3. Mr. Steinberg has been at the forefront of new business concepts many times, and now brings a lifetime of experience to Marijuana Company of America that will serve to benefit the company in a myriad of ways.

In the 1980's, Don developed stock option analysis and trading programs. This led to his management of floor traders on multiple options exchanges, and gave him the knowledge and insight he needed to successfully take other companies public.

In the early 90's, he co-founded Globalcom 2000 and entered into the prepaid phone card business, which at that time was an almost unknown market. Globalcom 2000 became one of the largest phone card companies in the United States, as well as its fastest growing. Among the many firsts accomplished in that business was an account with 7-11, which he personally closed, and which made Globalcom 2000 the 1st phone card in the country with a corporate logo.

In 1994, Don developed an interest in the telecom "Callback" business, and co-founded One World Communications. He subsequently traveled the world, opening up 187 training centers in only 9 months, and created the world's largest International MLM global sales force selling telecom services.

In 2006, Mr. Steinberg formed Club Vivanet as an International MLM, selling a variety of services. In 2008, he merged Club Vivanet with a publicly traded company. In 2008, Don recognized the emerging opportunities in the medical marijuana industry, and changed the name of Club Vivanet to Medical Marijuana Inc., which became America's first publicly traded company in the medical marijuana industry. In 2011, he successfully managed the acquisition of Medical Marijuana Inc. and the transition to new management.

In 2012, Don launched Global Hemp Group with Charles Larsen as they recognized the momentum building in the emerging global hemp industry.

Mr. Steinberg brings a wealth of knowledge and experience to Marijuana Company of America Inc., from building and managing start-up companies, managing public company compliance, and spending years managing floor operations on various stock exchanges. Mr. Steinberg has had a life-long career in international sales and marketing, with 40 years of experience developing and running successful businesses. Item 9. Management’s Discussion and Analysis or Plan of Operation.

The following discussion of our financial condition and results of operations should be read in conjunction with our consolidated financial statements and the notes to those statements included elsewhere in this registration statement. In addition to the historical consolidated financial information, the following discussion and analysis contains forward-looking statements that involve risks and uncertainties. Our business and results of operations are affected by a wide variety of factors. We may experience material fluctuations in future operating results, on a quarterly or annual basis, which could have a material and negative affect our business, financial condition, operating results and stock price. Our actual results may differ materially from those anticipated in these forward-looking statements as a result

of certain factors, including those set forth under “Risk Factors” and elsewhere in this Quarterly Report.

Plan of Operations

The Company is a unique cannabis marketing and distribution company that is the first to leverage a direct sales strategy to distribute medical cannabis products that is unique to the industry. The main differences in the Company’s business approach will be defined by the laws of the states in which we will operate.

In all states, and internationally, the Company will market a variety of CBD products in accordance with individual state and country legislation. In states/countries in which it is legal to sell marijuana for recreational and/or medical use, the Company will align itself with properly licensed operators.

Results of Operations

As of September 30, 2016, and the date of this quarterly filing, the Company has generated no revenue per our financial statements. Management anticipates that the Company plans to earn revenues through its contract with Green Dot, its HempSMART product, and other contracts it will establish of a similar nature. However, the Company is presently in the development stage for purposes of this filing for the quarter ended September 30, 2016.

Liquidity and Capital Resources

At September 30, 2016, the Company’s had limited liquidity and cash reserves. From the date of inception until September 30, 2016, the Company has incurred losses of \$4,782,071. Net Loss is attributable to professional fees, and general and administration expenses, startup expenses, and from a lack of revenue to offset the Company’s operating expenses. During the first three quarters of 2016, Management paid most of the Company’s expenses directly as convertible loans to the Company and through capital contributions made through stock subscription investments by investors.

Prior to the change in control on September 4, 2015 and the appointment of new board members, the Company, through its license to Majestic Menu, was in the business of developing an online portal for the foodservice and hospitality industry and retail connoisseurs. During the fourth quarter of 2015, the new Management team conducted due diligence and consulted with experts pertaining to the ongoing value of the license to the new business model of the Company. The Management of the Company has determined that the fair market value of the license was fully impaired as of December 31, 2015 pursuant to generally accepted accounting principles set forth by 350: Intangibles—Goodwill and Other Intangible Assets, updated by ASU 2012-02. The Company changed its business model during the third quarter of 2015 to the cannabis industry. As such, the Majestic Menu with a carrying value of \$200,000 has been fully impaired as of December 31, 2015 and September 30, 2016. The charge off was reflected in the December 31, 2015 Profit and Loss Statement.

