Following this section on General Disclosure Information are the Balance Sheets as December 31, 2015 and March 31, 2015, the Statements of Operation and Statements of Cash Flows for the Nine months ended December 31, 2015 and December 31, 2014, and the Notes to the Financial Statements for those periods.

Description of Issuer's Business, Products and Services

A. Business Operations: The Company has numerous holdings of real estate, but in the final month of this fiscal year began a campaign to acquire operating businesses. In March, 2013, the Company acquired Coscina Brothers Coffee LLC, which roasts and wholesales specialty coffee, as well as pancake and waffle products. In April, 2013, the Company purchased that assets of Rare Cuts, LLC and operates a high quality meat retail operation. During September, 2014, the Company began management of a 128 bed hotel in Hattiesburg, Mississippi, and closed escrow on the purchase of the property in January, 2015. Due to financing complications, the purchase was reversed in May, 2015.

B. Date and State of Incorporation: February 14, 2003 in Delaware

C. Primary and secondary SIC codes: 2095, 1311, 7011, & 6551

D. Fiscal Year End Date: March 31

E. Primary Products and their markets: The coffee, pancake and waffle mixes are primarily distributed throughout Hawaii, but has developed markets in most of the Far East countries. The retail meat store was located in New Orleans, LA (closed effective August 15, 2015), serving mostly that area, but also nationwide sales are obtained via the internet.

Facilities

The coffee operation is based in a warehouse in the Sand Island area of Honolulu, Hawaii. It consists of 5,000 square feet which houses our offices, roasting and packaging equipment and storage areas.

As of the date of this report, our principal corporate office is maintained at 1170 West Causeway Approach, Ste. B, Mandeville, LA. 70471.

Notes to Condensed Financial Statements

December 31, 2015

Note1 Organization and Summary of Significant Accounting Policies

Organization

Orpheum Property, Inc. (the "Company") was organized under the laws of the State of Delaware on February 14, 2003 as Back Channel Investments, Inc. The Company has elected a fiscal year end of March 31st. The Company was originally organized for the purpose of the research and development of tropical plantation plants, to own and sell real and personal property and to sell products. Currently, the Company is involved in the development and renovation of commercial property.

On May 20, 2003, the Company combined with Back Channel Investments, Inc., in a reverse merger pursuant to an Agreement and Plan of Reorganization. Back Channel acquired all the outstanding shares of common stock of the Company in exchange for 7,000,000 shares of Back Channel's common stock. The surviving entity was the Company. Upon completion of the reverse merger, the combined Company was re-capitalized to have 10,000,000 shares outstanding. No change in net book value or goodwill was recognized. Subsequently, in August, 2007, these shares were reduced to 3,333,332 shares through a reverse stock split. The pre-merger financial statements of Orpheum Property, Inc. are now the historical financial statements of the Company.

Seeking to redirect its activities, on June 28, 2010, the Company acquired 129 University Place whose sole asset was the Orpheum Theater with the intention of restoring the historic commercial property. The transaction involved the issuance of 42,260 shares of a new class of Preferred Stock (B) with a par value of $2.00 per share and convertible into 2,000 shares of common stock for each share of preferred. The purchase price of the property was $6,172,360 with the Company assuming an existing liability on the property of $2,698,360 and an obligation to issue Company stock valued at $3,474,000. In June, 2013, the company settled with debenture holders and the property was returned to their ownership.

Having established a foundation of several real estate properties, the Company again redirected their focus on investing in established business operations. In March, 2013, the Company reacquired Coscina Brothers Coffee, LLC, whose operations include wholesale coffee, pancake and waffle sales. Its operations include Hawaii, the U.S. mainland, and several Far East countries. In April, 2013, the Company also invested in Rare Cuts Gourmet Foods, LLC, a purveyor of prime meat products.

Basis of Presentation

The accompanying unaudited financial statements of the Company have been prepared in accordance with accounting principles generally accepted in the United States of America and the rules of the Security and Exchange Commission ("SEC"), and should be read in conjunction with the audited financial statements and notes thereto contained in the Company's Annual Report filed with the SEC on Form 10K (for the annual period ended March 31, 2012). In the opinion of management all adjustments (which include normal recurring adjustments) necessary to present fairly the financial position and the results of operations and cash flows presented have been reflected herein.

Certain information and footnote disclosures normally included in financial statements prepared in accordance with generally accepted accounting principles have been condensed or omitted. It is suggested that these condensed financial statements be read in conjunction with the financial statements and notes thereto included in the Company's March 31, 2012 audited financial statements.

Income Taxes
The Company applies the provisions of FASB ASC Topic 740, *Income Taxes*. Topic 740 requires an asset and liability approach for financial accounting and reporting for income taxes, and the recognition of deferred tax assets and liabilities for the temporary differences between the financial reporting basis and tax basis of the Company's assets and liabilities at enacted tax rates expected to be in effect when such amounts are realized or settled. Due to a loss from inception, the Company has no tax liability. Deferred income tax assets and liabilities are reflected at currently enacted income tax rates applicable to the period in which the deferred tax assets and liabilities are expected to be realized or settled. As changes in tax laws or rates are enacted, deferred tax assets and liabilities are adjusted through the provision for income taxes.

Use of Estimates in Preparation of Financial Statements
The preparation of financial statements in conformity with Accounting Principles Generally Accepted in the United States requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

Basic Loss per Common Share
The Company computes basic loss per common share in accordance with FASB ASC Topic 260-10, *Earnings Per Share*. Net loss is divided by the weighted-average number of common shares outstanding during the period. Diluted earnings per share is computed using weighted average number of common shares plus dilutive common shares equivalents outstanding during the period using the treasury stock method. Because the Company incurred losses for the years ended March 31, 2015 and 2014, the effect of any equivalent shares for each period would be excluded from the loss per share computation since the impact would be antidilutive. There were no common stock equivalents outstanding as March 31, 2015 and 2014.

Revenue Recognition
Revenues of the Company are recognized as earned in accordance with the nature of the income as it occurs. Anticipated revenues in future periods is expected from sales at the coffee company, operating income from commercial properties invested into, and gains from the sale of properties that may be purchased. Revenues will not be recognized until such time as the service has been completed or escrows have closed.

Property and Equipment
Property and equipment are stated at cost. Depreciation is provided using the straight-line method over the useful lives of the related assets. Expenditures for maintenance and repairs are charged to expenses as incurred.

Impairment of Long-lived Assets
Long-lived tangible assets, including property, plant and equipment, and finite-lived intangible assets are reviewed for impairment whenever events or changes in circumstances indicate that the book value of the asset or asset groups may not be recoverable. The Company evaluates, regularly, whether events and circumstances have occurred that indicate possible impairment and relies on a number of factors, including operating results, business plans, economic projections, and anticipated future cash flows. The Company uses an estimate of the future undiscounted net cash flows of the related asset or asset group over the remaining life in measuring whether the assets are recoverable. Measurement of the amount of impairment, if any, is based upon the difference between the asset's carrying value and estimated fair value.

Cash and Cash Equivalents
For purposes of the statement of cash flows, the Company considers all highly liquid investments purchased with a maturity of Six months or less to be cash equivalents.

Note 2 Going Concern,

The Company has limited operating capital with limited revenue from operations. Realization of a major portion of the assets is dependent upon the Company's ability to meet its future financing requirements, and the success of future

operations. These factors raise substantial doubt about the Company's ability to continue as a going concern. The financial statements do not include any adjustment that might result from the outcome of this uncertainty.

The Company is developing its operations from renovated theater property and from purchase/development of other commercial properties. The Company is planning on obtaining additional funds through equity financing. Should the Company fail to acquire these funds, expanding operations will be limited. Management has agreed to advance additional funds to cover the Company's current operations. If the Company is unsuccessful in these efforts and cannot attain sufficient cash flows to permit profitable operations or if it cannot obtain a source of funding or investment, it may substantially curtail or terminate its operations. On March 19, 2013, the Company acquired Coscina Brothers Coffee Company, LLC, with operations in Honolulu, Hawaii, and on April 19, 2013, the Company acquired the assets of Rare Cuts, LLC with operations in New Orleans, LA. Revenues reflected in this statement included revenue and costs associated with those operations. In September, 2014, the Company assumed management operations of a hotel in Hattiesburg, MS, which the Company closed escrow on in early 2015.

Note 3 Investment in Unimproved Properties

On June 10, 2011, the Company purchased undeveloped property in Arkansas for $19,200 by issuing 80,000 shares of common stock.

On July 26, 2011, the Company issued 14,596,153 shares of common stock for the purchase of two undeveloped land parcels appraised at $3,795,000 located in California and Nevada.

On November14, 2011, the Company issued 1,066,667 shares of common stock for the purchase of ten (10) undeveloped land parcels in Hot Springs, Arkansas. Total purchase price, including closing costs was $164,878.

Note 4 Business Purchases

On March 19, 2013, the Company acquired a 100% interest in Coscina Brothers Coffee, LLC with the issuance of 26,666,667 shares of common stock valued at $0.10 per share. Coscina Brothers Coffee, LLC roasts and wholesales specialty coffee, pancake and waffle mixes throughout the state of Hawaii and many Asian countries in the Far East. The sellers were Rampant Leon Financial Corporation, a related company partially owned by our formerChairman of the Board Andrew Reid and our former Chief Financial Officer, Tyrus Young. As part of the purchase arrangement the Company assumed a promissory note in the amount of $31,507 due from the purchase of Coscina Brothers Coffee, LLC from its original owner which has been satisfied in full.

On March 26, 2013, the Company acquired a 100% interest in NOLA Body Care, LLC with the issuance of 450,000 shares of common stock valued at $0.10 per share. NOLA Body Care, LLC manufactured a limited number of soaps and body lotions in the New Orleans area. Due to a lack of personnel that remained with the operation, we closed the operation and impaired the assets at March 31, 2013.

On April 19, 2013, the Company acquired the assets of Rare Cuts, LLC, and placed them into a 100% Company owned subsidiary named Rare Cuts Gourmet Foods, LLC. Rare Cuts Gourmet Foods, LLC, retails gourmet food products, primarily prime meat products. They also offer private fine dining experiences for groups of 6 to 30 persons. The sale of the location of the retail store by a developer necessitated the moving of operations in September, 2014. Due to the loss of key personnel and lagging sales, the retail operation was closed effective August, 2015. We are in the process of disposing of the assets and settling claims against the business, and, as such have not removed the assets or investment into the business until finalization.

Note 5 Preferred Stock

On September 29, 2015, the Company authorized 2,666,600 shares of its common stock to three consultants who were providing services to the company.

Note 7 Stock To Be Issued

At December 31, 2015, the Company had the following commitments to issue Common Stock:

Shares valued at $2,000 are due to a cash investor at December 31, 2015.

On April 1, 2013, the Company chose not to renew the consulting contract with its former CEO, Morris Kahn. As part of the severance arrangement, he was offered 7,500,000 shares of Company stock. As of the report date, these shares had not been issued.

Note 8 Stock To Be Cancelled

As part of the severance agreement with our former CEO, the Company returned the tax consulting contracts that had been sold to the Company for stock, as well as, return of ownership of the French Quarter Park building. Per the agreement, Mr. Kahn returned 35,000,000 shares of common stock. As of the report date, these shares have not been cancelled by the transfer agent.

Note 9 Related Party Transactions

As described in Note 6, the Company issued 10,000,000 shares of common stock to its' then CEO Tyrus Young (2014) and 20,000,000 shares of common stock to its' current CEO Jeff Montalbano (2015).

As of December 31, 2015, the Company had repaid all outstanding advances by a related party owned by several of the Company's shareholders.

During the quarter ended December 31, 2015, current and former officers of the Company advanced $35,996 to the Company to meet operating expenses.

Note 10 Lawsuits Against the Company

The Company, as of this Balance Sheet date, has three pending legal actions against it:

A lawsuit claiming damages of about $650,000 has been filed by Montgomery Financial in relation to a guarantee offered by the Company to indemnify a related party owned by three major shareholders for equipment financed. A partial judgement was awarded to Montgomery Financial prior to the Company being notified of the action. The Company has challenged the ruling and is defending itself on several legal points.

A lawsuit was initiated against the Company by a former counsel for unpaid fees of $60,000. The Company is negotiating with the firm and believes that the matter can be resolved without further legal proceedings.

A lawsuit against former officers of the Company also named the Company as a liable party for unspecified damages caused by the former officers. The lawsuit was initiated by the trustee for the bankruptcy of a company owned and managed by one of those officers and alleged fraudulent activity. The connection to the Company involved our acquisition of Rare Cuts, LLC, however, the alleged fraudulent activity occurred prior to our acquisition of that entity and the Company was not involved in any manner to the activity that was questioned. Our counsel is working to have us removed as one of the defendants in the case.

Note11 Significant Concentration of Credit Risk

The Company has a significant concentration of activities currently in commercial real estate primarily in the City of New Orleans. Any natural disasters or acts of vandalism or terrorism could prove detrimental to the holdings of the Company. During and subsequent to the nine months ended March 31, 2014, the Company has continued to diversify its geographic locations to other areas of the country.

Note12 Subsequent Events

In accordance with FASB ASC Topic 855, Subsequent Events, the Company evaluates events and transactions that occur after the balance sheet date for potential recognition in the financial statements. The effects of all subsequent events that provide additional evidence of conditions that existed at the balance sheet date are recognized in the financial statements as of March 31, 2015 and December 31, 2015. In preparing these financial statements, the Company evaluated the events and transactions that occurred through the date these financial statements were issued.

ITEM 2 MANAGEMENT'S DISCUSSION AND ANALYSIS OF RESULTS OF OPERATIONS AND FINANCIAL CONDITION

Forward looking information

Information included in this report includes forward looking statements, which can be identified by the use of forward-looking terminology such as may, will, expect, anticipate, believe, estimate, or continue, or the negative thereof or other variations thereon or comparable terminology. The disclaimers in this report constitute cautionary statements identifying important factors, including risks and uncertainties, relating to the forward-looking statements that could cause actual results to differ materially from those reflected in the forward-looking statements.

Our future operating results are subject to many factors, including:

- Our ability to raise finance to renovate the Orpheum Theater and pay the monthly mortgage interest due on the property
- Our ability to restore the Orpheum Theater and successfully reopen it as an entertainment venue
- Our ability to identify, close and finance other suitable property acquisitions
- Our ability to identify and manage suitable contactors and specialist advisers to assist in the development of our property portfolio
- The general economic climate as well as that specific to the New Orleans region
- Fluctuation in the prices of commercial real estate in New Orleans
- Other risks currently unknown but which could arise in the future

In some cases, you can identify forward-looking statements by terminology such as "may," "should," "could," "predict," "potential," "continue," "expect," "anticipate," "future," "intend," "plan," "believe," "estimate" and similar expressions (or the negative of such expressions). Any or all of our forward looking statements in this report and in any other public statements we make may turn out to be wrong. They can be affected by inaccurate assumptions we might make or by known or unknown risks and uncertainties. Consequently, no forward looking statement can be guaranteed. In addition, we undertake no responsibility to update any forward-looking statement to reflect events or circumstances which occur after the date of this report.

Change in Business Emphasis

On June 28, 2010, we acquired 129 University Place LLC, which owns the Orpheum Theater located in the New Orleans central business district. The purchase price was 42,260 shares of Series B Preferred Stock. The Series B Preferred Stock was convertible into 84,520,000 (pre-split) shares of common stock. We obtained 100% ownership and voting interest in 129 University Place LLC, and the Orpheum Theater is the sole asset of 129 University Place LLC. The Orpheum Theater is listed in the National Register of Historic Places. The Company intends to refurbish this historic venue to repair damage caused by Hurricane Katrina.

129 University Place LLC had recently purchased the Orpheum Theatre with the assumption of a mortgage lien of $2,698,360 on that same property and a commitment to provide stock valued at $3,474,000 to the prior owners. The stock to be issued was to be from a publicly traded company, which is now identified as Orpheum Property, Inc. The Company has included this asset in its books at its cost basis of $6,172,360. The Company plans to renovate the Orpheum Theater.

On June 30, 2010, the Company developed a strategic plan to dispose of its existing loss generating coffee subsidiaries, Coscina Brothers Coffee, LLC and Integrated Coffee Technologies Inc., and focus on building a quality portfolio of property assets. The plan is to hold these property assets for development and investment purposes with a view to them becoming income producing assets. Opportunities to sell these assets will be considered as

well. The Orpheum Theater was the first property acquisition in line with this strategy. A number of other property acquisitions are currently being reviewed by the Directors for their suitability in accordance with this strategy.

On June 30, 2010, the Company sold Coscina Brothers Coffee, LLC and Integrated Coffee Technologies Inc. to entities controlled by former officers and directors of the Company. In accordance with ASC 205-20, the Company has classified all results from operations of its former coffee business into discontinued operations line items within the Company's statements of operations and statements of cash flow.

On October 22, 2010, the Company changed its name from Pacific Land & Coffee Corporation.

On March 19, 2013, the Company reacquired a much improved Coscina Brothers Coffee, LLC operation. This was a change in Company direction to focus on operating entities that generate revenues on an on-going basis.

On April 19, 2013, the Company acquired the assets of Rare Cuts, LLC. The company offers high quality meat products.

While the Company's balance sheet has been considerably improved as a result of the strategic decisions referred to above, the Company still has limited working capital and no certain means of access to additional capital. Our activities to date have been limited to the acquisition of the Coscina Brothers Coffee, and subsequent business operations, development of a business plan which includes acquisition of business operations, as well as seeking additional capital.

Land Acquisitions

On July 26, 2011, the Company acquired 42.9 acres of vacant land in Tehachapi, California. The purchase price for this property was $795,000, which was paid in shares of Orpheum common stock. On the same day, the Company acquired 5.48 acres of vacant land in Pampa, Nevada. The purchase price for the land was $3,000,000, which was paid in shares of Orpheum common stock. The acquisition of the vacant land has expanded the Company's business focus to real estate development as well as the refurbishing of the Orpheum Theater.

On November 9, 2011, the Company purchased ten (10) vacant residential lots located in Hot Springs, Arkansas. The purchase price and closing costs of $164,878 were paid though an issuance of common stock.

Critical Accounting Policies

Our discussion and analysis of results of operations and financial condition are based upon our financial statements, which have been prepared in accordance with accounting principles generally accepted in the United States of America. The preparation of these financial statements requires us to make estimates and judgments that affect the reported amounts of assets, liabilities, revenues and expenses, and related disclosure of contingent assets and liabilities. We evaluate our estimates on an ongoing basis, including those related to provisions for uncollectible accounts receivable, inventories, valuation of intangible assets and contingencies and litigation. We base our estimates on historical experience and on various other assumptions that are believed to be reasonable under the circumstances, the results of which form the basis for making judgments about the carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates under different assumptions or conditions. The accounting policies that we follow conform to accounting principles generally accepted in the United States, and have been consistently applied in the preparation of the financial statements.

Off-Balance Sheet Arrangements

We have no off balance sheet arrangements.

Revenue Recognition

The Company recognizes revenues in accordance with the Securities and Exchange Commission, Staff Accounting Bulletin (SAB) number 104, *Revenue Recognition*. SAB 104 clarifies application of U.S. generally accepted accounting principles to revenue transactions.

RESULTS OF OPERATIONS

We incurred an operating net loss of $104,045 and $1,879,656 for the three and nine months ended December 31, 2015, which included $-0- and $1,340,046, respectively, of consulting fees paid with stock, versus operating net losses of $207,660 and $2,583,592, for the three and nine months ended December 31, 2014, which included consulting fees of $2,218,796 paid with stock for the nine months then ended. We are uncertain as to the certainty of positive net income in the immediate future. Net cash used by operations were $(91,333) and $(338,223) for the three and nine months ended December 31, 2015, respectively, versus $(41,922) and $(245,868) for the three and nine months ended December, 2014, respectively. These conditions create an uncertainty as to our ability to continue as a going concern.

For the three and nine months ended December 31, 2015, the Company recorded loan interest and fees of $4,017 and $235,325, respectively, of which $222,977 is accrued as payable to TCA. Some of these fees dated back to FY2014, but were uncertain in amount as of the date of the March 31, 2015 report.

During the nine months ended December 31, 2015, the Company recorded a loss of $10,428 on equipment and leasehold improvements associated with the Lakeside extension of Rare Cuts. The store proved unprofitable and was closed during April, 2015.

LIQUIDITY AND CAPITAL RESOURCES

The Company funds its expenditures from loans or cash contributions from a related party that controls a significant portion of the stock of the Company. The Company will be seeking outside funding for some projects while attracting investors to purchase equity interests in order to maintain operations for the foreseeable future.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK.

As a "smaller reporting company" as defined by Item 10 of Regulation S-K, the Company is not required to provide information required by this Item.

ITEM 4. CONTROLS AND PROCEDURES.

The Company's principal executive officer and its principal financial officer, carried out an evaluation of the Company's disclosure controls and procedures (as defined in Exchange Act Rules 13a-14(c) and 15d -14 (c) as of December 31, 2015. As a result of this evaluation, they concluded that our disclosure controls and procedures were not effective. Specifically, our disclosure controls and procedures were not effective to enable us to accurately record, process, summarize and report certain information required to be include in the Company’s periodic SEC filings within the required time periods, and to accumulate and communicate to our management, including the Chief Executive Officer and Chief Financial Officer, to allow timely decisions regarding required disclosure.

Our management, including our chief executive officer and chief financial officer, does not expect that our disclosure controls and procedures or our internal controls will prevent all error and all fraud. A control system, no matter how well conceived and operated, can provide only reasonable, not absolute, assurance that the objectives of the control system are met. Further, the design of a control system must reflect the fact that there are resource constraints and the benefits of controls must be considered relative to their costs. Due to the inherent limitations in all control systems, no evaluation of controls can provide absolute assurance that all control issues and instances of fraud, if any, within the Company have been detected.

Changes in internal controls.

There were no significant changes in the Company's internal controls or in other factors that could significantly affect the Company's internal controls subsequent to the date of their evaluation.
