- Interwest Transfer Company is a registered agent under the Securities Exchange Act of 1934, as amended -

TABLE OF CONTENTS

Part A **General Company Information**
Item 1 The exact name of the issuer and its predecessor.
Item 2 The address of the issuer's principal executive offices.
Item 3 The jurisdiction(s) and date of the issuer's incorporation or organization.

Part B **Share Structure**
Item 4 The exact title and class of securities outstanding.
Item 5 Par or stated value and description of the security.
Item 6 The number of shares or total amount of the securities outstanding for each class of securities authorized.
Item 7 The name and address of the transfer agent.

Part C **Business Information**
Item 8 The nature of the issuer's business.
Item 9 The nature of products or services offered.
Item 10 The nature and extent of the issuer's facilities.

Part D **Management Structure and Financial Information**
Item 11 The name of the chief executive officer, members of the board of directors, as well as control persons.
Item 12 Financial information for the issuer's most recent fiscal period.
Item 13 Similar financial information for such part of the two preceding fiscal years as the issuer or its predecessor has been in existence.
Item 14 Beneficial Owners.
Item 15 The name, address, telephone number, and email address of each of certain outside providers that advise the issuer on matters relating to the operations, business development and disclosure.
Item 16 Management's Discussion and Analysis or Plan of Operation.

Part E **Broker or Dealer Transactions**
Item 17 Broker or dealer relationship with issuer.
Item 18 Broker or dealer quotation published on behalf of other broker or dealer.
Item 19 Name and basis of exemption under the federal securities laws for any person, the beneficial owner of more than 10 percent of the outstanding shares, to whom the quotation is submitted or published on behalf of.

Note: End of year Financial Information for 2013, 2014 and 2015 balance sheet, Income statements and cash flow statements can be located at the OTC Markets.com, http://www.otcmarkets.com/stock/WFMC/filings

Part F **Issuance History**
Item 20 List of securities offerings and shares issued for services in the past two years.

Part G **Exhibits**
Item 21 Articles of Incorporation and Bylaws.
Item 22 Material Contracts.
Item 23 Purchases of Equity Securities by the Issuer and Affiliated Purchasers.
Item 24 Issuer's Certifications.

All information furnished herein has been prepared from the Books and Records of WHAM INC. (The Company) in accordance with Rule 15c2-11 (a)(5) Promulgated under the Securities Exchange Act of 1934, as amended.

NO DEALER OR SALESMAN HAS BEEN AUTHORIZED TO GIVE ANY INFORMATION OR MAKE ANY REPRESENTATION NOT CONTAINED HEREIN IN CONNECTION WITH THE COMPANY. ANY REPRESENTATION NOT CONTAINED HEREIN MUST NOT BE RELIED UPON AS HAVING BEEN MADE OR AUTHORIZED BY THE COMPANY.

The undersigned hereby certifies that the information herein is true and correct to the best of his knowledge and belief.

WHAM INC.

By: _____
Theodore Fotsis
Chairman/CEO

DATED: March 31th, 2016

COPIES OF THIS INFORMATION AND DISCLOSURE REPORT ARE AVAILABLE FROM THE ISSUER UPON REQUEST.

All information contained in this information and disclosure statement has been compiled to fulfill the disclosure requirements of Rule 15c2 11 (a) (5) promulgated under the Securities Exchange Act of 1934 as amended. The enumerated captions contained herein correspond to the format as set forth in such Rule.

Item 1. **The Exact name of the Issuer**. WHAM INC.

Item 2. **The Principal Executive Office of the Issuer**.
982 E 9th Street
Lockport, IL 60441

Item 3. **The State and Date of Original Incorporation**.

