(Unaudited)

NOTE 1 - NATURE OF BUSINESS AND BASIS OF PRESENTATION

Gold Mining USA, Inc. (the "Company") was incorporated on April 28, 1995 under the laws of the state of California. In June, 2007 the Company filed Certificate of Domestication and Articles of Incorporation with the State of Florida and became governed by the laws of the state of Florida.

The Company previously pursued various business opportunities. Effective March 9, 2012 the Company changed its principal operations to acquisition, exploration and packaging of mineral properties. On March
19, 2012, the Company's name changed to Gold Mining USA, Inc. Effective March 11, 2013 the Company changed its fiscal year end to December 31. On January 13, 2013 the company did a reverse of its common and preferred shares by a ratio of 1000-1. Further, on October 10, 2013 there was a change of ownership of the company. The delivery of control block of Preferred A shares in the amount of 100 million shares post the company's reverse results in an ownership of 95% control of the company. Management was also changed at this time.

NOTE 2 – BASIS OF PRESENTATION

Basis of Presentation
The accompanying unaudited interim financial statements of Gold Mining USA, Inc. (the "Company") have been prepared in accordance with accounting principles generally accepted in the United States of America, and should be read in conjunction with the unaudited financial statements and notes for the period ended September 30th, 2015. The results of operations for interim periods are not necessarily indicative of the results expected for the future.

Recent Accounting Pronouncements

The Company does not expect the adoption of recently issued accounting pronouncements to have a significant impact on the results of operations, financial position or cash flow.

NOTE 3 - GOING CONCERN

The Company's financial statements have been presented on the basis that it is a going concern and
Possibly contemplates the realization of assets and satisfaction of liabilities in the normal course of business.
At September 30th 2015, the Company had working capital deficit of $7,400. The financial statements do
not include any adjustments to reflect the possible future effects on the recoverability and classification of
assets or the amounts and classification of liabilities that may result from the outcome of these uncertainties.

The Company is working to secure additional funds for its mineral exploration and packaging activities and

to meet its obligations as well as working capital requirements during the last quarter of 2015.

There are no assurances that the Company will be able to either (1) achieve a level of revenues adequate to generate sufficient cash flow from operations; or (2) obtain additional financing through either private placement, public offerings and/or bank financing necessary to support the Company's working capital requirements. To the extent that funds generated from operations and any private placements, public offerings and/or bank financing are insufficient, the Company will have to raise additional working capital. No assurance can be given that additional financing will be available, or if available, will be on terms acceptable to the Company. If adequate working capital is not available the Company may be required to curtail its operations.

NOTE 4 – MINING CLAIMS

Gypsy Mine,
Effective January 20th 2014 the company had acquired 100% interest of the mining property for 5 million Restricted shares of the company set forth in the terms and conditions met by way of a purchase agreement.
