These consolidated interim financial statements and MD&A include the results of operations and cash flows for the three month period ended May 31, 2016 and the reader must be aware that historical results are not necessarily indicative of the future performance. The reader may also wish to refer to the Company's audited financial statements and MD&A for the year ended February 29, 2016. All amounts are reported in Canadian dollars.

The aforementioned documents and additional disclosures pertaining to the Company's press releases and other information are also available on the SEDAR website www.sedar.com.

Certain statements contained in this interim management discussion and analysis may contain words such as "could", "should", "expect", "believe", "will" and similar expressions and statements relating to matters that are not historical facts but are forward-looking statements. Such forward-looking statements are subject to both known and unknown risks and uncertainties which may cause the actual results, performances or achievements of the Company to be materially different from any future results, performances or achievements expressed or implied by such forward-looking statements. Such factors include, among other things, the receipt of required regulatory approvals, the availability of sufficient capital, the estimated cost and availability of funding for the continued exploration and development of The Company's prospects, political and economic conditions, commodity prices and other factors.

Description of Business

Vinergy Resources Ltd. (the "Company") was incorporated as Vanguard Investments Corp. on March 20, 2001 under the provisions of the Alberta Business Corporations Act. On May 10, 2011, the Company changed its name to Vinergy Resources Ltd. and continued the Company's registered jurisdiction from Alberta to British Columbia. The Company's head office is located at 6012 – 85 Avenue, Edmonton, Alberta, T6B 0J5 and its shares are listed on the Canadian Securities Exchange under the symbol "VIN".

On November 30, 2009, the Company entered into a Share Purchase Agreement (the "Agreement") with Zeus Energy Inc. ("Zeus") and its shareholders to acquire 100% of the issued and outstanding shares of Zeus. Zeus was incorporated on November 7, 2007 under the Alberta Business Corporations Act. Since the closing of the Agreement on November 30, 2009, the Company has been in the business of oil and gas acquisition, exploration and development.

The Company is exploring additional opportunities to acquire oil and gas properties for exploration and development. The Company has historically been involved in the oil and gas industry and continues to pursue opportunities in this sector. The Company is also investigating opportunities in other sectors.

These consolidated interim financial statements have been prepared on a going concern basis, which assumes that the Company will be able to realize its assets and discharge its liabilities in the normal course of business. As at May 31, 2016, the Company had a working capital deficiency of \$813,543, has no revenue generated from operations, and has an accumulated deficit of \$1,690,615. The continued operations of the Company are dependent on its ability to generate future cash flows or obtain additional financing. Management is of the opinion that with its current cash and other funds that may be obtained from external financing that it has sufficient working capital to meet the Company's liabilities and commitments as they become due, although there is a risk that additional financing will not be available on a timely basis or on terms acceptable to the Company. These consolidated interim financial statements do not reflect any adjustments that may be necessary if the Company is unable to continue as a going concern.

Financial Instruments and Risks

(a) Fair Values

Assets and liabilities measured at fair value on a recurring basis were presented on the Company's statement of financial position as at May 31, 2016 is as follows:

	Fair Value Measurements Using			Balance, May 31, 2016
	Quoted prices in active markets for identical instruments (Level 1)	Significant other observable inputs (Level 2)	Significant unobservable inputs (Level 3)	
	\$	\$	\$	\$
Cash	63	—	—	63

The fair values of other financial instruments, which include amounts receivable, loans receivable, advances to operator, accounts payable and accrued liabilities, loans payable, and amounts due to related parties, approximate their carrying values due to the relatively short-term maturity of these instruments. The fair value of the convertible debenture is estimated to approximate its carrying value based on borrowing rates currently available to the Company for a loan with similar terms.

(b) Credit Risk

Financial instruments that potentially subject the Company to a concentration of credit risk consist primarily of cash. The Company limits its exposure to credit loss by placing its cash with high credit quality financial institutions. Amounts receivable consist of GST refunds due from the Government of Canada. The carrying amount of financial assets represents the maximum credit exposure.

(c) Foreign Exchange Rate Risk

The Company is not exposed to any significant foreign exchange rate risk.

(d) Interest Rate Risk

The Company is not exposed to any significant interest rate risk.

(e) Liquidity Risk

Liquidity risk is the risk that the Company will not be able to meet its financial obligations as they fall due. The Company currently settles its financial obligations out of cash. The ability to do this relies on the Company raising equity financing in a timely manner and by maintaining sufficient cash in excess of anticipated needs.

Financial Instruments and Risks (continued)

(f) Price Risk

The Company is exposed to price risk with respect to commodity prices. The Company's ability to raise capital to fund exploration and development activities is subject to risks associated with fluctuations in the market price of commodities. As the Company does not have any producing assets or any current programs for exploration, management considers the Company's commodity price risk to be minimal.

Capital Management

The Company manages its capital to maintain its ability to continue as a going concern and to provide returns to shareholders and benefits to other stakeholders. The capital structure of the Company consists of cash and equity comprised of issued share capital and equity component of convertible debt.

The Company manages its capital structure and makes adjustments to it in light of economic conditions. The Company, upon approval from its Board of Directors, will balance its overall capital structure through new share issues or by undertaking other activities as deemed appropriate under the specific circumstances.

The Company is not subject to externally imposed capital requirements and the Company's overall strategy with respect to capital risk management remained unchanged from the year ended February 29, 2016.

Accounting Standards Issued But Not Yet Effective

A number of new standards, and amendments to standards and interpretations, are not yet effective for the period ended May 31, 2016, and have not been applied in preparing these consolidated interim financial statements.

IFRS 9, *Financial Instruments* (New)

IAS 1, *Presentation of Financial Statements* (Amended)

The Company has not early adopted these revised standards and is currently assessing the impact that these standards will have on the consolidated interim financial statements.

Other accounting standards or amendments to existing accounting standards that have been issued but have future effective dates are either not applicable or are not expected to have a significant impact on the Company's consolidated interim financial statements.
