Common stock issued for services	-	20,000,000

The accompanying notes are an integral part of these consolidated financial statements.

NOTE 1- BASIS OF PRESENTATION

The accompanying interim consolidated financial statements were prepared by the Company without audit. Certain information and footnote disclosures normally included in financial statements prepared in accordance with accounting principles generally accepted in the United States of America have been condensed or omitted. In management's opinion all necessary adjustments, which consist primarily of normal recurring adjustments, to the consolidated financial statements have been made to present fairly the consolidated financial position and results of operations and cash flows. The results of operations for the respective periods presented are not necessarily indicative of the results for the respective complete years. These consolidated financial statements should be read in conjunction with the consolidated financial statements and notes thereto included in the Company's annual financial statements as of and for the year ended December 31, 2014.

Recent Accounting Pronouncements

Management has considered all recent accounting pronouncements issued during the periods presented in the accompanying consolidated financial statements. The Company's management believes that these recent pronouncements will not have a material effect on the Company's consolidated financial statements.

NOTE 2 – BUSINESS CONDITION

The accompanying consolidated financial statements have been prepared assuming that the Company will continue as a going concern. The Company has had recurring losses along with an accumulated deficit totaling $ 7,862,399 as of December 31, 2015. These matters raise substantial doubt about the Company's ability to continue as a going concern. The consolidated financial statements do not include any adjustments that might result from the outcome of this uncertainty. Management's plans concerning these matters are to obtain additional debt and equity financing and expand lending to produce future revenues.

NOTE 3 – FAIR VALUE OF FINANCIAL INSTRUMENTS

The Company's financial instruments include cash, notes and other receivables, accounts payable and notes payable. The carrying amounts of cash, notes and other receivables, and accounts payable approximate their fair value due to their short maturities.

The financial instrument assets carried at fair value on a recurring basis at December 31, 2015 are as follows:

Description	Total Fair Value	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Notes receivable	$ 23,000	$ -	$ -	$ 23,000
Note held for sale	0	-	-	0
Total	$ 23,000	$	$ -	$ 23,000

As a result of a settlement agreement (see Note 13), notes receivable was reduced from $1,701,200 in 2014 to $23,000 in 2015, and notes held for sale was reduced from $508,000 in 2014 to $0.00 in 2015. Accordingly, the associated interest income accrued was reduced from $250,609 in 2014 to $219 in 2015.

NOTE 4 – OTHER NOTES RECEIVABLE

On December 2, 2015, the Company made a loan Quantum Refiners, LLC in the amount of $23,000, accruing interest at 12%, with a maturity date of December 31, 2017.

As a result of a settlement agreement (see Note 13), notes receivable was reduced from $1,701,200 in 2014 to $23,000 in 2015, and notes held for sale was reduced from $508,000 in 2014 to $0.00 in 2015. Accordingly, the associated interest income accrued was reduced from $250,609 in 2014 to $219 in 2015.

NOTE 5 – NOTE HELD FOR SALE

As a result of a settlement agreement (see Note 13), notes receivable was reduced from $1,701,200 in 2014 to $23,000 in 2015, and notes held for sale was reduced from $508,000 in 2014 to $0.00 in 2015. Accordingly, the associated interest income accrued was reduced from $250,609 in 2014 to $219 in 2015. Therefore, the Company did not have any notes held for sale on December 31, 2015.

NOTE 6 – INVESTMENT IN MINING PROPERTY

On September 29, 2011, the Company executed an Asset Purchase and Sale Agreement wherein it acquired 100% interest in 85.5 acres of land containing five patented lode mining claims along with water rights and certain property and equipment and other assets composing the St. Louis Mine, in Clark County, Nevada. The purchase price consisted of $20,000 cash, a secured note for $250,000, and an unsecured note for $730,000, both bearing interests at 6% and, as amended on December 30, 2014, are due and payable on June 30, 2016. The Company determined that the acquisition value of the mining property discounting the notes payable at a 30% risk rate as of the date of acquisition, plus the cash consideration, was $548,835. The mining property has not yet been put into operation since the date of acquisition. As of December 31, 2015, no further discounts to the acquisition value of those assets have been recognized.

