Gold Coast Mining Corp.
(formerly Hot Web, Inc.)
NOTES TO CONDENSED FINANCIAL STATEMENTS
September 30, 2009
(Unaudited)

NOTE 1 - Organization and Basis of Presentation

Gold Cost Mining Corp. formerly Hot Web, Inc., a Florida corporation was originally incorporated in Delaware as T.J. Cinnamons, Inc. in December, 1985. In December 2001, management and the majority shareholders approved and effected a corporate reorganization, the principal feature of which was to transfer the Company's legal domicile from Delaware to Florida pursuant to an Agreement and Plan of Merger between the Company and its wholly-owned subsidiary, Raptor Investments, Inc., a Florida corporation, wherein the Florida corporation was the surviving corporation.

The Company has operated as a management holding company. From 2002 to 2005 the Company operated a Florida wholesale produce company and an ecommerce subsidiary that pursued acquisitions in the online industry. Due to various factors, including four hurricanes in 2004 that severely interrupted business, the Company turned its wholesale produce operation over to its lenders. Former management and the Company's lenders have been engaged in a dispute over the settlement of the produce operations line of credit. In 2005 the lender accepted delivery of the produce company in exchange for a release of the debts associated with the produce operation. The dispute involves previous management and the previous lenders. Current management believes there are no potential liabilities to the Company as a result of these disputes.

From 2005 until January, 2009, the Company focused its efforts on its online properties and operations, including Snap N' Sold (an eBay drop store chain) and Hot Web, Inc. (an online auction/classified network of websites). In 2008, Jason Cooper, a business consultant, became CEO of the Company and shifted its focus towards mining opportunities accessible to the Company.

In January, 2009, the Company sold its websites that resulted in the Company receiving 29,400,000 common shares of Max Media Group, Inc.

In February, 2009, the Company's Articles of Incorporation were amended to change the Company's name to Gold Coast Mining Corp.

Gold Coast Mining Corp.
(formerly Hot Web, Inc.)
NOTES TO CONDENSED FINANCIAL STATEMENTS
September 30, 2009
(Unaudited)

In August, 2009, the Company declared a dividend of 1 share of Max Media Group, Inc. (Pink Sheets:MXMI) for every 30 shares owned of Gold Coast Mining Corp. The record date for the Max Media dividend was set for August 31, 2009.

In the opinion of management, the accompanying balance sheets and related interim statements of income, cash flows, and stockholders' equity, consisting only of normal recurring items, necessary for their fair presentation in conformity with accounting principles generally accepted in the United States of America ("U.S. GAAP"). Preparing financial statements requires management to make estimates and assumptions that affect the amounts of assets, liabilities, revenue, and expenses. Actual results and outcomes may differ from management's estimates and assumptions.

Interim results are not necessarily indicative of results for a full year. The information included in these financial statements should be read in conjunction with information included in the December 31, 2008 financial statements. For presentation purposes, certain balances contained in these notes that are either unchanged or immaterially changed for the period presented are reflected as of the previous year end, December 31, 2008.

NOTE 2 - Summary of Significant Accounting Policies

Cash and Cash Equivalents

The Company considers those short-term, highly liquid investments with original maturities of three months or less as cash and cash equivalents.

Impairment of Long-Lived Assets

In accordance with Statement of Financial Accounting Standards ("SFAS") 121, "Accounting for the Impairment of Long-Lived Assets and for Long-Lived Assets to be Disposed of," the Company reviews its long-lived assets for impairments. Impairment losses on long-lived assets are recognized when events or changes in circumstances indicate that the undiscounted cash flows estimated to be generated by such assets are less than their carrying value and, accordingly, all or a portion of such carrying value may not be recoverable. Impairment losses then are measured by comparing the fair value of assets to their carrying amounts. The Company recognized no impairment loss at December 31, 2008 and 2007.