- December 1, 2001: East Coast Distribution Corporation was incorporated in the state of Florida, with an initial capital stock of 50,000,000 shares of common stock at 0.001 par value. (FL Doc 70597667)
- July 23, 2002. The Articles of Incorporation were amended and the company name was changed to IPMC-Europe Corporation. (FL Doc 70597667)
- November 3, 2004. The Articles of Incorporation were amended and the company name was changed to The Wholefood Farmacy Corporation. The capital stock is changed from 50,000,000 to 100,000,000 shares of common stock, no par value and 10,000,000 shares of preferred stock, no par value. Additional amendments included new powers of the board of directors with respect to shares. (FL Doc 90697949)
- June 24, 2005. Original registered agent Joseph Camillo resigned as registered agent for The Wholefood Farmacy Corporation. (FL Doc 80497468)
- July 29, 2005. NRAI Services was appointed as registered agent for The Wholefood Farmacy Corporation and the amendment was filed with the State of Florida. (FL Doc 0530731)
- September 2, 2005. Articles of Amendment were filed designating Series A Preferred Stock. Series A constituted 2,000,000 Series A preferred shares. (FL Doc FL Doc H0210842)
- December 20, 2005. The Wholefood Farmacy restated the Articles of Incorporation and changed the name to Wholefood Farmacy Corporation. (FL Doc H0289137)
- Nov 2, 2011. Wholefood Farmacy filed an amendment with the state of Florida changing the name to WHAM INC. (FL Doc 13484772)
- May 29th 2015 WHAM INC. amended the Articles of Incorporation, in particular: Article 4.1, to provide that the Capital Stock of the Corporation shall consist of 500,000,000 shares of common stock, no par value and 20,000,000 Preferred Stock shares, no par value and Article 4.2 to provide that the Authorized Shares for Series "A" Preferred Stock shall consist of 10,000,000 shares no par value. The Series "A" Preferred Stock shall have the right to convert each share of Preferred Stock into one share of Common Stock, the right to dividends based upon conversion into Common Stock, and the right to vote 15 votes per share of Series "A" Preferred Stock. The Series "A" Preferred Stock does not have redemption rights.
- December 10, 2015. WHAM INC. amended the Articles of Incorporation, Article VI, with respect to the election and removal of directors from the corporation's board of directors (FL Doc 000279801430).

Item 4. **The exact Title and class of Security**

- Common Stock
- Preferred Stock
- Series A Preferred Stock
- Series C Preferred Stock
- Common Stock CUSIP # 962239 109
- Trading Symbol: WFMC

Item 5. **The Par or Stated value of the Security**
Par or Stated Value. Provide the par or stated value for each class of outstanding securities. Common or Preferred Stock.

Common Stock: No Par Value
Preferred Stock: No Par Value
Series A Preferred Stock: No Par Value
Series C Preferred Stock: No Par Value

The number of Outstanding Shares as of March 31st 2016.

Authorized Common Shares: 500,000,000
March 31st 2016.
Common Shares Outstanding: 264,768,960
March 31st 2016.
Float: 17,156,183
March 31st 2016.
Beneficial shareholders: 461
March 31st 2016.

WHAM INC. is currently authorized to issue five hundred million (500,000,000) shares of common stock.

There are two hundred sixty four million seven hundred sixty eight thousand nine hundred and sixty shares of common outstanding, (264,768,960).

There are seventeen million one hundred fifty six thousand and one hundred eighty three shares, (17,156,183) free trading shares. Two hundred forty seven million six hundred and twelve seven hundred and seventy seven shares of common stock, (247,612,777) are restricted.

Five million, (5,000,000) shares of Series A Preferred Stock of its ten million (10,000,000) authorized shares have been issued. In addition, two million (2,000,000) shares of Series C Preferred Stock have been issued.

Item 7. **Name and Address of Transfer Agent**
Interwest Transfer Inc.
981 E Murray Holladay Rd, Suite 100
PO BOX 17136
Salt Lake City, UT 84117
PHONE (801) 272-9294
Agent: Tom Thomsen

Item 8. **The nature of the Issuer's business.**
WHAM INC. is a diversified holding company which invests in and/or acquires development and early stage companies. WHAM INC. ("WI") is a Florida publicly traded corporation, trading on the OTC market under the symbol WFMC. Acquisitions of businesses are executed through merger and acquisition activity, stock exchanges and asset acquisitions. WHAM INC. has the direct capability as a corporate structured finance originator, to organize and submit financial investments ranging from small to substantial in nature. WHAM INC. acts as the parent of entities that it has and will acquire.

