Cautionary Note Regarding Forward-Looking Statements

This material change report contains forward-looking statements and forward-looking information (collectively, "forward-looking statements") within the meaning of applicable Canadian and US securities legislation. All statements, other than statements of historical fact, included herein including, without limitation, statements regarding the anticipated content, commencement and cost of exploration programs, anticipated exploration program results, the discovery and delineation of mineral deposits/resources/reserves, the anticipated completion of a private placement and debt settlement, the anticipated use of the net proceeds of such private placement, the ability of the Issuer to acquire new mineral projects, whether in Mexico or elsewhere, the timing of future activities by the Issuer and the anticipated business plans of the Issuer, are forward-looking statements. Although the Issuer believes that such statements are reasonable, it can give no assurance that such expectations will prove to be correct. Forward-looking statements are typically identified by words such as: believe, expect, anticipate, intend, estimate, postulate and similar expressions, or are those, which, by their nature, refer to future events. The Issuer cautions investors that any forward-

looking statements by the Issuer or any of its joint venture partners are not guarantees of future results or performance, and that actual results may differ materially from those in forward looking statements as a result of various factors, including, but not limited to, the state of the financial markets for the Issuer's equity securities, the state of the commodity markets generally, variations in the nature, quality and quantity of any mineral deposits that may be located, variations in the market price of any mineral products the Issuer may produce or plan to produce, the inability of the Issuer to obtain any necessary permits, consents or authorizations required for its or their activities, the inability of the Issuer to produce minerals from their properties successfully or profitably, to continue its projected growth, to raise the necessary capital or to be fully able to implement its business strategies, and other risks and uncertainties disclosed in the Issuer's latest interim Management Discussion and Analysis and filed with certain securities commissions in Canada. All of the Issuer's Canadian public disclosure filings may be accessed via www.sedar.com and readers are urged to review these materials, including the technical reports filed with respect to the Issuer's mineral properties.
