EXHIBIT 13

QUARTERLY REPORT

Pursuant to Rule 15c2 (11)(a)(5) For

INOLIFE TECHNOLOGIES, INC.

FOR THE THREE MONTHS ENDED JUNE 30, 2016

Dated: August 22, 2016

All information contained in this Information and Disclosure Statement has been compiled to fulfill the disclosure requirements of Rule 15c2-11 (a)(5) promulgated under the Securities and Exchange Act of 1934, as amended. The enumerated captions contained herein correspond to the sequential format as set forth in the rule.

INOLIFE TECHNOLOGIES INC.
QUARTERLY REPORT

All information contained in this Quarterly Report has been compiled to fulfill the disclosure requirements of Rule 15c2-11 (a)(5) promulgated under the Securities and Exchange Act of 1934, as amended. The enumerated captions contained herein correspond to the sequential format as set forth in the rule.

No dealer, salesman or any other person has been authorized to give any information or to make any representations not contained herein in connection with the Issuer. Any representations not contained herein must not be relied upon as having been made or authorized by the Issuer.

Delivery of this information does not imply that the information contained herein is correct as of any time subsequent to the date of this Issuers Quarterly Report.

ITEM 1. THE EXACT NAME OF THE ISSUER AND ITS PREDECESSORS

The exact name of the Issuer is:

INOLIFE TECHNOLOGIES Inc. (hereinafter referred to as "INOLIFE TECHNOLOGIES", "INOL", "Issuer" or "Company").

Predecessor entities since inception and dates of name changes:

- InoLife Technologies, Inc. since 1-2010
- Formerly=NexxNow, Inc. until 1-2010
- Formerly=Centale, Inc. until 6-2008
- Acquired=4-25-08 the outstanding capital stock of NexxNow China, Inc. (DE) for 43 million common shares of the company

ITEM 2. ADDRESS OF THE ISSUER'S PRINCIPAL EXECUTIVE OFFICES

Company Headquarters:

- Address: 300 Spectrum Center Drive
  Suite 400
  Irvine, CA 92618

- Website: www.inolifetech.com
- Phone: 1-866-834-3777
  Email: info@inolife.net

Investor Relations Firm: None

ITEM 3. SECURITY INFORMATION

Trading symbol
The Company's trading symbol is INOL.

T he Company's CUS IP
The Company's CUSIP is 45776Y 300

Par or Stated Value:
The Company's Common Stock has $0.00001 par value.

Shares Authorized and Outstanding

As of the date of this Report, the Issuer has two classes of securities; one class of Common Stock and one class of Preferred Stock.

The Company is authorized is five billion (5,000,000,000) of Common Stock at a par value of $0.00001 with 1,524,897,616 issued and outstanding as of June 30, 2016.

The Company is authorized ten thousand (10,000) Preferred Class F Shares at a par value of $0.00001 with ten thousand (10,000) issued and outstanding as of June 30, 2016.

Transfer Agent:

INOLIFE TECHNOLOGIES, INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
JUNE 30, 2016
(UNAUDITED)

NOTE 1 – THE COMPANY

HISTORY

InoLife Technologies, Inc. (the "Company") was incorporated under the laws of the State of New York on November 12, 1998 as Safe Harbour Health Care Properties, Ltd. During 1999, the Company ceased its operations. The Company remained dormant until 2004, when one of the Company's shareholders purchased a controlling interest. In February 2004, the Company began its development stage as an internet based marketing company. The Company, as of December 2007 discontinued its internet marketing due to difficulties with service providers and subsequent cancellations by customers.

Effective September 17, 2009, the Board of Directors of the Company authorized the execution of a share exchange agreement (the "Share Exchange Agreement") with InoVet, Ltd., a Delaware corporation ("InoVet") and the shareholders of InoVet (the "InoVet Shareholders"). In accordance with the terms and provisions of the Share Exchange Agreement, the Company agreed to: (i) acquire all of the issued and outstanding shares of common stock of InoVet from the InoVet Shareholders; and (ii) issue an aggregate of 10,000,000 shares of its restricted common stock to the InoVet Shareholders.

On July 7, 2011, the Company acquired 100% of the issued and outstanding shares of Stemtide Inc. in exchange for 50,000,000 shares of common stock of the Company, the assumption of certain outstanding liabilities, and contingent residual payments of 10% of the gross profits derived from the sale of Stemtide Inc.'s Age-Reversing Products. The principal asset of Stemtide Inc. that was acquired was the manufacturing and marketing rights to the Stemtide Age-Reversing Products, throughout the United States, licensed from an affiliate of the principal shareholders of InoLife.

NOTE 2 – GOING CONCERN

The Company's financial statements are prepared using accounting principles generally accepted in the United States of America applicable to a going concern which contemplates the realization of assets and liquidation of liabilities in the normal course of business. The Company has not yet established an ongoing source of revenues sufficient to cover its operating cost and allow it to continue as a going concern. The ability of the Company to continue as a going concern is dependent on the Company obtaining adequate capital to fund operating losses until it becomes profitable. If the Company is unable to obtain adequate capital, it could be forced to cease operations.

In order to continue as a going concern, the Company will need, among other things, additional capital resources. Management's plan to obtain such resources for the Company include, obtaining capital from management and significant stockholders sufficient to meet its minimal operating expenses. Management is also in discussions to raise additional financing to allow them to begin marketing and selling their products, which it expects to occur in late 2016. However, management cannot provide any assurance that the Company will be successful in accomplishing any of its plans.

