List any restrictions on the transfer of security:

None

Describe any trading suspension orders issued by the SEC in the past 12 months.

None

List any stock split, stock dividend, recapitalization, merger, acquisition, spin-off, or reorganization either currently anticipated or that occurred within the past 12 months:

**4) Issuance History**

List below any events, in chronological order, that resulted in changes in total shares outstanding by the issuer in the past two fiscal years and any interim period. The list shall include all offerings of equity securities, including debt convertible into equity securities, whether private or public, and all shares or any other securities or options to acquire such securities issued for services, describing (1) the securities, (2) the persons or entities to whom such securities were issued and (3) the services provided by such persons or entities. The list shall indicate:

A. The nature of each offering (e.g., Securities Act Rule 504, intrastate, etc.);

None

B. Any jurisdictions where the offering was registered or qualified;

N/A

C. The number of shares offered;

N/A

D. The number of shares sold;

N/A

E. The price at which the shares were offered, and the amount actually paid to the issuer;

N/A

F. The trading status of the shares; and

N/A

- G. Whether the certificates or other documents that evidence the shares contain a legend (1) stating that the shares have not been registered under the Securities Act and (2) setting forth or referring to the restrictions on transferability and sale of the shares under the Securities Act.

N/A

On August 18, 2016 the Company merged with Pal Business Group, Inc. and issued 500,000 common restricted shares to the sole shareholder of Pal.

On August 20, 2016 the Company merged with Rapid-K Energy Solutions, Inc. and issued 600,000 common restricted shares to the sole shareholder of Rapid-K.

On October 30, 2016, the Company acquired a co-generation plant from 808 Renewable Energy in return for 10,199,842 restricted common shares, on condition that the shares are issued directly to the 808 shareholders.

On January 2, 2017, the Company acquired a second co-generation plant from 808 Renewable Energy in return for 11,917,839 restricted common shares, on condition that the shares are issued directly to the 808 shareholders.

On January 27, 2017 the Company, sold 4,000 preferred series A shares, convertible into 200,000 post reverse restricted common shares, to an investor at a cost of \$12.50 per preferred share or a total cost of \$50,000. The reverse stock split was not completed and the Company issued the common shares.

On May 5, 2017 the Company, sold 2,000 preferred series A shares, convertible into 100,000 post reverse restricted common shares, to an investor at a cost of \$12.50 per preferred share or a total cost of \$50,000. The reverse stock split was not completed and the Company issued the common shares.

Between October 16, 2017 and November 30, 2017 the Company sold, for cash, 552,500 common restricted shares, recorded at a cost of \$0.25 or \$138,625.

During the three months ended February 28, 2018, the Company sold, for cash, 579,000 common restricted shares, recorded at a cost of \$0.25 per share or a total of \$144,815.

TRIAD PRO INNOVATORS, INC.  
NOTES TO UNAUDITED FINANCIAL STATEMENTS  
FOR THE THREE MONTHS ENDED FEBRUARY 28, 2018

**NOTE 1 - ORGANIZATION AND OPERATIONS**

TRIAD PRO INNOVATORS, INC. (the "Company") was incorporated in Nevada on May 17, 1994 ("Inception"). After several failed business attempts during the late 1990's through August 22, 2016, the Company acquired new management, and a Certificate of Reinstatement was issued by the State of Nevada. New management obtained control at that time and has entered into a business plan to develop renewable energy storage products. On August 18, 2016 Pal Business Groups, Inc., a company possessing significant energy storage technology, was merged into our Company. On August 20, 2016 the Company acquired Rapid-K Energy Solutions; its proprietary energy storage solutions and its registered trademarks. On October 31, 2016, and on January 2, 2017 the Company acquired two revenue producing co-generation facilities, and on November 30, 2017 acquired a third one.

**NOTE 2 – BASIS OF PRESENTATION AND SIGNIFICANT ACCOUNTING POLICIES**

Summary of Significant Accounting Policies

This summary of significant accounting policies of Triad Pro Innovators, Inc. is presented to assist in understanding the Company's financial statements. The financial statements and notes are representations of the Company's management who are responsible for the integrity and objectivity of the financial statements. These accounting policies conform to generally accepted accounting principles and have been consistently applied in the preparation of the financial statements.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. A change in managements' estimates or assumptions could have a material impact on the Company's financial condition and results of operations during the period in which such changes occurred.

