## Special Note Regarding Forward-Looking Statements

Information included in this quarterly report contains forward-looking statements within the meaning of section 27A of the Securities Act of 1933, as amended (“Securities Act”), and Section 21E of the Securities Exchange Act of 1934, as amended (“Exchange Act”). This information may involve known or unknown risks, uncertainties and other factors which may cause the actual results, performance or achievements of Turbo Global Partners, Inc. (the “Company”), to be materially different from future results, performance or achievements expressed or implied by any forward-looking statements. Forward-looking statements, which involve assumptions and describe future plans, strategies and expectations of the Company, are generally identifiable by use of the words “may,” “will,” “should,” “expect,” “anticipate,” “estimate,” “believe,” “intend,” “or” “project” or the negative of these words or other variations on these words or comparable terminology. These forward-looking statements are based on assumptions that may be incorrect, and there can be no assurance that these projections included in these forward-looking statements will come to pass. Actual results of the Company could differ materially from those expressed or implied by the forward-looking statements as a result of various factors. Except as required by applicable laws, the Company has no obligation to update publicly any forward-looking statements for any reason, even if new information becomes available or other events occur in the future.

*\*Please note that throughout the Quarterly Report, and unless otherwise noted, the words “we,” “our,” “us,” “the Company,” or “Turbo” refers to Turbo Global Partners, INC.*

TURBO GLOBAL PARTNERS, INC.  
**NOTES TO THE UNAUDITED FINANCIAL STATEMENTS**

**NOTE 1-ORGANIZATION AND BASIS OF PRESENTATION**

Turbo Global Partners, Inc., (the “Company”) was incorporated on March 15, 2002 in the State of Nevada. The issuer is engaged in what is primarily a marketing and Acquisition Company that delivers solutions that are a fusion of marketing, media, digital and infotainment. Serving niches from spirits to gaming, digital and social, mobility, medical marijuana and CBD products, education and non-profits, health and retail to live sporting events

The accompanying unaudited condensed financial statements of Turbo Global Partners, Inc.(the “Company”) have been prepared in accordance with accounting principles generally accepted in the United States of America for annual financial information. In the opinion of management, all normal recurring adjustments considered necessary for a fair presentation have been included.

The accompanying condensed financial statements have been prepared on a going concern basis, which contemplates the realization of assets and the settlement of liabilities and commitments in the normal course of business. As reflected in the accompanying condensed financial statements, the Company has incurred recurring gains and losses. For the quarter ended March 31, 2017, the Company recorded a net loss of \$384,573 used cash to fund operating activities of \$6,135, and at March 31, 2017, had an accumulated deficit of \$ 365,392.

The Company's management plans to continue as a going concern revolve around its ability to develop its current business plan, as well as raise necessary capital to pay ongoing general and administrative expenses of the Company. The ability of the Company to continue as a going concern is dependent on securing additional sources of capital and the success of the Company's plan. There is no assurance that the Company will be successful in raising the additional capital or in achieving profitable operations. To date the Company has been unsuccessful in raising additional funds..

Our cash need for the quarter ended March 31, 2017 was primarily met by existing funds and a short-term loans payable of \$363,000 obtained in the fourth quarter of 2016. As of March 31, 2017 we had a negative cash balance of \$6,135.

These financial statements and related notes have been prepared in accordance with accounting principles generally accepted in the United States of America for financial information. Accordingly, they do not include all of the information and footnotes required by generally accepted accounting principles for complete financial statements. In the opinion of management, all normal recurring adjustments considered necessary for a fair presentation have been included. Operating results for the quarter ended March 31, 2017 are not necessarily indicative of the results that may be expected for the quarter ended March 31, 2017

TURBO GLOBAL PARTNERS, INC.  
NOTES TO THE UNAUDITED FINANCIAL STATEMENTS

**NOTE 2 -SIGNIFICANT ACCOUNTING POLICIES**

**Cash and Cash Equivalents**

The Company considers all liquid investments with a maturity of three months or less from the date of purchase that are readily convertible into cash to be cash equivalents. As at March 31, 2017, there were no cash equivalents.