NOTE 7 – CONVERTIBLE NOTES PAYABLE

On October 28, 2011, the Company issued a $50,000 note payable (net of a $5,000 discount, which was fully amortized in 2011), which matured April 28, 2012. The note was convertible at 50% of the market value of the Company's common stock, which valued the note at $100,000 with the additional $50,000 expensed in full during the year ended December 31, 2011. The note provided for 12% interest per annum until maturity, after which the note would be in default and assume a rate of 24%. During the 2014 and 2015 calendar years, the note holder elected to convert several amounts of the note to common stock. As a result, the $50,000 assessment for convertibility was reversed.

On November 1, 2011, the Company issued an additional $50,000 note payable (net of a $5,000 discount, which was fully amortized in 2011), which matured on April 20, 2012. The note was convertible at 50% of the market value of the Company's common stock, which valued the note at $100,000 with the additional $50,000 expensed in full during the year ended December 31, 2011. The note provided for 12% interest per annum until maturity after which the note would be in default and assume a rate of 24%. During the 2014

calendar year, the entire note was converted to common stock and the $50,000 assessment for convertibility was reversed.

As explained in Note 11—During the twelve months ended December 31, 2015, portions of each of the foregoing notes were converted to common stock.

NOTE 8 – RELATED PARTY NOTES PAYABLE

During the twelve months ended December 31, 2015, the Company issued, and subsequently partially repaid, several promissory notes to the Company's CEO in consideration of cash advances to the Company. The notes bear interest at 12% per annum and mature in 12 months. Accordingly, these debt obligations have been included in current liabilities in the accompanying consolidated financial statements. At December 31, 2015, the net value of amounts owed on related party notes was $35,611.

NOTE 9 – LONG-TERM NOTES PAYABLE

On September 29, 2011, the Company executed an Asset Purchase and Sale Agreement with an unrelated party wherein it acquired 100% interest in 85.5 acres of property consisting of five patented lode mining claims along with water rights and certain property and equipment and other assets composing the St. Louis Mine, in Clark County, Nevada (see Note 6). The purchase price consisted of $20,000 cash, a note for $250,000 secured by a deed of trust on the property purchased, and an unsecured note for $730,000. Both notes bear interest at 6% and, as amended on December 30, 2014, are due and payable on June 30, 2016. A discounted rate of 30% representing approximate market risk value was used to recognize an initial discount of $451,165.

NOTE 10 – PREFERRED STOCK

The Company has a total of 50,000,100 shares of Preferred Stock authorized, 100 shares of which have been designated as Series A Preferred Stock and 20,000,000 as Series B Preferred Stock. The remaining 30,000,000 shares of Preferred Stock have not yet been designated.

Series A Preferred Stock

The 100 shares of Series A preferred stock are convertible into 105% of the common shares outstanding immediately prior to conversion. The 100 shares of Series A Preferred stock were initially issued to the current Chairman of the Board, CEO, and President of the Company as part of the acquisition of the assets of Capital Financial Services, Inc. in May 2010. Conversion of the 100 shares of Series A Preferred Stock was initially contingent upon certain milestones being met. All milestones were met on May 24, 2011 and on that date the Series A Preferred shares became unconditionally convertible into common shares of the Company. Subsequent to initial issuance, as additional shares of common stock have been issued, the holder of the Series A Preferred Shares has the right to obtain additional shares of common stock upon conversion as a result of the 105% conversion provision. The value of the right to obtain those additional shares of common stock has been recognized as additional value of the Series A Preferred Shares and consideration to the holder of the Series A Preferred Shares in the form of a preferred stock dividend, and amounted to $43,946 for the twelve months ended December 31, 2015.

Series B Preferred Stock

The Company's Series B Preferred Stock includes terms that provide for a 4% cumulative dividend, payable quarterly from the date of issuance in July 2010, when, as, and if declared by the Company's Board of

Directors. As of December 31, 2015, no such dividends have been declared.

