ITEM 4

ISSUANCE HISTORY

During the fiscal quarters ended June 30, 2017 and 2016, the Company issued 21,823,000 shares and -0- shares of common stock. 10,000,000 shares were issued during May, 2017 in settlement of a claim and 11,823,000 shares were issued in June, 2017 to acquire our Oatman mining claims.

During the fiscal quarters ended March 31, 2017 and 2016, the Company issued 10,000,000 shares and -0- shares of Series A preferred stock, respectively. On April 3, 2017, the Company issued 10,000,000 shares of Series A preferred stock for \$10,000 cash to Riverbrook Industries Corp., a related party, pursuant to an agreement establishing a four (4) year line of credit for the Company.

During the fiscal years ended December 31, 2017 and 2016, the Company issued 36,999 shares and -0- shares of Series B preferred stock, respectively. The 36,999 shares were issued to Hondo Minerals Corporation, a related party, in connection with our acquisition of the O'Brien Mine (7,500 shares) and the Columbus Mine (4,500 shares). 24,999 shares were issued to settle a claim.

During the fiscal quarter ended March 31, 2018, the Company issued 218,111,111 shares of common stock to GPL Ventures, LLC in exchange for extinguishment of \$68,300 of the Company's accounts payable. The shares were free-trading pursuant to the exemption provided by Section 3(a)(10) of the Securities Act of 1933.

During the fiscal quarter ended March 31, 2018, the Company issued 1 share of Series C Preferred Stock to Hondo Minerals Corporation in exchange for all of the shares of TMTN, LLC, which owns the Thunder Mountain Gold Project, Nye County, Nevada. The Share of Series C Preferred Stock is convertible into 9.99% of our issued and outstanding shares of common stock, less any other shares of common stock then owned by Hondo Minerals Corporation.

No shares of any class were issued during the quarter ended June 30, 2018.

**BONANZA GOLDFIELDS
CORP. NOTES TO
FINANCIAL STATEMENTS
June 30, 2018
and 2017
(Unaudited)**

NOTE 1 - ORGANIZATION AND OPERATIONS

Bonanza Goldfields Corp. was incorporated in the State of Nevada on March 6, 2008. Since its inception, the Company has acquired mineral rights to mining properties in the United States and explored for minerals. The Company's Tarantula Gold Project is located in Yavapai County, Arizona. During the third calendar quarter of 2013, certain of the Tarantula Gold project assets were sold to (and certain of the Company's liabilities were assumed or paid by) Gold Star Resources, LLC f/k/a Gunner Gold, LLC. Due to adverse market conditions during 2014 through 2016, the Company maintained its remaining interest in the Tarantula Project, but the Company did not take on any additional mining / mineral exploration projects.

Following the appointment of new management in February, 2017, the Company entered into an agreement with a related party to acquire four subsidiaries owning mineral properties located in Virginia City and Goldfield, Nevada, as well as Chloride, Arizona. The agreement contained a number of closing conditions, all but one of which were ultimately satisfied. In September, 2017, an initial closing was held under this agreement resulting in our acquiring three (3) unpatented mining claims in the Oatman Mining District, Mohave County, Arizona, comprising the historic Tom Reed Jr. and Argo Mines.

On March 15, 2018, the February 2017 agreement was amended for the Company to acquire TMTN, LLC, owner of the Thunder Mountain Gold Project, located between Tonopah and Round Mountain, Nye County, Nevada. The Company has separate agreements to acquire Comstock Goldfields, LLC, which owns the Virginia City property and Mizpah Mines LLC, which owns another property in Tonopah, Nevada known as the Mizpah Extension.. The February 2017 agreement was terminated as to the Goldfield property and renegotiated as to the Chloride properties, during the first half of 2018.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of presentation

The Company's financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America ("U.S. GMP"). The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported

amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Management further acknowledges that it is solely responsible for adopting sound accounting practices, establishing and maintaining a system of internal accounting control and preventing and detecting fraud. The Company's system of internal accounting control is designed to assure, among other items, that 1) recorded transactions are valid; 2) valid transactions are recorded; and transactions are recorded in the proper period in a timely manner to produce financial statements which present fairly the financial condition, results of operations and cash flows of the Company for the respective periods being presented.

