Management Discussion and Analysis in Brief

Discussion and Analysis of the Results of Operations

In this quarter Atlantic continued to make strides in the international markets under the new Sustainable Development Initiative.

Sales are recorded based on project milestones. In this quarter no such milestones were reached. Thus net income available to common shareholders dropped from $57,184 in the first quarter of 2015 to a loss of $39,847 in the first quarter of 2016.

Total operating expenses, a long time key focus of management, were less than half of the expense for the same quarter of 2016 - a reflection of the policy of making expenses as variable as possible and then having expenses match revenues when realized thus keeping the company lean on a ongoing basis.

Discussion and Analysis of Financial Condition

Atlantic has continued its policy of protecting shareholders by limiting share issuance. At the end of 2016 Q1 there were 44,707,610 common shares outstanding versus 44,707,610 in 2015, 2014, 2013, and 2012 - a change of 0.0%.

The Company's working capital requirements are funded by receipts from the general operations. While management continues to be willing and prepared to fund the Company if necessary, as it has done in the past, the Company has now reached a point where profit funds operations.

From a financial perspective Atlantic remains very proud of what it has done and, in terms of shareholder dilution, what it has not done.

Series B preferred stock issued for dividend	$ -	$ 108,039

See accompanying notes to unaudited consolidated financial statements.

Note 1 - Nature of Business

Atlantic Wind and Solar, Inc. (the "Company" or "Atlantic"), located in Toronto, Ontario, was originally organized on January 13, 1977 under the laws of the state of West Virginia as Aetna Operating Company Inc. The Company changed its name to Dragon Environmental (UK) Ld. on November 4, 1997, then to Aquatek Ltd. On October 26, 1998, then to Environmental Technologies International, Inc. on February 8, 2002 and Atlantic Wind and Solar, Inc. on October 19, 2008.

Atlantic Wind and Solar, Inc. is a renewable energy asset developer, with emphasis on photovoltaic solar and wind energy. The Company pursues, develops, finances, owns and operates solar energy projects from various stages of development life cycles through commercial operation. Atlantic has approximately 60 megawatts ("MW") DC of approved solar projects of which approximately 25 MW's have power purchase agreement contracts already executed. The company's greenfield pipeline includes more than 350 MW of utility scale solar projects at various stages of development in Canada, Europe, South and Central America

Note 2 - Significant Accounting Policies

Principals of Consolidation

The accompanying consolidated financial statements include the accounts of the Company and its subsidiaries. All intercompany transactions and balances have been eliminated.

Basis of Presentation

The financial statements present the balance sheet, statements of operations, stockholders' equity and cash flows of the Company. These financial statements are presented in United States dollars and have been prepared in accordance with accounting principles generally accepted in the United States. The Company has elected a December 31 year end.

Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Cash

Cash and cash equivalents include short-term, highly liquid investments with maturities of less than three months when acquired.

Income taxes

The Company accounts for income taxes under ASC 740 *"Income Taxes"* which codified SFAS 109, *"Accounting for Income Taxes"* and FIN 48 *"Accounting for Uncertainty in Income Taxes – an Interpretation of FASB Statement No. 109."* Under the asset and liability method of ASC 740, deferred tax assets and liabilities are recognized for the future tax consequences attributable to differences between the financial statements carrying amounts of existing assets and liabilities and their respective tax bases. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. Under ASC 740, the effect on deferred tax assets and liabilities of a change in tax rates is recognized in income in the period the enactment occurs. A valuation allowance is provided for certain deferred tax assets if it is more likely than not that the Company will not realize tax assets through future operations.

Note 2 - Significant Accounting Policies (continued)

Income taxes (continued)

The changes in deferred tax assets for the three months ended March 31, 2016 were as follows:

Net loss allocable to US entity	$	30,749
Applicable federal income tax rate		35%
Applicable state income tax rate		0%
Net increase in deferred tax asset	$	10,762

Deferred tax asset, December 31, 2015	$	1,663,467
Increase in deferred tax asset		10,762
Increase in valuation allowance		-
Deferred tax asset, March 31, 2016	$	1,674,229

Foreign Currency Translation

The Company's functional currency is the Canadian dollar (CAD), while the Company's reporting currency is the U.S. dollar (USD). All transactions initiated in Canadian dollars are translated into U.S. dollars in accordance with ASC 830, *"Foreign Currency Translation"* as follows:

i) Monetary assets and liabilities at the rate of exchange in effect at the balance sheet date.
ii) Equity at historical rates.
iii) Revenue and expense items at the average rate of exchange prevailing during the period.

