

**FROM THE PRESIDENT,
LJUBICA STEFANOVIĆ**

The purpose of Efuel EFN, Corporation is to create a diverse business that rebuilds struggling businesses, and invests in new ones, all which add long term value to the community & our stakeholders. Our company's history is a primary example of our mission and what we hope to accomplish.

In 2011, Euro American Finance Network, Incorporated acquired Efuel EFN corporation, and introduced a new management team that has proven to be resilient, determined, and passionate. This team has overcome a freeze on its stock, and invested in businesses, land, and other tangible assets that have contributed to our company's current wealth.

In the next 20 years, our team will develop 4 service industry businesses that will contribute to local economic growth, and we plan to expand into the solar industry. Additionally, within that timeframe we shall work to further reward shareholders by offering a dividend.

Efuel EFN, Corporation will always invest, build, and do business.

Service Industry Development Project
Hotel & Shopping Center

We aim to develop four service centers loaded with store fronts and lodging. The first hotel and shopping center project would be located in Central Florida, and the others scattered throughout the Southeastern, United States.

These developments will contribute to local and state economic growth by creating jobs, and tax revenues.

To learn more about this project contact us at efuel@fn@yahoo.com or call us (352) 399-6278. Just ask for our Service Industry Development Packet and learn how you can play a part in our big ideal.

WHAT DO WE DO, YOU ASK?

Efuel EFN Corporation is holding company that is always looking to invest, build, and do business. Our growth means awesome rewards to our shareholders, investors, partners, employees, and community. So, here is what we do...

INVEST:

To us investment means risks & reward.

Industry - We do not limit ourselves to industry, only to improve in those in which we participate.

New - Something new means something is happening that can create wealth for our stakeholders.

Venture - Every venture is an undertaking that means building and business.

Evolve - We strive to evolve to become a better enterprise. To be more efficient and to expand.

Success - Always looking for the clearest way to success. But, if it's not clear, that is ok, we'll jump.

Team - Our team is strong, skilled, and willing.

BUILD:

When we think Build, we think of our balance sheet. Focusing on building a desirable balance sheet is our goal. It is imperative that we diversify our assets, and eliminate as much debt as possible.

BUSINESS:

Efuel can be broken down into five sectors: retail, hospitality, real estate, agriculture, and energy conservation. We currently have four active departments that generate income, the retail, hospitality, real estate, and agriculture departments.

Cherokee Trading Post is a retail store in Wildwood, Florida, that sells Florida souvenirs and Native American items.

The Hotel Marion is a 100+ room hotel in Marion, Indiana. In addition to its lodging business, the Hotel Marion specialize in banquets and parties.

Our real estate division buys and sells land. Although we have primary dealt with land, our team has experience and interest in conducting business in commercial and residential properties.

The pine tree acreage located in Georgia makes up our agriculture department. We sell the needles and sap for making syrup. Once the trees mature the trees will be harvested for the wood and sold to loggers.

The fifth and inactive department is energy conservation. We believe in a clean world and hope that with the development of this department we can help achieve that.

2016: Making Florida First for Jobs

Dear Business Professional:

Congratulations! Your license from the Florida Department of Business and Professional Regulation sets you on a path toward achieving your dreams in the Sunshine State. Thank you for your dedication to becoming a licensed business professional and working hard to provide high quality professional service to Floridians.

At DBPR, we cut several hundred regulations and significantly reduced the amount of time for obtaining a license. That's the way government should work - with efficiency while promoting innovation. I know the value of hard work and believe that Floridians should be able to keep what they earn.

We want to make Florida first for job creation and grow the manufacturing industry and Florida's small businesses to further diversify the economy and guard Florida against another national economic downturn. That is why we have cut taxes 50 times for Florida businesses and families, and we will keep working to cut taxes on manufacturing and retail businesses, commercial leases, college textbooks, and put more money in the pockets of Florida families.

Florida is on a roll. Florida businesses added more than one million jobs in five years, but we have more work to do. Our state is already home to 500,000 small businesses, and we want to keep cutting taxes and diversify our economy. I encourage you to invite your suppliers and business partners outside of Florida to consider moving to Florida to grow their business. We want Florida to be the small business capital of the world, and you can help spread the word about Florida's business friendly environment.

Again, congratulations on receiving your license. We are on a mission to make Florida first for jobs and the best place in the world to raise a family, get a great education, and achieve the American dream. Please let me know your ideas for how we can grow our small businesses and further diversify our economy to invest in the future of our state.

Sincerely,

A handwritten signature in black ink, appearing to read "Rick Scott".

Rick Scott
Governor