Gold Coast Mining Corp.
(formerly Hot Web, Inc.)
NOTES TO CONDENSED FINANCIAL STATEMENTS
September 30, 2009
(Unaudited)

Revenue Recognition

Revenues, if any, will be recognized when earned.

Earnings Per Share

The weighted average number of shares used for computing earnings per share reflects the conversion of 60,000,000 convertible preferred shares into 60,000,000 common shares.

Income Taxes

The Company records deferred income taxes using the liability method as prescribed under the provisions of SFAS No. 109. Under the liability method, deferred tax assets and liabilities are recognized for the expected future tax consequences of temporary differences between the financial statement and income tax bases of the Company's assets and liabilities. An allowance is recorded, based upon currently available information, when it is more likely than not that any or all of the deferred tax assets will not be realized. The provision for income taxes includes taxes currently payable, if any, plus the net change during the year in deferred tax assets and liabilities recorded by the Company

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from these estimates.

Gold Coast Mining Corp.
(formerly Hot Web, Inc.)
NOTES TO CONDENSED FINANCIAL STATEMENTS
September 30, 2009
(Unaudited)

Environmental Remediation Costs

Environmental remediation costs are accrued based on estimates of known environmental remediation exposure. Such accruals are recorded even if significant uncertainties exist over the ultimate cost of the remediation. It is reasonably possible that the Company's estimates of reclamation liabilities, if any, could change as a result of changes in regulations, extent of environmental remediation required, means of reclamation or cost estimates. Ongoing environmental compliance costs, including maintenance and monitoring costs, are expensed as incurred. There were no environmental remediation costs accrued at December 31, 2008 and 2007.

Advertising Costs

The Company's policy regarding advertising costs are to expense them as they are incurred. The Company had not incurred any advertising costs during the period ended December 31, 2008 and 2007.

Recently Issued Accounting Pronouncements

SFAS No. 149 "Amendment of Statement 133 on derivative instruments and hedging activities". This statement amends and clarifies financial accounting and reporting for derivative instruments embedded in other contracts (collectively referred to as derivatives) and for hedging activities under SFAS 133, "Accounting for derivative instruments and hedging activities".

SFAS No. 150 "Accounting for certain financial instruments with characteristics of both liabilities and equity". This statement establishes standards for how an issuer classifies and measures certain financial instruments with characteristics of both liabilities and equity.

The Company believes that the above standards would not have a material impact on its financial position, results of operations or cash flows.

Gold Coast Mining Corp.
(formerly Hot Web, Inc.)
NOTES TO CONDENSED FINANCIAL STATEMENTS
September 30, 2009
(Unaudited)

NOTE 3 - Going Concern

The accompanying financial statements have been prepared assuming that the Company will continue as a going concern. This basis of accounting contemplates the recovery of the Company's assets and the satisfaction of its liabilities in the normal course of business. Through December 31, 2008 and 2007, the Company had incurred cumulative losses of \$9,979,594 and \$9,867,792 respectively. As of December 31, 2008 and 2007 the Company had negative working capital of \$1,588,428 and \$22,730 respectively. The Company's ability to continue as a going concern is dependent upon obtaining financing adequate to fulfill its exploration activities, development of its properties and achieving a level of revenues adequate to support the Company's cost structure. Management's plan of operations anticipates that the cash requirements for the next twelve months will be met by obtaining capital contributions through the sale of its common stock and cash flows from operations. There is no assurance that the company will be able to implement the plan.

NOTE 4 - Stockholders' Equity

At various stages in the Company's development we have issued shares of common stock for services or assets with a corresponding charge to operations or property and equipment. In accordance with SFAS 123, these transactions, except for stock issued to employees, have been recorded on the Company's books at the fair value of the consideration received or the fair value of the common stock issued, whichever is more reliably measured.

