PINK SHEET'S ISSUER
INFORMATION AND DISCLOSURE STATEMENT
PURSUANT TO RULE 15C2-11

All information contained in this Information and Disclosure Statement has been compiled to fulfill the disclosure requirements of Rule 15(c)-211(a)(5) promulgated under the Securities Exchange Act of 1934, as amended. The enumerated captions contained in this Information and Disclosure Statement correspond to the sequential format as set forth in the rule.

Part A General Company Information

Item 1. The exact name of the issuer and its predecessor (if any) .

The exact name of the issuer is: **Identa Corp**. (hereinafter referred to as the "Company"). Symbol IDTA –Pink sheets.
The company was previously known as Buoy Club, Inc. until January, 2002.

Item 2. The address of the issuer's principal executive offices.

The address of the issuer's principal executive offices is:

120 Derech Beith Lechem Road
Jerusalem Israel 9342001

Tel: **(972) 2 587-2220**
Fax: **(972) 77 9611-913**
Cellular: **(972) 52 – 6554487 – Yaacov (972) 52 – 3698121 - Amichai**
Site: www.identa-corp.com , E-mail: info@identa-corp.com

Item 3. The jurisdiction(s) and date of the issuer's incorporation or organization.

Identa Corp. (formerly known as Buoy Club, Inc.) is incorporated in the state of Florida since January, 2002 . The name of the Company was changed from "Buoy Club, Inc." to "Identa Corp." in January, 2002.
The CUSIP code is 120739107.

Part B Share Structure

Item 4. The exact title and class of securities outstanding.

Common Stock par value $0.001

Item 5. Par or stated value and description of the security

par value $0.001

Common Stock. Our Common Stock does not have any dividend rights other than a right to receive a pro rata share of any dividends issued by the Company. Each share of Common Stock is entitled to a single vote on all matters requiring a vote of the shares.

Item 6. The number of shares or total amount of the securities outstanding for each class of securities authorized

The SIC code is 9711- National Security

The Number of Shares of Common Stock Outstanding as of December 31, 2015:

13.517.625.000

Date	Authorized	Outstanding	Float	Shareholders
December 31, 2015	16.000.000.000	13,517.625.000	1,975.000.000	155
September 30, 2015	16.000.000.000	13,467.625.000	1,975.000.000	144
June 30, 2015	13.500.000.000	13,267,625,000	1,975.000.000	144
March 31, 2015	13.500.000.000	13,267,625,000	1,975.000.000	144
July 15, 2014	13.500.000.000	13,067,625,000	1,975.000.000	142
June 30, 2013	11.500.000.000	10.351.875.000	1.975.000.000	More than 130
June 30, 2012	8.500.000.000	8.498.500.000	1.850.000.000	More than 100
December31, 2011	8.500.000.000	8.498.500.000	1.850.000.000	More than 100

Item 7. The name and address of the transfer agent.

Interwest Transfer Co., Inc.,
Suite 100
P.O. Box 17136
Salt Lake City, UT 84117
Phone: (801)272-9234 Fax: (801)277-3147

The transfer agent is registered under the Exchange Act and is regulated by the Securities and Exchange Commission.

Part C Business Information

Item 8. The nature of the issuer's business.

A. Business Development.

a. In January 2002, the Company then-known as "Buoy Club, Inc." acquired Identa Ltd. an Israeli Company in a reverse acquisition resulting in a change of control.

b. The fiscal year end date for the company is December 31.

c. The Company has not and is not in the process of filing bankruptcy, receivership or any similar proceedings.

d. The Company has not made any material reclassifications, mergers (since January 2002), consolidations, or purchases or sales of any significant amount of assets.

e. The Company is not in default of the terms of any note, loan, lease, or other indebtedness or financing arrangement requiring the issuer to make payments;

f. The Company has not had any change of control since January, 2002.

g. The company has had in the last year an increase of 10% or more of the same class of outstanding equity securities;

h. The Company's securities have not been de-listed and are not in the process of being de-listed by the Securities and Exchange Commission or NASDAQ.

i. There are no current, past, pending, or threatening legal proceedings or administrative actions.