The form of organization of the issuer; The issuer is a C Corporation. The Year that the issuer (or any predecessor) was organized;

WHAM INC. was originally incorporated in the State of Florida on Dec 10th, 2001 as East Coast Distribution Corp.

The fiscal year ends on December 31st.

Whether the issuer, WHAM INC. (and or any processors) has been in bankruptcy, receivership or any similar proceedings.
WHAM INC. has not filed and is not in the process of filing bankruptcy, receivership or any other similar proceedings.

Any material reclassification, merger, consolidation, or purchase or sale of a significant amount of assets;
Yes. On February 2, 2016 WHAM INC. entered into a binding letter of intent with New York Post Publishing, in which WHAM INC. acquired the following assets owned by New York Post Publishing: Towers Investors.com Inc., Post Publishing.BUZZ, Christ Credit and Debit Cards, Public Speaking Wallstreet.com and Hoff Online TV. In exchange, New York Post Publishing received 145,622,928 shares of Common Stock and 2,000,000 shares of Series C Preferred Stock, which shall have voting rights equal to an aggregate of 55% of the issued and outstanding voting shares including Common Stock owned by it and shall be convertible into such number of shares of Common Stock which shall equal 55% of the issued and outstanding shares of stock less shares of Common Stock owned by it.

Any default of the terms of any note, loan, lease, or other debt or financing arrangement requiring the issuer to make payments; No

Any change of control;
Yes, Change of Officers on December 10, 2015, which was announced on January 11, 2015.

Theodore Fotsis CEO/President/ Director
Russ Guzior COO/Director

Yes. Pursuant to a binding letter of intent, dated February 2, 2016, between WHAM INC. and New York Post Publishing, New York Post Publishing acquired 145,622,928 shares of Common Stock and 2,000,000 shares of Series C Preferred Stock, which shall have voting rights equal to an aggregate of 55% of the issued and outstanding voting shares including Common Stock owned by it and shall be convertible into such number of shares of Common Stock which shall equal 55% of the issued and outstanding shares of stock less shares of Common Stock owned by it.

Any increase of 10% or more of the same class of outstanding equity securities;
Yes. Agreed to issue 145,622,928 shares of Common Stock and 2,000,000 shares of Series C Preferred Stock to New York Post Publishing, which shall have voting rights equal to an aggregate of 55% of the issued and outstanding voting shares including Common Stock owned by it and shall be convertible into such number of shares of Common Stock which shall equal 55% of the issued and outstanding shares of stock less shares of Common Stock owned by it.

Any past, pending or anticipated stock split, stock dividend, recapitalization or spin-off;
The Company has no anticipation of a stock split, stock dividend, recapitalization or spin-off at this current time.

10. **Any delisting of the issuer's securities by any securities exchange or deletion from the OTC Bulletin Board;**
The issuer's Securities have not been delisted or are not in the process of being delisted by The Securities and Exchange Commission and/or FINRA.

11. **Any current, past, pending or legal proceedings or administrative actions either by or against the issuer that could have a material effect on the issuer's business, financial condition, or operations and any current, past or pending trading suspensions by a securities regulator. State the names of the principal parties, the nature and current status of the matters, and the amounts involved.**
No there are no past, pending or current legal proceedings or administrative actions.

Business of Issuer.
WHAM INC. ("WI") is a Florida publicly traded corporation, trading on the OTC market under the ticker WFMC. Acquisitions of businesses are executed through merger and acquisition activity, stock exchanges and asset acquisitions. WHAM INC. has the direct capability as a corporate structured finance originator, to organize and submit financial investments ranging from small to substantial in nature.