Actual results could differ from those estimates. The Company's financial statements reflect all adjustments that management believes are necessary for the fair presentation of their financial condition and results of operations for the periods presented.

Year-end

The Company's year-end is November 30.

TRIAD PRO INNOVATORS, INC.  
NOTES TO UNAUDITED FINANCIAL STATEMENTS  
FOR THE THREE MONTHS ENDED FEBRUARY 28, 2018

Cash and Cash Equivalents

For purposes of the statements of cash flows, cash equivalents include all highly liquid investments with original maturities of three months or less which are not securing any corporate obligations. The

Company maintains its cash in bank deposit accounts, which, at times, may exceed federally insured limits. The Company has not experienced any losses in such accounts.

Property and Equipment

Property and equipment are carried at cost. Expenditures for maintenance and repairs are charged against operations. Renewals and betterments that materially extend the life of the assets are capitalized. When assets are retired or otherwise disposed of, the cost and related accumulated depreciation are removed from the accounts, and any resulting gain or loss is reflected in income for the period. Depreciation is computed for financial statement purposes on a straight-line basis over estimated useful lives of the related assets. The estimated useful lives of depreciable assets are:

Classification	Estimated Useful Lives
Computers and office equipment	3 years
Furniture and fixtures	5 years
Operating plants	5 years
Intellectual property	7 years

The Company has elected to begin depreciating the intellectual property when revenue is earned from it. Until then the intellectual property including trademarks will be evaluated quarterly to determine whether any impairment is required.

Revenue Recognition

The Company recognizes revenue for its professional services and product sales when persuasive evidence of an arrangement exists, performance of services has occurred or the product has been delivered, and the sales price is fixed or determinable and collectability is probable.

Subsequent to acquisition of the 808 operating plants on October 31, 2016, and January 2, 2017, the Company has generated \$745,476 from co-generation services provided to two clients.

During the three months ended February 28, 2018 the Company did not earn any fees for professional services or other product sales.

TRIAD PRO INNOVATORS, INC.  
NOTES TO UNAUDITED FINANCIAL STATEMENTS  
FOR THE THREE MONTHS ENDED FEBRUARY 28, 2018

Impairment of Long-lived Assets

The Company reviews long-lived assets for impairment when circumstances indicate the carrying amount of an asset may not be recoverable based on the undiscounted future cash flows of the asset. If the carrying amount of the asset is determined not to be recoverable, a write-down to fair value is recorded. Fair values are determined based on quoted market values, discounted cash flows, or external appraisals, as applicable. The Company reviews long-lived assets for impairment at the individual asset or the asset group level for which the lowest level of independent cash flows can be identified. No impairment expense has been recorded on long-lived assets for the three months ended February 28, 2018 or the year ended November 30, 2017.

Income Taxes

Income taxes are accounted for under the asset and liability method. Deferred tax assets and liabilities are recognized for the future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases and operating loss and tax credit carry forwards. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in income in the period that includes the enactment date. A valuation allowance is provided for deferred tax assets if it is more likely than not these items will either expire before the Company is able to realize their benefits, or that future deductibility is uncertain.

The Company also follows the guidance related to accounting for income tax uncertainties. In accounting for uncertainty in income taxes, the Company recognizes the financial statement benefit of a tax position only after determining that the relevant tax authority would more likely than not sustain the position following an audit. For tax positions meeting the more likely than not threshold, the amount recognized in the financial statements is the largest benefit that has a greater than 50 percent likelihood of being realized upon ultimate settlement with the relevant tax authority. No liability for unrecognized tax benefits was recorded as of February 28, 2018 and November 30, 2017.

Fair Value Measurements

The fair value of a financial instrument is the amount that could be received upon the sale of an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Financial assets are marked to bid prices and financial liabilities are marked to offer prices. Fair value measurements do not include transaction costs. A fair value hierarchy is used to prioritize the quality and reliability of the information used to determine fair values. Categorization within the fair value hierarchy is based on the lowest level of input that is significant to the fair value measurement. The fair value hierarchy is defined into the following three categories:

TRIAD PRO INNOVATORS, INC.  
NOTES TO UNAUDITED FINANCIAL STATEMENTS  
FOR THE THREE MONTHS ENDED FEBRUARY 28, 2018

Level 1: Quoted market prices in active markets for identical assets or liabilities

Level 2: Observable market-based inputs or inputs that are corroborated by market data

Level 3: Unobservable inputs that are not corroborated by market data

### Stock-Based Compensation

The Company records stock-based compensation at fair value as of the date of grant and recognizes the corresponding expense over the requisite service period. Compensation expense is generally recognized on a straight line basis over the service period.