B**. Business of Issuer.**

The Company develops and manufactures advanced forensics products primarily, designed for law enforcement agencies around the world.
In addition, the Company develops and manufactures forensics products – drug detectors- for the wider drug detection "retail" market such as schools, corporations, security companies, worried - parents, drug store chains, etc.
Identa Corp is the only company selling drug detectors (chemical reaction) in the retail market, due to the most advanced detector.

The Company's products are based on the more than 30 years of experience of its Chief Scientist, Baruch Glattstein, who is a former chief scientist of the Israeli Police forensic department.

1. The Company has developed and manufactures a novel and unique drug detector field test kit known as "DDFK". DDFK is a chemical device, for identification instantly of different kinds of illicit drugs in the field including: Marijuana/hashish, Cocaine/Crack, Brown and White Heroin, Ecstasy-MDMA, MDA, Amphetamine and Methamphetamine (Crystal meth), LSD, Morphine, Ketamine, GHB, Bath salt, **Synthetic Cannabinoids** etc. Actually Identa has drug detectors for any known illicit drugs.
Today Identa Corp is able to provide DDFK, for any known illicit drug (in the literature) and capable to develop a new kind of detector for any new illicit drug.

2. In the last years Mr. Baruch Glattstein has developed a new and unique **General Drug Screening Kit**, a kit with advanced chemistry, able to give a positive response for 21 types of known drugs. An immediate answer (instant) for the most important question: is the suspected substance an illicit drug or not! In one simple test, breaking only up to two ampoules and receiving a most reliable response for almost all known illicit drugs, (except marijuana/ hashish, because they are from plants).
The Company's different products have several advantages over competitive products, including:

a. Our drug detector kits are one or double step process. If the kits are double step (using two units- two different plastics) than the process is:

Step 1- detection step (step still containing false positives)

Step 2 – confirmation step (on a laboratory level on the field), step separation between the false positives substances (still received in the first step, the detection step) and the illicit drug.

b. The Identa's detectors have no false positives. As far as the Company is aware, our products are the only ones in the market which the result has no false positives.

.

Those kits give a very fair answer for an acute problem faced by the different legal enforcement agencies around the world, to identify immediate on the field the suspected substance (powder, pill, etc).

c. The new General Drug Screening Kit is a most advance device, to be used by the different law enforcement agencies, military groups and by the retail market (worried parents, working place and schools).

d. All of Identa's drug detectors are "green" products, having build- in the kits a neutralization process for neutralizing the strong acid. The neutralization system is unique for Identa's kits.

e. The kits are user friendly, using a patented durable plastic casing.

f. Inexpensive.

3**. Key product features of IDenta's explosive detectors include:**

a. The methodology provides a very safe testing method that will pose no danger at all to the user.

b. Detectors are able to detect the full range of the well-known types of military, commercial and the homemade explosives including: TNT/PETN, RDX/Nitrate, Urea Nitrate, Ammonium Nitrate, TATP/HMTD and Chlorate/Bromate.

c. IDenta's new TATP/HMTD detector has consistently tested showing No False-Positives.

d. The detectors have at least 3 years period of chemical stability.

e. Durable, easy to use, self-contained plastic packaging will enable the products to be used in a wide-variety of field operations including in the field military operations as well as civilian applications such as airport security.
f. The products are also very competitively priced.

g. High sensitivity to detect small amount.

4. Identa Corp. has also developed an additional forensic product, the BTK-Bullet Hole Test kit. The identification of bullet-holes and of marks produced by projectiles has been shown to be very crucial in the investigation of criminal cases involving the use of firearms. Such bullet-holes are usually characterized by the presence of metals (mainly lead and copper), originating from the bullet's outer surfaces, in the perimeters of these holes. The morphology of the hole alone at the scene of an investigation can often lead to erroneous conclusions, but by using IDenta BTK, a rapid and reliable identification of suspected bullet-holes in the field can be made.

This product is a unique product, owned and manufactured only by Identa Corp.