I. **The issuer's primary and secondary SIC Codes;**
The issuer's primary SIC Code is 7380 with no secondary codes.

If the issuer has never conducted operations, is in the development stage, or is currently conducting operations;
The company is in developmental stages with its mobile encryption application and is currently conducting operations.

Whether the issuer is or has at any time been a "shell company";
No

The names of any parent, subsidiary, or affiliate of the issuer, and its business purpose, its method of operation, its ownership, and whether it is included in the financial statements attached to this disclosure statement;
WHAM INC. and New York Post Publishing entered into a binding letter agreement on February 2, 2016 which provides that New York Post Publishing is a 55% shareholder of WHAM INC. As a result, New York Post Publishing has control of WHAM INC, which is not reflected in the financial statements because the transaction closed after December 31, 2015.

The effect of existing or probable governmental regulations on the business;
The Company does not foresee any substantial changes due to government regulations that could affect operations. The company and its affiliates remain up to date on all new rules and regulations that are set forth by government officials regarding our various businesses.

An estimate of the amount spent during each of the last two fiscal years on research and development activities, and, if applicable, the extent to which the cost of such activities are borne directly by users;
A total of $218,858 (USD) has been dedicated to the software app development and research for its mobile encryption application. This number reflects the most recent 1st quarter 2016 financial report. Our best conservative estimation for the launch of our encrypted communications platform for Android and iOS is 2016. Continued research and development cost will be necessary for the ongoing improvement and evolvement for a better quality product. 2016 Beta testing of the iOS and Android products is being rolled out, for which costs will be incurred.

Costs and effects of compliance with environmental laws (federal, state and local).
None expected.

The number of total employees and number of full-time employees.
Currently there are 3 full time and 2 part-time employees.

Item 9. **The nature of products or services offered**.
Secure Encrypted Mobile Communications

In responding to this item, please describe the following:

A. **Principal products or services, and their markets**:
WHAM INC. strategic focus and vision through its Mobile Encryption Application is to become a market leading company in today's marketplace. WHAM INC. secure encrypted communications platform for Android and iOS will be the company's first product launch. It is core to WHAM INC. to position itself firmly in the secure encrypted communications market with app functionality, executive leadership, sales and marketing, technology development, support and overall organizational team capable of leveraging this opportunity.

WHAM is also involved in other businesses related to its recent acquisition of Towers Investors.com Inc., Post Publishing.BUZZ, Christ Credit and Debit Cards, Public Speaking Wallstreet.com and Hoff Online TV. Towers Investors.com is now coordinating the operations of WHAM Inc.

WHAM is also focusing on building the WHAM construction group and has recently acquired American Services, Inc., a construction company.

B. **Distribution methods of the products or services**;
WHAM INC. believes that its mobile encryption communication app will gain traction within the marketplace, given the current demand for an encrypted secure mobile facing solution. The continued security breaches impacting today's marketplace with an increased market awareness of the current inability to protect communications is driving this demand. WHAM INC. plans a broad range of marketing activities encompassing outbound calling, social media viral e-marketing, endorsements and partnerships and event sponsorships. Our best conservative estimate for the market ready application is 2016. WHAM INC. expects to begin its marketing efforts after delivery of both Android and iOS is launched with campaigns designed to encompass consumer marketing, integrated app endorsement marketing and socially responsive marketing driven by key influencers. The intent of these campaigns will be to gain market traction "to get the word out" and to leverage the marketplace's underlying need for secure mobile communications.

