The accompanying notes are an integral part of the financial statements

TEXAS WYOMING DRILLING, INC.
Notes to Financial Statements
UNAUDITED

(1) NATURE OF OPERATIONS

Texas Wyoming Drilling, Inc., ("the Company"), was formed on June 26, 1972, under the laws of the State of Delaware. The Company has been through various name changes in the intervening 44 years, finally changing its name to Texas Wyoming Drilling, Inc. on April 25, 2008. The Company has closed its former ongoing operations.

(2) BASIS OF PRESENTATION AND USE OF ESTIMATES

a) Basis of Presentation

The accompanying consolidated financial statements have been prepared in accordance with Generally Accepted Accounting Principles ("GAAP") in the United States of America ("U.S.") as promulgated by the Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") and with the rules and regulations of the U.S Securities and Exchange Commission ("SEC").

b) Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from these estimates.

c) Property and Equipment

All property and equipment are recorded at cost and depreciated over their estimated useful lives, generally three, five or seven years, using the straight-line method. Upon sale or retirement, the cost and related accumulated depreciation are eliminated from their respective accounts, and the resulting gain or loss is included in the results of operations. Repairs and maintenance charges, which do not increase the useful lives of the assets, are charged to operations as incurred.

d) Net Income (Loss) Per Share

Basic loss per share excludes dilution and is computed by dividing the loss attributable to stockholders by the weighted-average number of shares outstanding for the period. Diluted loss per share reflects the potential dilution that could occur if securities or other contracts to issue common stock were exercised or converted into common stock or resulted in the issuance of common stock that shared in the earnings of the Company. Diluted loss per share is computed by dividing the loss available to stockholders by the weighted average number of shares outstanding for the period and dilutive potential shares outstanding unless consideration of such dilutive potential shares would result in anti-dilution. There were no common stock equivalents for the years ended December 31, 2015 or 2014.

(2) BASIS OF PRESENTATION AND USE OF ESTIMATES, continued

e) Income Taxes

The Company follows the provisions of ASC 740-10, Accounting for Uncertain Income Tax Positions. When tax returns are filed, it is highly certain that some positions taken would be sustained upon examination by the taxing authorities, while others are subject to uncertainty about the merits of the position taken or the amount of the position that would be ultimately sustained. In accordance with the guidance of ASC 740-10, the benefit of a tax position is recognized in the financial statements in the period during which, based on all available evidence, management believes it is more likely than not that the position will be sustained upon examination, including the resolution of appeals or litigation processes, if any. Tax positions taken are not offset or aggregated with other positions. Tax positions that meet the more-likely-than-not recognition threshold are measured as the largest amount of tax benefit that is more than 50 percent likely of being realized upon settlement with the applicable taxing authority. The portion of the benefits associated with tax positions taken that exceeds the amount measured as described above should be reflected as a liability for unrecognized tax benefits in the accompanying consolidated balance sheets along with any associated interest and penalties that would be payable to the taxing authorities upon examination.

As of December 31, 2015, the tax years 2015, 2014, 2013 and 2012 for the Company remains open for IRS audit. The Company has received no notice of audit or any notifications from the IRS for any of the open tax years.

f) Cash and Cash Equivalents

The Company considers all highly liquid securities with original maturities of three months or less when acquired, to be cash equivalents. We had no financial instruments that qualified as cash equivalents at December 31, 2015 or 2014.

g) Financial Instruments and Fair Value Measurements

ASC 825 also requires disclosures of the fair value of financial instruments. The carrying value of the Company's current financial instruments, which include cash and cash equivalents, accounts payable and accrued liabilities approximates their fair values because of the short-term maturities of these instruments.

FASB ASC 820 "Fair Value Measurement" clarifies that fair value is an exit price, representing the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants. It also requires disclosure about how fair value is determined for assets and liabilities and establishes a hierarchy for which these assets and liabilities must be grouped, based on significant levels of inputs as follows:

Level 1: Quoted prices in active markets for identical assets or liabilities.
Level 2: Quoted prices in active markets for similar assets and liabilities and inputs that are observable for the asset or liability.
Level 3: Unobservable inputs in which there is little or no market data, which require the reporting entity to develop its own assumptions.

The determination of where assets and liabilities fall within this hierarchy is based upon the lowest level of input that is significant to the fair value measurement.

(2) BASIS OF PRESENTATION AND USE OF ESTIMATES, continued

h) Impairment of Long-Lived Assets

A long-lived asset is tested for impairment whenever events or changes in circumstances indicate that its carrying value amount may not be recoverable. An impairment loss is recognized when the carrying amount of the asset exceeds the sum of the undiscounted cash flows resulting from its use and eventual disposition. The impairment loss is measured as the amount by which the carrying amount of the long-lived assets exceeds its fair value.

i) Related Party Transactions

All transactions with related parties are in the normal course of operations and are measured at the exchange amount.

j) Recent Accounting Pronouncements

The Company has considered recent accounting pronouncements during the preparation of these financial statements.

k) Revenue Recognition

The Company recognizes revenues when persuasive evidence of an arrangement exists, shipment has occurred, price is fixed or determinable, and collectability is reasonably assured.