### Earnings (Loss) per Common Share

Basic earnings per share are calculated dividing income available to common stockholders by the weighted average number of common shares outstanding. Diluted earnings per share are based on the assumption that all dilutive convertible shares and stock options and warrants were converted or exercised. Dilution is computed by applying the treasury stock method. Under this method, warrants and options are assumed to be exercised at the beginning of the period (or at the time of issuance, if later), and as if funds obtained thereby were used to purchase common stock at the average market price during the period. There were 0 dilutive shares outstanding as of February 28, 2018 and November 30, 2017 respectively.

### Research and Development Costs

The Company has and will continue to invest in the development and production of various products related to the Rapid K proprietary storage device. Expenditure will be analyzed and reviewed based on its specifics, to determine its specific disclosure with regard to ASC 350-30. The Company has reviewed the existing intellectual property and has determined that it is not economically feasible, at this time, to determine, for any of the products being developed, the economic benefit to be received, nor their future useful life and therefore will expense all costs as research and development costs.

### Recently Adopted Accounting Pronouncements

The Company has evaluated recent accounting pronouncements, through February 28, 2018 and believes that none are expected to have a material effect on the Company's financial statements.

TRIAD PRO INNOVATORS, INC.  
NOTES TO UNAUDITED FINANCIAL STATEMENTS  
FOR THE THREE MONTHS ENDED FEBRUARY 28, 2018

**NOTE 3 – GOING CONCERN**

The accompanying financial statements have been prepared, using accounting principles generally accepted in the United States of America (“GAAP”), assuming that the Company will continue as a going concern, which contemplates the recoverability of assets and the satisfaction of liabilities in the normal course of business. Since the change of management and control, the Company has been engaged substantially in developing its business plan and production of a proof of concept prototype. The Company incurred accumulated net losses through February 28, 2018 of \$10,225,070. In addition, the Company’s development activities since acquisition have been financially sustained through the sale of capital stock and capital contributions from a lender and an affiliated party.

The ability of the Company to continue as a going concern is dependent upon its ability to raise additional capital from the sale of common stock or through debt financing and, ultimately, the achievement of significant operating revenues.

These financial statements do not include any adjustments relating to the recoverability and classification of recorded asset amounts, or amounts and classification of liabilities that might result from this uncertainty.

**NOTE 4 – LOANS PAYABLE**

On August 25, 2016 and September 1, 2016 the Company borrowed, from two unaffiliated investors, \$12,000 and \$7,885 respectively with interest of 5%. The loans were for working capital and bore a maturity date of April 29, 2017. The advances including interest at the rate of 5% per annum, remained outstanding at November 30, 2016, and were repaid in full on April 18, 2017. On June 30, 2017 an unaffiliated investor loaned the Company, interest free, \$10,000 which was repaid on October 16, 2017. On July 26, 2017 an unaffiliated investor loaned the Company \$10,000 with interest of 5%, which loan remained outstanding at February 28, 2018.

On November 30, 2017, the Company assumed an obligation to a lender, in the amount of \$110,000, as partial compensation for acquisition of a co-generation facility.

**NOTE 5 – CONVERTIBLE LOAN PAYABLE**

On October 7, 2007, Automated Shops Inc., which changed its name to Pal Business Groups, Inc., on January 21, 2016, borrowed \$200,000 from an investor. The note was unsecured, bore interest at 5% per annum, and was payable on demand. No demand has been made for payment.

TRIAD PRO INNOVATORS, INC.  
NOTES TO UNAUDITED FINANCIAL STATEMENTS  
FOR THE THREE MONTHS ENDED FEBRUARY 28, 2018

**NOTE 6 – STOCKHOLDERS' EQUITY**

The Company has 1,000,000,000 common shares authorized with a par value of \$ 0.001 per share.

On August 18, 2016 the Company merged with Pal Business Group, Inc. and committed to issue 500,000 common restricted shares to the sole shareholder of Pal.

On August 20, 2016 the Company merged with Rapid-K Energy Solutions, Inc. and committed to issue 600,000 common restricted shares to the sole shareholder of Rapid-K.

