MANAGEMENT'S RESPONSIBILITY

To the Shareholders of Redstar Gold Corp:

Management is responsible for the preparation and presentation of the accompanying condensed interim consolidated financial statements, including responsibility for significant accounting judgments and estimates in accordance with International Financial Reporting Standards. This responsibility includes selecting appropriate accounting principles and methods, and making decisions affecting the measurement of transactions in which objective judgment is required.

In discharging its responsibilities for the integrity and fairness of the financial statements, management designs and maintains the necessary accounting systems and related internal controls to provide reasonable assurance that transactions are authorized, assets are safeguarded and financial records are properly maintained to provide reliable information for the preparation of financial statements.

The Board of Directors and the Audit Committee are composed primarily of directors who are neither management nor employees of the Company. The Board is responsible for overseeing management in the performance of its financial reporting responsibilities, and for approving the financial information presented. The Board fulfils these responsibilities by reviewing the financial information prepared by management and discussing relevant matters with management and the external auditors. The Audit Committee has the responsibility of meeting with management, and the external auditors to discuss the internal controls over the financial reporting process, auditing matters and financial reporting issues. The Board is also responsible for recommending the appointment of the Company's external auditors.

The Company's independent auditor has not performed a review of these condensed interim consolidated financial statements in accordance with standards established by the Canadian Organization of Chartered Professional Accountants for a review of interim financial statements by an entity's auditor.

We draw attention to Note 1 in the condensed interim consolidated financial statements which indicates the existence of a material uncertainty that may cast substantial doubt on the Company's ability to continue as a going concern.

**NOTES TO THE CONDENSED INTERIM CONSOLIDATED FINANCIAL STATEMENTS
FOR THE NINE AND THREE MONTHS ENDED 31 DECEMBER 2016****1) Nature of operations and going concern**

Redstar Gold Corp. (the "Company" or "Redstar") is engaged in the acquisition, exploration, and development of mineral properties in North America. The Company is incorporated and domiciled in Canada under the Business Corporations Act (British Columbia), and its registered office 1500 – 409 Granville Street, Vancouver, BC, V6C 1T2.

These condensed interim consolidated financial statements (the "Financial Statements") have been prepared on the basis of the accounting principles applicable to a going concern, which assumes the Company will be able to continue in operation for the foreseeable future and will be able to realize its assets and discharge its liabilities in the normal course of operations.

There are several adverse conditions that cast significant doubt upon the soundness of this assumption. The business of mining and exploration involves a high degree of risk and there can be no assurance that current exploration programs will result in profitable mining operations. The recoverability of exploration and evaluation expenditures is dependent upon several factors. These include the discovery of economically recoverable reserves, the ability of the Company to obtain the necessary financing to complete the development of these properties, and future profitable production or proceeds from disposition of mineral properties.

Consistent with other companies in the sector of mineral exploration, the Company has incurred operating losses since inception, has limited sources of revenue, is unable to self-finance operations and has significant cash requirements to meet its overhead and maintain its mineral interests.

For the Company to continue to operate as a going concern it must continue to obtain additional financing to maintain operations; although the Company has been successful in the past at raising funds, there can be no assurance that this will continue in the future.

If the going concern assumption were not appropriate for these Financial Statements then adjustments would be necessary to the carrying value of assets and liabilities, the reported expenses and the statement of financial position classifications used and such adjustments could be material.

NOTES TO THE CONDENSED INTERIM CONSOLIDATED FINANCIAL STATEMENTS FOR THE NINE AND THREE MONTHS ENDED 31 DECEMBER 2016

2) Basis of preparation – Statement of Compliance

These Financial Statements, including comparatives, have been prepared in accordance with International Financial Reporting Standards (“IFRS”) as issued by the International Accounting Standards Board (“IASB”) and in accordance with International Accounting Standards (“IAS”) 34, Interim Financial Reporting. The Financial Statements have been prepared on a historical cost basis, except for financial instruments classified as financial instruments at fair value through profit and loss, which are stated at their fair value. In addition, these Financial Statements have been prepared using the accrual basis of accounting except for cash flow information.