Adjustments arising from such translations are deferred until realization and are included as a separate component of stockholders' equity as a component of comprehensive income or loss. Therefore, translation adjustments are not included in determining net income (loss) but reported as other comprehensive income.
For foreign currency transactions, the Company translates these amounts to the Company's functional currency at the exchange rate effective on the invoice date. If the exchange rate changes between the time of purchase and the time actual payment is made, a foreign exchange transaction gain or loss results which is included in determining net income for the period. The exchange rates used are as follows:

	March 31, 2016	**March 31, 2015**
Period end: CAD to USD	0.7711	0.7909
Average for period: CAD to USD	0.7288	0.8077

Note 2 - Significant Accounting Policies (continued)

Fair Value of Financial Instruments

The Company's financial instruments as defined by FASB ASC 825-10-50 include cash, trade accounts receivable, and accounts payable and accrued expenses. All instruments are accounted for on a historical cost basis, which, due to the short maturity of these financial instruments, approximates fair value at March 31, 2016.

FASB ASC 820 defines fair value, establishes a framework for measuring fair value in accordance with generally accepted accounting principles, and expands disclosures about fair value measurements. ASC 820 establishes a three-tier fair value hierarchy which prioritizes the inputs used in measuring fair value as follows:

Level 1. Observable inputs such as quoted prices in active markets;

Level 2. Inputs, other than the quoted prices in active markets, that are observable either directly or indirectly; and

Level 3. Unobservable inputs in which there is little or no market data, which requires the reporting entity to develop its own assumptions.

The Company does not have any assets or liabilities measured at fair value on a recurring basis at March 31, 2016 or December 31, 2015. The Company did not have any fair value adjustments for assets and liabilities measured at fair value on a nonrecurring basis during the three months ended March 31, 2016 or 2015.

Property and Equipment

Property and equipment are carried at cost net of accumulated depreciation. Expenditures for maintenance and repairs are charged against operations. Renewals and betterments that materially extend the life of the assets are capitalized. When assets are retired or otherwise disposed of, the cost and related accumulated depreciation are removed from the accounts, and any resulting gain or loss is reflected in income for the period.

Depreciation is computed for financial statement purposes on a straight-line basis over estimated useful lives of the related assets. The estimated useful lives of depreciable assets are:

	Estimated Useful Lives
Furniture and Fixtures	5 - 10 years
Computer Equipment	3 - 5 years
Vehicles	5 - 10 years

For federal income tax purposes, depreciation is computed under the modified accelerated cost recovery system. For audit purposes, depreciation is computed under the straight-line method. Property and equipment consisted of the following as of March 31, 2016 and December 31, 2015:

	March 31, 2016	December 31, 2015
Computers	$ 2,630	$ 2,459
Accumulated depreciation	(2,630)	(2,459)
Net book value	$ -	$ -

Note 2 - Significant Accounting Policies (continued)

Earnings Per Share Information

FASB ASC 260, "*Earnings Per Share"* provides for calculation of "basic" and "diluted" earnings per share. Basic earnings per share includes no dilution and is computed by dividing net income (loss) available to common shareholders by the weighted average common shares outstanding for the period. Diluted earnings per share reflect the potential dilution of securities that could share in the earnings of an entity similar to fully diluted earnings per share. Basic and diluted loss per share were the same, at the reporting dates, as there were no common stock equivalents outstanding.