There is no assurance that the Company will be able to obtain sufficient additional funds when needed or that such funds, if available, will be obtainable on terms satisfactory to the Company. In addition, profitability will ultimately depend upon the level of revenues received from business operations. However, there is no assurance that the Company will attain profitability. The accompanying financial statements do not include any adjustments that might be necessary if the Company is unable to continue as a going concern.

NOTE 3 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Unaudited Interim Consolidated Financial Statements:

The accompanying unaudited consolidated financial statements have been prepared in accordance with generally accepted accounting principles for interim financial information and with the instructions to Form 10-Q and Rule 10-01 of Regulation S‑X. Accordingly, they do not include all of the information and footnotes required by accounting principles generally accepted in the United States ("GAAP") for complete consolidated financial statements. In the opinion of management, all adjustments (consisting only of normal recurring accruals, unless otherwise indicated) considered necessary for a fair presentation of the interim financial data have been included. Operating results for the three months ended June 30, 2016 are not necessarily indicative of the results that may be expected for the fiscal year ending March 31, 2017. Events occurring subsequent to June 30, 2016 have been evaluated for potential recognition or disclosure in the unaudited consolidated financial statements for the three months ended June 30, 2016.

The accompanying unaudited consolidated financial statements should be read in conjunction with the consolidated financial statements and related notes included in the Company's Annual Report on OTC Markets for the fiscal year ended March 31, 2016, which were filed on July 29, 2016.

The condensed consolidated balance sheet at March 31, 2016 has been derived from the unaudited financial statements at that date, and does not include all of the information and footnotes required by generally accepted accounting principles in the U.S. for complete financial statements.

The preparation of condensed consolidated financial statements in conformity with U.S. GAAP requires the Company to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Management believes that all adjustments necessary for a fair statement of the results of the three months ended June 30, 2016 and 2015 have been made.

Significant Accounting Policies:

USE OF ESTIMATES

The Company prepares its financial statements in conformity with accounting principles generally accepted in the United States of America ("GAAP"), which require management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements, and reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Emerging Growth Company Critical Accounting Policy Disclosure:

The Company qualifies as an “emerging growth company” under the 2012 JOBS Act. The JOBS Act contains provisions that relax certain requirements for "emerging growth companies". For as long as the Company is an emerging growth company, which may be for up to five years after the first sale of common equity securities pursuant to an effective registration statement under the Securities Act., unlike other public companies, the Company will not be required to: (i) comply with any new or revised financial accounting standards applicable to public companies until such standards are also applicable to private companies under Section 102 (b)(1) of the JOBS Act; (ii) provide an auditor's attestation report on management's assessment of the effectiveness of our system of internal control over financial reporting pursuant to Section 404 of the Sarbanes-Oxley Act; (iii) comply with any new requirements adopted by the PCAOB requiring mandatory audit firm rotation or a supplement to the auditor's report in which the auditor would be required to provide additional information about the audit and the financial statements of the issuer; or (iv) comply with any new audit rules adopted by the PCAOB after April 5, 2012 unless the SEC determines otherwise.

As an emerging grown company, the Company can delay the adoption of certain accounting standards until those standards would otherwise apply to private companies. The Company may elect to take advantage of the benefits of this extended transition period in the future.

REVERSE STOCK-SPLITS:

On February 23, 2012 the Company effected a 1 for 500 reverse stock split, and on January 24, 2013, the Company effected a 1 for 50,000 reverse stock split, collectively referred to as the Stock Splits. Unless otherwise noted, all impacted amounts included in the financial statements and notes thereto have been retroactively adjusted for the Stock Splits. Unless otherwise noted, impacted amounts include shares of common stock authorized and outstanding, share issuances and cancellations, shares underlying preferred stock, convertible notes, warrants and stock options, shares reserved, conversion prices of convertible securities, exercise prices of warrants and options, and loss per share.

CASH AND CASH EQUIVALENTS

Cash and cash equivalents include time deposits, certificates of deposits and all highly liquid debt instruments with original maturities of three months or less.

The Company maintains cash and cash equivalents at financial institutions, which periodically may exceed federally insured amounts.

FAIR VALUE OF FINANCIAL INSTRUMENTS

The carrying amount of cash, accounts payable and notes payable, as applicable, approximates fair value due to the short term nature of these items and/or the current interest rates payable in relation to current market conditions. Fair value estimates discussed herein are based upon certain market assumptions and pertinent information available to management as of June 30, 2016.

Fair value is defined as the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. Under the fair value hierarchy there is a distinguishment between (1) market participant assumptions developed based on market data obtained from independent sources (observable inputs) and (2) an entity's own assumptions about market participant assumptions developed based on the best information available in the circumstances (unobservable inputs). The fair value hierarchy consists of three broad levels, which gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described below:

Level 1 - Unadjusted quoted prices in active markets that are accessible at the measurement date for identical, unrestricted assets or liabilities

Level 2 - Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly, including quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in markets that are not active; inputs other than quoted prices that are observable for the asset or liability (e.g., interest rates); and inputs that are derived principally from or corroborated by observable market data by correlation or other means.

Level 3 - Inputs that are both significant to the fair value measurement and unobservable.