Use of estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reported period.

The Company's significant estimates include income taxes provision and valuation allowance of deferred tax assets; the fair value of financial instruments; the carrying value and recoverability of long-lived assets, including the values assigned to an estimated useful lives of computer equipment; and the assumption that the Company will continue as a going concern. Those significant accounting estimates or assumptions bear the risk of change due to the fact that there are uncertainties attached to those estimates or assumptions, and certain estimates or assumptions are difficult to measure or value. Management bases its estimates on historical experience and on various assumptions that are believed to be reasonable under the circumstances, the results of which form the basis for making judgments about the carrying values of assets and liabilities that are not readily apparent from other sources.

Management regularly reviews its estimates utilizing currently available information, changes in facts and circumstances, historical experience and reasonable assumptions. After such reviews, and if deemed appropriate, those estimates are adjusted accordingly. Actual results could differ from those estimates.

Carrying value, recoverability and impairment of long-lived assets

The Company has adopted paragraph 360-10-35-17 of the FASB Accounting Standards Codification for its long-lived assets. The Company's long-lived assets, which include computer equipment are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable.

The Company assesses the recoverability of its long-lived assets by comparing the projected undiscounted net cash flows associated with the related long-lived asset or group of long-lived assets over their remaining estimated useful lives against their respective carrying amounts. Impairment, if any, is based on the excess of the carrying amount over the fair value of those assets. Fair value is generally determined using the asset's expected future discounted cash flows or market value, if readily determinable. If long-lived assets are determined to be recoverable, but the newly determined remaining estimated useful lives are shorter than originally estimated, the net book values of the long-lived assets are depreciated over the newly determined remaining estimated useful

lives.

The Company considers the following to be some examples of important indicators that may trigger an impairment review: (i) significant under-performance or losses of assets relative to expected historical or projected future operating results; (ii) significant changes in the manner or use of assets or in the Company's overall strategy with respect to the manner or use of the acquired assets or changes in the Company's overall business strategy; (iii) significant negative industry or economic trends; (iv) increased competitive pressures; (v) a significant decline in the Company's stock price for a sustained period of time; and (vi) regulatory changes. The Company evaluates acquired assets for potential impairment indicators at least annually and more frequently upon the occurrence of such events.

The impairment charges, if any, is included in operating expenses in the accompanying consolidated statements of operations.

During the year ended December 31, 2017, we fully impaired our investment in Gold Star Resources LLC f/k/a Gunner Gold LLC.

Cash equivalents

The Company considers all highly liquid investments with a maturity of three months or less when purchased to be cash equivalents.

Related parties

The Company follows subtopic 850-10 of the FASB Accounting Standards Codification for the identification of related parties and disclosure of related party transactions.

Pursuant to Section 850-10-20 the Related parties include a) affiliates of the Company; b) Entities for which investments in their equity securities would be required, absent the election of the fair value option under the Fair Value Option Subsection of Section 825-10-15, to be accounted for by the equity method by the investing entity; c) trusts for the benefit of employees, such as pension and profit-sharing trusts that are managed by or under the trusteeship of management; d) principal owners of the Company; e) management of the Company; f) other parties with which the Company may deal if one party controls or can significantly influence the management or operating policies of the other to an extent that one of the transacting parties might be prevented from fully pursuing its own separate interests; and g) Other parties that can significantly influence the management or operating policies of the transacting parties or that have an ownership interest in one of the transacting parties and can significantly influence the other to an extent that one or more of the transacting parties might be prevented from fully pursuing its own separate interests.

The financial statements shall include disclosures of material related party transactions, other than compensation arrangements, expense allowances, and other similar items in the ordinary course of business. However, disclosure of transactions that are eliminated in the preparation of consolidated or combined financial statements is not required in those statements. The disclosures shall include: a. the nature of the relationship(s) involved description of the transactions, including transactions to which no amounts or nominal amounts were ascribed, for each of the periods for which income statements are presented, and such other information deemed necessary to an understanding of the effects of the transactions on the financial statements; c. the dollar amounts of

transactions for each of the periods for which income statements are presented and the effects of any change in the method of establishing the terms from that used in the preceding period; amounts due from or to related parties as of the date of each balance sheet presented and, if not otherwise apparent, the terms and manner of settlement.

