The Accompanying Notes are an Integral Part of These Condensed Financial Statements

ONCOLOGY PHARMA, INC.

Notes to Financial Statements for the Year Ended March 31, 2020

NOTE 1. ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Oncology Pharma, Inc., (the “Company”) (formerly SourcingLink.net, Inc.) was incorporated in 1993 and is engaged in the development, manufacturing and commercialization of therapeutics. The Company is a Nevada corporation. The Company has adopted a March 31 Fiscal Year End.

A. BASIS OF ACCOUNTING

The financial statements have been prepared using the basis of accounting generally accepted in the United States of America. Under this basis of accounting, revenues are recorded as earned and expenses are recorded at the time liabilities are incurred. The Company has adopted a March 31 year-end.

B. USE OF ESTIMATES

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

C. CASH EQUIVALENTS

The Company considers all highly liquid investments with a maturity of three months or less when purchased to be cash equivalents.

D. FAIR VALUE OF FINANCIAL INSTRUMENTS

Fair value is the price that would be received for an asset or the exit price that would be paid to transfer a liability in the principal or most advantageous market in an orderly transaction between market participants on the measurement date. A fair value hierarchy requires an entity to maximize the use of observable inputs, where available. The following summarizes the three levels of inputs required by the standard that the Company uses to measure fair value:

Level 1: Quoted prices in active markets for identical assets or liabilities

Level 2: Observable inputs other than Level 1 prices such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the related assets or liabilities.

Level 3: Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities.

E. INCOME TAXES

The Company accounts for income taxes using the liability method prescribed by ASC 740, “Income Taxes.” Under this method, deferred tax assets and liabilities are determined based on the difference between the financial reporting and tax bases of assets and liabilities using enacted tax rates that will be in effect in the year in which the differences are expected to reverse. The Company records a valuation allowance to offset deferred tax assets if based on the weight of available evidence, it is more-likely-than-not that some portion,

or all, of the deferred tax assets will not be realized. The effect on deferred taxes of a change in tax rates is recognized as income or loss in the period that includes the enactment date.

The Company follows ASC Topic 740 for recording the provision for income taxes. Deferred tax assets and liabilities are computed based upon the difference between the financial statement and income tax basis of assets and liabilities using the enacted marginal tax rate applicable when the related asset or liability is expected to be realized or settled. Deferred income tax expenses or benefits are based on the changes in the asset or liability each period. If available evidence suggests that it is more likely than not that some portion or all of the deferred tax assets will not be realized, a valuation allowance is required to reduce the deferred tax assets to the amount that is more likely than not to be realized. Future changes in such valuation allowance are included in the provision for deferred income taxes in the period of change.

F. BASIC EARNINGS (LOSS) PER SHARE

The Financial Accounting Standards Board (FASB) issued Accounting Standards Codification (ASC) 260, "Earnings Per Share", which specifies the computation, presentation and disclosure requirements for earnings (loss) per share for entities with publicly held common stock. ASC 260 requires the presentation of basic earnings (loss) per share and diluted earnings (loss) per share. The Company has adopted the provisions of ASC 260 effective from inception.

G. REVENUE RECOGNITION

Revenue will be recognized when persuasive evidence of an arrangement exists, pricing is fixed and determinable, collection is reasonably assured and delivery or performance of service has occurred. Customer prepayments are reflected as deferred revenue as long as there is persuasive evidence that the purchased product will be shipped within a reasonable time. Sales revenue will be recognized upon the completion of provided professional services or the shipment of merchandise to customers.

F. STOCK-BASED COMPENSATION

The Company recognizes share-based compensation, including stock option grants, warrants and restricted stock grants at their fair value on the grant date. Share based payment awards issued to non-employees for services rendered will be recorded at either the fair value of the services rendered or the fair value of the share-based payment, whichever is more readily determinable. Compensation expense is generally recognized on a straight-line basis over the vesting period.

NOTE 2. RECENT ACCOUNTING PRONOUNCEMENTS

The Company has evaluated the recent accounting pronouncements through March 31, 2020 and believes that none of them will have a material impact on the Company's Financial Statements.

NOTE 3 - GOING CONCERN

The accompanying financial statements have been prepared assuming that the Company will continue as a going concern. The Company generated an accumulated deficit of \$69,970,521 as of March 31, 2020. This condition raises substantial doubt about the Company's ability to continue as a going concern. The Company's continuation as a going concern is dependent on its ability to meet its obligations, to obtain additional financing as may be required and ultimately to attain profitability. The financial statements do not include any adjustments that might result from the outcome of this uncertainty. The Company is taking steps to provide the necessary capital to continue its operations. These steps include, but are not limited to: 1) raising equity financing; 2) developing the business model to generate sales.

NOTE 4. DERECOGNITION OF OBLIGATIONS

As of March 31, 2020 the Company derecognized \$125,000 of Convertible Notes Payable and \$100,000 of other obligations as the statute of limitations for bringing an action for collection had expired

NOTE 5. CONVERTIBLE NOTES PAYABLE

As of March 31, 2020, the Company the Company was party to Convertible Notes Payable of \$126,000 convertible into the common shares of the Company. On March 31, 2020 both of Bright Star International, Inc. and Life Sciences Journeys, Inc. have agreed to forgive all accrued interest due but unpaid on all convertible notes held by Bright Star International, Inc. and Life Sciences Journeys, Inc. as of March 31, 2020 ("Fiscal Year End Notes"). Bright Star International, Inc. and Life Sciences Journeys, Inc. have agreed that no further interest shall accrue on the Fiscal Year End Notes.