**Use of Estimates**

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

**Income Taxes**

The Company utilizes FASB ACS 740, "Income Taxes," which requires the recognition of deferred tax assets and liabilities for the expected future tax consequences of events that have been included in the financial statements or tax returns. Under this method, deferred tax assets and liabilities are determined based on the difference between the tax basis of assets and liabilities and their financial reporting amounts based on enacted tax laws and statutory tax rates applicable to the periods in which the differences are expected to affect taxable income. Deferred tax assets are reduced by a valuation allowance when, in the opinion of management, it is more likely than not that some portion or all of the deferred tax assets will not be realized. Deferred tax assets and liabilities are adjusted for the effects of changes in tax laws and rates on the date of enactment.

The accounting guidance for uncertainties in income tax prescribes a comprehensive model for the financial statement recognition, measurement, presentation, and disclosure of uncertain tax positions taken or expected to be taken in income tax returns. The Company recognizes a tax benefit from an uncertain tax position in the financial statements only when it is more likely than not that the position will be sustained upon examination, including resolution of any related appeals or litigation processes, based on the technical merits and a consideration of the relevant taxing authority's widely understood administrative practices and precedents.

Interest and penalties on tax deficiencies recognized in accordance with ACS accounting standards are classified as income taxes in accordance with ASC Topic 740-10-50-19.

We have implemented certain provisions of ASC 740, Income Taxes ("ASC 740"), which clarifies the accounting and disclosure for uncertain tax positions, as defined. ASC 740 seeks to reduce the diversity in practice associated with certain aspects of the recognition and measurement related to accounting for income taxes. We adopted the provisions of ASC 740 and have analyzed filing positions in United States jurisdictions where we are required to file income tax returns, as well as all open tax years in these jurisdictions. We have identified the United States as our "major" tax jurisdiction. Generally, we remain subject to United States examination of our income tax returns.

**Fair Value of Financial Instruments**

The Financial Accounting Standards Board issued ASC (Accounting Standards Codification) 820-10 (SFAS No. 157), "Fair Value Measurements and Disclosures" for financial assets and liabilities. ASC 820-10 provides a framework for measuring fair value and requires expanded disclosures regarding fair value measurements.

TURBO GLOBAL PARTNERS, INC.  
NOTES TO THE UNAUDITED FINANCIAL STATEMENTS

FASB ASC 820-10 defines fair value as the price that would be received for an asset or the exit price that would be paid to transfer a liability in the principal or most advantageous market in an orderly transaction between market participants on the measurement date. FASB ASC 820-10 also establishes a fair value hierarchy which requires an entity to maximize the use of observable inputs, where available. The following summarizes the three levels of inputs required by the standard that the Company uses to measure fair value:

- Level 1: Quoted prices in active markets for identical assets or liabilities
- Level 2: Observable inputs other than Level 1 prices such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active, or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the related assets or liabilities.
- Level 3: Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities.

**Basic and Diluted Earnings (loss) Per Share**

Net loss per share is calculated in accordance with FASB ASC 260, *Earnings Per Share*, for the period presented. ASC 260 requires presentation of basic earnings per share and diluted earnings per share. Basic income (loss) per share ("Basic EPS") is computed by dividing net loss available to common stockholders by the weighted average number of common shares outstanding during the period. Diluted earnings per share ("Diluted EPS") is similarly calculated. Dilution is computed by applying the treasury stock method. Under this method, options and warrants are assumed to be exercised at the beginning of the period (or at the time of issuance, if later), and as if funds obtained thereby were used to purchase common stock at the average market price during the period. For the three months ended March 31, 2016 and 2017, there were no potentially dilutive securities.

**Recent Accounting Pronouncements**

In August 2015, the FASB issued the FASB Accounting Standards Update No. 2015-15 "Presentation of Financial Statements—Going Concern (Subtopic 205-40): Disclosure of Uncertainties about an Entity's Ability to Continue as a Going Concern ("ASU 2015-15").

In connection with preparing financial statements for each annual and interim reporting period, an entity's management should evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the entity's ability to continue as a going concern within one year after the date that the *financial statements are issued* (or within one year after the date that the *financial statements are available to be issued* when applicable). Management's evaluation should be based on relevant conditions and events that are known and reasonably knowable at the date that the *financial statements are issued* (or at the date that the *financial statements are available to be issued* when applicable). Substantial doubt about an entity's ability to continue as a going concern exists when relevant conditions and events, considered in the aggregate, indicate that it is probable that the entity will be unable to meet its obligations as they become due within one year after the date that the financial statements are issued (or available to be issued). The term *probable* is used consistently with its use in Topic 450, Contingencies.