5. In the last years Mr. Baruch Glattstein has developed kits for Precursors.
Identa Corp is manufacturing precursor kits for the following type of products:
-for acetic anhydride, ephedrine/pseudoephedrine, ecstasy and methamphetamine.

6. Identa Corp has developed detectors for the new drug problem, the synthetic drug – the designer drugs.

7. The last developed product is the Sniff and Know a handy sniffer for illicit drugs and explosives.
A Fast Collection & Detection System for Suspected Particles on Surfaces Everywhere. The sniffer is working on substances (visible) and on traces (UNVISIBLE at nano gram level).

The sniffer is able to collect substances and traces from: Boxes, Cars, Table, Clothes, Containers, Rooms, Pallets etc.
The Sniff and Know (sniffer) is compatible with Identa's illicit drugs and explosives test kits.

The Company does not have any parent or affiliate.
Identa Corp has a subsidiary company: Identa Ltd, an Israeli company owned 100% by Identa Corp.

The Company does not foresee any substantial changes in existing or probable governmental regulations that could adversely affect the business of the company at this time.

The Company has spent a great deal of time, investments, preparation and labor on the research and development of the company and it can only give a rough estimate on the amount of time and preparation spent on the development and research of the potential products of the company. At this point in time none of these costs have been passed on or are borne by the customers.

Identa has spend a lot of investments to create a new applicator, (the special stick for collecting the suspected substances) .
The current applicator is able to dip (in suspected powder) and to scrub (in suspected pills) in a 0,1 milligram (the smallest amount of substance needed for the chemical reaction).
The new applicator, is able to wipe down surfaces also, in addition to the dip and scrub process. The new applicator is efficient for nanogram. The new applicator is working on Invisible suspected substances. It is a major breakthrough for collecting suspected substances, especially for explosives.

6. The Company is in full compliance with all environmental laws in conjunction with its operating activities.

7. The Company has 13 employees.

C. Investment Policies.

At the present time, the company has investments. Going forward, all revenue not allocated for expenses are and will be invested into the business to generate additional revenue for the Company. There are no limitations with regard to the percentage of assets invested nor on the type of instruments used. Investment policy may only be changed by a vote of the Board of Directors.

Item 9. The nature of products or services offered.

Overview

The world illegal drug trade is estimated at approximately $1000 billion dollars per year. Drug sales in the US only, on the wholesale level is about 250-300 billion dollars millions in every year. Over 1.5 million people are arrested for drug offenses in the US only with many millions more arrested annual in the rest of the world. About 25% of the arrested around the world are arrested in USA only

The US federal government and the local authorities budget allocation for the war on drugs is more than $50 billion dollars annually. The budget growth rate is steady at about 9% annually. In the U.S. approximately 95% of the drug trade is comprised of cocaine/crack, marijuana/hashish, heroin, ecstasy and crystal/meth.

Identa'sProducts

The Company develops, manufactures and distributes proprietary on-site drugs-of-abuse testing products (chemical kit) for the professional and civil markets. The Companies products include rapid test kits (substance only) for the detection of Marijuana/Hashish,
Ecstasy-MDMA/MDA, Cocaine/Crack, Heroin, Amphetamine and Methamphetamine
(Crystal), LSD, Morphine etc. Our drug detection testing products are designed for both professional law enforcement and for the "retail" market consisting of worried parents, schools, employers, and the like.

The Company also develops, manufactures and distributes proprietary explosive identifiers and BTK (bullet hole test kit), precursor kits aimed for the professional law enforcement market.

