The accompanying notes are an integral part of these interim financial statements.

1. Corporate Information

Big Bar Resources Corporation (the "Company") was incorporated on December 10, 1980 under the British Columbia Business Corporations Act and is engaged in the acquisition, exploration and development of mineral properties. The Company's common shares trade on the NEX Board of the TSX Venture Exchange ("Exchange"). On November 5, 2015, the Company entered into an Asset Purchase Agreement (the "Transaction") with CVR Global, Inc. ("CVR") for the acquisition of patents (the "Patents") relating to a diagnostic device developed by CVR, which is designed to detect and measure carotid arterial stenosis. The completion of this Transaction would constitute a Change of Business in accordance with Exchange Policy 5.2 *Changes of Business and Reverse Takeovers*. Refer to Note 9.

The Company's registered office is suite 4005 – 1011 Cordova Street, Vancouver, British Columbia, V6C 0B2.

2. Basis of Presentation

a) Statement of compliance

These condensed interim financial statements have been prepared in accordance with International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board ("IASB") applicable to the preparation of interim financial statements, including IAS 34, *Interim Financial Reporting*. The condensed interim financial statements should be read in conjunction with the annual financial statements for the year ended December 31, 2015, which have been prepared in accordance with IFRS as issued by IASB.

The Company uses the same accounting policies and methods of computation as in the annual financial statements for the year ended December 31, 2015.

The financial statements were authorized for issue by the Board of Directors on May 17, 2016.

b) Basis of measurement

The financial statements of the Company have been prepared on an accrual basis and are based on historical costs, modified where applicable. The financial statements are presented in Canadian dollars, which is also the Company's functional currency.

c) Going concern of operations

The financial statements have been prepared on a going concern basis which assumes that the Company will be able to realize its assets and discharge its liabilities in the normal course of business. The Company has incurred significant net losses and negative cash flows from operations in prior years. The Company incurred a net loss of $37,072 during the three months ended March 31, 2016, and, as of that date the Company's deficit was $10,197,270. The continuation of the Company as a going concern is dependent on its ability to obtain additional equity capital to finance existing operations and attaining future profitable operations. These financial statements do not include any adjustments relating to the recoverability and classification of recorded asset amounts, the amount and classification of liabilities that would be necessary should the Company be unable to continue as a going concern.

d) Critical judgments in applying accounting policies

The preparation of these financial statements requires management to make certain estimates, judgments and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and reported amounts of expenses during the period. Actual results could differ from these estimates.

These financial statements include estimates which, by their nature, are uncertain. The impacts of such estimates are pervasive throughout the financial statements, and may require accounting adjustments based on future occurrences. Revisions to accounting estimates are recognized in the period in which the estimate is revised and future periods if the revision affects both current and future periods. These estimates are based on historical experience, current and future economic conditions and other factors, including expectations of future events that are believed to be reasonable under the circumstances.

Significant assumptions about the future and other sources of estimation uncertainty that management has made at the reporting date that could result in a material adjustment to the carrying amounts of assets and liabilities, in the event that actual results differ from assumptions made, relate to, but are not limited to, the following:

i) the recoverability and measurement of deferred tax assets.

3. Recent accounting pronouncements

Certain pronouncements were issued by the IASB or the IFRS Interpretations Committee that are mandatory for annual periods beginning after January 1, 2016 or later periods. The following new IFRSs that have not been early adopted in these financial statements will not have a material effect on the Company's future results and financial position:

i) IFRS 9, *Financial Instruments* (New; to replace IAS 39, IFRIC 9 and earlier versions of IFRS 9).
ii) IAS 1, *Presentation of Financial Statements* (amended).

Other accounting standards or amendments to existing accounting standards that have been issued but have future effective dates are either not applicable or are not expected to have a significant impact on the Company's financial statements.

4. Financial Risk Factors

The Company's risk exposures and the impact on the Company's financial instruments are summarized below:

Credit Risk

Credit risk is the risk that one party to a financial instrument will fail to discharge an obligation and cause the other party to incur a financial loss. The Company's credit risk is primarily attributable to cash. Cash consists of bank accounts held with a Canadian Chartered Bank and funds held in trust with legal counsel, from which management believes the risk of loss is remote.

Liquidity Risk

Liquidity risk is the risk that the Company will not be able to meet its financial obligations as they become due. The Company's approach to managing liquidity risk is to ensure that it will have sufficient liquidity to meet liabilities when due. As at December 31, 2015, the Company has a cash balance of $728 (December 31, 2015 - $9,342) and current liabilities of $508,746 (December 31, 2015 - $479,158). The Company's accounts payable and accrued liabilities have contractual maturities of less than 60 days and are subject to normal trade terms. The ability of the Company to continue to pursue its exploration activities and maintain its working capital is dependent on its ability to secure additional equity or debt financing.

Interest Rate Risk

Interest rate risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Company has cash balances and no interest-bearing debt. The Company's current policy is to invest excess cash in investment-grade short-term deposit certificates issued by its banking institution. The Company periodically monitors the investments it makes and is satisfied with the credit rating of its banks. The Company is not exposed to any significant interest rate risk.

Foreign Exchange Risk

Foreign exchange risk is the risk that the Company will be subject to foreign currency fluctuations in satisfying obligations related to foreign activities. Advances from related parties may be denominated in U.S. dollars. Foreign exchange risk arises from purchase transactions as well as financial assets and liabilities denominated in these foreign currencies. The Company does not use derivative instruments to hedge exposure to foreign exchange rate risk. However, management of the Company believes there is no significant exposure to foreign currency fluctuations.

5. Capital Management

The Company considers its cash, common shares, stock options, and warrants as capital. The Company's objectives when managing capital are to safeguard the Company's ability to continue as a going concern in order to pursue the acquisition and development of mineral properties and to maintain a flexible capital structure which optimizes the costs of capital at an acceptable risk level. The Company manages the capital structure and makes adjustments to it in light of changes in economic conditions and the risk characteristics of the underlying assets. To maintain or adjust the capital structure, the Company may attempt to issue new shares, issue new debt, acquire or dispose of assets.

In order to facilitate the management of its capital requirements, the Company prepares expenditure budgets that are updated as necessary depending on various factors, including successful capital deployment and general industry conditions. In order to maximize ongoing development efforts, the Company does not pay out dividends. The Company's investment policy is to invest its short-term excess cash in highly liquid short-term interest-bearing investments with maturities of one year or less from the original date of acquisition, selected with regards to the expected timing of expenditures from continuing operations. The Company is currently assessing financing alternatives to pursue new mineral property exploration endeavors. The Company is not subject to externally imposed capital requirements and there were no changes in its approach to capital management during the period ended March 31, 2016.

6. Related Party Transactions

i) During the three months ended March 31, 2016, the Company incurred $2,500 (2015 - $2,500) in consulting fees to the President of the Company. As at March 31, 2016, the Company owed $87,500 (December 31, 2015 - $85,000) to the President of the Company.
ii) During the three months ended March 31, 2016, the Company incurred $15,000 (2015 - $15,000) in consulting fees to the Chief Financial Officer ("CFO") of the Company. As at March 31, 2016, the Company owed $193,763 (December 31, 2015 - $180,251) to the CFO of the Company.
iii) During the three months ended March 31, 2016, the Company incurred rent of $4,500,000 (2015 - $4,500) to a private company controlled by the CFO of the Company. As at March 31, 2016, the Company owed the private company $69,910 (December 31, 2015 - $65,910) for rent.
iv) During the three months ended March 31, 2016, the Company incurred $3,000 (2015 - $3,000) in consulting fees to a director of the Company. As at March 31, 2016, the Company owed $35,000 (December 31, 2015 - $32,000) for consulting services rendered by the director.
v) As at March 31, 2016, the Company owed a shareholder of the Company $23,979 (US$18,464) (December 31, 2015 - $25,554 (US$18,464)) and $7,000 (December 31, 2015 - $7,000) for advances without specific terms of repayment or interest.
vi) As at March 31, 2016, the Company owed a shareholder of the Company $20,779 (US$16,000) (December 31, 2015 - $22,144 (US$16,000)) for advances without specific terms of repayment or interest.
vii) As at March 31, 2016, the Company owed a director of the Company $40,260 (US$31,000) (December 31, 2015 - $22,144 (US$16,000)) for advances without specific terms of repayment or interest.

The balances owing are unsecured, non interest bearing and have no fixed terms for repayment.

7. Sale of Net Smelter Royalty

On June 1, 2013, the Company entered into a purchase agreement with Goldzone Exploration Inc. ("Goldzone") in which the Company agreed to sell Goldzone 100% of a 2% Net Smelter Returns Royalty ("NSR") on the Las Lajas claims, located in Sonora, Mexico. As consideration for the NSR, Goldzone agreed to pay $75,000, of which $10,000 is due within 30 days of the agreement (received), $15,000 is due within 75 days of the agreement (received) and the final $50,000 is due within 28 months of the agreement. Due to the uncertainty of collection, the remaining balance will be recognized in the statement of comprehensive loss when received.

8. Share Capital

a) Common shares

Authorized share capital consists of unlimited number of common shares without par value.

b) Subscriptions received

At March 31, 2016, the Company received $25,000 for the subscription of 100,000 shares of common stock at a price of $0.25 per share. The shares have not been issued as at March 31, 2016.

c) Option reserve

The stock option reserve records items recognized as share-based compensation expense. At such time that the stock options are exercised, the corresponding amount is transferred to share capital. The Company has no stock options outstanding as at March 31, 2016.

9. Subsequent Event

On November 5, 2015, the Company entered into an Asset Purchase Agreement (the "Transaction") with CVR Global, Inc. ("CVR") for the acquisition of patents (the "Patents") relating to a diagnostic device developed by CVR, which is designed to detect and measure carotid arterial stenosis (the "Device"). The Company will acquire the Patents through the issuance of an aggregate of 7,000,000 common shares to CVR.

Upon closing of the Transaction, CVR and Big Bar will form a joint venture (the "**Joint Venture**") pursuant to which Big Bar will contribute the Patents and working capital, and CVR will contribute certain additional patents and intellectual property, the Device, as well as management know-how and marketing expertise, for an initial equal equity interest by both parties in the Joint Venture.

The Transaction is subject to a number of conditions including, but not limited to, arrangement of the Financing, delivery by CVR of a satisfactory valuation as to the value of the Patents, completion of due diligence reviews by the parties, approval by each of the Big Bar and CVR boards of directors and including TSX Venture Exchange acceptance for filing. On May 5, 2016, the Company received conditional approval from the TSX Venture Exchange.

The Transaction has not closed as at May 27, 2016.