Commitments and contingencies

The Company follows subtopic 450-20 of the FASB Accounting Standards Codification to report accounting for contingencies. Certain conditions may exist as of the date the consolidated financial statements are issued, which may result in a loss to the Company but which will only be resolved when one or more future events occur or fail to occur. The Company assesses such contingent liabilities, and such assessment inherently involves an exercise of judgment. In assessing loss contingencies related to legal proceedings that are pending against the Company or unasserted claims that may result in such proceedings, the Company evaluates the perceived merits of any legal proceedings or unasserted claims as well as the perceived merits of the amount of relief sought or expected to be sought therein.

If the assessment of a contingency indicates that it is probable that a material loss has been incurred and the amount of the liability can be estimated, then the estimated liability would be accrued in the Company's consolidated financial statements. If the assessment indicates that a potential material loss contingency is not probable but is reasonably possible, or is probable but cannot be estimated, then the nature of the contingent liability, and an estimate of the range of possible losses, if determinable and material, would be disclosed.

Loss contingencies considered remote are generally not disclosed unless they involve guarantees, in which case the guarantees would be disclosed. Management does not believe, based upon information available at this time, that these matters will have a material adverse effect on the Company's consolidated financial position, results of operations or cash flows. However, there is no assurance that such matters will not materially and adversely affect the Company's business, financial position, and results of operations or cash flows.

Revenue recognition

The Company follows paragraph 605-10-S99-1 of the FASB Accounting Standards Codification for revenue recognition. The Company will recognize revenue when it is realized or realizable and earned. The Company considers revenue realized or realizable and earned when all of the following criteria are met: (i) persuasive evidence of an arrangement exists, (ii) the product has been shipped or the services have been rendered to the customer, (iii) the sales price is fixed or determinable, and (iv) collectability is reasonably assured.

Income Tax Provisions

The Company follows Section 740-10-30 of the FASS Accounting Standards Codification, which requires recognition of deferred tax assets and liabilities for the expected future tax consequences of events that have been included in the financial statements or tax returns. Under this method, deferred tax assets and liabilities are based on the differences between the financial statement and tax bases of assets and liabilities using enacted tax rates in effect for the fiscal year in which the differences are expected

to reverse. Deferred tax assets are reduced by a valuation allowance to the extent management concludes it is more likely than not that the assets will not be realized. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the fiscal years in which those temporary differences are expected to be recovered or settled. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in the Statements of Income and Comprehensive Income in the period that includes the enactment date.

The Company adopted section 740-10-25 of the FASB Accounting Standards Codification ("Section 740-10-25") with regards to uncertainty income taxes. Section 740-10-25 addresses the determination of whether tax benefits claimed or expected to be claimed on a tax return should be recorded in the financial statements. Under Section 740-10-25, the Company may recognize the tax benefit from an uncertain tax position only if it is more likely than not that the tax position will be sustained on examination by the taxing authorities, based on the technical merits of the position. The tax benefits recognized in the financial statements from such a position should be measured based on the largest benefit that has a greater than fifty percent (50%) likelihood of being realized upon ultimate settlement. Section 740-10-25 also provides guidance on de-recognition, classification, interest and penalties on income taxes, accounting in interim periods and requires increased disclosures.

Net income (loss) per common share

Net income (loss) per common share is computed pursuant to section 260-10-45 of the FASS Accounting Standards Codification. Basic net income (loss) per common share is computed by dividing net income (loss) by the weighted average number of shares of common stock outstanding during the period. Diluted net income (loss) per common share is computed by dividing net income (loss) by the weighted average number of shares of common stock and potentially outstanding shares of common stock during the period. The weighted average number of common shares outstanding and potentially outstanding common shares assumes that the Company incorporated as of the beginning of the first period presented.

There were no potentially dilutive shares outstanding for the quarters ended June 30, 2018 or 2017.