C. **Status of any publicly announced new product(s) or service(s)**;
Via OTC Markets, Major New wires. Updates put out periodically:

The status engagement between WHAM INC. and Uponus Technologies, LLC ended in the 4th quarter of 2015. WHAM INC. was led and directed by its former Chairman/CEO in engaging Uponus Technologies, LLC to make a direct investment of $250,000.00 into their LLC for the purpose of securing an exclusive license agreement to launch both their Android and iOS phone systems, for the consumer market. WHAM INC. was led to believe that their Android App was operational and that only iOS needed more coding, to work around the iOS push button notifications, which was later discovered to be all misleading. Subsequently, Uponus never delivered a working or marketable product for both Android and iOS phone systems. Throughout 2015, the only product delivered to WHAM INC. was an Alpha Android and Beta Android App but nothing for iOS systems. Multiple fractions and occurrences led to the end of our engagement in the 4th quarter of 2015. Currently, the company is unable to value its original investment of $250,000.00, other than by cost, due to not having all the requested documents. After the disengagement ended with Uponus Technologies, LLC, WHAM INC. set out to develop its own Mobile Encryption Application and will be rolling out its beta white label application for both Android and iOS systems in the App stores later this month.

WHAM INC. entered into a binding letter of intent with New York Post Publishing pursuant to which WHAM INC. acquired certain assets owned by New York Post Publishing. In exchange, New York Post Publishing received 145,622,928 shares of Common Stock and 2,000,000 shares of Series C Preferred Stock of WHAM. New York Post Publishing is now a 55% shareholder of WHAM INC. Towers Investors.com is now coordinating the operations of WHAM Inc. which is the parent entity of the companies being acquired.

D. **Competitive business conditions, the issuer's competitive position in the industry, and methods of competition:**

Widely used communication tools such as Google Hangouts, Facebook chat, Yahoo Messenger, Snapchat, WhatsApp, Viber, AIM, BlackBerry Messenger and many others do not offer end to end encryption which makes communications through them susceptible to surveillance on the provider's side. South African mobile social network Mxit and widely used Chinese instant messaging service QQ don't provide encryption at all, making them the least secure products of the 39 that were tested.

Many potential competitors and some non competitors advertise some form of 'end to end encryption' for user's data. However, 'end to end encryption' is rapidly becoming the most useless term in the security lexicon. That's because actually encrypting stuff is not the toughest part. The real challenge is in distributing users' encryption keys securely, i.e., without relying on a trusted, central service. The problem here is simple: if someone can compromise such a service, then that person can convince a device to use its encryption key instead of the key of intended recipients. In this scenario -- known as a Man in the Middle (MITM) attack -- all the encryption in the world won't help.

Silent Circle consists of multiple apps, supporting VoIP and IM -- with an optional Snapchat Like self destructing messages feature. The apps can essentially replace the standard Phone and Messages apps on an iPhone or Android device. Silent Circle is a paid subscription service and it is marketed to both individual consumers and businesses. Silent Circle prices their non-institutional consumer app between $9.95 and $39.95 a month based on tiered usage levels. The consumer functions are focused on a Member to Member private communications service that includes Silent Phone & Silent Text for voice, video, text and file transfer on mobile devices. Silent Circle uses ZRTP (and a variant

called SCIMP) to generate the keys used in communications. It doesn't require the user to trust a central directory server, or to send keys outside of the device. Protection against MITM comes from two features: (1) the app presents a 'short authentication string' that users can verbally compare before they communicate, and (2) after a user has successfully communicated the first time, it caches a 'secret' that can be used to protect future sessions.

In regard to a few of the other secure messaging applications on the market here is a brief synopsis:

Open Whisper Systems: Is an open source non commercial enterprise offering a free app for Android with encrypted voice (RedPhone) and text (TextSecure) applications. Red Phone uses ZRTP to establish keys, then encrypts voice data using AES. Red Phone uses a short authentication string to prevent MITM attacks. Red Phone uses only ZRTP, not SCIMP.

ChatSecure + Orbot: ChatSecure is an encrypted messenger app built for iPhone and Android. It is a free and open source app that features OTR encryption over XMPP.

Cryptocat: Cryptocat is an encrypted chatting app. Cryptocat is a free open chat app that aims to provide an open source accessible messaging environment with a transparent layer of encryption. Cryptocat uses the Off the Record Messaging (OTR) protocol to encrypt its messages.

WHAM INC. believes that its application is a best of class application that can both compete head to head with any other application currently in the marketplace today.