3) STOCKHOLDERS' EQUITY

At December 31, 2015 and 2014, the Company has 1,499,999,750 shares of par value $0.001 common stock authorized and 955,199,201 and 855,199,201 issued and outstanding, respectively. At December 31, 2015 and 2014, the Company has 250 shares of par value $0.001 preferred stock and 250 issued and outstanding. The 250 shares of Series A preferred stock have super voting rights. In December the Company changed the par value of both classes of stock from $0.001 to $0.0001.

In October 2015 the Company issued 100,000,000 shares in exchange for services valued at $224,825.

In 2014 the Company issued 283,338,011 shares to as investment in a joint venture valued at $566,676. In 2014 the Company issued 65,176,196 shares for the conversion of $163,354 in debt. In 2014 the Company issued 174,914,644 shares in exchange for services valued at $472,830.

(4) INCOME TAXES

The Company recognizes deferred tax assets and liabilities for the tax effects of differences between the financial statements and tax basis of assets and liabilities. A valuation allowance is established to reduce the deferred tax assets if it is more likely than not that a deferred tax asset will not be realized.

The Company records a valuation allowance to reduce deferred tax assets it, based on the weight of the available evidence, it is more likely than not that some portion or all of the deferred tax assets will not be realized. In determining the need for a valuation allowance, an assessment of all available evidence both positive and negative was required.

In accordance with the provisions of ASC 740: Income Taxes, the Company records a liability for uncertain tax positions when it is probable that a loss has been incurred and the amount can be reasonably estimated. At December 31, 2014, the Company has no liabilities for uncertain tax positions. The Company continually evaluates expiring statutes of limitations, audits, proposed settlements, changes in tax law and new authoritative rulings.

(5) COMMITMENTS AND CONTINGENCIES

a) Other

The Company is subject to asserted claims and liabilities that arise in the ordinary course of business. The Company maintains insurance policies to mitigate potential losses from these actions. In the opinion of management, the amount of the ultimate liability with respect to those actions will not materially affect the Company's financial position or results of operations.

(6) SUBSEQUENT EVENTS

In January 2016 the Company instituted a reverse split of 1 for 150 shares of common stock, effective upon approval from FINRA. Included in this reverse split the Company reduced the authorized common shares to 499,999,750 with a new par value of $0.00001 per share.

In January 2016 there was a change of control of the Company.

- **8. Officers, Directors, and Control Persons**

The goal of this section is to provide an investor with a clear understanding of the identity of all the persons or entities that are involved in managing, controlling or advising the operations, business development and disclosure of the issuer, as well as the identity of any significant shareholders.

A. Names of Officers, Directors, and Control Persons.

Beneficial Shareholders

Margo Cadena President/CEO held 250 shares of Preferred Series "A" super voting rights. These shares were transferred to Mike Bannon, as of January 26, 2016.

Officers and Directors:

- **A.** Margo Cadena, prior to the transaction with Drone USA, LLC was a President, Chief Executive Officer and member of the Board of Directors since June 1, 2014. She is a 1969 Fullerton State University graduate with Associate Degree. She has been with Texas Wyoming, Drilling, Inc. since 2008. Initially, her functions were that of an administrative assistant. Her pertinent experience includes working with Geologist reviewing reports, establishing procedures from exploring start-up operation to finished products, seeking and doing due diligence on various business opportunities with a view to expand growth and profitability, consistent with the Company's main objective of facilitating mergers and acquisitions. Until recently, Margo Cadena held the Super Voting Preferred "A" Stock. Otherwise, no one owned 5% or more of any class of the issuers equity securities, and there were no other, general partners or control persons.

- **B.** Richard F. Kugelmann, Secretary/Treasurer, Chief Financial Officer and from June 1, 2014 until the transaction with Drone USA, LLC served as a member of the Board of Directors. He is a retired U.S. Army with 20 years of service. His experience and contribution to the Company include his organizational and supervisory skills applied to all business aspects of day to day operations. He also serves as administrative assistant to the President. Mr. Kugelmann has been a consultant to various mining operations in Arizona and Nevada and has previously owned and operated his own businesses. Mr. Kugelmann is a certified Gemologist, and a member of the Gemologist Institute of America.

- **C.** Dr. Robert J. Michet, prior to the transaction with Drone USA, LLC was a Director previously served as President of Texas Wyoming Drilling, Inc. from 2010 until 2014. Dr. Michet had been involved with all discussions and decisions pertaining to the operations of the corporation. Dr. Michet continues to practice dentistry in Chicago, Illinois. He is a graduate of Marquette University, and a member of the American Dental Association.

- **D.** Dr. David Durkin Director served as Secretary/Treasurer since 2009 to 2014. Prior to the transaction with Drone USA, LLC, he remained as a member on the Board of Directors. He continues his practice in Chicago, Illinois, where he has been in practice for over 25 years. Dr. Durkin had been involved with all corporate decisions presented to him and reviewed all new opportunities presented to him for approval.

- **E.** As noted above, as part of a subsequent event, on January 26, 2016, Drone USA, LLC was acquired by Texas Wyoming Drilling Inc., Pursuant to which, Mr. Mike Bannon, presently owns 94% of the outstanding common stock and all of the preferred stock of Texas Wyoming Drilling Inc.:
