D. Financial notes

(1) Organization and basis of presentation

Basis of Financial Statement Presentation:

The accompanying unaudited interim financial statements of Las Vegas Railway Express, Inc. (the "Company") have been prepared in accordance with the instructions to Form 10-K and Article 8 of Regulation S-X. Accordingly, they do not include all information and footnotes required by accounting principles generally accepted in the United States of America ("GAAP") for complete financial statements. These statements reflect all normal and recurring adjustments which, in the opinion of management, are necessary to present fairly the financial position, results of operations and cash flows of the Company for the interim periods presented. However, the results of operations for the interim periods presented are not necessarily indicative of the results that may be expected for the year ending March 31, 2016 or any other future period. These interim financial statements should be read in conjunction with the unaudited consolidated financial statements and notes thereto included in the Company's Annual Report for the year ended March 31, 2016.

Going Concern:

The accompanying financial statements have been prepared assuming that the Company will continue as a going concern. As shown in the accompanying financial statements, the Company has net profit of $214,976 for the year ended March 31, 2016. The Company also has an accumulated deficit of $40,892,657 and a negative working capital of $837,451 as of March 31, 2016, as well as outstanding convertible notes payable of $195,102. Management believes that it will need additional equity or debt financing to be able to implement the business plan. Given the lack of revenue, capital deficiency and negative working capital, there is substantial doubt about the Company's ability to continue as a going concern.

Management is attempting to raise additional equity and debt to sustain operations until it can market its services and achieves profitability. The successful outcome of future activities cannot be determined at this time and there are no assurances that, if achieved, the Company will have sufficient funds to execute its intended business plan or generate positive operating results.

The accompanying financial statements do not include any adjustments related to the recoverability and classification of assets or the amounts and classification of liabilities that might be necessary should the Company be unable to continue as a going concern.

(2) Summary of Significant Accounting Policies

Risks and Uncertainties:

The Company operates in an industry that is subject to intense competition and potential government regulations. Significant changes in regulations and the inability of the Company to establish contracts with rail services providers could have a materially adverse impact on the Company's operations.

Use of Estimates:

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reported periods.

Property and Equipment:

Property and equipment are recorded at historical cost and depreciated on a straight-line basis over their estimated useful lives of approximately five years once the individual assets are placed in service. The Company expenses all purchases of equipment with individual costs of under $500, and these amounts are not material to the financial statements.

Long-Lived Assets:

In accordance with FASB ASC 360-10, the Company evaluates long-lived assets for impairment whenever events or changes in circumstances indicate that their net book value may not be recoverable. When such factors and circumstances exist, the Company compares the projected undiscounted future cash flows associated with the related asset or group of assets over their estimated useful lives against their respective carrying amount. Impairment, if any, is based on the excess of the carrying amount over the fair value, based on market value when available, or discounted expected cash flows, of those assets and is recorded in the period in which the determination is made. The Company's management believes there has been no impairment of its long-lived assets during the six months ended September 30, 2015 or 2014. There can be no assurance, however, that market conditions will not change or demand for the Company's business model will continue. Either of these could result in future impairment of long-lived assets.

Income Taxes:

Deferred tax assets and liabilities are recognized for the expected future tax consequences of events that have been included in the financial statements or tax returns. Under this method, deferred tax assets and liabilities are determined based on the differences between the financial reporting and tax bases of assets and liabilities using enacted tax rates in effect for the year in which the differences are expected to reverse. The deferred tax assets of the Company relate primarily to operating loss carryforwards for federal income tax purposes. A full valuation allowance for deferred tax assets has been provided because the Company believes it is not more likely than not that the deferred tax asset will be realized. Realization of deferred tax assets is dependent on the Company generating sufficient taxable income in future periods.

The Company periodically evaluates its tax positions to determine whether it is more likely than not that such positions would be sustained upon examination by a tax authority for all open tax years, as defined by the statute of limitations, based on their technical merits. As of September 30, 2015 and March 31, 2015, the Company has not established a liability for uncertain tax positions.

Basic and Diluted Loss Per Share:

In accordance with Financial Accounting Standards Board Accounting Standards Codification ("FASB ASC") 260, "Earnings Per Share," the basic loss per common share is computed by dividing the net loss available to common stockholders after preferred stock dividends, by the weighted average common shares outstanding during the period. Diluted earnings per share reflect per share amounts that would have resulted if diluted potential common stock had been converted to common stock. Common stock equivalents have not been included in the earnings per share computation for the six months ended September 30, 2015 and 2014 as the amounts are anti-dilutive. As of September 30, 2015, the Company had 10 outstanding options which were excluded from the computation of net income per share because they are anti-dilutive. As of September 30, 2015, the Company also had convertible debt of $2,838,920 which was excluded from the computation. As of September 30, 2015, the Company had 465 outstanding warrants which were also excluded from the computation because they were anti-dilutive.

Share Based Payment:

The Company issues stock, options and warrants as share-based compensation to employees and non-employees.

The Company accounts for its share-based compensation to employees in accordance FASB ASC 718. Stock-based compensation cost is measured at the grant date, based on the estimated fair value of the award, and is recognized as expense over the requisite service period.

The Company accounts for share-based compensation issued to non-employees and consultants in accordance with the provisions of FASB ASC 505-50 "Equity - Based Payments to Non-Employees." Measurement of share-based payment transactions with non-employees is based on the fair value of whichever is more reliably measurable: (*a*) the goods or services received; or (*b*) the equity instruments issued. The final fair value of the share-based payment transaction is determined at the performance completion date. For interim periods, the fair value is estimated and the percentage of completion is applied to that estimate to determine the cumulative expense recorded.

The Company values stock compensation based on the market price on the measurement date. As described above, for employees this is the date of grant, and for non-employees, this is the date of performance completion.

New Accounting Pronouncements:

There are no recent accounting pronouncements that management believes will have a material impact on the Company's present or future consolidated financial statements.

(8) Management's Discussion and Analysis of Financial Condition and Results of Operations

The following discussion should be read in conjunction with our financial statements and notes thereto included elsewhere herein.

Critical Accounting Policies

The preparation of our financial statements and notes thereto requires management to make estimates and assumptions that affect the amounts and disclosures reported within those financial statements. On an ongoing basis, management evaluates its estimates, including those related to collection of receivables, impairment of goodwill, contingencies, litigation and income taxes. Management bases its estimates and judgments on historical experiences and on various other factors believed to be reasonable under the circumstances. Actual results under circumstances and conditions different than those assumed could result in material differences from the estimated amounts in the financial statements. There have been no material changes to these policies during the fiscal year.

Revenue

During the year ended March 31, 2016, there was no revenue from operation and during the year ended March 31, 2015, our operations generated some revenue from our operation in Santa Fe, NM.

Operating Expenses

Compensation and payroll taxes decreased by $2,678,066, or 68.8%, during the year ended March 31, 2016 as compared to 2015. The decrease in compensation expense in the current year is due primarily to higher costs in 2015 related to the issuance of stock to directors and officers as compensation and decreasing number of employees in 2016. Selling, general and administrative expenses decreased by $1,435,025, or 75.3%, during the year ended March 31, 2016 as compared to the same period in 2015 primarily due to the impairment of our rail cars, as well as decreases in insurance, lease, rent marketing and office expenses. We had a decrease in our professional fee expenses during the year ended March 31, 2016 of $1,043,386, or 78.2%, due primarily to legal, consulting and audit services.

Other (Expense) Income

Interest expense decreased by $2,515,826 during the year ended March 31, 2016 as compared to the year ended March 31, 2015. The decrease is due primarily to the conversion of Cowen's note and writing off the interest in 2016.
The change in the value of derivative liabilities amounted to $2,020,763 for the year ended March 31, 2016 as compared to $412,581 for the year ended March 31, 2015. The increase was primarily due to the decrease in value of derivative liabilities outstanding during the year by paying off the convertible promissory notes.

Liquidity and Capital Resources

Liquidity is the ability of a company to generate funds to support asset growth, satisfy disbursement needs, maintain reserve requirements and otherwise operate on an ongoing basis. The Company has no operating revenues and is currently dependent on debt financing and sale of equity to fund operations.

As shown in the accompanying financial statements, the Company has net profit of $214,976 and loss of $9,478,980 for the years ended March 31, 2016 and 2015, respectively. The Company also has an accumulated deficit of $40,892,657 and negative working capital of $837,451 as of March 31, 2015, as well as outstanding convertible notes payable of $195,102. Management believes that it will need additional equity or debt financing to be able to implement its business plan. Given the lack of revenue, capital deficiency and negative working capital, there is substantial doubt about the Company's ability to continue as a going concern.

We believe that the successful growth and operation of our business is dependent upon our ability to do the following:

- obtain adequate sources of debt or equity financing to pay unfunded operating expenses and fund long-term business operations; and
- manage or control working capital requirements by controlling operating expenses.

Management is attempting to raise additional equity and debt to sustain operations until it can market its services and achieves profitability. The successful outcome of future activities cannot be determined at this time and there are no assurances that, if achieved, the Company will have sufficient funds to execute its intended business plan or generate positive operating results.

Off-Balance Sheet Arrangements

There are no off-balance sheet arrangements.

6. Nature of the business:

On January 15, 2016, the Company entered into an exclusive license agreement with X Rail Enterprises, Inc., a Nevada publicly traded company OTC:PINK:XREE whereby XREE acquired an exclusive license to operate the X Train service on any rail route in the United States. It further was granted exclusive use of all X Train brands and intellectual property owned by the Company. In exchange for the license, the Company receives a 5% royalty on the gross revenue generated by XREE under use of the X Train operations. XREE also agreed to finance the operations of the X Train rail opportunity at its expense since the Company was in no position to raise the necessary capital to operate the business.

The Company also sold to XREE as part of the consideration, a 100% interest in 12 passenger rail cars previously owned by the Company. XREE has executed a car development contract with the Company to refit and make ready the 12 passenger cars now owned by XREE in the X Train motif such that they can be deployed on the LA to Vegas route now operated by XREE. This contract employs the Company to manage the construction of each railcar for a fee.

The Company is now primarily engaged in a support role to the operations of the X train operated by X Rail Enterprises, Inc. OTC:PINK:XREE.

The Company's common stock is currently quoted on the OTCPINK under the symbol "XTRN". The company website is www.vegasxtrain.com.
The Company maintains offices at 9480 South Eastern Avenue, Suite 205, Las Vegas, Nevada 89123.