IMPAIRMENT OF LONG LIVED ASSETS:

The Company evaluates, on a periodic basis, long-lived assets to be held and used for impairment in accordance with the reporting requirements of ASC 360-10, "*Accounting for the Impairment or Disposal of Long-Lived Assets*". The evaluation is based on certain impairment indicators, such as the nature of the assets, the future economic benefit of the assets, any historical or future profitability measurements, as well as other external market conditions or factors that may be present. If these impairment indicators are present or other factors exist that indicate that the carrying amount of the asset may not be recoverable, then an estimate of the discounted value of expected future operating cash flows is used to determine whether the asset is recoverable and the amount of any impairment is measured as the difference between the carrying amount of the asset and its estimated fair value. The fair value is estimated using valuation techniques such as market prices for similar assets or discounted future operating cash flows.

PREPAID EXPENSES

Prepaid expenses consist of services to be rendered from consultants and are amortized as over the period that services are rendered.

EARNINGS PER SHARE:

Basic earnings (loss) per share are computed by dividing net income (loss) by the weighted average number of common shares outstanding for the period. Diluted earnings (loss) per share include the effects of any outstanding options, warrants and other potentially dilutive securities. For the periods presented, there were no potentially dilutive securities outstanding, therefore basic earnings per share equals diluted earnings per share. Basic and diluted earnings per share ("EPS") are based on weighted-average common shares and exclude shares that would have an anti-dilutive effect. In accordance with ASC 260-10-45-19, the Company did not consider any potential common shares in the computation of diluted EPS as of June 30, 2016 and 2015, due to the loss from continuing operations, as they would have an anti-dilutive effect on EPS.

Share Based Payments:

The Company accounts for share based payments using a fair value based method whereby compensation cost is measured at the grant date based on the value of the services received and is recognized over the service period.

The Company uses the Black-Scholes pricing model to calculate the fair value of options and warrants issued. In calculating this fair value, there are certain assumptions used such as the expected life of the option, risk-free interest rate, dividend yield, volatility and forfeiture rate. The use of a different estimate for any one of these components could have a material impact on the amount of calculated compensation expense.

Segment Reporting:

The Company has determined it has only one operating segment as of the periods presented.

INCOME TAXES

The Company accounts for income taxes under ASC 740 *Income Taxes*. Under the asset and liability method of ASC 740, deferred tax assets and liabilities are recognized for the future tax consequences attributable to differences between the financial statements carrying amounts of existing assets and liabilities and their respective tax bases. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in income in the period the enactment occurs. A valuation allowance is provided for certain deferred tax assets if it is more likely than not that the Company will not realize tax assets through future operations. The Company has had significant operating losses and a valuation allowance is recorded for the entire amount of the deferred tax assets, resulting in no deferred tax assets or liabilities recognized as of June 30, 2016 or June 30,2015.

The Company accounts for uncertain tax positions according to the provisions of ASC 740. ASC 740 contains a two-step approach for recognizing and measuring uncertain tax positions. Tax positions are evaluated for recognition by determining if the weight of available evidence indicates that it is probable that the position will be sustained on audit, including resolution of related appeals or litigation. Tax benefits are then measured as the largest amount which is more than 50% likely of being realized upon ultimate settlement. The Company considers many factors when evaluating and estimating tax positions and tax benefits, which may require periodic adjustments and which may not accurately anticipate actual outcomes.

The Company's open tax periods are 2008 through 2016.

RECENT ACCOUNTING PRONOUNCEMENTS

On June 10, 2014 the FASB issued ASU No. 2014-10, *Development Stage Entities (Topic 915): Elimination of Certain Financial Reporting Requirements, Including an Amendment to Variable Interest Entities Guidance in Topic 810, Consolidation.* The amendments in this ASU remove all incremental financial reporting requirements from U.S. GAAP for development stage entities. The Company has elected to early adopt this guidance, and therefore is no longer presenting the financial statements in accordance with ASU 915, with inception to date disclosures.

The Company is evaluating how to apply ASU 605, *Revenues from Contracts with Customers,* before its effective date, however, as the Company does not yet have revenue to recognize, it will not have an impact on current results of operations, financial position or cash flow.

NOTE 4 – CONVERTIBLE NOTES PAYABLE

Convertible notes payable as of June 30, 2016 and 2015 consist of the following:

Description		**June 30, 2016**		**June 30, 2015**
Lionheart		203,960		203,960
Longside Ventures		269,267		269,267
Noah Clark		95,213		95,213
Total Marketing		40,000		40,000
Orchid		37,600		37,600
Star City Capital, LLC		24,873		24,873

The Company has evaluated their convertible notes for embedded derivative features and has determined that in several of the notes a derivative liability is necessary to recognize. These notes contain a conversion feature which includes a "reset" provision, whereby the conversion rate would be reset should there be future equity sales at a price less than the conversion rate in effect at the time.

Therefore, the conversion feature is required to be bifurcated and accounted for under derivative accounting, and remeasured each period end, with any changes in the fair value of the derivative to be recognized in income. During the three months ended June 30, 2016 there was no change in fair value of the derivative liability.

	June 30, 2016	June 30, 2015
Risk-free interest rate	0.02%	0.02%
Expected volatility	100%	100%
Expected life (in years)	0	0
Expected dividend yield	0.00%	0.00%

NOTE 5 – ACQUISITION OF STEMTIDE INC.