NOTE 11 – COMMON STOCK

During the twelve months ended December 31, 2015, the Company issued a total of 677,067,800 shares of common stock for the conversion of debt. This resulted in the settlement of $34,645 in outstanding debt during the period.

NOTE 12 – MATERIAL RELATED-PARTY EVENTS

Assumption of $5,100,000 Note Receivable

On April 8, 2014, Gold Rush Refiners, LLC, the maker of a $5,100,000 consolidated note to the Company, sold all of its assets to a company owned by the Company's president and chief executive officer, Gold Rush Refiners International, LLC (now, Quantum Refiners, LLC), which assumed the obligation on the consolidated note and granted a security interest in all of the assets acquired from Gold Rush Refiners, LLC, as security for repayment of the obligation evidenced by the note. Due to the uncollectibility of this balance, the Company has determined to impair the value of this note to $0.00 (see Note 14).

New loan made to Quantum Refiners, LLC.

On December 2, 2015, the Company made a loan Quantum Refiners, LLC in the amount of $23,000, accruing interest at 12%, with a maturity date of December 31, 2017.

NOTE 13 –LITIGATION AND SETTLEMENT

Original Legal Action

In mid-2012, the Company issued to Zermatt Life/Health Insurance Trust (Zermatt), an unrelated party, $770,000 in Series B Preferred Stock, with a 4% cumulative dividend payable if, as, and when declared. Also in mid-2012, the Company used the proceeds from this preferred stock sale to loan Benefits for Corporate America Deferred Compensation Trust (BCA), an unrelated third party, $770,000. The borrower delivered to the Company a promissory note secured by the third party's accommodation pledge of all of its assets, including its interest in 64 life insurance policies having a cash surrender balance of more than $4 million. At the time of the foregoing preferred stock sale and loan, the purchaser of the stock (Zermatt) and the borrower (BCA) were represented to be unrelated to each other. The borrower defaulted in note payments, and the Company initiated and then accelerated efforts to collect payment of the $770,000 note. Following such collection efforts, it was discovered that the preferred stockholder and borrower were affiliated or related in that BCA has refused to repay the note balance due, which is more than $1 million, unless the Company agrees to repurchase all the Series B Preferred Stock held by Zermatt, which totals 1,470,000 shares. The Company believes that it is not obligated to repurchase the shares held by Zermatt and is entitled to collect from BCA. In response to the Company's position, in April 2014, Benefits for Corporate America, Inc., et al., filed a lawsuit against the Company, a subsidiary, and Paul Norat, the Company's president and chief executive officer, entitled *Benefits for Corporate America, Inc., et al., vs. Capital Financial, LLC, et al*., Third Judicial District Court, Salt Lake County, Utah, case no. 140902802, alleging breach of contract, fraud, violation of the Utah Uniform Securities Act, and failure of consideration and

seeking a declaratory judgment that certain notes are not enforceable and for unspecified damages, costs, and attorneys' fees.

The defendants denied the substantive allegations of the complaint, and the Company's subsidiary, Capital Financial, LLC, filed a counterclaim seeking to recover previously incurred costs $104,325, plus interest. The counterclaim defendants denied the substantive allegations in the counterclaim.

Capital Financial, LLC, filed an amended counterclaim further asserting breach of contract and foreclosure on the collateral securing over $1.0 million in indebtedness. The counterclaim defendants denied all substantive allegations of the amended counterclaim.

Settlement of Benefits for Corporate America, Inc., et al., vs. Capital Financial, LLC, et al.

On March 21, 2016, the parties reached an agreement for the settlement of all claims arising out of or relating to the litigation, and executed a Settlement Agreement and Mutual Release.