Since the unaudited Financial Statements do not include all disclosures required by IFRS for annual consolidated financial statements, they should be read in conjunction with the Company’s audited annual consolidated financial statements for the year ended 31 March 2016.

The policies set out were consistently applied to all the periods presented unless otherwise noted below. The preparation of condensed interim financial statements in accordance with IAS1 requires the use of certain critical accounting estimates. It also requires management to exercise judgement in applying the Company’s accounting policies.

The preparation of the Financial Statements requires management to make judgments, estimates and assumptions that affect the application of policies and reported amounts of assets and liabilities, profit and expenses. The estimates and associated assumptions are based on historical experience and various other factors that are believed to be reasonable under the circumstances, the results of which form the basis of making the judgments about carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an on-going basis. Revisions to accounting estimates are recognized in the period in which the estimate is revised if the revision affects only that period or in the period of the revision and further periods if the review affects both current and future periods.

3) Summary of significant accounting policies

The accounting policies and methods of computation followed in preparing these Financial Statements are the same as those followed in preparing the most recent audited annual financial statements. For a complete summary of significant accounting policies, please refer to the Company’s audited annual consolidated financial statements for the year ended 31 March 2016. The following Note was updated during the nine months ended 31 December, 2016.

a) Basis of presentation

i) Subsidiaries

These Financial Statements incorporate the financial statements of the Company and the entities controlled by the Company, which consist of:

- Redstar Gold USA Inc. (“Redstar USA”), which was incorporated in the State of Nevada, owned 100% by the Company.
- Redstar Gold (Alaska) Inc. (“Redstar Alaska”), which was incorporated in the State of Alaska, owned 100% by the Company.

Control exists when the Company has the power, directly or indirectly, to govern the financial and operating policies of an entity so as to obtain benefits from its activities. The financial statements of subsidiaries are included in the consolidated financial statements from the date that control commences until the date that control ceases. All significant intercompany transactions and balances have been eliminated.

NOTES TO THE CONDENSED INTERIM CONSOLIDATED FINANCIAL STATEMENTS FOR THE NINE AND THREE MONTHS ENDED 31 DECEMBER 2016

Non-controlling interest in the net assets of consolidated subsidiaries are identified separately from the Company's equity. Non-controlling interest consists of the non-controlling interest at the date of the original business combination plus the non-controlling interest's share of changes in equity since the date of acquisition.

ii) Investments in associates

An associate is an entity over which the Company has significant influence, but not control, and is neither a subsidiary, nor an interest in a joint venture. Investments in which the Company has the ability to exercise significant influence are accounted for by the equity method. Under this method, the investment is initially recorded at cost and adjusted thereafter to record the Company's share of post-acquisition earnings or loss of the investee as if the investee had been consolidated. The carrying value of the investment is also increased or decreased to reflect the Company's share of capital transactions, including amounts recognized in other comprehensive income (OCI), and for accounting changes that relate to periods subsequent to the date of acquisition. Where there is objective evidence that the investment in associates is impaired, the amount of impairment, calculated as the difference between the recoverable amount of the associate and its carrying value, is deducted from the carrying value and recognized as a loss in the statement of operations.

iii) Short-term investments

Short-term investments are investments that are transitional or current in nature, with an original maturity greater than three months, but less than twelve months.

4) Critical accounting estimates and judgments

In the application of the Company's accounting policies, which are described in note 3, management is required to make judgments, estimates and assumptions about the carrying amount and classification of assets and liabilities that are not readily apparent from other sources. The estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an on-going basis. Revisions to accounting estimates are recognized in the period in which the estimate is revised if the revisions affect only that period, or in the period of the revision and future periods, if the revision affects both current and future periods.

The following are the critical judgments and areas involving estimates, that management have made in the process of applying the Company's accounting policies and that have the most significant effect on the amount recognized in the Financial Statements.

