About BlissCo

BlissCo is constructing an urban Access to Cannabis for Medical Purposes Regulation (ACMPR) cultivation facility with a focus on being a high-volume packager, processor and distributor of recreational cannabis when it is legal in Canada, which is currently anticipated to be by July 2018, and of medical cannabis. It recently took ownership of its 12,600 sq. ft. industrial facility in Langley, British Columbia and considering the May 2017 changes Health Canada announced to the licensing process BlissCo is confident that its license will be earned shortly after completing construction.

With an ACMPR cultivation and then a sales license BlissCo will grow and sell dried cannabis and cannabis oil to approved medical patients through its online portal and service excellence call centre. BlissCo will focus on high volume sales opportunities in the legal cannabis market when individual distribution models are established by Canadian provinces and territories.
