Kimberley Parry Organics, Corp.
Notes to Consolidated Financial Statements
For the Three Months Ended August 31, 2016
(unaudited)

NOTE 1: ORGANIZATION AND OPERATIONS

Kimberly Parry Organics Corp. located in Saint George, Utah was incorporated, on June 27, 2006, in the State of Nevada, as Easy CD Yearbook, Inc., became VizStar, Inc. and in April, 2014 changed its name to Kimberly Parry Organics Corp. Although, in the past, the Company has been engaged in several different businesses, the acquisition of 60% of KP Products, Inc., its management, and manufacturing facilities, converted the focus to a business plan that includes the acquisition of companies and products in the organic cosmetic, wellness and skincare space. Kimberly Parry Organics Corp., is focused on the manufacture of its own product lines and on the acquisition of companies that are USDA Certified Organic and possessing both patents and product distribution.

NOTE 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation

The accompanying financial statements are prepared in accordance with accounting principles generally accepted in the United States of America.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Year-End

The Company has changed its year end from May 31 to August 31, effective with the August 31, 2016 filing.

Transfers of Non-monetary Assets by Stockholders - The Company records transfers of nonmonetary assets to the Company by stockholders in exchange for common stock at the stockholders' historical cost basis determined in conformity with generally accepted accounting principles in the United States of America.

Cash and Cash Equivalents

Cash and cash equivalents consist primarily of cash on deposit, certificates of deposit, money market accounts, and investment grade commercial paper that are readily convertible into cash and purchased with original maturities of three months or less.

The Company maintains cash balances at an institution that is insured by the Federal Deposit Insurance Corporation. As of August 31, and May 31, 2016 no amounts were in excess of the federally insured program.

Accounts Receivable

Accounts receivable are stated at the amount management expects to collect from outstanding balances. An allowance for doubtful accounts is provided for those accounts receivable considered to be uncollectable based on historical experience and management's evaluation of outstanding accounts receivable at the end of the period. Bad debts are written off against the allowance when identified. The Company determined that no allowance was required at August 31, 2016 and an allowance of \$25,000 was required as at May 31, 2016.

Prepaid Expenses

Prepaid expenses consist primarily of short-term prepaid expenditures that will amortize within one year.

Kimberley Parry Organics, Corp.
Notes to Consolidated Financial Statements
For the Three Months Ended August 31, 2016
(unaudited)

Inventory

As at August 31, 2016 and May 31, 2016 the company had \$227,572 and \$187,846, respectively, worth of inventory, valued on an average cost basis. The inventory is reviewed at least quarterly and adjusted for obsolescence and discrepancies.

Property and Equipment - Property and equipment are stated at cost less accumulated depreciation. Expenditures for property acquisitions, development, construction, improvements and major renewals are capitalized. The cost of repairs and maintenance is expensed as incurred. Depreciation is provided on the straight-line method over the estimated useful lives of the assets. Upon sale or other disposition of a depreciable asset, the cost and accumulated depreciation are removed from property and equipment and any gain or loss is reflected as a gain or loss from operations.

The estimated useful lives are:

Furniture and fixtures	3-5 years
Computers	3 years

Impairment of Long-Lived Assets

The Company will evaluate the recoverability of its long-lived assets as they are acquired and if circumstances indicate impairment is required it will be recorded based on the results of the analysis. This analysis is performed by comparing the respective carrying values of the assets to the current and expected future cash flows, on an undiscounted basis, to be generated from such assets. The Company evaluated its long-lived assets and determined, upon its move to St. George, to impair their value by \$290,653.

Website Development - The Company expenses the costs associated with the development and maintenance of its website.

Revenue Recognition

The Company will derive revenue from the sale of products and services. Revenue will be recognized when it is realized and earned.

The Company will meet all of the following four criteria in order to recognize revenue:

- Persuasive evidence of an arrangement exists
- Delivery has occurred
- The sales price is fixed or determinable
- Collection is reasonably assured

Payments received in advance of satisfaction of the relevant criteria for revenue recognition are recorded as advances from customers.

Fair Value of Financial Instruments

The Company adopted the FASB standard related to fair value measurement at inception. The standard defines fair value, establishes a framework for measuring fair value and expands disclosure of fair value measurements. The standard applies under other accounting pronouncements that require or permit fair value measurements and, accordingly, does not require any new fair value measurements. The standard clarifies that fair value is an exit price, representing the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants. As such, fair value is a market-based measurement that should be determined based on assumptions that market participants would use in pricing an asset or liability. The recorded values of long-term debt approximate their fair values, as interest approximates market

Kimberley Parry Organics, Corp.
Notes to Consolidated Financial Statements
For the Three Months Ended August 31, 2016
(unaudited)

rates. As a basis for considering such assumptions, the standard established a three-tier fair value hierarchy, which prioritizes the inputs used in measuring fair value as follows:

- Level 1: Observable inputs such as quoted prices in active markets;
- Level 2: Inputs, other than quoted prices in active markets, that are observable either directly or indirectly; and
- Level 3: Unobservable inputs in which there is little or no market data, which require the reporting entity to develop its own assumptions.

The Company's financial instruments are accounts payable, convertible note, notes payable and derivative liability. The recorded values of accounts payable and notes payable approximate their fair values based on their short-term nature

Share-based Compensation

The Company recognizes share-based compensation, including stock option grants, warrants and restricted stock grants at their fair value on the grant date. Share based payment awards issued to non-employees for services rendered are recorded at either the fair value of the services rendered or the fair value of the share-based payment, whichever is more readily determinable. Compensation expense is generally recognized on a straight-line basis over the vesting period.

Dividends

The payment of dividends by the Company in the future will be at the discretion of the Board of Directors and will depend on earnings, capital requirements and financial condition, as well as other relevant factors. The Company does not intend to pay any cash dividends in the foreseeable future but intend to retain all earnings, if any, for use in the business.

Earnings (Loss) per Share

Basic earnings (loss) per share is computed by dividing net income (loss) by the weighted average number of shares of common stock outstanding during each period. Diluted earnings (loss) per share is computed by dividing net income (loss), adjusted for changes in income or loss that resulted from the assumed conversion of convertible shares, by the weighted average number of shares of common stock, common stock equivalents and potentially dilutive securities outstanding during the period.

The computation of basic and diluted loss per share for the periods presented is equivalent since the Company has had continuing losses. The Company had no common stock equivalents as of August 31, 2016 and May 31, 2016.

Risks and Uncertainties - The Company's operations and future are dependent in a large part on its ability to develop its business model in a competitive market. The Company intends to operate in an industry that is subject to intense competition and change in consumer demand. The Company's operations are subject to significant risk and uncertainties including financial and operational risks and the potential risk of business failure. The Company's inability to meet its business plan and target customer demand may have a material adverse effect on its financial condition, results of operations and cash flows.

Income Taxes

Income taxes are accounted for under the asset and liability method. Deferred tax assets and liabilities are recognized for the future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases and operating loss and tax credit carry forwards. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in income in the period that includes the enactment date. A valuation allowance is provided for deferred tax assets if it is more likely than not these items will either expire before the Company is able to realize their benefits, or that future deductibility is uncertain.

Kimberley Parry Organics, Corp.
Notes to Consolidated Financial Statements
For the Three Months Ended August 31, 2016
(unaudited)

Stock-Based Compensation

The Company records stock-based compensation at fair value as of the date of grant and recognizes the corresponding expense over the requisite service period.

Recently Adopted Accounting Pronouncements

The Company has implemented all new accounting pronouncements that are in effect and that may impact its financial statements and does not believe that there are any other new pronouncements that have been issued that might have a material impact on its financial position or results of operations

NOTE 3: GOING CONCERN

The accompanying financial statements have been prepared on a going concern basis which contemplates the realization of assets and the satisfaction of liabilities in the normal course of business. The Company is reliant on existing shareholders or unrelated parties to provide the necessary funds to support operations. The financial statements do not include any adjustment relating to the recoverability and classification of liabilities that might be necessary should the Company be unable to continue as a going concern.

The Company is taking action to provide the necessary capital to continue its operations. These steps include, but are not limited to: 1) focus on sales to minimize the need for capital at this stage; 2) converting part of the outstanding accounts payable to equity; 3) raising equity financing; 4) continuous focus on reductions in cost where possible.

The Company incurred a net loss attributable to common shareholders of \$52,605 for the three months ended August 31, 2016 and \$36,482 for the three months ended August 31, 2015.

NOTE 4: PROPERTY AND EQUIPMENT

Property and equipment consist of the following:

	August 31 2016		May 31 2016