5) Change in accounting policy

During the year ended 31 March 2016, the Company changed its accounting policy for exploration and evaluation costs. In prior years, the Company capitalized acquisition costs of mineral properties and deferred exploration and evaluation expenditures directly related to specific mineral properties, net of recoveries received. Under the new policy, property exploration costs incurred prior to the determination of the feasibility of mining operations and a decision to proceed with development are charged to operations as incurred. Exploration costs also include exploration license and maintenance fees which are paid on a yearly basis. Development expenditures incurred subsequent to a development decision, and to increase or to extend the life of existing production, are capitalized and will be amortized on the unit-of-production method based upon estimated proven and probable reserves. Management believes that this treatment provides a more accurate depiction of the asset base of the Company prior to establishing the economic feasibility of its resource base.

NOTES TO THE CONDENSED INTERIM CONSOLIDATED FINANCIAL STATEMENTS
FOR THE NINE AND THREE MONTHS ENDED 31 DECEMBER 2016

The Company has accounted for this change in accounting policy on a retrospective basis with a restatement of the opening deficit balance and the exploration and evaluation asset for the prior period presented as if the new accounting policy had always been applied. The impact of this change is as follows:

6) Financial instruments and risk management

a) Financial instrument classification and measurement

Financial instruments of the Company carried on the Consolidated Statement of Financial Position are carried at amortized cost with the exception of marketable securities, which are carried at fair value. There are no significant differences between the carrying value of financial instruments and their estimated fair values as at 31 December 2016 and 31 March 2016.

The fair value of the Company's marketable securities are quoted in active markets. The Company classifies the fair value of these transactions according to the following hierarchy.

- Level 1 – quoted prices in active markets for identical financial instruments.
- Level 2 – quoted prices for similar instruments in active markets; quoted prices for identical or similar instruments in markets that are not active; and model-derived valuations in which all significant inputs and significant value drivers are observable in active markets.
- Level 3 – valuations derived from valuation techniques in which one or more significant inputs or significant value drivers are unobservable.

The Company's marketable securities have been assessed on the fair value hierarchy described above and classified as Level 1.

NOTES TO THE CONDENSED INTERIM CONSOLIDATED FINANCIAL STATEMENTS FOR THE NINE AND THREE MONTHS ENDED 31 DECEMBER 2016

b) Fair values of financial assets and liabilities

The Company's financial instruments include cash and cash equivalents, short-term investments, marketable securities, amounts receivable, accounts payable and accrued liabilities, and due to related parties. As at 31 December 2016 and 31 March 2016, the carrying value of cash and cash equivalents is fair value. Marketable securities are marked to fair value at each financial statement reporting date. Amounts receivable, accounts payable and accrued liabilities, and due to related parties approximate their fair value due to their short-term nature.

c) Market risk

Market risk is the risk that changes in market prices will affect the Company's earnings or the value of its financial instruments. Market risk is comprised of commodity price risk and interest rate risk. The objective of market risk management is to manage and control exposures within acceptable limits, while maximizing returns. The Company is not exposed to significant market risk.

d) Credit risk

Credit risk is the risk that one party to a financial instrument will fail to discharge an obligation and cause the other party to incur a financial loss. The Company's primary exposure to credit risk is on its bank accounts. The Company's bank accounts are held with major banks in Canada and the United States; accordingly, the Company believes it not exposed to significant credit risk.

e) Interest rate risk

Interest rate risk is the risk of losses that arise as a result of changes in contracted interest rates. The Company is not exposed to significant interest rate risk.

f) Currency risk

Currency risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in foreign exchange rates. To manage this risk the Company maintains only the minimum amount of foreign cash required to fund its on-going general and exploration expenditures. The Company is not exposed to significant foreign currency risk, as a 5% shift in foreign exchange rates would result in an impact of approximately \$6,466. At 31 December 2016, the Company held currency totalling the following:

Canadian (Dollars)	US (Dollars)
\$264,971	\$96,308

g) Liquidity risk

Liquidity risk is the risk that the Company will not be able to meet its financial obligations as they come due. The Company controls liquidity risk by ensuring that it has sufficient cash resources to pay for its financial obligations. As at 31 December 2016, the Company had a cash balance of \$394,283 to settle current liabilities of \$104,721.

For the year ended 31 March 2016, the Company has impaired \$129,544 of marketable securities and recorded in profit and loss due to prolonged significant decrease in fair value. As at year-end, the Company has \$nil of unrealized loss on marketable securities recorded in accumulated other comprehensive income.

9) Investment in NV Gold Corporation

On 1 September 2016, the Company entered into a purchase and sale agreement with NV Gold Corporation and its subsidiary, NV Gold Corporation (USA) ("NV Gold"), Canadian junior exploration company trading on the TSX Venture Exchange. As part of this agreement, NV Gold acquired the right to a 100% ownership of Great Basin Database and 100% interest in eleven Nevada Properties (see Note 10). On 28 September 2016, the Company completed the sale of Nevada Properties for consideration of 29.9% of the outstanding common shares of NV Gold.

NOTES TO THE CONDENSED INTERIM CONSOLIDATED FINANCIAL STATEMENTS FOR THE NINE AND THREE MONTHS ENDED 31 DECEMBER 2016

The Company accounts for its investment in NV Gold using the equity method of accounting. Under the equity method of accounting, the investment in NV Gold, is initially recognized at cost and adjusted thereafter for the post-acquisition change in the net assets.

This transaction has resulted in a non-cash income on sale of exploration and evaluation of assets and calculated as follows:

Acquisition of 6,172,730 shares at cost	\$ 2,160,456
Less carrying value of exploration and evaluation assets	(82,532)
Proportionate share of net loss	(191,070)
December 31, 2016	\$ 1,969,386

The Company is not exposed to any additional losses beyond its initial investment amount. No dividends or cash distributions were received by the Company from NV Gold during the period.

The Company recorded an equity loss of \$191,070 for the three months ended December 31, 2016 which represents the proportionate share of NV Gold's net loss through three months ended November 30, 2016. NV Gold has an August fiscal year end and it is impractical to prepare financial statements to 31 December 2016 as NV Gold is a listed entity. It is expected that the difference in reporting dates is immaterial.

The following is a summary of the consolidated financial information of NV Gold on a 100% basis as at and for the year ended 31 August 2016, which is the most recent publicly available information for NV Gold. These amounts are presented in Canadian dollars.

	30 November 2016	31 August 2016

NOTES TO THE CONDENSED INTERIM CONSOLIDATED FINANCIAL STATEMENTS FOR THE NINE AND THREE MONTHS ENDED 31 DECEMBER 2016

a) Unga Project, Alaska , USA

The Unga Project is approximately 250 sq. kms and is comprised of patented and Alaska State claims and Alaskan Native Corporation lands.

On 19 May 2011, the Company entered into an option agreement with NGAS Production Co. (“NGAS”), a subsidiary of Magnum Hunter Resources Corp. (“Magnum”), to acquire, subject to underlying advance royalty payments of US\$2,000 per month to a maximum of US\$450,000, a 100% interest in patented land/claims in consideration for making the following payments:

	Cash (\$US)	Shares (\$US) ⁽ⁱ⁾
19 May 2011	\$ 100,000 ⁽ⁱⁱ⁾	\$ -
30 June 2011	-	250,000
15 July 2011	500,000 ⁽ⁱⁱ⁾	-
01 January 2012	200,000 ⁽ⁱⁱ⁾	250,000
	<u>\$ 800,000</u>	<u>\$ 500,000</u>

(i) The Company issued common shares the equivalent dollar-value as stated above.

(ii) Paid and/or issued

In addition, at the option of NGAS, a final option payment of US\$1,500,000 in cash (US\$1,000,000 on or before 1 September 2012 and US\$500,000 on or before 1 September 2013) or the number of common shares of the Company equivalent to US\$1,500,000 on or before 1 October 2012.

On 31 August 2012, NGAS elected to be paid US\$1,000,000 in cash on 1 September 2012 (paid) and US\$500,000 in cash on or before 1 September 2013 (collectively, the “Payments”). With respect to the US\$1,000,000 due 1 September 2012, NGAS granted the Company an extension of 180 days from and after 1 September 2012 to make the US\$1,000,000 payment due to NGAS, in consideration for making cash payment to NGAS of US\$100,000 on signing of the extension agreement (paid), and issuing in the aggregate 875,000 shares in stages, as to 125,000 shares on the TSX approval of the extension agreement (issued), and 125,000 shares each on the 30th, 60th, 90th, 120th, 150th and 180th days after 1 September 2012 (all issued).

In respect of the US\$1,000,000 originally due on 1 September 2012 and subsequently extended to February 28, 2013, NGAS granted the Company a second extension of 180 days to 1 September 2013, to make the US\$1,000,000 payment due to NGAS, in consideration for making cash payment to NGAS of US\$100,000 on signing of the extension agreement (paid) and share issuances to NGAS of 125,000 shares on the TSX approval of the extension agreement (issued), and additional staged share issuances to NGAS until such time as the Payments are made (625,000 shares issued). All commitments having been met, the Company now owns 100% of the Unga Property.

On 18 February 2014, the Company signed a Letter of Intent (“LOI”) with Full Metal Minerals Ltd (“FMM”), to take an assignment of FMM’s interest in its agreement with The Aleut Corporation (“TAC”) and to acquire a 100% interest in six Alaskan State Mineral claims. Under the terms of the LOI, the Company may acquire a 100% undivided interest in the property, upon issuance of 4,000,000 shares and payment of a total of US\$50,000 (US\$10,000 paid) to FMM, subject to regulatory approval, completion of a definitive agreement including the consent of TAC to the assignment, and satisfying the Underlying Agreements. The LOI supersedes all other agreements with FMM in respect of the TAC lands and the state claims.

b) Nevada Properties, USA

AngloGold-Ashanti Agreements

On 9 March 2005, the Company entered into a Data Base Purchase and Buy Back Agreement with AngloGold-Ashanti North America Inc. ("AngloGold") whereby the Company acquired the right to a 100% ownership of an exploration and geological database covering Nevada, Utah, Idaho and California ("Great Basin Database"), in consideration for the issuance of shares and making certain expenditures within the Great Basin. The agreement was subject to AngloGold retaining the right to back into projects for a 60% interest by making certain additional expenditures on specified properties. On 8 May 2008, the Company completed the purchase of the database, eliminating AngloGold's back-in option on various properties, and the agreement was terminated. Pursuant to a subsequent agreement, the back-in rights on properties acquired prior to May, 2008 (Eagle Basin, Richmond Summit, Cooks Creek, Root Spring and Oasis) were converted to royalties of 1% to 2%, depending on the price of gold.

On 1 September 2016, the Company entered into a purchase and sale agreement with NV Gold (see Note 10). Pursuant to this agreement, the Company sold its right to a 100% ownership of Great Basin Database, the Nevada properties and AngloGold royalties:

c) Newman Todd Property, Red Lake District, Ontario, Canada

In 2007, the Company acquired a 100% interest in the Newman Todd area properties ("Todd Properties") (comprised of several properties) by issuing 700,000 common shares to the vendor. The mineral claims are subject to a 1% net smelter return ("NSR") royalty provided that the total NSR royalties payable on any claims within the property does not exceed 2.75%. Should a mine be placed into production, the Company is required to issue common shares with a value in the aggregate of \$1,000,000. Should production exceed 250,000 ounces of gold, the Company is required to issue additional common shares with a value of \$1,000,000.

On 19 November 2010, the Company entered into an option agreement with Confederation Minerals Ltd. ("Confederation") whereby Confederation could earn up to a 70% undivided interest in the Company's 100% owned Todd Properties in Red Lake, Ontario.

Under the terms of the agreement, Confederation could earn an initial 50% interest in the project by funding \$5,000,000 in exploration and development work, issuing shares of Confederation and making payments to the Company as follows:

		Cash	Shares	Exploration Expenditures on Projects

Having earned an initial 50% interest in the project, Confederation could earn an additional 20% interest by providing a Preliminary Assessment of the property, at Confederation's cost, and issuing 500,000 shares of Confederation to the Company. In addition, to maintain the second option in good standing, Confederation would make minimum annual expenditures of \$250,000 commencing on the third anniversary and until the earlier of (a) the full exercise of the second option, and (b) the expiry of the second option.

On 24 March 2015, Confederation earned their additional 20% interest in the project by providing a Preliminary Assessment and issuing 500,000 shares to the Company.

On 14 April 2011, the Company acquired, under joint acquisition with Confederation, a 50% interest in 18 mineral claims adjacent to the Todd Properties ("Adjacent Property"). Of the 50% interest acquired by the parties from the vendor, Confederation acquired an undivided 35% interest in the Adjacent Property (being 70% of vendor's interest) and the Company acquired an undivided 15% interest in the Adjacent Property (being 30% of the vendor's interest) for the sum of \$70,000. The remaining 50% interest in the claims is held by Rubicon Minerals Corporation.

13) Capital management

The Company's capital consists of shareholders' equity. The Company's objective when managing capital is to maintain adequate levels of funding to support the development of its businesses and maintain the necessary corporate and administrative functions to facilitate these activities. This is done primarily through equity financing, selling assets, and incurring debt. Future financings are dependent on market conditions and there can be no assurance the Company will be able to raise funds in the future. The Company invests all capital that is surplus to its immediate operational needs in short-term, highly liquid, high-grade financial instruments. There were no changes to the Company's approach to capital management during the period. The Company is not subject to externally imposed capital requirements.

14) Share capital**a) Authorized**

Unlimited common shares without par value.

b) Issued or allotted and fully paid:

During the nine months ended 31 December 2016:

The Company closed, on 29 April 2016, a non-brokered private placement of 19,085,200 units (the "Units") at a price of \$0.06 per Unit for gross proceeds of \$1,145,112. The Company recorded \$25,097 of share issuance cost. Each Unit consisted of one common share and one common share purchase warrant. Each whole Warrant can be exercised into one common share of the Company at a price of \$0.14 per share for a period of three years from the date of closing.

NOTES TO THE CONDENSED INTERIM CONSOLIDATED FINANCIAL STATEMENTS
FOR THE NINE AND THREE MONTHS ENDED 31 DECEMBER 2016

d) Share-based payments

For the nine month period ended 31 December 2016 and the year ended 31 March 2016, the Company issued stock options to its directors, officers, employees, and consultants and recognized stock-based compensation as follows:

	31 December 2016	31 March 2016
Total Options Granted	3,000,000	3,800,000
Average exercise price	\$ 0.16	\$ 0.06
Estimated fair value of compensation	\$ 178,000	\$ 76,469
Estimated fair value per option	\$ 0.06	\$ 0.01

The fair value of the stock-based compensation of options to be recognized in the accounts has been estimated using the Black-Scholes Model with the following weighted-average assumptions:

	31 December 2016	31 March 2016
Risk free interest rate	1.06%	0.60%
Expected dividend yield	0.00%	0.00%
Expected stock price volatility	75.00%	65-78%
Expected option life in years	5.0	2.0-3.5
Expected maturity rate	100%	70-100%

The Black-Scholes Option Pricing Model was created for use in estimating the fair value of freely tradable, fully transferable options. The Company's employee stock options have characteristics significantly different from those of traded options, and because changes in the highly subjective input assumptions can materially affect the calculated values, management believes that the accepted Black-Scholes model does not necessarily provide a reliable measure of the fair value of the Company's stock option awards.

e) Warrants

On 27 May 2015, the Company extended the expiration date of the 27,566,666 warrants issued on 27 May 2014 from 27 May 2015 to 27 August 2015. The exercise price will remain \$0.12.

On 14 October 2015, the Company extended the expiration date of 39,383,363 warrants issued on 21 August 2013 from 21 October 2015 to 21 October 2016. The exercise price will remain \$0.10.

On 14 October 2016, the Company announced 35,897,000 warrants with an exercise price of \$0.10 maturing on October 21, 2016, were exercised.

On 19 November 2016, 1,390,000 warrants with an exercise price of \$0.12 were exercised.