On July 7, 2011, the Company had acquired 100% of the issued and outstanding shares of Stemtide Inc. in exchange for 50,000,000 shares of common stock of the Company, the assumption of certain outstanding liabilities, and contingent residual payments of 10% of the gross profits derived from the sale of Stemtide Inc.'s Age-Reversing Products. The 50,000,000 shares of common stock were issued upon consummation of the agreement. The principal asset of Stemtide Inc. that was acquired was the manufacturing and marketing rights to the Stemtide Age-Reversing Products, throughout the United States, licensed from an affiliate of the principal shareholders of InoLife. These licensing rights were valued at $627,000 based on the Company assuming $572,000 of accounts payable and issuing 50,000,000 shares of common stock valued at $55,000. The Company also issued 572 shares of its Series C Convertible Preferred Stock as securitization against the payment out of future revenues of the $572,000 accounts payable. There were no other assets acquired.

On March 31, 2012, during the annual impairment test, the Company evaluated the acquired Licensing Rights for financial impairment. Based on the Company's evaluation of the recoverability of the licensing rights by measuring the carrying amount of the assets against the estimated undiscounted future cash flows associated with them, it was determined to impair the full value of the licensing rights of $627,000 due to the uncertainty of recovery.

NOTE 6 – RELATED PARTY TRANSACTIONS

During the year ended March 31, 2011, the Company issued 60 shares of its Series B Convertible Preferred Stock ("PS") to officers of the Company in consideration of 40% of their 2012 fiscal year salaries. This amounted to $233,600 which was recorded in the prepaid expense line on the consolidated balance sheet. Approximately $20,000 and $214,000 of this amount was amortized to management services in the years ended March 31, 2013 and March 31, 2012, respectively. As of March 31, 2013 the prepaid expense has been fully amortized.

In July 2012 the Company created and restated the designation of the Series B Convertible Preferred shares, and on August 16, 2012, in connection with the new designation cancelled the 60 PS shares issued above in exchange for 292,000 shares of the new Series B Preferred Stock. Sharon Berthold converted 300 of her PS for 30,000,000 common shares on September 7, 2012.

On April 18, 2012, the Company entered into an agreement with Gary Berthold, who serves as chairman of the board of directors, president and chief executive officer of the Company, and with Sharon Berthold, who serves on our board of directors and as executive vice-president (collectively the "Officers"), to issue 60,000 (30,000,000 pre-split) common shares in satisfaction of $465,000 of accrued salaries owing to them under their employee contracts.

On July 25, 2012, Gary Berthold and Sharon Berthold were each issued one share of Class A Convertible Preferred Stock (the "Preferred A Stock") and two and one billion shares of Common Stock, respectively. The Officers were issued the Preferred A Stock in connection with and as consideration for their agreements to continue as an officer and director for the Company. The certificate of designations for the Preferred A Stock provides that as a class it possesses a number of votes equal to two times the votes of capital stock outstanding of the Company that could be asserted in any matter put to a vote of the shareholders of the Company. This did not lead to a change of control, as the Officers continue to be majority owners.

On November 27, 2013, the Company issued 120,000 shares of its Preferred Class B stock to the Officers for past services rendered and for the cancelation of the three billion shares of common stock mentioned above.

On March 8, 2013 the Company issued 40,000,000 of its common stock to INOHEALTH Products, a party related through common ownership by Gary and Sharon Berthold., in connection with a licensing and marketing agreement originally dated July 2010. As the issuance was to a related party, it has been accounted for as a capital transaction, with the capital contribution of the license agreement offset by the capital distribution of the issuance of the shares.

During the year ended March 31, 2013, Sharon Berthold paid certain expenses on behalf of the Company in the amount of $64,161. This amount has been recorded as a loan payable – related party. Additional expenses on behalf of the Company were paid by Sharon Berthold during the year ended March 31, 2014, bringing the balance of the loan payable – related party as of March 31, 2014 to $78,958.

On November 29, 2013 Sharon Berthold resigned her position as Director, Executive Vice President and Secretary.

NOTE 7 – COMMON & PREFERRED STOCK

Please see Note 6 for a discussion of common and Preferred Stock issued to related parties. As of June 30, 2016, all the Preferred Stock of the Company is held by Lanham & Lanham.

Please see Note 6 for all share issuances upon conversions of convertible debentures.

On July 25, 2012, the Board of Directors voted and approved to set up a Stock Option Plan for the Issuer's selected employees, directors (if applicable) and consultants as an opportunity to acquire a proprietary interest in the success of the Company, or to increase such interest, to encourage such selected persons to remain in the employ of the Company, and to attract new employees. This plan seeks to achieve this purpose by providing for awards in the form of registered shares, restricted shares and options (which may constitute incentive stock options or non-statutory stock options), as well as the direct award or sale of shares of the Company's common stock. Awards may be granted under this plan in reliance upon federal and state securities law exemptions. Shares offered under this plan shall be authorized but unissued shares, and shall not exceed two hundred million (200,000,000) shares of authorized common stock of the Company. Each award or sale of shares under the plan (other than upon exercise of an option) shall be evidenced by a stock purchase agreement between the offeree and the Company. The provisions of the various stock purchase agreements entered into under the plan need not be identical. No options have been issued under the Plan as of March 31, 2014.