The Market for Mobile Security

Experts from Statista are forecasting that in 2016 there will be over 196 million smartphone users within the United States. Mobile security will be a higher priority for consumers from 2017 onward. There is a lack of penetration of security tools among users of new mobile platforms, and Gartner does not expect to see new demand for this type of capability to emerge before 2016. Most consumers do not recognize that antivirus is important on mobile devices and therefore have not yet established a consistent practice of buying mobile device endpoint protection software. This purchasing trend and market shift away from PCs will have significant repercussions on the consumer security market. However, as mobile devices gain in mass popularity and as security is likely to be a higher priority from 2017 onward, then new market opportunities are likely to emerge.

By 2018, more than half of organizations will use security services firms that specialize in data protection, security risk management and security infrastructure management to enhance their security postures. Many organizations continue to lack the appropriate skills necessary to define, implement and operate appropriate levels of data protection and privacy-specific security controls. This lack of skills leads organizations to contract security consulting firms that specialize in data protection and security risk management to address regulatory compliance demands and enhance their security postures. A significant portion of organizations are shifting existing resources away from the operational aspects of security technologies, such as security device administration and monitoring, toward mitigation and incident response. This new dynamic has given rise to significant growth throughout the globe for managed security services.

Gartner's latest forecast for information security is available in the report 'Forecast: Information Security, Worldwide, 2012-2018, 2Q14 Update', available on Gartner's web site at: www.gartner.com/doc/2815822 and more detail on the trends behind the forecast can be found in the report 'Forecast Overview: Information Security, Worldwide, 2014 Update', available at www.gartner.com/doc/2780717.

Mobile security client market forecast to hit $2.9 billion by 2017

Campbell, CALIFORNIA, April 23, 2013—Market research firm Infonetics Research released excerpts from its Mobile Device Security Client Software market size and forecasts report, which tracks enterprise and consumer security client software for mobile devices.

ANALYST NOTE

"Real threats to mobile devices are active in the wild, pushing mobile security top of mind for enterprises and consumers looking to manage and protect the data and applications on their mobile devices," notes Jeff Wilson, principal analyst for security at Infonetics Research.

"Over the next 5 years, we anticipate that over 7 billion new smartphones and tablets will ship worldwide, ratcheting up hackers' interest in mobile devices," continues Wilson, "And as a result, we expect sales of mobile device security client software to soar, reaching $2.9 billion by 2017."

MOBILE SECURITY CLIENT MARKET HIGHLIGHTS

- Worldwide revenue for mobile security clients rose 46% in 2014, to $1.97 billion
- North America, which leads spending in nearly every security market Infonetics tracks, isn't expected to take the revenue lead in the mobile security client space until 2016-2017
- The CAGR for consumer clients from 2012 to 2017 (28%) is forecast by Infonetics to outpace that of enterprise clients (20%)
- There are currently many players in the mobile security client market, including familiar names Symantec, McAfee, Kaspersky, Trend Micro, Juniper, and Citrix, but no breakaway leader
- Enterprise vendors with major footprints in SSL VPNs such as Cisco, Juniper, F5, SonicWALL, and Checkpoint are anticipated to use mobile SSL VPN clients as a wedge to enter the larger mobile security client space

According to a June 2014 (Projected statistics up to 2019), Ericsson Mobility Report: "The number of mobile subscriptions worldwide grew approximately 7 percent year-on-year during Q1 2014… The amount of data usage per subscription also continued to grow steadily. Together, these factors have contributed to a 65 percent growth in mobile/cellular data traffic between Q1 2013 and Q1 2014… Total mobile subscriptions in Q1 2014 were around 6.8 billion… Smartphone uptake has continued its strong momentum throughout the world. These devices accounted for around 65 percent of all mobile phones sold in Q1 2014, compared to around 50 percent during Q1 2013… Total mobile subscriptions are expected to grow from 6.8 billion in Q1 2014 to 9.2 billion by the end of 2019… Total smartphone subscriptions reached 1.9 billion in 2013 and are expected to grow to 5.6 billion in 2019…"

Ericsson in its report is estimating that – "Mobile data traffic is expected to grow at a CAGR of around 45 percent (2013–2019). This will result in a 10-fold increase by the end of 2019. The rising number of smartphone subscriptions is the main driver for mobile data traffic growth."