Based on the Company’s current operating plan for the launch of Marijuana Company of America, Inc., the Company expects to generate revenue and raise capital that is sufficient to cover its expenses for at least the next twelve months. In addition, although the

Company does not have a cash reserve at the end of the third quarter, the Company has access to sufficient cash and cash equivalents from investors and management to support its operations for at least the next twelve months. However, the Company may need to obtain additional financing to expand our business and implement new strategies for the next twelve months. The Company will raise the capital necessary to fund its business through a private placement and possible public offering of its common stock. Additional financing, whether through public or private equity or debt financing, arrangements with stockholders or other sources to fund operations, may not be available, or if available, may be on terms unacceptable to the Company. The Company's ability to maintain sufficient liquidity is partially dependent on its ability to raise additional capital. If the Company issues additional equity securities to raise funds, the ownership percentage of its existing stockholders would be diluted. New investors may demand rights, preferences or privileges senior to those of existing holders of our common stock. Debt incurred by the Company would be senior to equity in the ability of debt holders to make claims on the Company's assets. The terms of any debt issued could impose restrictions on the Company's operations. If adequate funds are not available to satisfy either short or long-term capital requirements, the Company's operations and liquidity could be materially adversely affected and the Company could be forced to cease operations.

Note 1 - Organization and Summary of Significant Accounting Policies:

Organization:

Converge Global, Inc. (the “Company”) was incorporated in the State of Utah in October 1985. Sparrowtech Resources Inc. was organized in the State of Florida on July 24, 2000. These aforementioned companies merged in October 2009 to carry on business as Converge Global, Inc. The shareholders of Sparrowtech at the time of the merger received one share of Converge Global for 30 of their shares in Sparrowtech. The merged company’s primary business activity, at the time of the merger, was to acquire mining properties and/or claims for the purpose of exploration and development into a commercially viable operation.

On September 4, 2015, 400,000,000 shares of restricted common shares and 10,000,000 shares of the Preferred Class A stock were purchased for \$105,000.00 from Cornelia Volino by Donald Steinberg and Charles Larsen, who owned each respective category of shares equally at the time of the transaction. On September 9, 2015, Donald Steinberg was appointed Chairman of the Board, CEO and President of the Company. Mr. Larsen was appointed to the Board of Directors. The new management team and controlling shareholders voted to change the Company’s business model to a unique cannabis marketing and distribution company that is the first to leverage an affiliate marketing strategy to distribute cannabis and other related products. The main differences in the Company’s business approach will be dictated by the laws of the states in which the Company will operate.

H Smart, Inc. is a Delaware corporation that is a wholly owned subsidiary of the Company and was formed in September 21, 2015. Its principle purpose is to hold the operations of the hempSMART brand and the sale and operating expenses pertaining to hempSMART. All of the financial activity of this entity has been consolidated on the financial statements of MCOA. The Company filed for a name change with the Secretary of State of Delaware on to change the name of the Company from Converge Acquisition Corp to H Smart Inc. during the Q2 2016. During the Q4, 2016, H Smart Inc. registered as a foreign corporation with the California Secretary of State.

On February 1, 2016, the Company formed a wholly owned operating subsidiary in California called, MCOA CA Inc., to facilitate mergers, acquisitions and the offering of investments or loans to the Company.

The Company’s fiscal year end is December 31.

Basis of Presentation – Development Stage Company:

The Company has earned minimal to no revenues due to limited operations. Accordingly, the Company’s activities have been accounted for as those of a “Development Stage Enterprise” as set forth in Financial Accounting Standards Board Statement No. 7 (“SFAS 7”). Among the disclosures required by SFAS 7 are that the Company’s financial statements be identified as those of a development stage company, and

(A DEVELOPMENT STAGE COMPANY)

Notes to Quarterly Financial Statements

that the statements of operations, stockholders' equity (deficit) and cash flows disclose activity since the date of the Company's inception.

Basis of Accounting:

The accompanying interim financial statements have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States. The Company has accounted for the merger as if it took place from commencement and as such includes the accumulated operations of Sparrowtech from inception July 24, 2000. In the opinion of management, these interim financial statements include all of the necessary adjustments to prevent them from being misleading. Operating results for the nine months ended September 30, 2016 are not necessarily indicative of the results that may be expected for any future periods or the year ending December 31, 2016. The accompanying unaudited consolidated financial statements should be read in conjunction with the Company's 2015 Annual Report filed with the OTC Markets on April 12, 2016.

Cash and Cash Equivalents:

The Company considers all highly liquid debt instruments, purchased with an original maturity of three months or less, to be cash equivalents.

Use of Estimates:

These financial statements have been prepared in accordance with generally accepted accounting principles in the United States of America. Because a precise determination of assets and liabilities, and correspondingly revenues and expenses, depends on future events, the preparation of financial statements for any period necessarily involves the use of estimates and assumption an example being assumptions in valuation of stock options. Actual amounts may differ from these estimates. These financial statements have, in management's opinion, been properly prepared within reasonable limits of materiality and within the framework of the accounting policies summarized below.

Net Loss Per Share:

Net loss per share is based on the weighted average number of common shares and common shares equivalents outstanding during the period.

Other Comprehensive Income:

The Company has no material components of other comprehensive income (loss), and accordingly, net income (loss) is equal to comprehensive loss in all periods.