On Oct 18, 2013 the Company increased the authorized shares from 250,000,000 to 400,000,000 shares.

During the year ended March 31, 2014 the Company issued 18,040,000 shares of its common stock for services to various consultants with a fair value of $1,918,379. The consulting expense recognized related to services already provided, or was issued as a signing bonus to various consultants agreeing to work with the Company. The fair value was determined using the market price of the Company's stock on the date of issuance.

On May 1, 2013, INOL entered into an Exclusive Licensing Agreement with Green Dolphin Corp, whose President has agreed to become VP of Business Development. In connection with the license agreement the Company issued to Green Dolphin 1,200,000 common shares, with a fair value based on the market price of the shares of $264,000 (amount included in disclosure above). As the shares were issued to a company controlled by a consultant of the Company, and it is not known if the Company will ever actually distribute the products offered under the license agreement, the shares have been treated as additional compensation to the consultant.

During the year ended March 31, 2014 the Company issued 4,543 (post reverse stock split) shares of its common stock for services to various consultants with a fair value of $294,420. The fair value was determined using the market price of the Company's stock on the date of issuance. The majority of the shares were issued at the commencement of the contract period (one year) and recognized as a prepayment upon issuance. $161,250 was expensed during the year, with $53,750 remaining as Prepaid Expenses at March 31, 2014.

NOTE 8 – WARRANTS AND OPTIONS

There are no warrants or options issued or outstanding to acquire any additional shares of common stock of the Company during the quarters ended June 30, 2016 and 2015.

NOTE 9 – INCOME TAXES

Deferred tax assets and liabilities result from temporary differences in the recognition of income and expense for tax and financial reporting purposes. A valuation allowance has been recorded against the realizability of the net deferred tax asset such that no value is recorded for the asset in the accompanying financial statements.

The Company has net operating loss carry forwards available for federal and state tax purposes of approximately $10,225,000, at June 30, 2016, which expire in varying amounts through 2033.

NOTE 10 – COMMITMENTS AND CONTINGENCIES

On April 30, 2011, the Company entered into executive employment agreements with Gary Berthold and Sharon Berthold (each an "Employee" and collectively, the "Employees"). Under the terms of the executive employment agreements, Mr. Berthold has agreed to serve as our chairman of the board of directors, president and chief executive officer on an at-will basis and Mrs. Berthold has agreed to serve on our board of directors and as executive vice president on an at-will basis.

The agreement for Gary Berthold provides for an initial base salary of $310,000 per year and the agreement for Sharon Berthold provides for an initial base salary of $274,000 per year. The Employees are eligible to receive increases and annual cash incentive bonuses at the discretion of the board of directors. The Employees are also eligible to participate in benefit and incentive programs we may offer.

We may terminate the agreement at any time, with or without due cause. Employee may terminate the agreement at any time, with or without good reason. However, termination for good reason must occur within 90 days of the occurrence of an event constituting good reason, and Employee must furnish us with written notice of the event within 30 days after the initial existence of the event and provide us with at least a 30-day cure period. "Good reason" includes: a material diminution in his authority, duties, responsibilities, titles or offices; a purported reduction in Employee's base salary in an amount greater than 10% below the base salary in effect at the time of the reduction; our failure to timely cure or diligently initiate a cure of any material breach within 30 days after Employee gives us written notice of the breach.

Immediately preceding the occurrence of a change in control, and regardless of whether Employee's employment terminates and/or he receives severance payments as a result of the change in control, Employee will be entitled to receive a payment equal to (A) two times his then current annual salary and (B) two times the amount of the average incentive bonus paid during the two calendar years preceding the date of termination.

NOTE 11 - LITIGATION

The Company may be subject to various pending and threatened legal actions, which arise in the normal course of business. The Company's management believes that the impact of such litigation will not have a material adverse impact on its financial position or results of operations.

NOTE 12 – SUBSEQUENT EVENTS

Management has evaluated all activity of the Company through July 30, 2016 and concluded that no additional subsequent events have occurred that would require recognition in the financial statements or disclosure in the notes to financial statements.

On February 1, 2016, InoLife Technologies, Inc., a New York corporation (the "Registrant" or "Company"), entered into a Definitive Merger Agreement ("Agreement") with 8687544 Canada, Inc. ("8687544"), pursuant to which the Registrant has agreed to issue 8687544 thirty million shares of common stock, after a thirty thousand to one (30,000 to 1) reverse split of the Registrant's existing issued and outstanding shares, in consideration for 8687544's rights title and interest to a needle free injector system. Including the following rights and assets:

A. Design, Specifications and Intellectual Properties of the Needle Free Injector System 505 (for injection of 0.5ml, both reusable and disposable), and One30 (a disposable injection of 0.3).

B. Regulatory Approvals for the Needle Free Injector (FDA, Health Canada and European). FDA Version Number – M GBA EN FR R01 1209SFR

C. Any and all marketing materials, presentation, clinical trials, research. Including brand name use.

D. Any and All Global Rights and Ownership to the Needle Free Injector System and technology referred to as Injex and or its equivalent Generic IP, including but not limited to its designs, its technical know-how, and trade secrets.

On February 18, 2016 The Company, among other items, extinguished Series E preferred, due to the fact that purpose for Series E has been satisfied. There was one share of Series E Preferred Stock valued at $.00001. Series F preferred has been created.