Share Based Expenses

ASC 718 *"Compensation - Stock Compensation"* codified SFAS No. 123 prescribes accounting and reporting standards for all stock-based payments award to employees, including employee stock options, restricted stock, employee stock purchase plans and stock appreciation rights. , may be classified as either equity or liabilities. The Company should determine if a present obligation to settle the share-based payment transaction in cash or other assets exists. A present obligation to settle in cash or other assets exists if: (*a*) the option to settle by issuing equity instruments lacks commercial substance or (*b*) the present obligation is implied because of an entity's past practices or stated policies. If a present obligation exists, the transaction should be recognized as a liability; otherwise, the transaction should be recognized as equity

The Company accounts for stock-based compensation issued to non-employees and consultants in accordance with the provisions of ASC 505-50 *"Equity - Based Payments to Non-Employees"* which codified SFAS 123 and the Emerging Issues Task Force consensus in Issue No. 96-18 ("EITF 96-18"), *"Accounting for Equity Instruments that are Issued to Other Than Employees for Acquiring or in Conjunction with Selling, Goods or Services"*. Measurement of share-based payment transactions with non-employees shall be based on the fair value of whichever is more reliably measurable: (*a*) the goods or services received; or (*b*) the equity instruments issued. The fair value of the share-based payment transaction should be determined at the earlier of performance commitment date or performance completion date.

Revenue Recognition

The Company's financial statements are prepared under the accrual method of accounting. Revenues will be recognized in the period the services are performed and costs are recorded in the period incurred. Revenue is recognized when (1) the evidence of the agreement exists, (2) services have been rendered, (3) the price is fixed or determinable, and (4) collectability is reasonably assured. We generated revenues of $0 and 1,274,723 during the three months ended March 31, 2016 and 2015.

Recent Accounting Pronouncements

The company has evaluated all the recent accounting pronouncements and determined there are none having a material effect on the Company's financial statements.

Note 3 - Stockholders' Equity

Authorized Stock

The Company is authorized to issue up to 500,000,000 shares of $0.001 par value common stock, 20,000,000 shares of $1.00 par value series A preferred stock and 20,000,000 shares of $1.00 par value series B preferred stock.

Note 3 - Stockholders' Equity (continued)

Authorized Stock (continued)

The series A preferred stock carries an annual dividend of 12% which is generally paid quarterly by issuing additional shares of series A preferred stock. We issued 9,830 and 65,746 and series A preferred shares for dividends during years ended December 31, 2015 and 2014.

The series B preferred stock carries an annual dividend of 8% which is generally paid quarterly by issuing additional shares of series B preferred stock. On May 1, 2015, the Company amended the rights of the series B preferred shares to not carry a dividend at which point all dividends owing were settled by the issuance of additional series B preferred shares. We issued 145,063 shares for dividends during the year ended December 31, 2015.

During the year ended December 31, 2015, the Company purchased a total of 286,227 series A preferred shares and 87,809 series B preferred shares for cash at $1 per share. The Company also issued 51,240 shares of series B preferred stock in exchange for 51,240 shares of series A preferred stock. The Company also issued 70,395 shares of series B preferred stock in exchange for a $70,395 reduction of related party payables.

There were no issuances of common, series A preferred or series B preferred stock during the three months ended March 31, 2016.

There were 44,707,601 common shares issued and outstanding as of March 31, 2016 and December 31, 2015.

There were 0 series A preferred shares issued and outstanding as of March 31, 2016 and December 31, 2015. There were 5,553,871 series B preferred shares issued and outstanding as of March 31, 2016 and December 31, 2015.

Net income (loss) per common share

Net income (loss) per share is calculated in accordance with FASB ASC Topic 260 (formally SFAS No. 128, "*Earnings Per Share.*"). The weighted-average number of common shares outstanding during each period is used to compute basic income (loss) per share. Diluted income (loss) per share is computed using the weighted average number of shares and dilutive potential common shares outstanding. Basic net income (loss) per common share is based on the weighted average number of shares of common stock outstanding during the three months ended March 31, 2016 and 2015.

Note 4 - Concentrations of Credit Risk

Our revenues for the three months ended March 31, 2015 were generated completely from two separate clients. Additionally, our entire accounts receivable balance as of March 31, 2016 and December 31, 2015 were generated from contracts with one client. The loss of either of these clients will have a materially adverse impact on our business.

Note 5 - Subsequent Events

We have evaluated subsequent events through the date of the issuance of these financial statements and determined there are no events to disclose.
