The facility is equipped with state of the art laboratory and testing equipment predominately used for the services rendered but also includes four executive offices and an administrative office for accounting, customer service and sales functions.

### **Management's Discussion and Analysis or Plan of Operation**

The Management is pleased to report that revenues increased 14.4% over the corresponding period of the previous year, thus reversing the declining trend over the past year. Considering the orders on hand, management estimates current year's revenues to be in the range of \$60 million. The company showed a net income of \$2,551,836 in the current quarter as compared to a loss of \$905,607 in the corresponding quarter of the previous year.

With a favorable mix of orders due to which the company could do more work in house, cost of revenues declined to 64.22% as compared to 65.79% over the corresponding quarter of the previous year.

Management has initiated aggressive marketing measures to get large long term contracts to reverse the trend of falling revenues and this is reflected in sales and marketing expenses increasing to 15.25% of sales. The Indian industry is currently focusing on exports to the USA and a lot of companies are looking to get their products approved by the FDA for US sales. All these are potential clients and our Company has an advantage that due to the facilities being based in India, we are able to deliver quick feedback to our clients and there is a degree of comfort resulting in order generation.

**Groupe Athena Inc.**  
**Notes to Financial Statements**

**NOTE A - ORGANIZATION AND NATURE OF ACTIVITIES**

Groupe Athena Inc. was incorporated in June 2008 and began operations on July 1, 2008. Groupe Athena Inc. (the “Company”) is a research and testing organization and helps various pharmaceutical companies in India to get regulatory approvals and facilitate exports of pharmaceuticals to the United States.

The company has a research and marketing facility in India, employing 21 consultants and marketing personnel. The company is working towards aggressively expanding its presence in the Indian pharmaceutical industry and has various contracts on hand currently.

The Company is currently engaged in and devotes considerable time to financial planning, recruiting and training sales personnel and establishing a market presence for its services. Though revenues are increasing at a brisk pace, the management believes that a significant market presence and sales account base has yet to be achieved.

The board of directors has the authority, without action by the Company's stockholders, to provide for the issuance of preferred stock in one or more classes or series and to designate the rights, preferences and privileges of each class or series, which may be greater than the rights of the common stock.

**NOTE B -SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

Basis of Presentation

The Company has prepared the financial statements in accordance with the International Financial Reporting Standards (IFRS). **The company has changed its accounting method from GAAP to IFRS in June 2012 and has restated its accounts for the years ending 2009, 2010, 2011 & 2012.**

Cash, Equivalents & Short Term Investments

These assets consist of highly liquid investments, which are readily convertible into cash and have maturities of three months or less. The Company places its temporary cash investments with financial institutions and limits the amount of credit exposure to any one financial institution. Interest Income for the quarter ending September 30, 2017 was \$18,229 and has been included in revenues.

Accounts Receivable

Allowance for Doubtful Accounts --The Company maintains reserves on customer accounts where estimated losses may result from the inability of its customers to make required payments. These reserves are determined based on a number of factors, including the current financial condition of specific customers, the age of accounts receivable balances and historical loss rate.

Inventory

Inventories are stated at the lower of cost or market, cost being determined under the first-in, first-out method. The Company periodically reviews inventories and items considered outdated or obsolete are reduced to their estimated net realizable value.

## 15c2-11 Information and Disclosure Statement

### Share capital

On July 1, 2009 the company announced a forward split of 20 shares for every share held. This increased the number of shares outstanding from 2,356,845 shares to 47,136,900 shares outstanding.

The management is pleased to announce that the company has complied with all the requirements of the various regulatory agencies and the shares of the company were listed on pinksheets.com in April, 2010. The ticker symbol of the company is “GATA”. On April 4, 2011 the company got eligibility from the Depository Trust Company to allow electronic quotes and trading.

### Machinery and Equipment

Machinery and equipment is stated at cost, net of accumulated depreciation and amortization, which is computed using the straight-line method over the estimated useful lives of the related assets of three to five years. Expenditures for maintenance and repairs are charged to expense as incurred. Major improvements that extend the lives of assets are capitalized. Any gain or loss on disposition of assets is recognized currently. Accumulated Depreciation was \$14,884,628 as at September 30, 2017.

### Impairment of Long-Lived Assets

The Company reviews long-lived assets for impairments whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable. Recoverability of assets to be held and used is measured by a comparison of the carrying amount of an asset to future undiscounted cash flows expected to be generated by the asset. If such assets are considered to be impaired, the impairment to be recognized is measured by the amount by which the asset exceeds the fair value. Assets to be disposed of are reported at the lower of the carrying amount or fair value less costs to sell.

### Research & Development Expenses

Research costs, other than capital expenditures, are charged to operations as incurred. Expenditures on products developed internally are capitalized if it can be demonstrated that:

- it is technically feasible to develop the product for it to be sold;
- adequate resources are available to complete the development;
- there is an intention to complete and sell the product;
- the company is able to sell the product;
- sale of the product will generate future economic benefits’ and
- expenditure on the project can be measured reliably.

Development expenses are charged to operations as incurred unless such costs meet the criteria for deferral and amortization. No development costs have been deferred to-date.

## 15c2-11 Information and Disclosure Statement

### Income Taxes

The Company accounts for income taxes in accordance with the provisions of the IFRS. Income tax expense is based on pretax financial accounting income. Deferred tax assets and liabilities are recognized for the expected tax consequences of temporary differences between the tax basis of assets and liabilities and their reported amounts using enacted rates in effect for the year in which the differences are expected to reverse. A valuation allowance is recorded for deferred tax assets if it is more likely than not that some portion or all of the deferred tax assets will not be realized.

### Revenue Recognition

The Company sells its services to pharmaceutical manufacturers. The Company recognizes revenue when the evidence of an arrangement exists, pricing is fixed and determinable, collection is reasonably assured, and the rendering of the services has commenced. Payment is due as per the contracts the company has entered into and no service is rendered until the client has given an advance.

### Deferred Financing Costs

Costs incurred to obtain financing have been written off as expenses in the year they were incurred.

### Advertising

Advertising costs are charged to expense as incurred, and are included in selling and marketing expenses. Advertising expense for the quarter ending September 30, 2017 was \$527,186.

### Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted by the IFRS requires management to make estimates and assumptions that affect the amounts reported in its financial statements and accompanying notes. Actual results could differ from those estimates.

### Fair Value of Financial Instruments

The Company's financial instruments consist primarily of cash, accounts receivable, accounts payable, accrued liabilities and loans and notes payable. The carrying amounts of such financial instruments approximate their respective estimated fair value due to the short-term maturities and approximate market interest rates of these instruments. The estimated fair value is not necessarily indicative of the amounts the Company would realize in a current market exchange or from future earnings or cash flows.

### Compensated Absences

The Company does not accrue for compensated absences and recognizes the costs of compensated absences when paid to employees. Accordingly, no liability for such absences has been recorded in the accompanying consolidated financial statements. Management believes the effect of this policy is not material to the accompanying financial statements.