On July 5, 2016 any and all preferred shares series A, B, C, D and E have been cancelled and returned to treasury.

InoLife Technologies has entered into a definitive merger agreement with 8687544 Canada Inc. However, on August 22, 2016, the definitive merger agreement has been amended as a definitive asset purchase agreement and the number of shares increase from 30,000,000 common shares post reverse split of 1 for 30,000 to 50,000,000 common shares post reverse split of 1 for 30,000.

InoLife Technologies has not been able to obtain approval from FINRA after its second attempt to cure deficiencies. InoLife Technologies will cure its deficiencies of the New York State filings and said deficiencies may take up to 8 weeks to cure.

The parties have agreed to close the asset purchase agreement prior to the reverse split being approved and effective by FINRA. InoLife Technologies has agreed to issue 10,000,000 Preferred Series B of InoLife Technologies to N3GU Capital Ltd., and said Preferred Shares Series B shall be returned to treasury and cancelled upon the effectiveness of the reverse split of 1 for 30,000 and the issuance and receipt of 50,000,000 common shares in the name of N3GU Capital Ltd. and or its nominee. Further to the business combination, a change of directors and officer is required. The new name for the Corporation shall be **InoLife Sciences Inc.**

Michael G. Wright, shall be the new President, Chief Executive Officer and Secretary of the Corporation. Kenneth J. Beam shall be the new Chief Financial Officer and Treasurer of the Corporation.

The new directors shall be Michael G. Wright, Joseph McClendon III, and William Cleman. William Cleman shall be the Chairman of the Board of Directors.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

The following Management's Discussion and Analysis of Financial Condition and Results of Operations contains forward-looking statements that involve risks and uncertainties. Our actual results could differ materially from those anticipated in these forward-looking statements as a result of various factors, including those set forth under "Risk Factors" and elsewhere in this report. The management's discussion, analysis of financial condition, and results of operations should be read in conjunction with our financial statements and notes thereto contained elsewhere in this prospectus.

Forward-Looking Statements: No Assurances Intended

In addition to historical information, this report contains forward-looking statements, which are generally identifiable by use of the words" believes," "expects," "intends," "anticipates," "plans to," "estimates," "projects," or similar expressions. These forward-looking statements represent Management's belief as to the future of the Company. Whether those beliefs become reality will depend on many factors that are not under management's control. Many risks and uncertainties exist that could cause actual results to differ materially from those reflected in these forward-looking statements. Readers are cautioned not to place undue reliance on these forward-looking statements. We undertake no obligation to revise or publicly release the results of any revision to these forward-looking statements.

Critical Accounting Policies

We prepare our financial statements in conformity with GAAP, which requires management to make certain estimates and assumptions and apply judgments. We base our estimates and judgments on historical experience, current trends and other factors that management believes to be important at the time the financial statements are prepared and actual results could differ from our estimates and such differences could be material. We have identified below the critical accounting policies which are assumptions made by management about matters that are highly uncertain and that are of critical importance in the presentation of our financial position, results of operations and cash flows. On a regular basis, we review our accounting policies and how they are applied and disclosed in our financial statements.

Use of Estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Results of Operations for the quarters ended June 30, 2016 and June 30, 2015

InoLife Technologies, Inc. (The Company) was organized as of June 17, 2009. As a result of our continued lack of funds, our operations are very limited. Due to the limited operations the results of operations for the quarter ended June 30, 2016 and 2015 are not comparable.

Revenues

As a result of our limited operations and development stage, we have not yet begun to realize revenue during the quarters ended June 30, 2016 and 2015.

Operating Expenses

Total Operating Expenses. Substantially all our operating expense have been for professional services to various consultants. The majority of the consultants are being paid through the issuance of common stock. Such consulting services include, but are not limited to accounting, legal, business development, SEC reporting, investor relations and mergers and acquisitions. Our executive officers received no shares of common stock for their services during the quarter ended June 30, 2016. The common stock was issued at the markets closing price on the day of issuance.

We realized a net loss of approximately $48,149 and $126,138 for the quarters ended June 30, 2016 and 2015, respectively.

Financial Condition

Total Assets. Total assets at June 30, 2016 were substantially $752.

Total Liabilities. Total liabilities at June 30, 2016 were $4,067,529.

Liquidity

Liquidity and Capital Resources

At June 30, 2016 we had substantially no cash position. Since we initiated our business operations in 2009, our operations have been funded primarily by the private sale of equity and debt to investors and issuance of shares in exchange for services.

The accompanying financial statements have been prepared assuming that the Company will continue as a going concern which contemplates, among other things, the realization of assets and satisfaction of liabilities in the ordinary course of business.

The Company sustained a loss of approximately $48,149 for the three months ended June 30, 2016. Because of the absence of positive cash flows from operations, the Company will require additional funding for continuing the development and marketing of products. These factors raise substantial doubt about the Company's ability to continue as a going concern. The accompanying financial statements do not include any adjustments that might result from the outcome of this uncertainty.

Net cash (used in)/provided by operating activities was insignificant for the three months ended June 30, 2016.

There was not any net cash provided by investing activities for the three months ended June 30, 2016.