On October 30, 2016, the Company acquired a co-generation plant from 808 Renewable Energy in return for 4,095,360 post reverse restricted common shares, on condition that the shares are issued directly to the 808 shareholders. Because the reverse stock split was not approved by FINRA the Company issued an additional 6,104,482 restricted common shares.

On January 2, 2017, the Company acquired a second co-generation facility from 808 Renewable Energy in return for 4,245,360 post reverse restricted common shares, on condition that the shares are issued directly to the 808 shareholders. Because the reverse stock split was not approved by FINRA the Company issued an additional 7,166,132 restricted common shares.

On January 27 and on May 5, 2017 the Company, pending regulatory approval of its 1/100 reverse stock split, sold 4,000 and 2,000 preferred series A shares, convertible into 200,000 and 100,000 restricted common shares, to two investors at a cost of \$12.50 per share or a total cost of \$75,000. Approval was not received and the common shares were issued.

Between October 16, 2017 and November 30, 2017 the Company sold, for cash, 552,500 common restricted shares, recorded at a cost of \$0.25 or \$138,625.

Between December 1, 2017 and February 28, 2018 the Company sold, for cash, 579,500 common restricted shares, recorded at a cost of \$0.25 or \$144,875.

**NOTE 7 – RELATED PARTY TRANSACTIONS**

In support of the Company's efforts and cash requirements, it may rely on advances from related parties until such time that the Company can support its operations or attains adequate financing through sales of its equity or traditional debt financing. There is no formal written commitment for continued support by shareholders. Amounts represent advances or amounts paid in satisfaction of liabilities. The advances are considered temporary in nature and have not been formalized by a promissory note.

On April 15, 2017, Thomas Beener was appointed to and resumed the positions of Chief Executive Officer and sole director.

TRIAD PRO INNOVATORS, INC.  
NOTES TO UNAUDITED FINANCIAL STATEMENTS  
FOR THE THREE MONTHS ENDED FEBRUARY 28, 2018

**NOTE 8 – SUBSEQUENT EVENTS**

The Company has evaluated subsequent events through the date these financial statements became available and has not identified any reportable events.

## **Describe the Issuer's Business, Products and Services**

Describe the issuer's business so a potential investor can clearly understand the company. In answering this item, please include the following:

A. a description of the issuer's business operations;

Triad Pro Innovators is a diversified renewable energy producer and storage provider. It owns two (CHP) combined heat and power renewable energy facilities. The Company is also engaged in the business of purchase and sale of power generation equipment, and in the operation, repair, and maintenance of same, for itself, as well as for other energy facility owners. The Company possess the infrastructure to operate cogeneration, combined heat and power (CHP) renewable energy projects, throughout California and the Western United States.

Rapid-K Power Cells, which merged into Triad, was a diversified renewable energy storage manufacturer offering turnkey, low cost energy storage solutions to residential and commercial industrial users. Rapid-K Power Cells engineered the Power Cell by allowing applications to utilize more of the energy generated. Rapid-K Power Cells provides a PCBA (Printed Circuit Board Assembly) Digital energy storage solution capable of providing energy storage to applications normally reliant and equipped with highly toxic inefficient lead acid, nickel metal hydride or lithium-ion batteries. The RAPID-K Power Cell stores DC energy at a rate limited only by the network feeding it with 98% efficiencies to its capacity. Off-grid lithium-ion and or other battery types currently used in energy storage are limited at the rate that can be accepted and stored at any given time and suffer from deficiencies such as short-life-cycles and are a hazardous waste product. For example, to store 600 watts of available energy generated by a solar panel into a typical battery, only a percentage of that energy can actually be accepted. The balance is waste. The Rapid-K Power Cell accepts 100 percent of its total capacity very quickly, because the charging process is only limited by the network, and not our technology.

Date and State (or Jurisdiction) of Incorporation:

May 17, 1994. State of Nevada.

B. the issuer's primary and secondary SIC Codes;

3691; 4932

C. the issuer's fiscal year end date;

November 30

D. principal products or services, and their markets;

Electricity storage and co-generation of electrical power

## **7) Describe the Issuer's Facilities**

The Company is researching the availability of suitable office and manufacturing space. In the interim, the disparate functions are being carried out in several facilities being provided to the Company, with no time commitment and at no cost.

**8) Officers, Directors, and Control Persons**

A. Names of Officers, Directors, and Control Persons.
