrued interest hereunder, fees and collection costs, the holder shall have the right, at holder's option, to convert the outstanding amount on this note, in whole or in part, into shares of common stock at conversion price of $.0001

On September 3, 2013 Blulife converted $12,000 of such notes into 240,000 shares.

On February 4, 2014 Blulife converted $250 of such notes into 2,500,000 shares.

On February 4, 2014 the notes were broken into two notes, one consisting of $188,000 and one for $49,750, for a total balance of $237,750 owing.

On June 10, 2015, the Company entered into a Release and Settlement with Blulife whereby the $188,000 note and the $50,000 note with a remaining balance of $49,750 was terminated at no cost to the Company to assist the Company in its future progress.

We recorded the gain from debt forgiveness under discontinued operations.

(h) On December 1, 2010, Aubrey Brown the previous 100% owner of Enhance Communication Network, Inc. a holder of 7,500 shares of the Company's Series D convertible preferred stock, 2,500 shares of the Company's Series E preferred stock, and $349,600 in a note payable, received and/or exchanged as part of NuMobile's purchase of Enhance sold these instruments and the Company exchanged these instruments into a new Series 2010-A convertible promissory note dated December 2, 2010 due December 31, 2012 in the amount of $750,000 now held by Glenwood Partners. The new note bears interest at 8% per annum, payable semi-annually in arrears, on January 1 and July 1 of each year during the note's term, with the first payment due and payable on January 1, 2011. The new note, plus any accrued and unpaid interest, is convertible at the holder's option at any time, into shares of the Company's common stock at a conversion price equal to 50% of the lowest of the closing bid prices for the common stock for the ten trading days prior to and including the conversion date. During the year ended December 31, 2010 $6,000 of the outstanding balance was converted in presplit 12,997,266 shares of common stock. During the year ended December 31, 2011, $247,019 of the outstanding balance was converted into presplit 2,217,201 shares of common stock. On November 14, 2013 the note holder converted $3,000 principal into 70,000 shares which were issued in the name of Kevin Pickard, for accounting services rendered by Mr. Pickard to the Company. The initial fair value of the conversion option feature was estimated at $1,475,920 using the Black-Scholes pricing model. The assumptions used in the Black-Scholes option pricing model at December 2, 2010 in connection with this debenture are as follows: (1) dividend yield of 0%; (2) expected volatility of 0%, (3) risk-free interest rate of 0.55%, and (4) expected life of 2.00 years.

(i) On February 15, 2011, the Company exchanged a note payable of $200,000 and accrued interest of $38,500 into a convertible note with Galleon Investments Ltd.. Principal and unpaid interest on the note is due upon demand. The note bears interest at the rate of 8% per annum, payable upon maturity. The note, plus any accrued and unpaid interest, is convertible at the holder's option at any time, into shares of the Company's common stock at a conversion price equal to 50% of the lowest of the closing bid prices for the common stock for the five trading days prior to and including the conversion date. (q) On December 13, 2013 the Company entered into a convertible debenture for cash proceeds of $50,000 with Blulife, Inc.

During the year ended December 31, 2015, the Company received Conversion Notices from Blulife. One for a total of $6,000 in principal, provide for the issuance of 6,000,000 shares at $0.001 on April 27, 2015; the second for a total of $5,250 in principal, provide for the issuance of 7,000,000 shares at $0.00075 on May 11, 2015; the third for a total of $6,800 in principal, provide for the issuance of 8,000,000 shares at $0.00085 on June 1, 2015. At the same time, Blulife waived the interest on all the conversions.

On December 23, 2013, the Company entered into a convertible debenture for cash proceeds of $50,000 with Blulife Inc. The full amount of this debenture was transferred to Standard Holding Co. ("Standard") on August 21, 2015. See Note (u) below.

(r) On December 30, 2013 the Company entered into a convertible debenture for cash proceeds of $50,000 with Blulife Inc.

(s) On January 3, 2014 the Company entered into a convertible debenture for cash proceeds of $55,000 with Blulife Inc.

(t) In addition, during the period February 14, 2014 through March 14, 2014 the Company entered into an additional series of three (3) convertible notes payable, for total proceeds of $120,000. All notes were with Blulife Inc.

NOTE 4 –CONVERTIBLE NOTES (continued)

(u) On August 21, 2015 a certain convertible debenture originally entered into December 23, 2013 in the amount of $50,000 was transferred to Standard Holding from Blulife Inc. (see Note (q) above). On September 25, 2015, Standard converted $5,000 of the outstanding principal plus accrued interest from this debenture into a total of 8,345,000 shares of the Company's common stock at $0.0007 per share, leaving a total of $45,000 in principal as due and payable.

