SUPERNOVA ENERGY, INC.

Quarter ended March 31, 2017

Information required for compliance with the provisions of the OTC Markets, Inc., OTC Pink Disclosure Guidelines (Version 1.1.1 04/25/13)

Because we want to provide more meaningful and useful information, this Disclosure Statement contains certain “forward-looking statements” (as such term is defined in Section 21E of the Securities Exchange Act of 1934, as amended). These statements reflect our current expectations regarding our possible future results of operations, performance, and achievements. These forward-looking statements are made pursuant to the safe harbor provisions of the Private Securities Litigation Reform Act of 1995, regulation of the Securities and Exchange Commission, and common law.

Wherever possible, we have tried to identify these forward-looking statements by using words such as “anticipate,” “believe,” “estimate,” “expect,” “plan,” “intend,” and similar expressions. These statements reflect our current beliefs and are based on information currently available to us. Accordingly, these statements are subject to certain risks, uncertainties, and contingencies, which could cause our actual results, performance, or achievements to differ materially from those expressed in, or implied by, such statements. We have no obligation to update or revise any such forward-looking statements that may be made to reflect events or circumstances after the date of this Disclosure Statement.

Item 1. The exact name of the Issuer and its predecessors (if any).

The exact name of the Issuer is Supernova Energy, Inc. Supernova Energy, Inc. (“the Company”) is an oil and gas exploration and production company incorporated in the state of Nevada on June 22, 2009 under the name Northumberland Resources, Inc. On October 21, 2013 the Company elected to change its corporate name from Northumberland Resources, Inc. to Supernova Energy, Inc.

Other than listed above, the corporation has used no other names in the past five years.

Item 2. Address of the Issuer's Principal Executive Offices

The address of the Company is:
265 Sunrise Hwy, Suite 1-276 Rockville Centre, New York 11570

Attention: Kevin G. Malone
The telephone number is (785) 370-3454
Email contact: ceo@supernovaenergyinc.com
Website: <http://supernovaenergyinc.com>

Item 3. Security Information (as of March 31, 2017)

Trading Symbol: SPRN

CUSIP: 86845R 207

Exact Title and Class of Securities Outstanding:

Common Stock: Par or Stated Value: \$0.001

Total Shares Authorized: 102,000,000 (Common: 100,000,000 & Preferred: 2,000,000)

Total Common Shares Outstanding at the Quarter ending March 31, 2017: 21,820,572

Total Preferred shares outstanding at Quarter ending March 31, 2017: 884,400.

(The preferred shares have a 100 to 1 conversion and voting rights)

Transfer Agent:

Action Stock Transfer Corporation

2469 E. Fort Union Blvd., Suite 214

Salt Lake City, UT 84121

Telephone: (801) 274-1088 Fax: (801) 274-1099

Email: <mailto:action@actionstocktransfer.com>

Is the Transfer Agent registered under the Exchange Act: Yes No

List any restrictions on the transfer of securities: of the 21,820,572 issued and outstanding common shares, all of the 21,820,572 are free trading shares and none are restricted shares that are subject to Rule 144.

Describe any trading suspension orders issued by the SEC in the past 12 months: **None**

List any stock split, stock dividend, recapitalization, merger, acquisition, spin-off, or reorganization either currently anticipated or that occurred within the past 12 months: **None**

Item 4. Issuance History

2012: At the year ending December 31, 2012 there were 311,145 common shares issued and outstanding and 809,400 preferred shares outstanding.

2013: During 2013 1,100 common shares were issued in settlement of debt in the amount of \$109,644 and 5,021 common shares were issued for cash totaling \$465,000. At the year ending December 31, 2013 there were 317,266 common shares issued and outstanding and 809,400 preferred shares issued and outstanding.

2014: There were 65,000 preferred shares issued at \$1.00 for \$65,000 in cash. There were no additional common shares issued during 2014. At the year ending December 31, 2014 there were 317,266 common shares issued and outstanding and 874,400 preferred shares issued and outstanding.

2015: In 2015 65,000 of the previously outstanding 874,400 preferred shares were converted into 6,500,000 common shares based on their 100 to 1 conversion rights. Common shares were adjusted by adding 3,306 shares to reconcile to the Transfer Agent's shareholder list.

2016: From January 1, 2016 to December 31, 2016 there were no common or preferred shares issued.

2017: On February 21, 2017 \$150,000 of debt was converted into common shares at \$0.01 per share for a total of 15,000,000 shares. On March 8, 2017 the Company signed a subscription agreement for 75,000 preferred shares to be purchased for \$1.00 per preferred share.

As of March 31, 2017 there are 21,820,572 common shares issued and outstanding. Total preferred shares issued and outstanding at March 31, 2017: 884,400.

Item 5. Financial Statements

The financial statements for the Quarter ending March 31, 2017, are being filed with OTC Markets, Inc. contemporaneously with this Quarterly Disclosure Statement for the respective three months ending March 31, 2017.

Item 6. Describe the Issuer's Business, Products and Services.

A. Description of the Issuer's Business Operations:

Supernova Energy Inc. is a highly focused, risk-averse oil and gas exploration company with a focused strategy of building a substantial portfolio of oil and gas assets in low risk areas.

Supernova Energy Inc. will exploit projects which can deliver cash flows normally associated with higher risk projects, but without exposure to high risk failure rates. Our Company will target existing production in known oil producing states and apply new exploration technologies to increase production. Supernova Energy Inc. holds working interests in leases located in Kansas and Kentucky. The Company has targeted these states due to the low cost of drilling and exploration as well as their oil friendly state and local governments.

On January 28, 2015, the registrant entered into an Assignment of Oil & Gas Lease with an unrelated third party whereby the Company was assigned the entire 87.5% working interest in and to certain leaseholds in Russell County, Kentucky.

On January 29, 2015, the registrant entered into a Drilling Agreement with an unrelated third party whereby the Company will pay \$100,000 to drill the well and \$50,000 to complete the well. In return the Company will receive a 100% working interest and an 87.5% net revenue interest in and to the aforementioned well. During the six months ended June 30, 2015 the \$50,000 paid for drilling costs was repaid to the Company.

A. Description of the Issuer's Business Operations cont'd:

During the year ending December 31, 2015, the Company impaired the value of its proven and unproven reserves and support equipment of \$439,705 due to lower oil prices.

Supernova Energy, Inc. is focused on specializing in well bore completion and re-completion on existing oil and gas production. There are a large number of opportunities in well completion and ownership across the USA. Supernova has an operating license in the state of Kansas where it concentrates on completions, re-completions and workovers through working-interest (WI) partnerships.

Oil leases produce at their maximum rate at the start of their lives, but this production rate eventually declines. In order to maintain production levels, wells will require secondary recovery efforts to boost production back to former levels. Re-completion often involves stimulation of the reservoir, perforating old or new casing, and completing alternative sections of pay in an oil producing formation. Supernova Energy intends to capitalize on leases that fit the criteria for secondary recovery.

In late 2015, Supernova Energy took control of operations at a majority of its oil and gas leases in the state of Kansas. Since assuming control, the Company has been able to bring four of the leases back into production. As a result, total oil and gas production in the last year (2016) increased to over 2,500 barrels of oil, generating just over \$100,000 in revenue. In addition, restarting production enable the Company to significantly improve its balance sheet by adding over \$400,000 in asset valuation.

Supernova is operator and 100% working Interest owner of its Pratt County leases (5 leases totaling 780 acres) located within the established Sawyer Field and is currently producing both oil and gas. The Sawyer field has produced an accumulative 3,383,397 MCF and 2,137,418 barrels of oil from four pay zones, (Lansing-Kansas city, Viola, Simpson and Arbuckle); the first well was drilled in 1957.

Since taking control as operator of the Pratt County leases in late 2015, Supernova has successfully reworked and restarted production in two temporarily abandoned (TA'D) wells (Keyes A #1 and Keyes B). An existing salt water disposal well (Harrell D) on the leases was also refitted and ungraded in August 2016 to support increased production levels in the field. The Company expects to further upgrade equipment on producing wells to increase flow rate and decrease water cut.

There are several other currently shut-in and temporarily abandoned (TA'D) wells on the Company's Pratt County leases that are being considered for reworking. Supernova believes many of its Pratt County wells are also candidates for secondary recovery (gas injection and water-flooding).