When management identifies conditions or events that raise substantial doubt about an entity's ability to continue as a going concern, management should consider whether its plans that are intended to mitigate those relevant conditions or events will alleviate the substantial doubt. The mitigating effect of management's plans should be considered only to the extent that (1) it is probable that the plans will be effectively implemented and, if so, (2) it is probable that the plans will mitigate the conditions or events that raise substantial doubt about the entity's ability to continue as a going concern.

TURBO GLOBAL PARTNERS, INC.  
**NOTES TO THE UNAUDITED FINANCIAL STATEMENTS**

If conditions or events raise substantial doubt about an entity's ability to continue as a going concern, but the substantial doubt is alleviated as a result of consideration of management's plans, the entity should disclose information that enables users of the financial statements to understand all of the following (or refer to similar information disclosed elsewhere in the footnotes):

- a. Principal conditions or events that raised substantial doubt about the entity's ability to continue as a going concern (before consideration of management's plans)
- b. Management's evaluation of the significance of those conditions or events in relation to the entity's ability to meet its obligations
- c. Management's plans that alleviated substantial doubt about the entity's ability to continue as a going concern.

If conditions or events raise substantial doubt about an entity's ability to continue as a going concern, and substantial doubt is not alleviated after consideration of management's plans, an entity should include a statement in the footnotes indicating that there is *substantial doubt about the entity's ability to continue as a going concern* within one year after the date that the financial statements are issued (or available to be issued). Additionally, the entity should disclose information that enables users of the financial statements to understand all of the following:

- a. Principal conditions or events that raise substantial doubt about the entity's ability to continue as a going concern
- b. Management's evaluation of the significance of those conditions or events in relation to the entity's ability to meet its obligations
- c. Management's plans that are intended to mitigate the conditions or events that raise substantial doubt about the entity's ability to continue as a going concern.

Other recent accounting pronouncements issued by the FASB, including its Emerging Issues Task Force, the American Institute of Certified Public Accountants, and the Securities and Exchange Commission did not or is not believed by management to have a material impact on the Company's present or future consolidated financial statements.

**NOTE 3 – GOING CONCERN**

The Company has sustained operating losses since inception. The Company's continuation as a going concern is dependent on its ability to generate sufficient cash flows from operations to meet its obligations and/or obtaining additional financing from its shareholders or other sources, as may be required.

The accompanying financial statements have been prepared assuming that the Company will continue as a going concern; however, the above condition raises substantial doubt about the Company's ability to do so. The financial statements do not include any adjustments to reflect the possible future effects on the recoverability and classification of assets or the amounts and classifications of liabilities that may result should the Company be unable to continue as a going concern.

Management is endeavoring to begin principal revenue generating operations however, may not be able to do so within the next fiscal year. Management is also seeking to raise additional working capital through various financing sources, including the sale of the Company's equity securities, which may not be available on commercially reasonable terms, if at all.

TURBO GLOBAL PARTNERS, INC., INC.  
**NOTES TO THE UNAUDITED FINANCIAL STATEMENTS**

If such financing is not available on satisfactory terms, we may be unable to continue our business as desired and operating results will be adversely affected. In addition, any financing arrangement may have potentially adverse effects on us or our stockholders. Debt financing (if available and undertaken) will increase expenses, must be repaid regardless of operating results and may involve restrictions limiting our operating flexibility. If we issue equity securities to raise additional funds, the percentage ownership of our existing stockholders will be reduced and the new equity securities may have rights, preferences or privileges senior to those of the holders of our common stock.

**NOTE 4 - LOAN FROM UNRELATED PARTIES**

As of March 31, 2017, the Company received Subscriptions receipts totalling an aggregate of \$277,000 for Subscribers, the share relating to these subscriptions were issued subsequently to December 31, 2016.

**NOTE 6- ADVANCES**

As of March 31, 2017, the Company paid advances totalling an aggregate of \$262,400, the advances are unsecured, non-interest bearing and is due upon demand giving 30 days written notice to the borrower and remains as an accounts on the company's books.