We anticipate that our future liquidity requirements will arise from the need to fund our growth from operations, pay current obligations and future capital expenditures. The primary sources of funding for such requirements are expected to be cash generated from operations and raising additional funds from the private sources and/or debt financing. However, we can provide no assurances that we will be able to generate sufficient cash flow from operations and/or obtain additional financing on terms satisfactory to us, if at all, to remain a going concern. Our continuation as a going concern is dependent upon our ability to generate sufficient cash flow to meet our obligations on a timely basis and ultimately to attain profitability. Our Plan of Operation for the next twelve months is to raise capital to continue to expand our operations. Although we are not presently engaged in any capital raising activities, we anticipate that we may engage in one or more private offering of our company's securities after the completion of this offering. We would most likely rely upon the transaction exemptions from registration provided by Regulation D, Rule 506 or conduct another private offering under Section 4(2) of the Securities Act of 1933. See "Note 2 – Going Concern" in our financial statements for additional information as to the possibility that we may not be able to continue as a "going concern."

We are not aware of any demands, commitments, events or uncertainties that will result in or that are reasonably likely to result in material changes to our liquidity.

Capital Resources

We have no material commitments for capital expenditures as of June 30, 2016

Plan of Operation

The plan of operation of the Company for the next twelve months is centered on two main goals. First, the Company currently intends to identify, develop and market multi-faceted, human diagnostic product lines marketed towards both potential professional medical and retail customers. Based upon the Company's recent execution of a Strategic Alliance Agreement with InoHealth Products, Inc., the Company currently markets product lines that pertain to human genetic DNA testing. Aligned with the Company's plan, the Company acquired Stemtide Inc. on July 7, 2012. The Company acquired Stemtide Inc. for their ability to manufacture and market various products that may potentially be developed from revolutionary patent pending formulas for activation of endogenous stem cells for multiple uses including age reversal, follicle growth stimulation, skin repair, and acne formula. The initial product consideration planned is to be the aging product.

The Company currently has limited financial resources available. The Company's continued existence is strongly dependent upon its ability to raise capital and to successfully develop, market and sell its products. The Company plans to raise working capital through equity and/or debt offerings and future profitable operations. However, the Company does not presently have any assurances that such additional capital is, or will be available. There is a limited financial history of operations from which to evaluate our future prospects, including our ability to develop a wide base of customers for our products and services. We may encounter unanticipated problems, expenses and delays in marketing our products and services and securing additional customers. If we are not successful in developing

a broad enough market for our products and services, our ability to generate sufficient revenue to sustain our operations would be adversely affected.

We require additional financing and our inability to raise additional capital on acceptable terms in the future may have a material adverse effect on our business and financial condition.

We do not have sufficient operating capital to fund our operations for the next 12 months and must raise that capital through loans and/or sales of our common stock. There is no guarantee that we will be able to do so. Failure to do so could cause us to have to cut operations and delay development and introduction of our products.

Because we have a limited operating history to evaluate our company and are implementing a new business model, the likelihood of our success must be considered in light of the problems, expenses, difficulties, complications and delay frequently encountered by a new company.

Since we have a limited operating history we cannot assure you that our business will generate revenues or be profitable. Early stage companies often are unsuccessful and encounter unanticipated expenses and difficulties, investors should consider this risk in determining whether to purchase or sell our common stock.

Our current management holds significant control over our common stock and they may be able to control our Company indefinitely.

Our management has significant control over our voting stock that may make it difficult to complete some corporate transactions without their support and may prevent a change in control. Management will have considerable influence over the outcome of all matters submitted to our stockholders for approval, including the election of directors. In addition, this ownership could discourage the acquisition of our common stock by potential investors and could have an anti-takeover effect, possibly depressing the trading price of our common stock.

Item 3. Quantitative and Qualitative Disclosure about Market Risk

Because we are a Smaller Reporting Company, we are not required to provide the information required by this item.

Item 4. Controls and Procedures

(a) Management's Report on Internal Control over Financial Reporting

The management of the Company is responsible for establishing and maintaining adequate internal control over financial reporting. The Company's internal control over financial reporting is a process designed under the supervision of the Company's Chief Executive Officer and Chief Financial Officer to provide reasonable assurance regarding the reliability of financial reporting and the preparation of the Company's financial statements for external purposes in accordance with the U.S. generally accepted accounting principles.

As of June 30, 2016, through the use of external consultants and the review process, management believes that the financial statements and other information presented herewith are materially correct.

The management including its Chief Executive Officer and Chief Financial Officer does not expect that its disclosure controls and procedures, or its internal controls will prevent all error and all fraud. A control system no matter how well conceived and operated, can provide only reasonable not absolute assurance that the objectives of the control system are met. Further, the design of control system must reflect the fact that there are resource constraints, and the benefit of controls must be considered relative to their costs. Because of the inherent limitations in all control systems, no evaluation of controls can provide absolute assurance that all control issues and instances of fraud, if any within the Company have been detected.

Material weaknesses identified by management included: accounting personnel who did not possess adequate understanding of GAAP, which lead to restatements of prior years; inadequate segregation of duties consistent with control objectives and affecting the functions of authorization, recordkeeping, custody of assets, and reconciliation; and, management dominated by a single individual without adequate compensating controls. Additional material weaknesses were: lack of an audit committee and audit committee financial expert; lack of a majority of outside directors on our board of directors, resulting in ineffective oversight in the establishment and monitoring of required internal controls and procedures.

