

## OTC Pink® Basic Disclosure Guidelines

Federal securities laws, such as Rules 10b-5 and 15c2-11 of the Securities Exchange Act of 1934 ("Exchange Act") as well as Rule 144 of the Securities Act of 1933 ("Securities Act"), and state Blue Sky laws, require issuers to provide *adequate current information* to the public markets. With a view to encouraging compliance with these laws, OTC Markets Group has created these OTC Pink Basic Disclosure Guidelines. We use the basic disclosure information provided by OTC Pink companies under these guidelines to designate the appropriate tier in the OTC Pink marketplace: Current, Limited or No Information. OTC Markets Group may require companies with securities designated as Caveat Emptor to make additional disclosures in order to qualify for OTC Pink Current Information tier.

**NOTES TO FINANCIAL STATEMENTS**  
**DECEMBER 31, 2015**  
**(Unaudited)**

**NOTE 1 -BASIS OF PRESENTATION**

*Unaudited Financial Statements*

The accompanying unaudited financial statements have been prepared in accordance with United States generally accepted accounting principles. They may not include all information and footnotes required by United States generally accepted accounting principles for complete financial statement disclosure. In the opinion of Management, all adjustments considered necessary for a fair presentation, consisting solely of normal recurring adjustments, have been made. These financial statements contain the balance sheet, statements of operations and cash flows, and equity statement of AVEV Holdings, Inc.

*Going concern*

These unaudited consolidated financial statements have been prepared in accordance with United States generally accepted accounting principles, on a going concern basis, which contemplates the realization of assets and the satisfaction of liabilities and commitments in the normal course of business. The continuing operations of the Company is dependent upon the ability of the Company to obtain necessary financing to fund its working capital requirements, and upon future profitable operations. The accompanying financial statements do not include any adjustments relative to the recoverability and classification of asset carrying amounts or the amount and classification of liabilities that might result from the outcome of this uncertainty. There can be no assurance that capital will be available as necessary to meet the Company's working capital requirements or, if the capital is available, that it will be on terms acceptable to the Company. The issuances of additional equity securities by the Company may result in dilution in the equity interests of its current stockholders. Obtaining commercial loans, assuming those loans would be available, will increase the Company's liabilities and future cash commitments. If the Company is unable to obtain financing in the amounts and on terms deemed acceptable, the business and future success may be adversely affected. Management intends to finance operating costs over the next twelve months with private placement of capital stock and loans.

**NOTE 2 - LOANS PAYABLE**

Net Convertible Debt			<u>\$358,076</u>

The Company evaluated the terms of the conversion features of its convertible debentures in accordance with ASC Topic No. 815 - 40, *Derivatives and Hedging - Contracts in Entity's Own Stock* and determined they are indexed to the Company's common stock and the conversion features meet the definition of a liability, and therefore bifurcated the conversion features and accounted for them as a separate derivative liability.

The Company valued the conversion features on these debentures at using the Black Scholes valuation model and a derivative liability of \$12,350,000 was recognized at origination as a debt discount on the convertible debenture. A debt discount of \$94,893 was recorded as reduction (contra-liability) to the convertible debenture and was amortized over the life of the convertible debenture. ASC 815 requires assessment of the fair market value of derivative liability at the end of each reporting period and recognition of any change in the fair market value as other income or expense.

As of December 31, 2015, the unamortized debt discount of \$63,952 was Included in the convertible notes payable.