Preferred Stock

In June, 2006, the Company issued 2,000,000 shares of Series B and Series C Preferred Stock in exchange for services valued at \$20,000. In January, 2009, the Series B and Series C Preferred Stock were converted into 40,000,000 common shares. In July, 2009, the Company increased its authorized preferred shares to 100,000,000. In July, 2009, 60,000,000 shares of preferred stock were issued in conjunction with a joint venture mining agreement. The issuance was recorded on the books at a value of \$.01 per share for a total of \$600,000. The shares have 1-for-1 voting rights with common shares and converts to common on a 1-for-1 basis.

Gold Coast Mining Corp.
(formerly Hot Web, Inc.)
NOTES TO CONDENSED FINANCIAL STATEMENTS
September 30, 2009
(Unaudited)

Stock Options and Warrants

There are no outstanding unexpired warrants or options as of December 31, 2008 and 2007.

NOTE 5 - Commitments and Contingencies

Leases

At December 31, 2008 and 2007, the Company was not obligated under any non-cancelable operating or capital lease agreements.

Litigation

To the knowledge of management, no federal, state or local governmental agency is presently contemplating any proceeding against the Company. The Company, its former management and its lenders have been engaged in a lawsuit since 2005 over the settlement of the produce operations line of credit. In 2005, the lenders accepted delivery of the produce company and certain promissory notes of former management of the Company in exchange for a release of the Company debts associated with the produce operation. While the Company remains a party to the lawsuit, current management has reason to believe that the Company has no material potential liability as a result of this dispute.

NOTE 6 - Liabilities from Discontinued Operations

In January, 2009, the Company sold all of its remaining assets and shifted its business operations to mining. Total remaining liabilities were \$551,615 and are reflected on the Company's books as Liabilities from Discontinued Operations. This amount will be reduced as these liabilities are paid or settled. Settlement gains, if any, will be credited to paid-in capital. The Company is in the process of settling these liabilities.

NOTE 7 - Related Parties

There were no related party transactions in the period ended December 31, 2008 and 2007.

Gold Coast Mining Corp.
(formerly Hot Web, Inc.)
NOTES TO CONDENSED FINANCIAL STATEMENTS
September 30, 2009
(Unaudited)

NOTE 8 - Income Taxes

The Company has adopted FASB 109 to account for income taxes. The Company currently has no issue that creates timing differences that would mandate deferred tax expense. Net operating losses would create possible tax assets in future years. Due to the uncertainty as to the utilization of net operating loss carry forwards, an evaluation allowance has been made to the extent of any tax benefit that net operating losses may generate. No provision for income taxes has been recorded due to the net operating loss carryforwards of \$9,979,594 and \$9,867,792 as of December 31, 2008 and 2007 respectively that will be offset against further taxable income. No tax benefit has been reported in the financial statements.

Deferred tax assets and the valuation account as of December 31, 2008 and 2007 are as follows:

	<u>2008</u>	<u>2007</u>
Deferred tax asset:		
Net operating loss carryforward	\$ 9,979,594	\$ 9,867,792
Valuation allowance	<u>(9,979,594)</u>	<u>(9,867,792)</u>
	<u>\$ -</u>	<u>\$ -</u>

The components of income tax expense are as follows:

	<u>2008</u>	<u>2007</u>
Current Federal Tax	\$ -	\$ -
Current State Tax	-	-
Change in NOL benefit	-	-
Change in allowance	<u>-</u>	<u>-</u>
	<u>\$ -</u>	<u>\$ -</u>

The Company has incurred losses that can be carried forward to offset future earnings if conditions of the Internal Revenue Codes are met. These losses are as follows:

<u>Year of Loss</u>	<u>Amount</u>	<u>Expiration Date</u>
2008 and prior	\$ 9,979,594	2028

ITEM IV– **Management's Discussion and Analysis**

Gold Coast Mining Corp is presently pursuing growth and enhancement of shareholder value through finance opportunities in the mining industry. There are many lucrative mining projects that are sitting idle due to lack of capital and/or financing direction. Gold Coast seeks to capitalize on these opportunities by providing capital, finance consulting, equipment assistance and other financial assistance to these companies/projects.