Markets

The market for drug detector products fall into four broad categories:

1. Government Agencies and Public Institutions
    - Police and sheriff's offices
    - Customs service
    - Coast Guard
    - Postal Service
    - Drug Enforcement Agency
    - Armed Forces
    - Prisons and Probation Departments
    - Schools
    - Air Traffic Control
    - Drug Rehabilitation Centers

2. Industry
    - Industrial Security Services
    - Manufacturing Industries
    - Food Processing
    - Pharmaceutical Houses
    - Service
    - Transportation
    - Shipping
    - Airlines
    - Pilots
    - Maintenance personnel
    - Cargo
    - Sports teams
    - Hospital Emergency Rooms

3. Analytical Laboratories
    Forensic Laboratories

4. Consumers
    Parents
    Counselors
    Teachers
    Coaches

EXPLOSIVE IDENTIFIERS, PRECURSOR KITS AND BTK MARKETS:

1. Government Agencies and Public Institutions
    Police and sheriff's offices
    Customs service
    Coast Guard
    Postal Service
    Armed Forces
    Prisons and Probation Departments
    Air Traffic Control

2. Industry
    Industrial Security Services
    Transportation
    Shipping
    Airlines
    Cargo

3. Analytical Laboratories
    Forensic Laboratories

Distribution

The Company utilizes the following distribution methods and channels:

- Internet
- Distributors/representatives/agents
- Drugstore chains
- Government RFPs

The Company current sells or expects to sell in the following markets:

Indonesia - law enforcement market
Argentina- law enforcement market
Poland – law enforcement
France- law enforcement
USA- law enforcement and retail market
Spain- law enforcement market
India- law enforcement market
U.K.- law enforcement
Ghana- law enforcement market
Nigeria-law enforcement market
Australia- law enforcement market
Russia- law enforcement market
Israel- law enforcement market
Canada- law enforcement market
Germany-law enforcement market
Italy-law enforcement market
Portugal-law enforcement market
South Africa – retail market

The Company is also active in the following countries:

Brazil, Mexico, Panama, Central America countries – including the islands, Colombia, Ecuador, Taiwan, Thailand

In 2013 the total sales were more than 333.000 USD.
In 2014, the total sales were 426.000 USD.
In 2015, the total sales were 716.535 USD.
Expected to sale in 2016 between 1.000.000 to 2.000.000 USD.

Financial report (audited) for year 2013 (December 31, 2013):

Financial report (audited) for year 2014 (December 31, 2014):

Financial report (audited) for year 2015 (December 31, 2015):

Competitive Business Conditions:

All the other products manufactured by different other companies, used today by the legal law enforcement agencies are presumptive, (presuming of the drug existence). The presumptive products have a large numbers of false positives. All of the false positives are legal substances used day by day.

Sources and Availability of Raw Materials and the Names of Principal Suppliers: The raw materials used in our products are widely available from a large number of sources. Therefore, we do not have one single principal supplier.

Dependence on One or a Few Major Customers: None

Patents, Trademarks, Licenses, Franchises, Concessions, Royalty Agreements or Labor Contracts, Including Their Duration; And

Item 10 The nature and extent of the issuer's facilities

Identa's Corp plant is in Jerusalem-Israel, in a high –tech industrial area. Identa Corp has a semi automatic production line. At the plant we are manufacturing the patent secret chemical liquids used in the various kits (drug detectors, explosive detectors, precursors and BTK) and assembling the detectors.
The plant is rented by Identa Corp for a long term.
At the plant is also the Identa's Corp main office.
The plant's address is:
120 Derech Beith Lechem Road, Jerusalem Israel 9342001
The Company has 13 full time employees.

Part D Management Structure and Financial Information

Item 11 the name of the chief executive officer, members of the board of directors, as well as control persons
.

a. Executive Officers and Directors;

Mr. Yaacov Shoham – CEO
120 Derech Beith Lechem Road, Jerusalem Israel 9342001

Yaacov Shoham – Chief Executive Officer.

Mr. Shoham is a retired Chief Superintendent of the Israel Police, served in the police force for over 25 years. Before retiring, Mr. Shoham was a computer investigator and comptroller. He is a graduate from the Hebrew University of Jerusalem and has an MA degree.
Mr. Shoham graduated different police courses including the highest level of training aimed for the police officers appointed as chiefs. Mr. Shoham has also taken various computer courses with IBM.

Mr. Baruch Gllatstein – Chief of Scientist.