According to Gartner in August of 2014 – "the increasing adoption of mobile, cloud, social and information (often interacting together) will drive use of new security technology and services through 2016. This purchasing trend and market shift away from PCs will have significant repercussions on the consumer security market. However, as mobile devices gain in mass popularity and as security is likely to be a higher priority from 2017 onward, then new market opportunities are likely to emerge."

In April 2013 Market research firm Infonetics Research reported that – "Over the next 5 years, we anticipate that over 7 billion new smartphones and tablets will ship worldwide, ratcheting up hackers' interest in mobile devices." and "[r]eal threats to mobile devices are active, pushing mobile security top of mind for enterprises and consumers looking to manage and protect the data and applications on their mobile devices," Infonetics Research is forecasting that the mobile security technology market will hit $2.9 billion by 2017.

Consumer Pre-Market Launch Market Penetration
WHAM INC. believes that its mobile encryption communication app will gain traction within today's marketplace given the current demand for an encrypted secure mobile facing solution. The continued security breaches impacting today's marketplace with an increased market awareness of the current inability to protect communications is driving this demand. WHAM INC. plans a broad range of marketing activities encompassing outbound calling, social media viral e-marketing, endorsements, partnerships and event sponsorships. Our best conservative estimate for a market ready app is 2016. Beta testing of the iOS and Android products is being rolled out. WHAM INC. is successfully entering into Beta testing of the iOS and Android application in Texas. WHAM INC. expects to begin its marketing efforts after both Android and iOS is launched with campaigns designed to encompass consumer marketing, integrated app endorsement marketing and socially responsive marketing driven by key influencers. The intent of these campaigns will be to gain market traction "to get the word out" and to leverage the markets underlying need for secure mobile communications.

E. **Sources and availability of raw materials and the names of principal suppliers.**
No raw materials are needed for our company nor do we need principal suppliers.

F. **Dependence on one or a few major customers:**
The company's dependence is focused on the global marketplace

G. **Patents, trademarks, licenses, franchises, concessions, royalty agreements or labor contracts, including their duration:**
None

The need for any government approval of principal products or services and the status of any requested government approvals.
Presently no government approval is needed for our products or services.

Item 10. **The nature and extent of the issuer's facilities.**
The Company uses an office and facilities available to the CEO from another business interest owned by the CEO, which is a 125 seat restaurant with offices and other facilities.

Part D **Management Structure and Financial Information**

Theodore Fotsis, CEO/President/Director
Russ Guzior, COO/Director

Item 11. **The name of the chief executive officer, members of the board of directors, as well as control persons**

A. **Officers and Directors.**

Theodore Fotsis Chairman/CEO/ Director
Mr. Fotsis is an entrepreneur with expansive knowledge and experience in today's public and private market places. Mr. Fotsis brings CEO and CFO expertise and insights to the executive team. He is focused on the regulatory requirements, shareholder relations and corporate responsibilities of WHAM Inc. Mr. Fotsis has operated, owned and established multiple corporations within the United States. Mr. Fotsis is Chairman/CEO of WHAM INC. and is President of the Honeyfield Restaurant Corporation in Lockport Illinois. His holistic marketing strategies and concepts have proven successful throughout his career. They are approached and applied in four ways: relationship marketing, internal marketing, integrated marketing and socially responsive marketing, which are key marketing strategies for WHAM INC.. Mr. Fotsis has also studied theology at the Moody Bible Institute and Fire School of Ministry International.

Total Ownership of shares 13,901,754 shares of Series A Preferred Stock and Common Stock.