Fair Value of Financial Instruments:

In September 2006, the Financial Accounting Standards Board (FASB) introduced a framework for measuring fair value and expanded required disclosure about fair value measurements of assets and

Fair Value of Financial Instruments: (continued)

liabilities. The Company adopted the standard for those financial assets and liabilities as of the beginning of the 2008 fiscal year and the impact of adoption was not significant. FASB Accounting Standards Codification (ASC) 820 “*Fair Value Measurements and Disclosures*” (ASC 820) defines fair value as the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. ASC 820 also establishes a fair value hierarchy that distinguishes between (1) market participant assumptions developed based on market data obtained from independent sources (observable inputs) and (2) an entity’s own assumptions about market participant assumptions developed based on the best information available in the circumstances (unobservable inputs). The fair value hierarchy consists of three broad levels, which gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described below:

- Level 1 - Unadjusted quoted prices in active markets that are accessible at the measurement date for identical, unrestricted assets or liabilities.
- Level 2 - Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly, including quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in markets that are not active; inputs other than quoted prices that are observable for the asset or liability (e.g., interest rates); and inputs that are derived principally from or corroborated by observable market data by correlation or other means.
- Level 3 - Inputs that are both significant to the fair value measurement and unobservable.

The Company applied ASC 820 for all non-financial assets and liabilities measured at fair value on a non-recurring basis. Fair value estimates discussed herein are based upon certain market assumptions and pertinent information available to management. The carrying amount of cash, accounts payable, notes payable and due to a stockholder are considered to be representative of their respective fair values because of the short-term nature of these financial instruments.

Foreign Exchange Translation:

The accounts of the Company are accounted for in accordance with the Statement of Financial Accounting Standards No. 52 (“SFAS 52”), “Foreign Currency Translation.” The financial statements of the Company are translated into US dollars as follows: assets and liabilities at year-end exchange rates; income, expenses and cash flows at average exchange rates; and shareholders’ equity at historical exchange rate.

Monetary assets and liabilities, and the related revenue, expense, gain and loss accounts, of the Company are re-measured at year-end exchange rates. Non-monetary assets and liabilities, and the related revenue,

expense, gain and loss accounts are re-measured at historical rates. Adjustments which result from the re-measurement of the assets and liabilities of the Company are included in net income.

Stock-Based Compensation

In December 2004, the Financial Accounting Standards Board (FASB) issued Statement of Financial Accounting Standards No. 123 (Revised 2004), "Share-Based Payment" (SFAS 123 (R)). SFAS 123 (R) requires companies to recognize compensation cost for employee services received in exchange for an award of equity instruments based on the grant-date fair value of the award. The Company adopted the provisions of SFAS 123 (R) on January 1, 2005 using the "modified prospective" application method of adoption which requires the Company to record compensation cost related to unvested stock awards as of January 1, 2005 by recognizing the unamortized grant date fair value of these awards over the remaining service periods of those awards with no change in historical reported earnings. The adoption of this standard did not affect the financial statements for the year ended December 31, 2005, since up to that date, no stock options had been issued. Awards granted after December 31, 2006 are valued at fair value in accordance with the provisions of SFAS 123 (R) and recognized on a straight line basis over the service periods of each award.

As of September 30, 2016, there was no unrecognized expense related to non-vested stock-based compensation arrangements granted.

Note 2 – Federal Income Taxes:

The Company has made no provision for income taxes because there have been no operations to date causing income for financial statements or tax purposes.

The Financial Accounting Standards Board (FASB) has issued Statement of Financial Accounting Standards Number 109 ("SFAS 109"), ASC 740, "Accounting for Income Taxes", which requires a change from the deferred method to the asset and liability method of accounting for income taxes. Under the asset and liability method, deferred income taxes are recognized for the tax consequences of "temporary differences" by applying enacted statutory tax rates applicable to future years to differences between the financial statement carrying amounts and the tax basis of existing assets and liabilities.

Deferred tax assets

Net operating loss carry-forwards	\$ 4,782,071
Valuation allowance	<u>(4,782,071)</u>
Net deferred tax assets	<u>\$ 0</u>

At September 30, 2016, the Company had net operating loss carry forwards of approximately \$4,782,071 for federal income tax purposes. These carry forwards, if not utilized to offset taxable income, will begin to expire in 2020.

Note 3 – Going Concern

The Company's financial statements have been prepared on the basis that it is a going concern, which contemplates the realization of assets and the satisfaction of liabilities in the normal course of business.

The Company has earned limited to no revenue from operations in the current quarter ended September 30, 2016. The Company's ability to continue as a going concern is dependent upon its ability to develop additional sources of capital and ultimately to achieve profitable operations. The accompanying financial statements do not include any adjustments that might result from the outcome of these uncertainties. Management is seeking new capital to revitalize the Company and achieve its business plans and projected operations.

As of January 2nd, 2016, the Company officially began providing managed services to Kush Clinic. The Company initially expected that revenues would expand commensurate with the expansion of Kush's operations shortly after the agreement was executed. The Company was to receive 10% of Kush's gross revenue for managed services provided. However, during the pilot program that took place in the first quarter, the Company identified certain issues that required the Company to conduct further due diligence.