The terms of the settlement agreement provide for, among other things, the sale of the Note Held for Sale owed to the Company by BCA to Zermatt in exchange for Zermatt's surrender of 770,000 shares of the Company's Series B Preferred Stock, and the forfeiture of any accrued dividends. Accordingly, the Company made the following accounting adjustments to its financial statements: loans held for sale were reduced in the amount of $770,000, along with any associated provisions for loan losses and accrued interest, and; correspondingly, the number of shares of Series B Preferred Stock outstanding were reduced by 770,000 shares, along with any accrued dividends, and $54,187.24 applied to additional paid in capital.

As a result of the settlement agreement, notes held for sale was reduced from $508,000 in 2014 to $0.00 in 2015. Accordingly, the associated interest income accrued was reduced from $250,609 in 2014 to $219 in 2015.

NOTE 14 – SUBSEQUENT EVENTS

In accordance with Financial Accounting Standards Board Accounting Standards Codification 855, Company management submits the following subsequent disclosures.

Legal Settlement in *Benefits for Corporate America, Inc., et al., vs. Capital Financial, LLC, et al*.

As described in Note 13 above, on March 21, 2016, the parties reached an agreement for the settlement of all claims arising out of or relating to the litigation described as Third Judicial District Court, Salt Lake County, Utah, case no. 140902802. Accordingly, the parties executed a Settlement Agreement and Mutual Release which ended the litigation with prejudice.

Cancellation of the Off-take Agreement with Noble Metal Kings

On February 4, 2016, the Company issued a press release cancelling the Off-Take Agreement with Noble Metal Kings (see Note 13 "Gold Concentrate Sales Agreement"), and announced a complete departure from any mining or mineral related activities. This departure marks a significant change to the business model of the Company and casts further doubt on its ability to remain solvent absent a compensating

directional change in its business model.

Impairment of the Quantum Refiners Note Receivable

In March 2014, the Company entered into agreements with the holders of various notes receivable due from an unrelated entity, Gold Rush Refiners, LLC, for a total discounted purchase price of $1,701,200, paid for with the issuance of 1,701,200 shares, at $1.00 per share, of the Company's Series B Preferred Stock. The total face value of these notes receivable was approximately $5,100,000, with varying interest rates from 0% to 36% per annum, are all currently or past due and are secured by the assets of Gold Rush Refiners, LLC.

In April 2014, the Company exchanged these notes for a new consolidated note with extended payment terms.

On April 8, 2014, the Company entered into a settlement agreement with Quantum Refiners, LLC, in which the Company exchanged the notes aggregating approximately $5,100,000 from various makers for the issuance by Quantum Refiners, LLC, of a new, consolidated note in the principal amount of $5,100,000, bearing interest at 12% before default and at 24% thereafter, and payable on or before April 7, 2019. Payment of the consolidated note is secured by all of the assets of Quantum Refiners.

Furthermore, in a February 4, 2016 press release, the Company announced the following:

> "CFGX continues to hold approximately $5.1 million in face amount of notes receivable that Gold Rush Refiners had issued prior to January of 2014, before it was acquired by Paul Norat and renamed Quantum Refiners. CFGX acquired these notes in March of 2014 in arm's length transactions in consideration of the issuance of about 1.7 million shares of preferred stock. These notes were written down to $1.7 million based on concerns respecting the collectability of the notes in CFGX's September 30, 2015 financial statements. CFGX now believes the notes are uncollectable and is attempting to resolve adverse impacts on the company by addressing the previous issuance of the preferred stock."

As a result, the Company impaired the note receivable to $0.00 and recognized a book loss of $2,072,429.39. In parallel, the Company is actively seeking to cancel all the shares of its Series B Preferred Stock that were issued to acquire the Gold Rush creditor claims. Accordingly, during the time that recovery of the stock is ongoing, the following accounting adjustments were made to the Company's financial statements: "Note Receivable" in the amount of $1,701,200 was impaired to $0.00, along with any associated accrued interest and offsetting provisions; "provisions for loan losses" were expensed in the amount of $2,072,429.39. It is anticipated that compensating adjustments will be made to the amount of shares of Series B Preferred Stock that is outstanding resulting from the return and cancellation of preferred stock as the mitigation effort progresses.
