NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Organization and Operations: Texas Oil & Minerals, Inc., (the Company) a Texas corporation, now GOLDEN TRIANGLE VENTURES, INC., is the surviving corporation of a merger with Bionic Products Inc., a Nevada Corporation on March 25, 2011. Bionic Products had not conducted any formal operations for several years prior to the March 25, 2011 merger.

Texas Oil & Minerals, Inc. (Now GOLDEN TRIANGLE VENTURES, INC.) is located in Las Vegas, Nevada is seeking investors to fund its multifaceted consulting company with high potential ventures in entertainment, healthcare, and technology sectors.

On January 18, 2019*:* \the Series F and G Preferred shares, which represent voting control of the Company were sold, subject to a seller note, by Tom Gouger the former CEO of the Company to Steffan Dalsgaard., resulting in a Change of Control. This Change of Control resulted in the implementation of a new business strategy. On March 7, 2019 the Company formalized an agreement to Joint Venture with Golden Triangle Enterprises, Inc. Golden Triangle Enterprises, Inc. (“GTE”) is a multi-faceted consulting company aiming to purchase, acquire and/or joint venture with businesses in the Entertainment, Health and Technology sectors. With an array of knowledge and combined operational and executive experience, Golden Triangle Enterprises strives to become a meaningful innovator driven by its passion and commitment in these marketplaces through acquisitions and business development efforts. The Company also plans to utilize their relationships and create a platform for new and existing businesses to strengthen their products and/or services.

The Company is currently seeking funding for operations. There can be no assurance that additional financing will be available on terms favorable to the Company or at all. If adequate funds are not available or are not available on acceptable terms, the Company will not be able to fund its operations. Such inability to fund operations will have a material adverse effect on the Company's business, results of operations and financial condition.

Cash and Cash Equivalents: The Company considers all highly liquid investments with an original maturity of three months or less to be cash equivalents.

Income Taxes: The Company is taxed as a C Corporation. Deferred tax assets and liabilities are recorded on temporary differences between the book and tax basis of assets and liabilities. The Company is also subject to the Texas margin tax. Management is not aware of any uncertain tax positions that would have a significant impact on its financial position. Its federal tax returns for the last four years remain subject to examination. The Company has filed a federal tax return for at least the last 2 years and based on its limited to no operations during this period, the Company reported no federal tax liability.

Substantially all of the Company’s tax net operating losses are subject to the limitation imposed by IRS Section 382 in connection with the change in control from March 25, 2011 and against on August 22, 2019. Management has reviewed the tax net operating losses it has available, and due to its history of operating losses, has determined the application of a full valuation allowance is appropriate at June 30, 2019 and December 31, 2018. Accordingly, the Company’s deferred tax asset has been reduced to $0.

Estimates: The preparation of financial statements in conformity with U. S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Subsequent Events: Subsequent events have been evaluated by management through the date of the report. Material subsequent events, if any, are disclosed in a separate footnote to these financial statements.

NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont.)

Earnings (Loss) Per Share of Common Stock: Basic and diluted earnings per common share are calculated by dividing earnings by the weighted average number of common shares outstanding during the period. Diluted (loss) per share includes the effects of potentially dilutive securities, including stock options, conversion of convertible debt and conversion of preferred shares.

NOTE B – GOING CONCERN

As shown in the accompanying financial statements, the Company has a working capital deficit and no formal on-going operations. Management hopes to fund future operations through equity financing arrangements, which may be insufficient to fund its capital expenditures, working capital and other cash requirements. The financial statements do not include any adjustments that might be necessary should the Company be unable to continue as a going concern.

NOTE C – CONVERTIBLE NOTES PAYABLE