Gold Coast is currently a joint venture partner in two gold mine joint venture opportunities, the Oro Cache Mine and the Sun Gold Mine. Gold Coast is a 50% revenue sharing joint venture partner in both projects. Initially, the Company plans to finance its operations through capital commitments from shareholders and securities owned in Max Media Group, Inc. (OTC: MXMI).

Max Media currently operates in the Internet auction and marketing segment. Max Media purchased all of the domain properties previously owned by Gold Coast in exchange for 29,700,000 shares of Max Media common stock. On September 30, 2009, Gold Coast distributed via dividend 14,829,569 shares of its Max Media holdings to the Gold Coast shareholders of record on August 31, 2009,. Gold Coast retained 14,570,431 shares of Max Media for investment purposes.

In August 2009, Gold Coast and its joint venture partner released the following development plan for the Sun Gold mine, which will be divided into 3 primary efforts:

Phase 1 will initiate a small-scale production prototype mill and Au extraction circuit. The pre production-sampling program will begin as well as the permitting for full-scale production.

Specific Tasks Include:

1. Purchase and assemble a small trailer mounted crushing unit with generator capable of working a minimum of 1 ton per hr. 4" minus ore
2. File exploration permit and prepare Forestry Service for full production mining permit
3. Prepare a full mining plan and file with final permit
4. File with the State of Arizona any required water use permits
5. Begin initial sampling program

Phase 2 will involve the completing of the mining plan and permitting. The joint venture will purchase the processing plant while continuing to operate the prototype Au extraction circuit.

Phase 3 will be the final construction of and operation of the full-scale production facility.

The plans are to fund these phases through shareholder loans, its holdings in Max Media and from initial small-scale production generated as a result of the development plan. It is management's belief that these financial resources will prove to be sufficient to put the projects into production. Gold Coast also plans to use its share of production revenues to finance other joint venture opportunities that it may pursue.

Environmental Issues

We are not aware of any significant environmental concerns or existing reclamation requirements. Any costs or delays associated with obtaining required permits could have an impact on our ability to timely complete our planned activities.

Off-Balance Sheet Transactions

The Company does not have any transactions, agreements or other contractual arrangements that constitute off-balance sheet arrangements.

ITEM V – Legal Proceedings

The Company has operated as a management holding company. From 2002 to 2005 the Company operated a Florida wholesale produce company and an ecommerce subsidiary that pursued acquisitions in the online industry. Due to various factors, including four hurricanes in 2004 that severely interrupted business, the Company turned its wholesale produce operation over to its lenders. Former management and the Company's lenders have been engaged in a dispute over the settlement of the produce operations line of credit. In 2005 the lender accepted delivery of the produce company in exchange for a release of the debts associated with the produce operation. The dispute involves previous management and the previous lenders. While the Company remains a party to the lawsuit, current management has reason to believe that the Company has no material potential liability as a result of this dispute.

ITEM VI – Defaults of Senior Securities

There are no defaults of senior securities.

ITEM VII – Other Information

On September 30, 2009, Gold Coast distributed via dividend 14,829,569 shares of the 29,700,000 Max Media Group, Inc. (MXMI) shares it owned to the Gold

Coast shareholders of record on August 31, 2009. Gold Coast retained 14,570,431 shares of Max Media for investment purposes.

ITEM VIII – **Exhibits**

There are no updates to the “Material Contracts”, “Articles of Incorporation” or “Bylaws” described in Items XVIII and XIX, respectively, of the Company’s Initial Company Information and Disclosure Statement dated June 30, 2009.

ITEM IX – **Issuer’s Certifications**

1. I, Jason Cooper, have reviewed this September 30, 2009, Quarterly Disclosure Statement of Gold Coast Mining Corp.;

2.