The terms of all above notes were identical; maturing in one year from issuance, annual interest rate of 10%. The conversion terms stated that conversion, upon maturity and at the option of the holder, could convert the outstanding unpaid balance and accrued interest on the note at a floor price of $0.06; however, if the market price of the company stock holds below the floor, the floor is to be adjusted ("new floor") to 50% of the lowest trading price in the ten (10) day period. The stock will have to continue to maintain a price above the new floor. If the price is unable to close above the new floor for three (3) consecutive trading days in ten (10) business days after the price has dipped, the Flex Floor will be eliminated and the conversion price will not have any floor and shall be equal to 50% of the average of the 5 lowest trading prices during the previous 20 (Twenty) trading days.

In our evaluation of the financing arrangement, we concluded that the conversion features were not afforded the exemption as a conventional convertible instrument and it did not otherwise meet the conditions set forth in current accounting standards for equity classification. Accordingly, they do not meet the conditions necessary to obtain equity classification and are required to be carried as derivative liabilities. (See footnote 5 for derivative disclosure).

Additionally, the Company evaluated the convertible notes above and concluded that these are tainted due to the variable conversion rate of the above the convertible notes and as such they do not meet the conditions necessary to obtain equity classification and are required to be carried as derivative liabilities. (See footnote 5 for derivative disclosure)

During the year ended December 31, 2015, the Company recorded a loss resulting from the mark-to-market of the conversion options totaling $260,276. During the year ended December 31, 2014, the Company recorded a gain on mark-to-market of the conversion options of $200,921.

NOTE 5 – DERIVATIVE LIABILITIES

(1) Derivative liabilities from exceed authorized shares of common stock

As of December 31, 2015, we have determined that we currently have (i) the following shares of common stock issued, and (ii) outstanding instruments which are convertible into the shares of common stock indicated below in connection with warrants, convertible notes and preferred shares previously issued by the Company or for issue as a result of agreements with the Company:

119,388,975	Common Stock Issued and Outstanding
3,226,175,694	Common Shares convertible from convertible notes
182,013,206	Common Shares convertible from convertible preferred shares
3,527,577,875	**Total Common Shares Outstanding and Accounted For/Reserved**

Accordingly, given the fact that the Company currently only has 250,000,000 shares of common stock authorized, the Company could exceed its authorized shares of common stock by approximately 3,277,577,875 shares (December 31, 2014 – 1,013,422,487 shares) if all of the financial instruments described in the table above were exercised or converted into shares of common stock. 3,277,577,875 of these shares (December 31, 2014 - 1,013,422,487 shares) were in excess of the authorized shares and were accounted for as a derivative liability. The fair value of these 3,446,843,433 common shares (December 31, 2014 - 1,013,422,487 shares) was determined to be $5,899,640 as of December 31, 2015 ($5,067,112 – December 31, 2014) using the closing price of PJET's common stock. The company however intends to address this issue in the future by continuing to review and have further discussions with major holders of the listed debt transferred from discontinued operations, so as to attempt to reach an agreement that would substantially reduce such liability and its dilutive effect. There can however be no assurance that such an agreement will be voluntarily reached, which may the cause the Company to explore further other actions it may deem necessary.

NOTE 5 – DERIVATIVE LIABILITIES (continued)

(2) Derivative liabilities from convertible notes

Since equity classification is not available for the conversion feature of above convertible notes discussed in Note 4, we were required to bifurcate the embedded conversion feature and carry it as a derivative liability, at fair value. Derivative financial instruments are carried initially and subsequently at their fair values.

We estimated the fair value of the compound derivative on the inception dates, and subsequently, using the Black-Scholes Merton valuation technique, adjusted for the effect of dilution, because that technique embodies all of the assumptions (including, volatility, expected terms, and risk free rates) that are necessary to fair value complex compound derivate instruments.

The fair value of the above instruments was determined to total $581,209 using a Black-Scholes option-pricing model on issuance date. Upon the issuance dates of the Convertible Promissory Notes, $325,000 was recorded as debt discount and $256,209 was recorded as day one loss on derivative liability on the issuance date.

As a result of the application of ASC No. 815 in period ended December 31, 2015 the fair value of the conversion feature is summarized as follows:

Balance at December 31, 2013	$	-
Derivative addition due to the tainting of convertible notes		581,209
Derivative addition due to the exceed authorized shares of common stock		4,317,237
December 31, 2014 loss on change in fair value		548,954
Balance at December 31, 2014		5,447,400
(Gain) due to the exceed authorized shares of common stock		832,528
(Gain) loss on change in fair value during the period		326,112
Derivative liability reclassified as additional paid in capital associated with conversion of shares		(65,836)
Balance at December 31, 2015	$	6,540,204

The fair value at the commitment and re-measurement dates for the Company's derivative liabilities were based upon the following management assumptions as of December 31, 2015 and commitment date:

	Commitment Date	December 31, 2014	December 31, 2015
Expected dividends	0	0	0
Expected volatility	218.59 ~ 219.26	248.87%	183.98%
Expect term	0.59 ~ 1 years	0~0.20 years	0 years
Risk free interest rate	0.10 %	0.02 ~ 0.03%	0.14%

NOTE 6 –COMMITMENTS

(1) On February 28, 2014, the company offered a contract to Jonah Meer for the appointment of a Board Member. The contract, as accepted and approved by the Board included the following:

- For each calendar year served on the Board, entitled to one percent (1 %) of the outstanding shares of the common stock of the Company at the vesting date, exercisable on a quarterly basis, one quarter of one percent (.25%). The purchase price payable for the shares shall be the closing market price per share on the Option Vesting Date.
- The term is for a one year period, with annual reappointments.

On May 22, 2014 Mr. Meer tendered his resignation from the Board. On September 4, 2014 ANS Investments LLC the holder of all the outstanding Series A Preferred stock of the Company, by written consent, appointed Mr. Meer and Mr. Guy Zahavi to the Board.

NOTE 6 –COMMITMENTS (cont'd)

(2) Effective December 5, 2013 and commencing January 1, 2014, the Company entered into a three year employment agreement with Peter Minikes, the Chief Executive Officer. The contract included the following:

- Annual base salary of $120,000, with annual increases and entitlements in line with the benefit offerings of the Company, including vacation;

- The Executive shall be issued three million (3,000,000) shares which shall represent a five percent (5%) equity interest in the Company, based upon sixty million (60,000,000) shares outstanding at the time of Effective Date. Additionally, the Executive shall be entitled to receive 300,000 shares every six (6) months thereafter during the Term of the Agreement. The Executive shall be entitled to a minimum of eight percent (8%) equity interest in the Company subject to typical anti-dilution provisions.

  On June 16, 2015 the Company issued 3.9M shares to Mr. Peter Minikes under his employment agreement. The Company recorded $8,970 as stock-based compensation based on the fair market value of the share, $0.0023, on the issuance date.

- Issuance of Stock Options, based on attaining revenue milestones.

On July 1, 2015, the Company entered into an Amendment to the Executive Employment Agreement with Peter Minikes (the "Amendment"). Pursuant to the terms of the Amendment, the Company will not renew Mr. Minikes' Employment Agreement upon its expiration on December 5, 2016. If the Company desires to enter into another business or if Mr. Minikes is no longer employed by the Company, but in any case after July 1, 2016, Mr. Minikes shall have the right to acquire the operating business segment Priority One Jets. The purchase price for the business segment to be paid by Mr. Minikes to the Company shall be the cancellation of all amounts owed to Mr. Minikes, the return of all stock and options in the Company and the assumption of all liabilities and obligations of the business segment. Priority One Jets shall be entitled to keep the assets in the business segment in excess of the public expenses of the Company from July 1, 2015 through September 30, 2016, including the cost of preparing the Company tax returns.

(3) On November 4, 2014 the Company entered into a lease agreement (the "Lease") with a term of five years and two months commencing March 1, 2015 and terminating April 30, 2020. Under the terms of the Lease the Company has paid a security deposit of $14,450 which amount is included in Prepaid and other current assets. The estimated annual obligations for the term of the lease are as follows:

	$
3/1/2015-2/29/2016	57,800.00
3/1/2016-2/28/2017	59,389.50
3/1/2017-2/28/2018	61,022.71
3/1/2018-2/29/2019	62,700.84
3/1/2019-2/28/2020	64,425.11
3/1/2020-4/30/2020	5,516.40

Preferred Stock

The Company has debt and equity instruments that can be converted into common stock at a conversion prices that are a percentage of the market price; therefore the number of shares that could be required to be delivered upon "net-share settlement" is essentially indeterminate. Therefore, the Series A, D and E Preferred Stock which can be converted into shares of common stock are shown in the accompanying consolidated balance sheet as a current liability.

Series A Preferred Stock – On October 7, 2013 the Company filed a Certificate of Amendment with the Nevada Secretary of State increasing the authorized number of Series A preferred stock to 6,000 shares. There are 6,000 shares of Series A preferred stock authorized.

The holders of the Class A Preferred Stock own 51% of the voting power of the shareholders vote of the Company.

Accordingly, the Company classifies its Series A preferred stock as equity in the accompanying consolidated balance sheet, as the instrument holds majority (51%) voting rights in Company decisions and thus is characterized more akin to an equity instrument.

On July 1, 2015 the Company redeemed 600 shares of its Series A Preferred from ANS Investments LLC at $100 per share.

Series B Preferred Stock - There are 100,000 shares of Series B preferred stock authorized, par value 0.001 per share There are no shares of Series B preferred stock outstanding.