Russ Guzior, COO/Director
Mr. Guzior brings tremendous talent, integrity and life experience to the executive team with a unique and sound perspective on business ethics, which is to operate, God's Company's, God's way. He is being mentored by David Green, owner of the nationwide retail craft store Hobby Lobby. Drafted in the NHL by the Montreal Canadians in 1993 after finishing his degree at Providence College, Mr. Guzior played 9 years of professional hockey which instilled the concept of teamwork and effective leadership within a group. At the young age of 20 he started successful summer hockey schools. Since then he has owned and operated an MMA production Company (Rock Solid Production) and a remodeling company (Redemption Remodeler LLC). He currently runs one of the fastest growing disposal companies (Redemption Disposal & Recycling LLC.) in the Chicagoland area. Mr. Guzior and his wife are currently opening Redemption Antiques & Design in Lockport, IL. He has learned over the years that a biblically run company offers tremendous blessings and results versus a company that is not, (Romans 12:2).

From 2014 - 2015 the company sold approx 20 million of its restricted common stock at prices ranging from .0045 - .12.

Part G **Exhibits**

Item 21 **Articles of Incorporation and Bylaws**
WHAM INC. Articles of Incorporations and Corporate Bylaws under the WHAM INC. OTC Filings and Disclosure page, www.otcmarkets.com/stock/WFMC/filings.

Item 22 **Material Contracts.**
WHAM INC. invested in Uponus Technologies, LLC in 2014. A portion of that investment is reflected in the 2014 year end statement. The company completed its equity purchase of $250,000.00 with Uponus Technologies in 2015. In addition, WHAM INC. engaged Uponus Technologies for software app development for a total cost of $166,358.00. WHAM INC. engaged UPONUS Technologies, but the software app development failed to perform. WHAM INC. is considering legal remedies. WHAM INC. has retained a contractor who has developed a new app which can be utilized for both iOS and Android products. A total of $12,500.00 was invested in the 4th quarter 2015 with an additional $40,000.00 being invested in the 1st quarter of 2016 for a total investment of $218,858.00. These numbers reflect the most recent 1st quarter filing report 2016.

WHAM INC. entered into a binding letter of intent with New York Post Publishing on February 2, 2016 whereby WHAM INC. acquired certain assets of New York Post Publishing, in exchange for which New York Post Publishing received 145,622,928 shares of Common Stock and 2,000,000 shares of Series C Preferred Stock, which shall have voting rights equal to an aggregate of 55% of the issued and outstanding voting shares including Common Stock owned by it and shall be convertible into such

number of shares of Common Stock which shall equal 55% of the issued and outstanding shares of stock less shares of Common Stock owned by it.

On March 24, 2016, WHAM INC. entered into a binding letter of intent to acquire 100% of the issued and outstanding Capital Stock of American Services, Inc., a construction company in consideration for 250,000 shares of Common Stock of WHAM INC. currently and 750,000 shares of Common Stock of WHAM INC. if American Services, Inc. meets certain profit goals.

Item 23 **Purchases of Equity Securities by the Issuer and Affiliated Purchasers.**
From 2012-2015, former Chairman/CEO led WHAM INC. to invest into three different companies, R3 Sport, LLC, CanDo, LLC, and p2pxtreme, LLC, which all engagements ended in nonperformance and brought no value to the company or its shareholders. All three companies were engaged with the issuance of restricted stock and a total of $15,000.00 was invested into two of the three companies, (CanDo, LLC and R3 Sport, LLC).

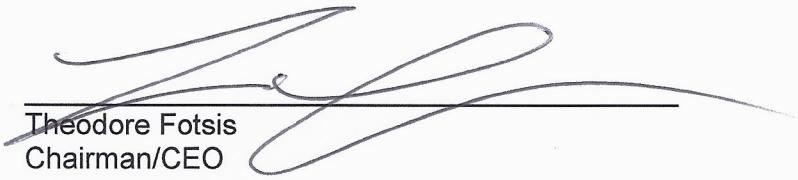

Item 24 **Issuer's Certifications.**

I, Theodore Fotsis certify that:
