NOTE 1 – NATURE OF BUSINESS AND BASIS OF PRESENTATION

Syndication, Inc. ("Syndication" and the "Company") was incorporated under the laws of the State of Delaware on March 25, 1999. Its efforts have been principally devoted to acquire controlling interest in or to participate in the creation of, and to provide financial management, and technical support to development stage business, e-commerce businesses and traditional brick and mortar businesses.

The accompanying un-audited financial statements have been prepared by the Company in accordance with the instructions to Form 10-QSB and pursuant to the rules and regulations of the Securities and Exchange Commission.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Accounting Basis
The Company uses the accrual basis of accounting and accounting principles generally accepted in the United States of America ("GAAP" accounting). The Company has adopted a December 31 fiscal year end.

Use of Estimates
The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date the financial statements and the reported amount of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Cash and Cash Equivalents
For purposes of the statement of cash flows, the Company considers highly liquid financial instruments purchased with a maturity of three months or less to be cash equivalents

Revenue Recognition
The Company recognize revenues when products are fully delivered or services have been provided and collection is reasonably assured.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Loss Per Common Share
Basic loss per share is calculated using the weighted-average number of common shares outstanding during each reporting period. Diluted loss per share includes potentially dilutive securities such as outstanding options and warrants, using various methods such as the treasury stock or modified treasury stock method in the determination of dilutive shares outstanding during each reporting period. The Company does not have any potentially dilutive instruments.

Income Taxes
Income taxes are computed using the asset and liability method. Under the asset and liability method, deferred income tax assets and liabilities are determined based on the differences between the financial reporting and tax bases of assets and liabilities and are measured using the currently enacted tax rates and laws. A valuation allowance is provided for the amount of deferred tax assets that, based on available evidence, are not expected to be realized. It is the Company's policy to classify interest and penalties on income taxes as interest expense or penalties expense. As of March 31, 2016, there have been no interest or penalties incurred on income taxes.

Stock-Based Compensation

Stock-based compensation is accounted for at fair value in accordance with ASC Topic 718. To date, the Company has not adopted a stock option plan and has not granted any stock options.

During the year ended December 31, 2015, the Company issued 1,600,000 Class B Preferred shares to its CEO for services.

Property and equipment

Property and equipment is recorded at cost. Major additions and improvements are capitalized. The cost and related accumulated depreciation of equipment retired or sold are removed from the accounts and any differences between the undepreciated amount and the proceeds from the sale are recorded as gain or loss on sale of equipment. Depreciation is computed using the straight-line method over a period of five years.

NOTE 3 – INTELLECTUAL PROPERTY

On February 24th, 2015 the Board approved the acquisition of "Day TradeXchange" and the proprietary futures trading software and target indicator "ARCHER". The purchase agreement called for the initial transfer of 20% of Syndication Inc. with incremental increases based on time that grant an additional 27.5%, in exchange for 100% control of Day TradeXchange (DTX), and the software design and APP engineering rights to the Futures Trading Indicator software known as " Archer". The Company issued 400,000 shares of Preferred B shares with par value of $ 2.50 to fulfill its obligations under the purchase agreement.

NOTE 4 – CONVERTIBLE DEBENTURE

On December 30, 2005 Syndication, in order to obtain alternative funding for its ongoing operations of the Company, entered into a Termination Agreement with Cornell Capital Partners pursuant to which the Standby Equity Distribution Agreement entered between the Company and the Investor dated June 30, 2004 was terminated. To that end, on December 30, 2005, the company then executed a Securities Purchase Agreement (the Agreement) for the sale of (i) $ 1,150,000 in secured convertible debentures and (ii) stock purchase warrants to buy 120,000,000 shares of our common stock. As of December 31, 2009, the company converted $ 622,835 of its debenture to equity reducing the outstanding debenture balance from $ 1,150,000 to $ 527,165.

N*OTE 4a – STATUS of CONVERTIBLE DEBT LENDER, referenced in Note 4; *SEE NOTE 16 & NOTE 21 FOR UPDATED BOARD ACTIONS;

The Institutional Lender of the Convertible Debenture referred to in NOTE 4 above, has been dissolved as a business and has not made cry for payment against the outstanding balance on the Note for a period greater than 7 years and all stock purchase warrants have expired. Too, the Company has never received a "Notification of Assignment". As such, it was the Board's decision to keep the debt on the books but, request an auditors opinion letter writing off the debt as part of the audit process required for the upgrading the Company's exchange listing.

NOTE 5 – SATISFIED NOTES PAYABLE;

On February 6, 2014, the Company issued a promissory note payable in the amount of $ 25,000. The balance of the note, plus interest and financing fees of $ 25,000 is due on June 7, 2014. This note has been satisfied.

On March 13, 2014, the Company issued a promissory note payable in the amount of $ 25,000. The balance of the note, plus interest and financing fees of $ 25,000 is due on June 7, 2014. This note has been satisfied.

7c; Day TradeXchange; Futures Trading Room; www.daytradexchange.com

The Day TradeXchange trade room and marketing platform was rolled out in phases beginning in mid-May 2015. Phase 1 opened to the public the DTX live futures trading room featuring the "ARCHER" trading program. Hosted daily by professional traders, the DTX trading room broadcast live trade calls and instructional seminars for DTX subscription members.

DISCLAIMER NOTICE; ***DTX is not a broker/dealer and does not control or invest other persons capital. It functions as an educational platform and receives no commission remuneration. All persons participating in the trade room execute their own trades and are solely responsible their results.***

7d; "ARCHER" Futures Trading Software Property;

"ARCHER", is a proprietary trading software referred to by DTX futures traders as a "forecasting indicator". It's uniquely designed to detect and alert the trader of "pending order" accumulations at specific market prices. "Pending orders" are trades in waiting that are executed at some time in the future provided that the market returns to the target price. When market conditions produce repeating identifiable trading patterns called trading ranges, it attracts increased numbers of traders that will attempt to take advantage of the pattern predictability by "parking" their buy or sell orders in front of the pattern. This causes the "pending orders" to accumulate while waiting for the market to return and trigger their execution. ARCHER monitors the accumulation of these "parked orders" and uses the data to predict potential volume surges in trade execution that may strongly influence the future price movement of the market. Today's trading indicators attempt to predict future price movement based on historical trade data, (trades that have already happened). ARCHER predicts price movement based on trading activity that **is about** to happen, ("pending orders). Linked directly to the Chicago Mercantile and Commodities Option Exchanges (CME, CBOT and

CBOE), ARCHER is uniquely designed to recognize buildups of "pending orders" that could produce volume surges with the potential of influencing price movement in either a short or long direction. ARCHER signals the trader in advance allowing them to profit by placing their order ahead of the forecasted volume surge and subsequent price movement.

7e; CTO, Chief Trading Officer; Dale Kazdan, 54;

On February 24th, 2015 the Board appointed Dale Kazdan as our Chief Trading Officer and senior software engineer. Mr. Kazdan is a veteran futures trader of 15 years and the principle software engineer and designer of ARCHER. Throughout his career Mr. Kazdan has worked in cooberation with Chicago based Futures and Securities firms in the engineering, coding and development of various professional trading software systems. The ARCHER system is the culmination of years of futures trading experience and trading program software design.

NOTE 8 – MELTWATER; May 7th, 2015

On May 7th, 2015, the Company retained Meltwater. A media intelligence marketing company specializing in the use of multi-source social and hard content news data to analyze and shape targeted marketing profiles for the purpose of product introduction and sales. Meltwater will construct a multi-media marketing program to introduce the Day TradeXchange and the ARCHER trading program to the international world of day traders and provide continual comprehensive performance analysis.

NOTE 9; NINJA TRADER; International Distribution Agreement; July 15th, 2015;

On July 15th, 2015, the Board voted to approve a marketing and product distribution agreement for its "ARHCER" trading software and Day TradeXchange trade room membership subscription sales with NINJA TRADER. The company notes that NINJA TRADER is one of the largest internationally known day trading platform provider and broker dealer in today's global futures trading market with more than 50 thousand currently active day trading user/subscribers. The BOD approved both the agreement and launch date of the product distribution and marketing campaign. Under the terms of the proposed agreement NINJA TRADER will provide among other commitments, vendor license interface distribution controls for our "ARCHER" software sales including free trials and expiration date payment management, code obfuscation to protect DTX intellectual property and prevent reverse engineering, new partner launch marketing, coordinated press releases both public press and existing network subscribers, direct e-mail campaign, with announcements on twitter, Facebook and Stockwits, sponsored webinar events, rotational banner advertisement, you tube and social media marketing, logo sharing on print and electronic platforms, and revenue sharing. The company reported that this is just one of a number relationships being completed but, foresees great potential in the NINJA TRADER affiliation. It's got scale, credibility and hits the company's target market point blank. The Company indicated that news on the scheduling of the Board's vote on the NINJA TRADER partnership is pending and will be released accordingly.

On July 20th, 2015, as an initial step the CEO requested that the BOD of Syndication authorize him to take the necessary steps to rescind 250 million issued and outstanding shares of the Company's Common Stock to the Treasury. The stock rescission was scheduled and recognized on the last business day of the 3rd Quarter; Wednesday, September 30th, 2015. ***Last 5 Quarters Ending September 30th; 2016; Total I&O reduction; -600,000,000;***

NOTE 11; Increase of Market Valuation on "ARCHER" software; August 1st, 2015; *SEE NOTE 16 & NOTE 21 FOR UPDATED BOARD ACTIONS;*

On August 1st, 2015 the BOD called for the Company's independent accountants to increase to $5 Million from the initial $1 Million equity valuation on the Company's ARCHER Trading Software reported on SYNJ's 1st Quarter 2015 Financial Statement, (balance sheet). The Company's outside accountants initially agreed to a $1 Million valuation on ARCHER with the caveat that it would consider valuation increases based on benchmark development achievements and sales performance. The BOD made prey for a $4 Million valuation increase based on the NINJATRADER product distribution and marketing agreement executed earlier in the 2nd Quarter 2015. The BOD anticipates a warm reception to its request opining that the upward adjustment if successful, should be reflected in the Company's 4th, Quarter 2015 Financial Filing.

The BOD noted that the $5 Million valuation and Buy Back initiatives are important to our long term goal of upgrading the Company's listing to the NADAQ or NYSE, MKT Exchanges (formally referred to as the NYSE Alternext Exchange). These strategies are designed to gain the equity leverage and stock price levels required to meet the qualification standards of either exchange. It's anticipated that these actions added with a revenue dimension to the overall financial picture of the Company, should justify an increase in the market valuation of ARCHER and have a subsequent positive affect on the stock price.

NOTE 12; GLOBAL FUTURES; 2nd Marketing and Networking Agreement; August 4th, 2015;

On August 4th, 2015, the CEO received a board vote approving a 2nd Marketing and Network Agreement with the international Broker/Dealer "Global Futures" for its "ARHCER" trading software and Day TradeXchange trade room membership subscription sales. The company notes that Global Futures is an internationally known full service and day trading broker dealer with more than 35 thousand currently active trading brokerage accounts. The Company noted that ARCHER is quickly being recognized as one of the most advanced forecasting trade indicators available to non-institutional day traders today. Investors interested in the stock of the Company should not overlook the potential impact of

ARCHER's ability to use an effortless and seemliness "point and click" delivery and distribution system to generate sales. The indicator is software that requires no production facility, no shipping or handling, and is accessible by simply clicking the icon on the trading platform currently being used by the day trader. Billing is automatic and can be handled as an add-on feature through the normal monthly billing cycle of the broker dealer or trading platform being used by the trader.

12a; SOFT MEDIA NEWS ANNOUNCMENT; COMPETITOR CLIENTS; August 4th, 2015;

On August 4th, 2015 the Board approved the CEO's request for the acceptance of Global Capital Futures / Broker Dealer, as an additional Marketing and Network Partner. As noted above GF is an internationally known full service and day trading broker dealer with more than 35 thousand currently active trading brokerage accounts. However, the BOD notes that NINJA TRADER has recently expanded its business model of being an exclusive futures trading platform provider to becoming a licensed Broker Dealer in complement. This act although, celebrated by ourselves and NT also established NT as a direct competitor of Global Futures and brought to the forefront an issue that we at Syndication expect to become typical in prospect but, more importantly relevant to our marketing and news release strategy. It is our intent to market ARCHER on every major national and international trading platform on the globe including Scottrade, TD Ameritrade, Trade Station, Option House, Trade King, and all other nationally and internationally recognized essential day trading platforms. Forced to recognize that each is a direct competitor of the other, as a BOD, we immediately passed resolutions to limit and or soften all national and or international news releases related to our company platform provider clients.

NOTE 13; Initial Sales; Thursday, September 17th, 2015;

The Company noted that the first sales campaign of ARCHER was launched with only 9 business days remaining in the 3rd Quarter of 2015. Also, the company allows an initial 3 day trial before requiring a subscription commitment which is often extended in order to allow the prospective buyer a complete understanding of the ARCHER program. A hallmark element of the DTX confidence in the ARCHER software and sales posture. As such, no material sales were experienced before the end of the 3rd Quarter 2015. However, the board will take this opportunity to confirm that it has generated both room subscription and product lease sales that will be reported on the 2015 yearend financial filing.

NOTE 14; $3 MILLION LOI FOR ARCHER HEDGE FUND; October 29th, 2015;

On October. 29, 2015 -- Syndication Inc., reported that the company had executed contracts with Northland Capital LLC. (a private investment company), to seed capitalize the first phase of a long term financing plan designed to launch the "ARCHER FUND."

Originally designed to run as an automatic high speed trading program designed to manage the exit and entry feathering maneuvers of potential price impacting portfolio positions, the Company deployed ARCHER as a day trading program in a modified version to capture the interest of a

massive international day trading market. The BOD determined that introducing ARCHER in this strategy would be the most expeditious and cost effective way to reach 10's of millions of financially involved persons whom would experience capital return success that until ARCHER, had been elusive to individuals but, typical to institutional investors.

The Company indicated that terms of the agreement require audited financial statements and the upgrading of the company's exchange listing to a NASDAQ or NYSE MKT, Exchange.

NOTE 15; BOD AUTHORIZES CEO TO INTERVIEW NASDAQ QUALIFIED AUDITING FIRMS; Nov, 4th, 2015;

On November 4th, 2015 the BOD approved requests by the CEO to begin the process of interviewing for the purpose of retaining a qualified NASDAQ accounting firm. The two primary considerations were i) their ability to issue a NASDAQ and/or NYSE, MKT qualified auditors "Opinion Letter" and ii) modify its annual cost related to a percentage of the Company's annual forecasted revenue projections.

NOTE 16; Board Holds Request on ARCHER Valuation Upgrade Request; February 7th, 2016; *SEE NOTE 21 FOR UPDATED BOARD ACTIONS;*

On February 7th, 2016 in anticipation of significant revenue growth the Board passed a resolution to hold until the 2nd Quarter filing, its request for a $4,000,000 upgrade valuation of its ARCHER software. The BOD sited encouraging sales growth and the start of a new sales and marketing distribution agreement referred to in Note 19c as bases for its decision.

NOTE 17; Board Raises ARCHER Software Purchase Price; Ends Introduction Discount; March, 1st, 2016;

On March 1st, 2016 the BOD ended its introduction discount price for the Live Trade Room access and for the lease of the ARCHER software. The pricing was raised from $199.00 per month with a 1 month minimum to $997.00 with a mandatory 3 month commitment. The Board intends to review the pricing strategy on a quarterly bases.

NOTE 18; ARCHER Goes to College; TRADE BY THE NUMBERS; March 8th, 2016;

March 8th, 2016 the Company answers a growing trend in Universities offering Business Majors. DTX introduces the ARCHER, "TRADE BY THE NUMBERS" trading lab to colleges across the country. The business model calls for the institution to offer the student, the college version of the ARCHER trading program titled "Trade by the Numbers", as an accredited lab. The subscription for the ARCHER, Trade by the Numbers Lab will be paid for through the college as part of their normal tuition fees. The subscription expires at the end of the semester but, students initially registering through their college can extend their subscription privately on a life time student discount subscription plan. Business labs have been a standard part of the required curriculum at Colleges and Universities for many years but, growing competition to attract tuition paying

students has triggered a movement toward expanding available lab options with more exciting real world lab choices. Day Trading labs are popping up on campuses all around the country. The wave of popularity among college students looking to meet their lab requirements and the rising cost of tuition, has been recognized by college administrators as a win-win for both the University and the student. For the student looking to gain a little extra income the "TRADE by the NUMBERS" Lab allows the student to put their skills to work immediately rather than waiting to enter the job market after graduating.

The CEO requested BOD approval to begin staffing for the implementation of the new "Trade By the Numbers" program during the 2nd Quarter of 2016.

NOTE 19; -600 MM Total Accumulated Share Reduction Result of Buy Back & Rescission Program; I&O; September 30th, 2016.

NOTE 20; 100% Client Rebate on "ARCHER" Software Purchase Price; April 9th, 2016;

On April 9th, 2016, the CEO asked the board for a vote approving the 4th and largest to date, marketing and network distribution agreement for its "ARHCER" trading software and Day TradeXchange trade room membership subscription sales. Included in the terms, the new partner agrees to provide a 100% rebate of the purchase price of our "ARCHER" software paid by our DTX subscribers that use their trading platform. Our new partner has agreed to provide DTX subscribers a 20% discount credit on all commissions generated by our DTX clients up to the amount of the purchase price of our ARCHER software. The company notes that the proposed partner is an internationally known day trading platform provider and broker dealer with more than 250,000 currently active day trading user/subscribers.

NOTE 21; $3 MM INCREASED STOCKHOLDERS EQUITY; MAY 4th, 2016; Updated reference to NOTE 4 & 4a;

May 4th, 2016 the Board moved on the CEO's request for a $2.5 Million independent accountant upgrade on its ARCHER Intellectual Property, increasing the valuation from $1 Million to $3.5 Million coupled with a right down of over $500K of convertible debt referred to in NOTE 4 of the Companies 1st, Quarter 2016 Financial Statements. The Company stated that the combination of the two accounting adjustments should bring our Shareholders Equity up to $4 Million meeting the NYSE MKT, (previously known as Alternext), Tier 2 Exchange listing "Shareholders Equity" threshold qualification. The Company noted that the original $5 Million dollar valuation of its ARCHER Intellectual Property was haircut to $1 million by its outside accountants with the caveat of an increase in the valuation provided that the company began to generate sales of the software. A condition, which according to this and the 2015 yearend financial filing, was satisfied. The BOD commented further that it expects to gain an additional $500K in equity as a result

of the write down of debt held on the books since initiated in 2005. The BOD noted that the Company was highly confident in gaining relief of the debt as the lending institution had been dissolved as a business and has not made cry for payment against the outstanding balance for a period greater than 7 years. Too, all stock purchase warrants associated to the note have expired and, the Company has never received a "Notification of Assignment".

NOTE 22; ARCHER 2.1; INSTITUTIONAL POSITION TRACKER AND CONTRACT ACCUMULATION AND DOLLAR VALUE THREASHHOLD OCCILATIOR; May 7th, 2016;

May 7th, 2016 the BOD, reported that the company radically expanded its subscription sales potential by releasing ARCHER 2.1. The ARCHER software program is now adaptable to all index markets including individual stock equities like Apple or Amazon. This upgraded version of the original now includes an adjustable oscillator capable of detecting different thresholds of pending order accumulations. This allows the user to simultaneously track both the pending order positions of hedge funds and institutions (macro scale order accumulations), and the smaller customary pending order accumulations typical in routine wave trading activity.

For example, the trader can now set the pending order accumulation threshold at $10 MM on one chart and $2MM on a second chart. The $10 MM threshold will identify the extreme high or low price boundaries of the market. These extreme resistance and/or support boundaries are caused by the mass accumulations of pending "buy or sell" orders typical of hedge fund and large banking institution activity. The $2MM chart will give the trader the ability to trade the smaller wave pattern (or stair step pattern), that routinely develops as the general market travels between the extreme price boundaries set by the institutions. To the BOD's knowledge, no other indicator available to Day Trader's today offers this type of insight to market activity. The BOD went further to state, that to have a decent chance of success at day trading, you must know where the institutions (big money), is lining up to buy or sell their contracts and, ARCHER lets you see them.

NOTE 23; CONSIDERS STAFF FOR "TRADE BY THE NUMBERS" COLLEGE PROGRAM; May 15th, 2016;

On May 15th, 2016 the CEO requested BOD approval to begin staffing for the implementation of the new "Trade by the Numbers" program. Launched in the First Quarter 2016 the Company commenced to answer a growing trend in Universities offering Business Majors. DTX introduces the ARCHER, "TRADE BY THE NUMBERS" trading lab to colleges across the country. The business model calls for the institution to offer the student, the college version of the ARCHER trading program titled "Trade by the Numbers", as an accredited lab. The subscription for the ARCHER, Trade by the Numbers Lab will be paid for through the college as part of their normal tuition fees. The subscription expires at the end of the semester but, students initially registering through their college can extend their subscription privately on a life time student discount subscription plan.

Business labs have been a standard part of the required curriculum at Colleges and Universities for many years but, growing competition to attract tuition paying students has triggered a movement toward expanding available lab options with more exciting real world lab choices. Day Trading labs are popping

up on campuses all around the country. The wave of popularity among college students looking to meet their lab requirements and the rising cost of tuition, has been recognized by college administrators as a win-win for both the University and the student. For the student looking to gain a little extra income the "TRADE by the NUMBERS" Lab allows the student to put their skills to work immediately rather than waiting to enter the job market after graduating.

The CEO requested BOD approval to begin staffing for the implementation of the new "Trade by the Numbers" program during the 2nd Quarter of 2016.

NOTE 24; JULY 7th, 2016; BOARD APPROVED RESOLUTION; ACCEPTS TRADE STATION INVOTATION TO BECOME APP STORE DEVELOPER;

TradeStation Developers
MEMBER OF MONEX GROUP

With an estimated 250,000 subscribers, including institutions, TradeStation is one of the largest and well known trading platforms in the world. In 2015 - TradeStation was ranked "Best for Frequent Traders" and "Best for International Traders" by Barron's, a "Top Five" e Online Broker and #1 for Equity Trading Tools by Investor's Business Daily, and is rated Best Trading System - Stocks and Best Trading System - Futures for the 11th consecutive year by Technical Analysis of Stocks & Commodities magazine.

The BOD noted that the DTX was not switching from NINJA, just executing our business strategy and adding a major new component to the service profile of Day TradeXchange and ARCHER business model. It went further to referenced a resent quote from the CEO highlighted by ***OTC Rockstar*** back in October 2015 saying, "ARCHER is currently running on Scottstrade, TD Ameritrade, Trade Station, Option House, Trade King, and all other essential trading platforms, is what we believe we'll soon be saying." said Sorrentino, CEO of SYNDICATION and COB, of Day Tradexchange, (OTC Rockstar, October 28th, 2015). "Just executing on our mission statement," added the CEO, Sorrentino, (SYNJ).

NOTE 26; July 16th, 2016 – BOD AGREES TO PLACE ARCHER AS A FEATURED PRODUCT IN TRADE STATION APP STORE;

On June 16th, 2016 the Company reported that just 2 days after his request, the Board approved the CEO's resolution to accept an invitation from TradeStation to become a TradeStation App Store Developer. Included in those terms of the invitation was the agreement to feature the Company's ARCHER Trading Software as a product for sale in the TradeStation Trading App Store.

The Company indicated that the CEO accepted an invitation from UPTICK NEWSWIRE Radio to do a live interview and discuss the details of the newly formed arrangement and what it means to the future developments of the Company. The interview should be broadcast over the next couple days and released through the UPTICK NEWSWIRE network.

The Company opined further that this move falls in line with last month's launch of ARCHER 2.1. That upgrade made ARCHER adaptable to all index markets including individual stock equities like Apple or Amazon. The NINJA platform only allows trading on Futures, and Stock Index markets. Adding TradeStation allows ARCHER users to trade on just about any market or equity in the trading universe.

Day TradeXchange applies for college credit accreditation with "CHEA", COUNCIL for HIGHER EDUCATION ACCEDITATION, filling a void to the growing trend in Universities offering Business Majors. DTX introduces the ARCHER, "TRADE BY THE NUMBERS" trading lab to colleges across the country. The business model calls for the institution to offer the student, the college version of the ARCHER trading program titled "Trade by the Numbers", as an accredited lab. In accordance with ASC Topic 855-10, the Company has analyzed its operations subsequent to September 30th, 2016 to the date these financial statements were issued, and has determined that other than the events listed in Section 24, it does not have any other material subsequent events to disclose in these financial statements.

PURPOSELY LEFT BLANK

6) Issuers Business, Products and Service; We are a consulting company formed to acquire controlling interests in or to participate in the creation of, and to provide financial, management and technical support to, development stage businesses, e-commerce businesses and traditional brick-and-mortar businesses.

We have no restrictions or limitations in terms of the type of industry that we intend to focus our activities on. We do not want to limit the scope of our potential target businesses.

In evaluating whether to act as a consultant with a particular company and whether to invest in a specific company, our board of directors intends to apply a general analysis which would include, but be not limited to, the following: an evaluation to determine if the target company has the products, services and skills to successfully compete in its industry; an evaluation to determine if the target company has the products, services and skills to successfully compete in its industry; an evaluation of the target company's management skills; and an evaluation of our equity position in a target company, if any, to review the extent, if any, that we will be able to exert influence over the direction and operations of the development stage company. As a condition to any acquisition or development agreement, we intend to require representation on the company's board of directors to ensure our ability to provide active guidance to the company. The board of directors has the ultimate authority for any decision with regard to selecting which companies to consult with and in which companies we might make an investment. Our strategy is to integrate affiliated companies into a network and to actively develop the business strategies, operations and management teams of the affiliated entities. It is the intent of our board of directors to develop and exploit all business opportunities to increase efficiencies between companies with which we may invest in or consult. For example, if we are consulting with a marketing company, we may utilize that marketing company to provide services for other companies with which we consult or in which we invest. We may acquire companies to be held as wholly owned subsidiaries of our company. Our board of directors believes that the financial evaluations of our company would be enhanced as a result of having diversified companies owned by our company. We anticipate that our role as a consultant to development stage companies may provide the opportunity for us to invest in such development stage companies; however, our services as a consultant will not be conditioned on us being allowed to invest in a company. We do not intend to identify potential acquisition, investment and consulting activities through the use of paid advertisement, phone solicitation or email solicitation, but intend to become aware of and identify potential acquisition, investment and consulting activities through the business contacts and networking of our officers and directors.

Strategy and Objectives - Investment and Development Activities

We believe that we can add value to development stage B2B e-commerce Internet-related companies and traditional brick-and-mortar businesses by providing seed-capital, and we may take advantage of various potential business acquisition opportunities through the issuance of our securities. Syndication believes we can further assist them in the following areas: to develop and

implement business models that capitalize on the Internet's ability to provide solutions to traditional companies; to build a corporate infrastructure including a management team, a qualified sales and marketing department, information technology, finance and business development; to assist them in their ability to manage rapid growth and flexibility to adopt to the changing Internet marketplace and technology; to assist them in evaluating, structuring and negotiating joint ventures, strategic alliances, joint marketing agreements and other corporate transactions; and to advise them in matters related to corporate finance, financial reporting and accounting operations. We believe that our management team is qualified to identify companies that are positioned to compete successfully in their respective industries. We intend to structure our acquisitions to permit the acquired company's management and key personnel to retain an equity stake in the company. We believe that we have the ability to complete acquisitions and investments quickly and efficiently. We intend that after acquiring an interest in a development company, it will participate in follow-on financing if needed. We have no proposed activities related to the offering of securities of any other company.

Management and Consulting Activities

In evaluating whether to act as a consultant with a particular company, we intend to apply an analysis which includes, but is not limited to, the following factors: industry evaluation to determine inefficiencies that may be alleviated through Internet or commerce use and will evaluate the profit potential, the size of the market opportunity and the competition that exists for that particular industry; target company evaluation to determine if the target company has the products, services and skills to become successful in its industry; overall quality and industry expertise evaluation of a potential acquisition candidate in deciding whether to acquire a target company. If the target company's management skills are lacking, a determination will be made as to whether a restructuring of its corporate infrastructure is feasible and, if done so, whether it would be successful; evaluation of our equity position in a target company and extent that we will be able to exert influence over the direction and operations of the development stage company; and as a condition to any acquisition or development agreement, we intend to require representation on the company's board of directors to ensure our ability to provide active guidance to the acquired company.