Management's Remediation Initiatives

In an effort to remediate the identified material weaknesses and other deficiencies and enhance our internal controls, we have initiated, or plan to initiate, the following series of measures:

We will create a position to segregate duties consistent with control objectives and will increase our personnel resources and technical accounting expertise within the accounting function when funds are available to us. And, we plan to appoint one or more outside directors to our board of directors who shall be appointed to an audit committee resulting in a fully functioning audit committee who will undertake the oversight in the establishment and monitoring of required internal controls and procedures such as reviewing and approving estimates and assumptions made by management when funds are available to us.

Management believes that the appointment of one or more outside directors, who shall be appointed to a fully functioning audit committee, will remedy the lack of a functioning audit committee and a lack of a majority of outside directors on our Board.

We will work as quickly as possible to implement these initiatives; however, the lack of adequate working capital and positive cash flow from operations will likely slow this implementation.

We have not made any significant changes to our internal controls subsequent to the Evaluation Date. We have not identified any significant deficiencies or material weaknesses or other factors other than those specified above that could significantly affect these controls, and therefore, no corrective action was taken.

PART II – OTHER INFORMATION

Item 1. Legal Proceedings

We may be involved from time to time in ordinary litigation, negotiation and settlement matters that will not have a material effect on our operations or finances. We are not aware of any pending or threatened litigation against us or our officers and directors in their capacity as such that could have a material impact on our operations or finances.

Item 2. Market for Registrant's Common Equity, Related Stockholder Matters and Issuer Purchases of Equity Securities

Market Information

Our common stock is quoted on the OTCBB under the symbol "INOL." The following table sets forth the high and low closing prices for our common stock for each quarter during the last two fiscal years. The prices reported below reflect inter-dealer prices and are without adjustments for retail markups, markdowns or commissions, and may not necessarily represent actual transactions. The closing price of our common stock on June 30, 2016 was $0.0001.

As of June 30, 2016, we had approximately 149 holders of our common stock.

Dividends

Since inception we have not paid any dividends on our common stock. We currently do not anticipate paying any cash dividends in the foreseeable future. Although we intend to retain our earnings, if any, to finance the exploration and growth of our business, our Board of Directors will have the discretion to declare and pay dividends in the future. Payment of dividends in the future will depend upon our earnings, capital requirements, and other factors, that our Board of Directors may deem relevant.

Recent Sales of Unregistered Securities

NONE

Item 3. Mine safety disclosures

Not Applicable

Item 4. Other Information

There is no other information required to be disclosed under this item which was not previously disclosed.

Item 5. Exhibits

3.1	Articles of Incorporation of InoLife Technologies Inc. as amended (the “Company”).

EX-31.1 3 inol_ex311.htm CERTIFICATION

EXHIBIT 31.1

CERTIFICATION OF CHIEF EXECUTIVE OFFICER
PURSUANT TO 18 U.S.C. SECTION 1350,
AS ADOPTED PURSUANT TO SECTION 302 OF
THE SARBANES-OXLEY ACT OF 2002

I, MICHAEL G. WRIGHT, certify that:

1. I have reviewed this quarterly report on Form 10-Q of InoLife Technologies, Inc.;

2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;

3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;

4. The registrant's other certifying officers and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal controls over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:

   a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;

   b) Designed such internal controls over financial reporting, or caused such internal controls over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;

   c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and

   d) Disclosed in this report any change in the registrant's internal controls over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and

5. The registrant's other certifying officers and I have disclosed, based on our most recent evaluation of internal controls over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):

   a) All significant deficiencies and material weaknesses in the design or operation of internal controls over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and

   b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal controls over financial reporting.

EXHIBIT 31.2

CERTIFICATION OF CHIEF FINANCIAL OFFICER
PURSUANT TO 18 U.S.C. SECTION 1350,
AS ADOPTED PURSUANT TO SECTION 302 OF
THE SARBANES-OXLEY ACT OF 2002

I, Kenneth J. Beam, certify that:

1. I have reviewed this quarterly report on Form 10-Q of InoLife Technologies, Inc.;

2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;

3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;

4. The registrant's other certifying officers and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal controls over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:

   a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;

   b) Designed such internal controls over financial reporting, or caused such internal controls over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;

   c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and

   d) Disclosed in this report any change in the registrant's internal controls over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and

5. The registrant's other certifying officers and I have disclosed, based on our most recent evaluation of internal controls over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):

   a) All significant deficiencies and material weaknesses in the design or operation of internal controls over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and

   b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal controls over financial reporting.

EX-32 5 inol_ex32.htm CERTIFICATION

EXHIBIT 32.1

CERTIFICATION PURSUANT TO
18 U.S.C. SECTION 1350,
AS ADOPTED PURSUANT TO
SECTION 906 OF THE SARBANES-OXLEY ACT OF 2002

In connection with this Quarterly Report of InoLife Technologies, Inc. (the "Company") on Form 10-Q for the quarter ending June 30, 2016 and 2015, as filed with the Securities and Exchange Commission on the date hereof (the "Report"), I, Michael G. Wright, Chief Executive Officer of the Company, certify that to my knowledge, pursuant to 18 U.S.C. Sec. 1350, as adopted pursuant to Sec. 906 of the Sarbanes-Oxley Act of 2002, that:

(1) The Report fully complies with the requirements of Section 13(a) or 15(d) of the Securities Exchange Act of 1934; and

(2) The information contained in the Report fairly presents, in all material respects, the financial condition and result of operations of the Company.