Series C Preferred Stock - There are 12,000,000 shares of Series C preferred stock authorized. Each share of Series C preferred stock is convertible into one share of our common stock. The Series C preferred stock is non-interest bearing, does not have voting rights, and is not entitled to receive dividends. In the event of liquidation, each share of Series C preferred stock will automatically convert into one share of our common stock and will otherwise not be entitled to any preference over shares of our common stock or any shares of our preferred stock. Shares of Series C preferred stock are entitled to name two members of our board of directors.

Series D Preferred Stock - There are 25,000 shares of Series D preferred stock authorized. Shares of Series D preferred stock are entitled to participate, on an as-converted basis, in any dividends declared on the common stock. Each share is entitled to vote with the Common Stock the basis of one vote per share.

NOTE 7 –STOCKHOLDERS' DEFICIT (continued)

Preferred Stock (cont'd)

Series D Preferred Stock (cont'd)

The number of shares into which one share of Series D preferred stock is convertible will be determined by dividing the "Stated Value" (equal to $100) by Conversion Price at that time. The "Conversion Price" adjusted for the reverse split is $2 (subject to adjustment in the event of stock splits, combinations and stock dividends).

Series E Preferred Stock - There are 25,000 shares of Series E preferred stock authorized. Shares of Series E preferred stock may, at the option of the holder, be converted into shares of common stock at the conversion rate in effect at the time of conversion. Each share is entitled to vote with the Common Stock the basis of one vote per share. The number of shares into which one share of Series E preferred stock is convertible will be determined by dividing the "Stated Value" (equal to $100) by Conversion Price at that time. The "Conversion Price" adjusted for the reverse split is $2 (subject to adjustment in the event of stock splits, combinations and stock dividends).

Series F Preferred Stock – There are 1,000 shares of Series F preferred stock authorized, par value 0.001 per share. There are no shares of Series F preferred stock outstanding.

NOTE 8 – OTHER EVENTS

On July 1, 2015, the Company entered into an Amendment to the Executive Employment Agreement with Peter Minikes (the "Amendment"). Pursuant to the terms of the Amendment, the Company will not renew Mr. Minikes' Employment Agreement upon its expiration on December 5, 2016. If the Company desires to enter into another business or if Mr. Minikes is no longer employed by the Company, but in any case after July 1, 2016, Mr. Minikes shall have the right to acquire the operating business segment Priority One Jets. The purchase price for the business segment to be paid by Mr. Minikes to the Company shall be the cancellation of all amounts owed to Mr. Minikes, the return of all stock and options in the Company and the assumption of all liabilities and obligations of the business segment. Priority One Jets shall be entitled to keep the assets in the business segment in excess of the public expenses of the Company from July 1, 2015 through September 30, 2016, including the cost of preparing the Company tax returns.

On December 15, 2015 the Company's wholly owned subsidiary Q Technologies LLC entered into a Memorandum of Understanding to license and further develop the Personal Fertility Assistant product ("PFA") previously known as Ovucon, and related technology from Israeli entrepreneur Simon Dotan.

The non-exclusive license is for a period of three years to use sell and distribute the PFA. Should certain milestones be achieved during the three-year period the license will become permanent.

The purchase price consists of a $200,000 convertible note, options on five percent (5%) of the Company's common shares at a price of 150% of the closing price on the date of execution of a formal contract, as well as payment of royalties from product sales.

The parties intend to enter into a formal contract as soon as practicable.

The PFA product is a series of personal and professional devices that monitor the female fertility cycle, enabling identification of ovulation, fertile days and infertile days ("safe days"). The Ovucon method, which provides unparalleled accuracy and wealth of information compared to other existing OTC / home use methods in the field, is envisioned to become the gold standard for in-home fertility monitoring and subsequently the first tier of fertility treatment and pregnancy assistance.

NOTE 9 – SUBSEQUENT EVENTS

On January 11, 2016 Standard Holdings Co converted $5,000 of outstanding principal principal plus accrued interest from a pre-merger convertible note entered into on July 27, 2011 into a total of 8,447,400 shares of the Company's common stock at $0.0008 per share.

The company has become aware that entities controlled by Messrs. Wainstein and Welner have docketed, but not served, a lawsuit on their behalf and derivatively by the Company against the Company, its directors and current and past controlling shareholder and director. Since this summons and complaint has yet to be served properly on the parties, there is a possibility that it may never be served. Moreover, based on excerpts of this proposed derivative action, the board and management have concluded that even if properly served, the lawsuit is frivolous, totally without merit and done solely for the further purpose of harassing the company in conjunction with the existing lawsuit described above. If served, the Company, as well as the other named defendants, intend to mount a vigorous defense and take any and all actions against the complaining parties.

Management has evaluated subsequent events through March 30, 2016, the date the financial statements were available to be issued. Management is not aware of any significant events that occurred subsequent to the balance sheet date that would have a material effect on the financial statements thereby requiring adjustment or disclosure.
