NOTE 1 - ORGANIZATION AND BUSINESS OPERATIONS

Digilava, Inc. was incorporated under the laws of the State of Nevada, U.S. on July 18, 2002. On May 4, 2015, Digilava Inc. changed its name to WGE Holdings Corp. ("the Company", or "WGE Holdings") and obtained the new ticker symbol "WGEE". The Company's fiscal year end is December 31.

On May 22, 2015, the Company completed a reverse split of its outstanding shares of common stock at a ratio of 1:100.

On July 13 2015 the company acquired 100% interest in WGE Enterprises, LTD. ("WGE") in exchange for the issuance of 14,800,000 shares.

On September 1, 2015, the Board of the Company approved a resolution to adjust the historical paid- in capital in excess of par value against the Company's accumulated deficit. The Company's financial statements were retroactively adjusted to give effect to the above adjustments.

On June 30, 2016, pursuant to a Share Exchange Agreement dated as of June 15, 2016 between the Company and the stockholders (the "Far East Stockholders") of Far East Ventures Holdings, Ltd., a British Virgin Island Corporation ("Far East"), the Far East Stockholders exchanged all of the shares of capital stock of Far East for 194,100,000 shares of the Common Stock of the Company (the "WGE Shares") representing approximately 95.42% of the outstanding shares of the Company on a fully diluted basis (the "Share Exchange") after giving effect to the issuance of the WGE Shares, the issuance of an aggregate of 6,000,000 shares of WGE common stock to certain parties in connection with advisory services and the cancellation of 12,000,000 shares of WGE common stock held by certain shareholders of the Company pursuant to a Court Order dated June 2,2016. As a result of the Share Exchange, Far East became a wholly owned subsidiary of the Company and constitutes all of the Company's operating assets.

The Company is in the process of changing its name to Consolidated Gold Holdings Corp. to more accurately reflect its new business.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation

The accompanying unaudited consolidated financial statements of the Company have been prepared in accordance with accounting principles generally accepted in the United States ("US GAAP") for interim financial information. All amounts are expressed in United States dollars. Certain information and disclosures normally included in financial statements prepared in accordance with US GAAP have been condensed or omitted as allowed by such rules and regulations, and management believes that the disclosures are adequate to make the information presented not misleading. These unaudited consolidated financial statements include all of the adjustments which in the opinion of management are necessary to a fair presentation of financial position and results of operations. All such adjustments are of a normal and recurring nature.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amount of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Cash and Cash Equivalents

Cash and cash equivalents include cash in banks, money market funds, and certificates of term deposits with maturities of less than three months from inception, which are readily convertible to known amounts of cash and which, in the opinion of management, are subject to an insignificant risk of loss in value.

Financial Instruments

The Company follows ASC 820, "Fair Value Measurements and Disclosures", which defines fair value as the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. ASC 820 also establishes a fair value hierarchy that distinguishes between (1) market participant assumptions developed based on market data obtained from independent sources (observable inputs) and (2) an entity's own assumptions about market participant assumptions developed based on the best information available in the circumstances (unobservable inputs). The fair value hierarchy consists of three broad levels, which gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3).

The three levels of the fair value hierarchy are described below:

Level 1

Level 1 applies to assets or liabilities for which there are quoted prices in active markets for identical assets or liabilities.

Level 2

Level 2 applies to assets or liabilities for which there are inputs other than quoted prices that are observable for the asset or liability such as quoted prices for similar assets or liabilities in active markets; quoted prices for identical assets or liabilities in markets with insufficient volume or infrequent transactions (less active markets); or model-derived valuations in which significant inputs are observable or can be derived principally from, or corroborated by, observable market data.

Level 3

Level 3 applies to assets or liabilities for which there are unobservable inputs to the valuation methodology that are significant to the measurement of the fair value of the assets or liabilities. The fair value for accounts payable and accrued liabilities approximates carrying amount because of their immediate or short term maturity.

Concentrations of Credit Risk

The Company's financial instruments that are exposed to concentrations of credit risk primarily consist of its cash and cash equivalents. The Company places its cash and cash equivalents with financial institutions of high credit worthiness. At times, its cash and cash equivalents with a particular financial institution may exceed any applicable government insurance limits. The Company's management plans to assess the financial strength and credit worthiness of any parties to which it extends funds, and as such, it believes that any associated credit risk exposures are limited.

Revenue Recognition

In accordance with the ASC Topic 605, "Revenue Recognition", the Company recognizes revenue when persuasive evidence of an arrangement exists, transfer of title has occurred or goods have been delivered, the selling price is fixed or determinable and collectability is reasonably assured.

Earnings Per Share of Common Stock

The Company has adopted ASC 260, "Earnings Per Share," ("EPS") which requires presentation of basic and diluted EPS on the face of the income statement for all entities with complex capital structures and requires a reconciliation of the numerator and denominator of the basic EPS computation to the numerator and denominator of the diluted EPS computation. In the accompanying financial statements, basic earnings (loss) per share is computed by dividing net income (loss) by the weighted average number of shares of common stock outstanding during the period.

Recent Accounting Pronouncements

In June 2014, the Financial Accounting Standards Board issued Accounting Standards Update No. 2014-10, which eliminated certain financial reporting requirements of companies previously identified as "Development Stage Entities" (Topic 915). The amendments in this ASU simplify accounting guidance by removing all incremental financial reporting requirements for development stage entities. The amendments also reduce data maintenance and, for those entities subject to audit, audit costs by eliminating the requirement for development stage entities to present inception-to-date information in the statements of income, cash flows, and shareholder equity. Early application of each of the amendments is permitted for any annual reporting period or interim period for which the entity's financial statements have not yet been issued (public business entities) or made available for issuance (other entities). Upon adoption, entities will no longer present or disclose any information required by Topic 915. The Company has adopted this standard.

Management has considered all recent accounting pronouncements issued. The Company's management believes that these recent pronouncements other than the above will not have a material effect on the Company's financial statements.

NOTE 3 - CAPITAL STOCK

Preferred Stock

The Company has authorized 51 preferred shares with a par value of $0.001 per share. As of September 30, 2016 and December 31 2015, the Company had no preferred shares issued and outstanding.

Common Stock

The Company has authorized 1,000,000,000 common shares with a par value of $0.001 per share. Each common share entitles the holder to one vote, in person or proxy, on any matter on which action of the stockholders of the corporation is sought.

On May 22, 2015, the Company completed a reverse split of its outstanding shares of common stock at a ratio of 1:100. The Company's common stock has been retroactively adjusted to give effect to the reverse split.

As of September 30, 2016 and December 31, 2015, the Company had 203,416,474 and 15,301,413 shares issued and outstanding, respectively.

Additional paid-in capital

On September 1, 2015, the Board of the Company approved to adjust historical additional paid-in capital excess of par value against the Company's accumulated deficit. The Company's financial statements were retroactively adjusted to give effect to the above adjustments.

Other Dilutive Securities

The Company has no stock option plan, warrants or other dilutive securities.

NOTE 4 - INCOME TAXES

The Company provides for income taxes under ASC 740, Accounting for Income Taxes. ASC 740 requires the use of an asset and liability approach in accounting for income taxes. Deferred tax assets and liabilities are recorded based on the differences between the financial statement and tax bases of assets and liabilities and the tax rates in effect when these differences are expected to reverse.

ASC 740 requires the reduction of deferred tax assets by a valuation allowance if, based on the weight of available evidence, it is more likely than not that some or all of the deferred tax assets will not be realized.
