NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

BASIS OF PRESENTATION AN CONSOLIDATION

The accompanying financial statements are prepared in accordance with Generally Accepted Accounting Principles in the United States of America. The consolidated financial statements include the accounts of the Company and its wholly owned subsidiary, Opencell Biomed, Inc. All intercompany balances and transactions are eliminated in consolidation.

USE OF ESTIMATES

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amount of revenues and expenses during the reported period. Actual results could differ from those estimates.

CASH AND CASH EQUIVALENTS

The Company considers all highly liquid investments with an original term of three months or less to be cash equivalents.

INVENTORY

Inventory is valued at the lower of cost or market value. Cost is determined using the first in first out (FIFO) method. Provision for potentially obsolete or slow moving inventory is made based on management analysis of inventory levels and future sales forecasts. The Company's inventory consists of components acquired from third-parties that are assembled by the Company in fulfillment of standing customer orders.

PROPERTY AND EQUIPMENT

Property and equipment are stated at cost, and depreciation is provided by use of straight-line methods over the estimated useful lives of the assets. The estimated useful lives of property and equipment are as follows:

Office equipment and furniture	5 years
Computer hardware and software	3 years

REVENUE RECOGNITION

The Company recognizes revenue in accordance with FASB ASC 605, Revenue Recognition. ASC 605 requires that four basic criteria are met (1) persuasive evidence of an arrangement exists, (2) delivery of products and services has occurred, (3) the fee is fixed or determinable and (4) collectability is reasonably assured. The Company recognizes revenue during the period in which the product is shipped.

EQUITY-BASED COMPENSATION

Compensation expense for all stock-based employee and director compensation awards granted is based on the grant date fair value estimated in accordance with the provisions of ASC Topic 718, *Stock Compensation* ("ASC Topic 718"). The Company recognizes these compensation costs on a straight-line basis over the requisite service period of the award, which is generally the option vesting term. Vesting terms vary based on the individual grant terms.

FAIR VALUE OF FINANCIAL INSTRUMENTS

The carrying value of the Company's notes payable and accounts payable approximate fair value due to their short term nature.

INCOME TAXES

The Company uses the asset and liability method in accounting for income taxes. Under this method, deferred income tax assets and liabilities are determined based on difference between financial reporting and tax bases of assets and liabilities and are measured using the enacted tax rates and laws that will be in effect when the differences are expected to reverse. A valuation allowance is provided to offset any net deferred tax assets for which management believes it is more likely than not that the net deferred asset will not be realized.

The Company applies the provisions of ASC Topic 740-10-25, *Income Taxes – Overall – Recognition* ("ASC Topic 740-10-25") with respect to the accounting for uncertainty of income tax positions. ASC Topic 740-10-25 clarifies the accounting for uncertainty in income taxes recognized in a company's financial statements and prescribes a recognition threshold and measurement attribute for the financial statement recognition and measurement of a tax position taken or expected to be taken in a tax return. ASC Topic 740-10-25 also provides guidance on derecognition, classification, interest and penalties, accounting in interim periods, disclosure and transition. As of November 30, 2015, tax years since 2012 remain open for IRS audit. The Company has received no notice of audit from the Internal Revenue Service for any of the open tax years.

RECENT ACCOUNTING PRONOUNCEMENTS

Recent accounting pronouncements issued by the FASB and the SEC did not have, or are not believed by management to have, a material impact on the Company's present or future consolidated financial statements.
