Item 10 Management Discussion and Analysis

In 1981 Blue Ridge, Inc., a publically traded company, was incorporated in the State of Utah. Blue Ridge, Inc. bred champion horses. In 1984, Vencor Corporation was incorporated as a private company to produce and market DiDeeSnug Diaper, an environmentally responsible cloth diaper that was both washable and reusable. On March 14, 1986, the Vencor Corporation was merged into Blue Ridge, Inc. Under the terms of the merger, the combined entity changed its name to Vencor International, Inc. From its start to October 1989, Vencor developed and test marketed the DiDeeSnug diaper. DiDeeSnug is made from 100% cotton, is form fitting and has elasticized leg openings. Its Velcro® closures at the waist allow users to adjust the diaper to the exact size of the baby's waist. Consequently, there was no use and/or need for safety pins.

Although Vencor was established as a public company in 1986 it did not start selling DiDeeSnug at the national market level until early 1990. During this interim period Vencor spent considerable time and effort developing and test marketing the DiDeeSnug diaper in order to make sure it had properly developed this product.

In late 1991 and 1992, consumers lost interest, to some degree, in the environmental issues associated with disposable diapers. Meanwhile, given the nation's economic recession, retailers no longer wanted to invest in any new product inventory. For their part, consumers did not want to make the up-front investment in reusable diapers. All of this led Vencor to start investigating other product opportunities/ideas.

Drawing on its established expertise in infant diapers, Vencor decided in August 1992 to enter the adult incontinent market. Concurrent with the incontinent effort, mentioned above, Vencor also developed a line of novelty infant sleepwear products. The decision to develop an infant sleepwear line came during the fall of 1992, while Vencor was developing its adult incontinent products. Company management realized that the adult incontinent line would take time to fully develop and that an infant sleepwear line could be introduced more quickly to boost Vencor's cash flow. As such, Vencor began to develop and merchandise a line of sleepwear products.

In October of 1999, Vencor changed its name to Regal Apparel Group, Inc. On March 29, 2003, the Company changed its name back to Vencor International, Inc.
In Mid-2003, ACCUDX became part of VENCOR. ACCUDX was a development stage company offering at-home testing for HIV and Hepatitis C. These testing products could be purchased over the Internet. The Company also planned to sell them over the counter at both drug stores and grocery stores. These quick tests were in the process of being approved globally and orders were pledged in Pakistan, Thailand, Switzerland Italy and Armenia. The financing for this project was delayed so this division never

went forward to full production and finally was transferred back to the original owner ACCUDX in May of 2005.