Market for oil and gas production

The market for oil and gas production is regulated by both the state and federal governments. The overall market is mature and with the exception of gas, all producers in a producing region will receive the same price. The major oil companies will purchase all crude oil offered for sale at posted field prices. There are price adjustments for quality differences from the Benchmark. Benchmark is Saudi Arabian light crude oil employed as the standard on which OPEC price changes have been based. Quality variances from Benchmark crude results in lower prices being paid for the variant oil. Oil sales are normally contracted with a purchaser or gatherer as it is known in the industry who will pick up the oil at the well site. In some instances there may be deductions for transportation from the well head to the sales point. At this time the majority of crude oil purchasers do not charge transportation fees unless the well is outside their service area.

The service area is a geographical area in which the purchaser of crude oil will not charge a fee for picking upon the oil. The purchaser or oil gatherer as it is called within the oil industry will usually handle all check disbursements to both the working interest and royalty owners. We will be a working interest owner. By being a working interest owner, we are responsible for the payment of our proportionate share of the operating expenses of the well.

Royalty owners and overriding royalty owners receive a percentage of gross oil production for the particular lease and are not obligated in any manner whatsoever to pay for the costs of operating the lease. Therefore, we, in most instances, will be paying the expenses for the oil and gas revenues paid to the royalty and overriding royalty interests.

Gas sales are by contract. The gas purchaser will pay the well operator 100% of the sales proceeds on or about the 25th of each and every month for the previous month's sales. The operator is responsible for all checks and distributions to the working interest and royalty owners.

There is no standard price for gas. Price will fluctuate with the seasons and the general market conditions. It is our intention to utilize this market whenever possible in order to maximize revenues. We do not anticipate any significant change in the manner production is purchased; however, no assurance can be given at this time that such changes will not occur.

- B. Date and State (or jurisdiction) of Incorporation:**
Reference is made to Item 1, above (Nevada on June 22, 2009)
- C. The Issuer's Primary and Secondary SIC Codes:**
1311 - Crude Petroleum & Natural Gas, 1381 - Drilling Oil & Gas Wells
- D. The Issuer's Fiscal Year End Date:**
The Issuer's fiscal year end is December 31.
- E. Principal products or services, and their markets;**
Reference is made to Item 6A, above.

Item 7. Describe the Issuer's Facilities

At present, the arrangement for the Company Office is on a month by month rental agreement with an executive suites company in Rockville Centre, NY. We believe that this arrangement is adequate and suitable for our current needs. However, when expansion of our business demands increased office space, there are considerable office facilities available in the Rockville Centre area in which we are presently located.

- (1) **The business address is:** 265 Sunrise Hwy, Suite 1-276 Rockville Centre,
New York 11570

Item 8. Officers, Directors and Control Persons

- A. Officers and Directors and Control Persons. Provide the full names, business addresses, employment histories (for the past 5 years), positions held, responsibilities and employment dates, board memberships, other affiliations, compensation and number of securities (specify each class) beneficially owned by each person as of March 31, 2017.**

Kevin Malone, President, Secretary, Treasurer & Director, 51, has been serving as a consultant to the Company since March 2014. Mr. Malone has served on the board of directors of US Highland Inc. (OTC Bulletin Board UHLN) since February 2013.

Prior to joining US Highland Mr. Malone worked in the financial service industry since 1985. From March 2009 through October 2012, Mr. Malone served as head trader for R.F. Lafferty & Company, Inc. From January 2006 until March 2009, Mr. Malone worked in the same capacity at Westminster Securities Corporation. From December 2002 through January 2006, Mr. Malone worked for Aegis Capital Corporation.

Mr. Nicholas Upchurch, Director, 36 years old, is a fifth generation oil and gas professional whose career started in 1998 with Twin Lakes Drilling, Company. With over 18 years of experience in leasing, drilling, operating, completions, and geological analysis, Mr. Upchurch has been involved in the acquisition of over 100,000 acres across the central United States.

Mr. Upchurch owned and operated Lucky Production from 2004 to 2010. He continued his oil and gas work with Olim Energy, LLC in 2011, before becoming owner and CEO of OMR Drilling in 2012, as owner Nicholas has acquired over 15,000 acres and has drilled, operated, and/or produced over 100 wells in Appalachian Basin for investors, both in the United States and international.
