Innovest Global, Inc., formerly Aurum Resource and Asset Management, Inc., (the “Company”) was incorporated in the State of Nevada on October 19, 1999 as International Sports Marketing Group, Inc. We changed our name to Cal Alta Auto Glass, Inc. in June 2005. On March 16, 2012 we entered into a Share Exchange Agreement with the shareholders of World Investments of Mexico, Inc. (“WIM”), a Nevada corporation. This agreement provided for the shareholders of WIM to receive 60 million common shares of the Company.

At the same time, the assets of Cal Alta Auto Glass were transfer to the prior management of the Company in exchange for the cancellation of 35,563,606 shares of the common stock of the Company. In addition, the Company issued 28,224,600 shares of its common stock in satisfaction of notes payable. At the closing of this agreement, the officers and directors of the Company resigned and were replaced by the officers and directors of WIM. As the shareholders of WIM are the majority shareholders of the Company after the exchange, the transaction is accounted for as a “reverse merger” and the financial statements of the Company are those of WIM. The Company is in the exploration stage with no revenues and limited operating history.

In January 2014 the Company issued 20,000,000 shares of its common stock to repay \$200,000 of long term debt. In July of 2014 the Company affected a 1 for 100 reverse split of the common stock issued and outstanding. After the 1 for 100 reverse split there were 1,084,033 shares outstanding. On September 2, 2014, there were 50,000,000 shares issued to complete the most recent capital restructuring. During the fourth quarter on December 17, 2014 there were 9,000,091 shares issued at \$0.001 to repay debt. During the first quarter of 2015 a total of 2,254,400 shares were issued at \$0.001 to further reduce debt. At December 31, 2015 there were 62,338,524 common shares of the Company.

Item 5. Financial Statements

Item 6. Describe the Issuer's Business, Products and Services.

A. Description of the Issuer's Business Operations:

Innovest Global, Inc. views itself as a diversified holding company. Historically, we have been a mining exploration and development Company. Our business strategy to date has been to identify qualified mineral prospects that meet its corporate mandate of being a potential low cost producer of less than \$600 per ounce. There are many small deposits, in the gold sector that do not meet the requirements of the large gold companies. We have identified a niche market whereby small, low cost deposits can be mined profitably at less than \$600 per ounce. Our concern is concentrating on gold deposits in the 500,000 to 1MM ounce range that can be:

- 1) Identified as a qualified project under the above criterion.
- 2) Explored and upgraded to compliant reserve engineering status.
- 3) Marketed for sale or co-venture retaining value to the Company by way of overriding royalties and retained interest in production.

Now, under new management and in order to diversify our business focus, we also intend to acquire majority and minority stakes in businesses that have proven demand for their products and services. We are experienced specialists and business operators, with a history of innovation and growth via both acquisition and organic sales. We are focused on the markets and opportunities we believe will best create value for our shareholders. The core tenets of our success are our technology, marketing, and sales expertise; all of which enable us to leverage those items within business units to achieve exceptional results. We have an aggressive plan to utilize our assets efficiently, in order to achieve significant returns from our acquired and organic initiatives.