Baruch Gllatstein, an internationally acclaimed scientist with over 40 years of experience in forensic, is a graduate of Bar-Ilan University, with a BSc in chemistry and MSc in organic chemistry. He has published over 30 papers in international publications and is a frequent lecturer at conferences worldwide. Gllatstein spent over 15 years with the Israel Police as Chief Scientist of the Forensic Department and retired from the force as Chief Superintendent. He also comes to the Company with hands-on business experience, have served as managing director of R&D in a variety of companies.

Item 12 Financial information for the issuer's most recent fiscal period

Financial report for year 2015 (December 31, 2015):

An audited report for year 2015 (December 31, 2015), is been published separately, through the OTC Disclosure and News Service. The link for the audited annual report is:
http://www.otcmarkets.com/stock/IDTA/filings

See the line:

Mar 31, 2015 Annual Report- IDenta-Financial Statements 2014 Dec 31, 2014 Active

As of:	Number of shares authorized:	Number of shares outstanding:	Freely tradable shares (public float):	Total number of shareholders:
June 30, 2015	13.500.000.000	13,267,625,000	1.975.000.000	144

Statement: In the fiscal years 2014 (January), the number of outstanding shares increased with 2.000.000.000 shares. The new shares have been allocated to raise funds for the following company's activity:

1. **Expand the marketing and sales activity, especially in many different markets as :USA, UK, Brazil, Mexico, etc**

2. **In USA the main target is the retail market – drug store chains, worried parents, high schools and universities/colleges, working place. Identa Corp has signed already a vendor agreement with one of the largest drug store chains in the states. The name of the drug store chain is Wlgreens, identa's Touch and Known is on the shelf of 8700 stores. A large amount of funds have been allocated to manufacture boxes with kits and dispatch them to the Wallgreens warehouses and in the stores. The investment in the Walgreens business was enormous- about 600.000 usd.**

3. Create a new applicator for the different detectors. The new applicator is able to detect suspected substances from any surfaces at a level of nanogram.

4. Invested a large sum of money (from the raised money) to develop a new system to pick up the traces of the suspected substances. The new system is a Sniffer, a chemical device and not an electronic device. The identa's new sniffer is inexpensive, easy to use, reliable, handy etc.

Item 13 Similar financial information for such part of the two preceding fiscal years as the issuer or its predecessor has been in existence

As of:	Number of shares authorized:	Number of shares outstanding:	Freely tradable shares (public float):	Total number of shareholders:
June 30, 2015	13.500.000.000	13.267.625.000	1.975.000.000	144

The new shares have been allocated to raise funds for the following companie's activity:

1. **In the years 2012-4, Identa Corp has developed a new system –the sniffer based on chemical procedure and not based on electronic process. In the year 2014 till end of June 2015 , identa has sold the sniffer in different countries as: Russia, Colombia, Ukraine, Nigeria, Hungary, Panama . A total number – 40 sniffers . The expectations is that we will increase rapidly the sniffer sales in 2015 to several hundreds of devices in new markets like: Indonesia, Central America, Thailand, USA etc.**

2. **Developing the market and sales.**

Please also identify whether any of the foregoing persons have, in the last five years, been the subject of:

1. A conviction in a criminal proceeding or named as a defendant in a pending criminal proceeding
   (Excluding traffic violations and other minor offenses).
   None of the officers or control persons have been convicted or named as a defendant in any criminal proceeding.

2. The entry of an order, judgment, or decree, not subsequently reversed, suspended or vacated, by a court of competent jurisdiction that permanently or temporarily enjoined, barred, suspended or otherwise limited such person's involvement in any type of business, securities, commodities, or banking activities. None

3. None of the officers or control persons have any orders, judgments or decrees that permanently or temporarily enjoined, barred, suspended or otherwise limited such person's involvement in any type of business, securities, commodities, or banking activities. None

4. A finding or judgment by a court of competent jurisdiction (in a civil action), the SEC, the CFTC, or a state securities regulator of a violation of federal or state securities or commodities law, which finding or judgment has not been reversed, suspended, or vacated: None of the officers or control persons have a finding or judgment by a court of competent jurisdiction (in a civil action), the SEC, the CFTC, or a state securities regulator of a violation of federal or state securities or commodities law.

5. The entry of an order by a self-regulatory organization that permanently or temporarily barred suspended or otherwise limited such person's involvement in any type of business or securities activities. None

To the extent not otherwise disclosed, if any of the above shareholders are corporate shareholders, provide the disclosure requested in this item as to person(s) owning or controlling such corporate shareholders and the resident agents of the corporate shareholders. Not applicable.

To the extent not otherwise disclosed, describe any relationships existing among and between the issuer's officers, directors and shareholders. None

To the extent not otherwise disclosed, describe all relationships and affiliations among and between the shareholders and the issuer, its predecessors, its present and prior officers and directors, and other shareholders. None

Item 14. Beneficial Owners.

1. **Professor Snunith Shoham**
   24 Shivtei Israel street Modiin Israel 71724
   She is the only beneficial owner with 6.5 %

STOCK HOLDINGS:

Alliance family – 5.00 %
Shoham family- 23.5%
Glattstein family- 23.5%

Item 15. The name, address, telephone number, and email address of each of the following outside providers that advise the issuer on matters relating to the operations, business development and disclosure:

General Partners - Not applicable

Promoters - None

Control Persons - Yaacov Shoham is considered the control person of the Company.

Counsel -

Accountant or Auditor: Weinstein and Co (ISR) Jerusalem, Israel

Any other advisor that assisted, advised, prepared or provided information with respect to this disclosure documentation – None

The issuer's most recent balance sheet and profit and loss and retained earnings statements.
Annual 12.31.2015.

Item 16 Management's Discussion and Analysis or Plan of Operation

Management's Discussion and Analysis of Financial Condition and Results of Operations.

Identa Corp has started the activity 13 years ago.

When the activity has started Identa Corp has only detectors for 3 kind of drug detectors (for cocaine/crack , heroin, marijuana/hashish).

Since then we have continued the r&d in the specific forensic area for detecting and identifying suspected substances.

-Today Identa Corp has dozens of detectors for drug detectors. Actually we are the only company possessing detectors for any kind of illicit drug detectors known in the "industry"
- Identa corp has detectors to identify any known explosives.
- Identa corp has developed in the last years 5 detectors for precursors (illicit drugs)
- The additional product is unique for the company, the BTK – Bullet Test Kit.
-A Sniffer has been developed, based on Identa's different detector kits (illicit drugs, explosives, precursors).

Identa Corp has developed a line production with a plant in Jerusalem Israel.

As far as the company knows, Identa Corp is the unique company in this specific forensics area having a R&D department.

Identa Corp has developed in the last years a marketing and sale process for the different products.

The marketing and sale process is at developing stage. It has started about 4-5 years ago in a slowly page.
The process to introduce new forensics products to the legal law enforcement agencies in different markets and countries is a long process, due the request from any agency to test the products (in laboratory and in the field) before accepting them as products to be used in the field by the officers or any other agent.
Each agency has his own demands and regulation, therefore Identa has developed new products or adjusted the existing products to the demand from the different agencies.

The main development, as a result from such of demand is the General Drug Screening Kit, developed by the request from the Indian market.
The General Drug Screening Kit is able to identify in one simple test (by breaking only two ampoules) up to 21 different kind of illicit drugs.

Today we at Identa Corp believe that the conditions are "ripe" to accelerate the marketing and sales process in the current markets and especially in new markets.

The most important efforts we are investing in introducing the drug detectors kits in the retail-consumer (Drug store chains, educational institutes – especially in the high school system , working place) markets in the USA and in the many different Legal Law enforcement agencies around the world.

The Identa's products are on the shelf of the drug store chain , Wakgreens at 8700 stores.
This is a major development for the company, actually it is the most important event since the company has started the activity in USA. The retail-consumer success will be a major factor to penetrate finally the American legal law enforcement also in a large scale.

In the same time we are continuing our efforts to introduce our different products in many countries, especially in new markets like, China, Russia, UK, Brazil, Mexico