Cash flows reporting

The Company adopted paragraph 230-10-45-24 of the FASB Accounting Standards Codification for cash flows reporting, classifies cash receipts and payments according to whether they stem from operating, investing, or financing activities and provides definitions of each category, and uses the indirect or reconciliation method ("Indirect method") as defined by paragraph 230-10-45- 25 of the FASB Accounting Standards Codification to report net cash flow from operating activities by adjusting net income to reconcile it to net cash flow from operating activities by removing the effects of (a) all deferrals of past operating cash receipts and payments and all accruals of expected future operating cash receipts and payments and (b) all items that are included in net income that do not affect operating cash receipts and payments. The Company reports the reporting currency equivalent of foreign currency cash flows, using the current exchange rate at the time of the cash flows and the effect of exchange rate changes on cash held in foreign currencies is reported as a separate item in the reconciliation of beginning and ending balances of cash and cash equivalents and separately provides

information about investing and financing activities not resulting in cash receipts or payments in the period pursuant to paragraph 830-230-45-1 of the FASS Accounting Standards Codification.

NOTE 3 - GOING CONCERN

The accompanying financial statements have been prepared assuming that the Company will continue as a going concern, which contemplates continuity of operations, realization of assets, and liquidation of liabilities in the normal course of business.

As reflected in the accompanying financial statements, the Company had an accumulated deficit at June 30, 2018 of \$6,602,664. This factor among others raises substantial doubt about the Company's ability to continue as a going concern.

While the Company is attempting to commence operations and generate revenues, the Company's cash position may not be significant enough to support the Company's daily operations. Management intends to raise additional funds by way of a public or private offering. Management believes that the actions presently being taken to further implement its business plan and generate revenues provide the opportunity for the Company to continue as a going concern. While the Company believes in the viability of its strategy to generate revenues and in its ability to raise additional funds, there can be no assurances to that effect. The ability of the Company to continue as a going concern is dependent upon the Company's ability to further implement its business plan and generate revenues.

The financial statements do not include any adjustments that might be necessary if the Company is unable to continue as a going concern.

NOTE 4 - STOCKHOLDERS' DEFICIT

Shares authorized

As of June 30, 2018 and 2017, the Company was authorized to issue 1,970,000,000 and 500,000,000 shares of common stock with a par value of \$0.0001 per share.

As of June 30, 2018 and 2017, there were 649,917,054 and 431,805,943 shares of common stock issued and outstanding.

As of June 30, 2018 and 2017, the Company was authorized to issue 30,000,000 and 20,000,000 shares of preferred stock with a par value of \$0.0001 per share.

As of June 30, 2018 and 2017, there were 10,000,000 and 10,000,000 shares of Series A preferred stock issued and outstanding, respectively.

As of June 30, 2018 and 2017, there were 36,999 and 24,999 shares of Series B preferred stock issued and outstanding, respectively.

As of June 30, 2018 and 2017, there were 1 and -0- shares of Series C preferred stock issued and outstanding, respectively.

Shares Issued

During the quarters ended June 30, 2018 and 2017 the Company issued -0- shares of

common stock and 21,823,000 shares of common stock, respectively.

During the quarters ended June 30, 2018 and 2017 the Company issued -0- shares and -0- shares of Series A Preferred Stock, respectively.

During the quarters ended June 30, 2018 and 2017 the Company issued -0- shares and 24,999 shares of Series B Preferred Stock, respectively.

During the quarters ended June 30, 2018 and 2017 the Company issued -0- share and -0- shares of Series C Preferred Stock, respectively.

NOTE 5 – TRANSACTION WITH GOLD STAR MINING f/k/a GUNNER GOLD, INC.

On September 20, 2013, the Company entered into an Amended and Restated Asset Purchase Agreement with Gunner Gold, LLC. Pursuant to the terms of the Amended and Restated Asset Purchase Agreement, the Company exchanged certain Tarantula Project assets for 3,300,000 units of Gunner Gold, LLC common shares and \$433,635 cash. Gunner Gold, LLC subsequently merged into Gold Star Resources, LLC, resulting in a company name change to Gold Star Resources, LLC. The Company's investment in Gold Star Resources, LLC was fully impaired at December 31, 2017. During the three months ended December 31, 2013, the Company transferred 70,000 units of Gunner Gold LLC to two of its noteholders in satisfaction of their notes. Following completion of the Gunner Gold transaction and the debt settlements referred to above, the Company's Tarantula Project assets were limited to legal ownership of the Hull patented mining claim and the nearby BLM claims. The Gunner Gold transaction and debt settlements resulted in the substantial paydown of the Company's accounts receivables and notes payable at December 31, 2013.

NOTE 6 – ACCOUNTS PAYABLE

At June 30, 2018, accounts payable consisted of \$26,334 of liabilities for security services allegedly provided to Hondo Minerals Corporation in 2013 that we assumed in connection with our acquisition of the Oatman mining claims.

NOTE 7 – POSSIBLE ACCOUNT RECEIVABLE

Former management of the Company has indicated that there is an account receivable from Gold Star Resources, LLC f/k/a Gunner Gold, LLC in the amount of approximately \$90,000. This is the amount that Gunner Gold agreed to pay to former professionals of the Company but allegedly did not pay, resulting in our right to indemnity from Gunner Gold if we are required to pay these former professionals. No asset has been recorded for this item.

NOTE 8 – POSSIBLE ACCOUNTS PAYABLE TO FORMER PROFESSIONALS

Former management of the Company has indicated that there are additional accounts payable to a former Company attorney and the Company's former accountant in the total amount of approximately \$60,000 that Gunner Gold agreed to pay but allegedly did not pay. No liabilities have been recorded for these items as the claims appear to be barred by the statute of limitations.

On June 2, 2017, a former securities attorney for the Company brought suit

against Bonanza Goldfields Inc. and Gunner Gold, LLC for non-payment of \$33,950 of attorney's fees allegedly incurred in 2013. *Ranno v. Bonanza Goldfields Inc. et al, Maricopa County Superior Court, Arizona, CV2017-007229*. This liability was extinguished in the quarter ended March 31, 2018 through the GPL Ventures 3a10 financing.

NOTE 9 – SUBSEQUENT EVENTS

Subsequent events were evaluated through August 12, 2018. It is the view of management that there are no material subsequent events.

ITEM 6**DESCRIBE THE ISSUER'S BUSINESS, PRODUCTS AND SERVICES**

Description of the issuer's business operations:

Bonanza Goldfields Corp. was incorporated in the State of Nevada on March 6, 2008. Since its inception, the Company has acquired mineral rights to mining properties in the United States and explored for minerals. The Company's Congress Gold Project (f/k/a Tarantula Gold) is located at Congress in Yavapai County, Arizona, which is near the town of Wickenburg. The project is comprised of the Hull patented mining claim, eight of the original Tarantula unpatented claims and the six recently added Golden Horseshoe unpatented claims.

Following the appointment of new management in February, 2017, the Company acquired three (3) unpatented mining claims in the Oatman Mining District, Mohave County, Arizona, comprising the historic Tom Reed Jr. and Argo Mines.

The Company also has a pending agreement to acquire the Keyes Mine and a 50% interest in the Monte Cristo Mine in the Comstock Mining District, Virginia City, Nevada.

During the quarter ended March 31, 2018, the Company acquired the Thunder Mountain Gold Project located between Tonopah and Round Mountain in Nye County, Nevada.

During the quarter ended June 30, 2018, the Company entered into an agreement to acquire the Mizpah Extension Mine in Tonopah, Nevada.

The Company also has an option to acquire over 500 acres of mining claims in the vicinity of Chloride, Arizona, including the 66 acre "Tuxedo Park" property. A joint venture is planned to develop a research facility or research park on the 66 acres which, at June 30, 2018, had not yet been implemented.

Date and State (or Jurisdiction) of Incorporation: March 6, 2008 - Nevada

The issuer's primary and secondary SIC Codes: 1041 (gold ores), 1044 (silver ores), (1031) lead and zinc ores, (1021) copper ores

Bonanza Gold Corp. Is not a shell company and has never been a shell company.

ITEM 7**DESCRIBE THE ISSUER'S FACILITIES**

The Company has no facilities to list.

ITEM 8**OFFICERS, DIRECTORS AND CONTROL PERSONS**

Full Name: Barbara McIntyre Bauman
